My qualifications for said office are as follows:

I have been elected six times with overwhelming votes based on my dedication to fair assessment practices guaranteeing tax equality. My 15-point "action program" recognizes people's needs. I am a Democrat. For 50 years, one party has dominated the Mayor's office. The incumbent's tragic record—record high taxes, record high budgets, freeway folly, redevelopment fire traps, broken promises, unfounded claims—has been climaxed by his alliance with labor-hating reactionaries. We cannot afford his administration another four years.

Pursuant to the provisions of Section 175 of Charter of said City and County, I desire that the following designation "Assessor City and County of San Francisco" be placed immediately under my name as it will appear on all ballots at the General Municipal Election to be held November 3, 1959.

This case was one of many used by Congress in helping to enact recent Labor Management Reform Legislation.

Said voting machines and the preparation of the same shall comply in all respects with the provisions of law.
Section 6. If at such special election it shall appear that two-thirds of all the voters voting on any proposition voted in favor of and authorized the incurring of a bonded indebtedness for the purposes set forth in said proposition, then such proposition shall have been accepted by the electors, and bonds shall be issued to defray the cost of the municipal improvements described herein. Such bonds shall be of the form and character known as "serials," and shall bear interest at a rate not to exceed 6 per centum per annum, payable semi-annually.

The votes cast for and against each of said respective propositions shall be counted separately and when two-thirds of the qualified electors, voting on any one of such propositions, vote in favor thereof, such proposition shall be deemed adopted.

PROPOSITION A

Civic Center Auditorium Improvement Bonds, 1959. To incur a bonded indebtedness of $7,575,000 for the alteration and remodeling of the Civic Center Auditorium in San Francisco.

ARGUMENT FOR PROPOSITION A

Rehabilitation of Civic Auditorium
Vote Yes on Proposition A

The convention business which amounts to over $780,000,000 per year in San Francisco's overall economy is now being jeopardized because the Civic Auditorium, completed in 1914, is unable to perform the function for which it was created.

Today the conventions which bring millions of dollars a year to those cities able to successfully compete for them demand facilities designed to accommodate their modern diversified programs and expanded facilities in keeping with the tremendous growth of their activities. Other major cities across the nation aware of this, have already met this situation with foresight and courage and have completed or are presently constructing modern new facilities to cope with it, among these are Philadelphia, Detroit, Los Angeles, Portland, Las Vegas and Miami, to mention a few.

The present Civic Auditorium structure has in its favor an unsurpassed location, a fine classic design and sound structure. These are to be retained for the important savings they represent.

The entire interior must be rehabilitated and reconstructed to be made functional in keeping with similar facilities in other cities. The cost is estimated at $7,575,000 which is the amount of the bond issue. Briefly, it will rebuild the main arena and convert the upper floors into 60 usable meeting, lecture and administrative units of varying sizes adjustable to conform to the different needs of different users. Escalators and modern elevators and material movers are to be installed. Air and temperature controlling equipment and up-to-date convention staging, lighting and servicing additions are to be constructed. Similar rehabilitation is to be carried out in the two smaller halls, Polk and Larkin, to make them fully operational.

The classic exterior will be given modern treatments, creating features of beauty, utility and safety in conformity with the most advanced planning for public buildings.

As the Civic Auditorium operates at a profit which can be expected to increase under a more expanded and efficient operation, the cost of this project will eventually be reimbursed to the city from revenues. Hence it is self-liquidating and finally will represent no cost to the taxpayers.

Last year revenues increased $67,151.18 over the previous year's totals indicating the current rate of climb in convention activity in San Francisco. But even more important, it is the key to the millions of dollars that visitors and conventioneers distribute each year among the cities who host them.

Last year San Francisco's share of this totaled over $36,500,000. Our share during the coming years will be largely dependent on our ability to compete with the facilities offered by other major cities. Conceivably it could reach $50,000,000 by 1965.

CONTROLLER'S STATEMENT PURSUANT TO CHARTER SECTION 183

PROPOSITION A

Civic Center Auditorium Improvement Bonds, 1959. To incur a bonded debt in the sum of $7,575,000 for the acquisition, construction and completion of Civic Center auditorium alterations, additions, remodeling and improvements in the City and County of San Francisco.

Should the proposed $7,575,000 Civic Center Auditorium Improvement Bonds, 1959, be authorized and when all bonds shall have been issued on a 15 year basis and after consideration of the interest rates related to current municipal bond sales and using the 1959-1960 assessment roll as the basis for calculating the effect upon the tax rate it is my opinion that the cost of debt service would be as follows:

<table>
<thead>
<tr>
<th>Bond redemption</th>
<th>$7,575,000</th>
</tr>
</thead>
<tbody>
<tr>
<td>Interest requirement</td>
<td>2,121,000</td>
</tr>
<tr>
<td>Total debt service requirement</td>
<td>$9,696,000</td>
</tr>
</tbody>
</table>

The estimated average amount required to pay the interest thereon and redemption thereof would be approximately $646,400 annually.

This amount of $646,400 is equivalent to four and six tenths (4.6) cents in the tax rate.

PROPOSITION B

Ferry Park Bonds, 1959. To incur a bonded indebtedness of $2,970,000 for the acquisition of lands and improvements thereon and construction of a park and recreational facilities at the Embarcadero near the Ferry Building in San Francisco.

ARGUMENT FOR PROPOSITION "B"

The Ferry Park Bonds

Vote "Yes" on Proposition "B"—
— Your Best Bond Buy on the Ballot —

— Trigger the Biggest Building Boom San Francisco Has Ever Known —

The Ferry Building Park Bonds represent one of the finest financial bargains and greatest economic opportunities ever handed San Francisco voters.

The federal government now has declared Ferry Park a "must" requirement for proceeding with the Golden Gateway Project. Proposition "B", the Ferry Park Bonds, requires San Francisco to put up $2,972,000 to create a four-acre plaza at the foot of Market Street, extending from Mission Street to Clay Street.

Your "Yes" Vote for Ferry Park Bonds —

...will turn the key for the Golden Gateway redevelopment project—a 17-block, $150,000,000 redevelopment program to rebuild San Francisco's old Produce Area into an exciting, modern city of tower office buildings, elevated parking and pedestrian plazas, multi-storied apartment houses, and broad tree-lined malls and open spaces.

Your "Yes" Vote for Ferry Park Bonds —

...will return nearly two dollars to San Francisco in outright federal grants and loans for every dollar that the city puts up for Ferry Park.

Your "Yes" Vote for Ferry Park Bonds —

...will trigger the biggest building boom in San Francisco's history — greater even than the rebuilding that occurred in San Francisco after the great earthquake and fire of 1906. It means more jobs in construction and related industries than we have ever known.

Your "Yes" Vote for Ferry Park Bonds —

...will erase three blocks of decaying, run-down, tax-eating structures at the foot of Market Street and replace them with a beautiful, four-acre expanse of trees, walks, lawns, and fountains—befitting the city that is known throughout the world as "Paris of the West."

Your "Yes" Vote for Ferry Park Bonds —

...benefits every citizen, every taxpayer, of San Francisco.

Simple mathematics require that San Franciscans vote "Yes" on Ferry Park Bonds. Here are the specific reasons:

(1) Passage of the Ferry Park Bonds will earn the city of San Francisco $1,500,000 in outright capital grants from the federal government for the Golden Gateway Project.

This federal grant will be lost if the bonds fail.

(2) Passage of the Ferry Park Bonds will assure the city a $4,000,000 federal
loan for proceeding with acquisition and redevelopment of two of the most important blocks in the entire Golden Gateway Project, immediately adjoining the proposed Ferry Park. This federal loan will be lost if the bonds fail.

(3) Passage of the Ferry Park Bonds will assure the city additional tax revenues from the Golden Gateway Project of nearly $1,000,000 annually. These tax revenues will be lost if the bonds fail.

In brief, Ferry Park Bonds pay for themselves over and over and over again.

Your “Yes” Vote for Ferry Park Bonds—

will enable San Francisco to take its first giant step into the 21st century, create new conditions for employment, wealth and beauty far beyond our past expectations, and reap the benefits of a glorious future in our own lifetime.

CONTROLLER’S STATEMENT PURSUANT TO CHARTER SECTION 183 PROPOSITION B

Ferry Park Bonds, 1959. To incur a bonded debt in the sum of $2,970,000 for the acquisition, construction and completion of a public park located adjacent to the Embarcadero and near the Ferry Building in the City and County of San Francisco.

Should the proposed $2,970,000 Ferry Park Bonds, 1959, be authorized, and when all bonds shall have been issued on a 15 year basis, and after consideration of the interest rates related to current municipal bond sales, and after evaluation of estimated maintenance expense at current price levels contained in a report submitted by the Recreation and Park Commission, and using the 1959-1960 assessment roll as the basis for calculating the effect upon the tax rate, in my opinion, the approximate costs would be as follows:

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bond redemption</td>
<td>$2,970,000</td>
</tr>
<tr>
<td>Interest requirement</td>
<td>831,600</td>
</tr>
<tr>
<td>Total debt service requirement</td>
<td>$3,801,600</td>
</tr>
</tbody>
</table>
The estimated average amount required to pay the interest thereon and redemption thereof would be approximately $253,440 annually.

The estimated maintenance cost would be about $49,000 annually. These amounts of $253,440 and $49,000 are equivalent to two and two tenths (2.2) cents in the tax rate.

PROPOSITION C

 Palace of Fine Arts Bonds, 1959. To incur a bonded indebtedness of $1,800,000 for the reconstruction of the Palace of Fine Arts at the Marina in San Francisco.

ARGUMENT FOR PROPOSITION C

To put the restored Palace of Fine Arts to work for San Francisco

The historic gift of two million dollars to San Francisco from Walter S. Johnson secured an additional two million dollars from the State of California to restore the Palace of Fine Arts building.

We are now assured that the Palace will be reconstructed of permanent materials and continue as one of the nation’s outstanding landmarks.

Now San Francisco voters have the opportunity to make the Palace a useful, income-producing asset to the city by passing a 1.8 million dollar bond issue. Successful passage of these bonds will provide San Franciscans with a six million dollar cultural, recreational and convention center—for less than 40 cents a year for the average homeowner.

Proposition C will provide the restored Palace with a theater, a music hall, television and radio production facilities, administration and office space, 54,000 square feet of needed exhibit, meeting and office space, and complete catering facilities.

Profit from the Palace—Vote Yes on C

Profit from use of its cultural facilities for art, music, theater, ballet and education.

Profit from the millions of dollars the added convention and exhibit space will bring to San Francisco. Our convention bureau states that the city has sufficient hotel space to accommodate twice the present number of conventions and meetings. We are limited only by exhibit and meeting space. Last year, an average of six conventions a week brought $36,500,000 into San Francisco’s economy.

Profit by enabling San Francisco to bid on international expositions and long-term meetings for which the Palace of Fine Arts is particularly suited. We are now losing these important meetings to other cities for lack of the type of space the Palace would provide.

Profit by enabling the city to lease office and studio space in the restored Palace to the qualified cultural and educational organizations which have asked to be considered when space becomes available.

Profit by securing the use of 3.8 acres of Presidio land adjacent to
the Palace which will be made available by the Army to provide parking space for Palace activities.

Profit by maintaining San Francisco's cultural leadership and preserving its eminence as a convention city.

ROBERT J. DOLAN, Clerk.

CONTROLLER'S STATEMENT PURSUANT TO CHARTER SECTION 183 PROPOSITION C

Palace of Fine Arts Bonds, 1959. To incur a bonded debt in the sum of $1,800,000 for the acquisition, construction and completion of additions, betterments and improvements and reconstruction of the Palace of Fine Arts in the City and County of San Francisco.

Should the proposed $1,800,000 Palace of Fine Arts Bonds, 1959, be authorized, and when all bonds shall have been issued on a 15-year basis, and after consideration of the interest rates related to current municipal bond sales, and using the 1959-1960 assessment roll as the basis for calculating the effect upon the tax rate, in my opinion, the approximate costs would be as follows:

<table>

<tbody>
<tr>
<td>Interest requirement</td>
<td>504,000</td>
</tr>
<tr>
<td>Total debt service requirement</td>
<td><strong>$2,304,000</strong></td>
</tr>
</tbody>
</table>

The estimated average amount required to pay the interest thereon and
redemption thereof would be approximately $153,600 annually.

This amount of $153,600 is equivalent to one and one tenth (1.1) cents in the tax rate.

Proposed financing of estimated project costs:

State of California $2,000,000
Bequest from Mr. Walter S. Johnson 2,000,000
City and County of San Francisco from proceeds of this bond issue, if authorized 1,800,000

Total estimated project cost $5,800,000

The provisions of chapter 2386 of the 1957 statutes of the State of California appropriated $2,000,000 toward the total estimated cost of rehabilitating the Palace of Fine Arts expenditure of which was conditioned upon the city and county conveying, without cost, to the State, all the land and improvements in the City and County of San Francisco known as the San Francisco Palace of Fine Arts, totaling approximately 13½ acres.

Chapter 2386 also provided that after repair and rehabilitation, the State Park Commission may lease the property to the City and County of San Francisco for uses as specified in this bond proposition.

If the facility is leased to the city and county, based upon a report by the Recreation and Park Commission, it is my opinion that operating and maintenance costs will be approximately $193,000 annually which is equivalent to one and four-tenths (1.4) cents in the tax rate, and which would be reduced by one-tenth (0.1) of one cent for each $14,000 of annual revenue. It is my understanding that the rehabilitated facility would be revenue producing, but in my opinion there are not available sufficient facts upon which to base an estimate thereof.

ARGUMENT FOR PROPOSITION "D"
Vote Yes on Proposition D—To Reduce Quorum of San Francisco Art Commission for More Efficient Procedure.

The San Francisco Art Commission is the city's official body concerned with promoting the cultural and aesthetic growth of San Francisco. In pursuit of this objective, a large portion of the Art Commission's work is devoted to the review and approval of plans and specifications for public buildings, schools, parks and plazas, as well as presentation of San Francisco Symphony Orchestra concerts and the San Francisco Arts Festivals.

For many years the work of the Art Commission, which is composed of ten commissioners and six ex-officio members from other city boards and commissions, has been hampered by the difficulty in securing or obtaining attendance of ex-officio members for each meeting.

Therefore, in order to provide more efficient procedure for expediting the work of the San Francisco Art Commission, this charter amendment, reducing the required quorum from nine to six is submitted for your "Yes" vote.

PROPOSITION G

Adds Section 222.1, provides that interest of members of boards or commissions in contract, work or business with city prohibited by Section 222 does not include remote interests; defines remote interests.

CHARTER AMENDMENT

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by adding Section 222.1 thereto, relating to interest in work, business, contracts, or sales of the City and County of San Francisco by supervisors, officers and employees thereof.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on November 3, 1959, a proposal to amend the charter of said city and county by adding Section 222.1 thereto to read as follows:
Section 222.1. A supervisor, officer or employee shall not be deemed interested in or in the performance of any contract, work, business, or the sale of any article, the expense, price or consideration of which is payable from the treasury, within the meaning of Section 222, unless such contract, work, business or sale is awarded, entered into, or authorized by him in his capacity as supervisor, officer or employee, or by an officer or employee under his supervision and control, or by a board or commission of which he is a member.

A supervisor or officer of the city and county shall not be deemed interested in any such contract, work, business or sale awarded, entered into or authorized by a board or commission of which he is a member if he has only a remote interest therein and the fact of such interest is disclosed to the board or commission of which he is a member and noted in its official records and the board or commission authorizes, approves, or ratifies the contract in good faith by a vote of its membership sufficient for the purpose without counting the vote or votes of the supervisor, officer or member with the remote interest, unless the contract must be awarded to the highest or lowest responsible bidder as the case may be on a particular day and the vote of such supervisor, officer or member is necessary to a quorum on that day.

As used in this section "remote interest" means:

1. The ownership of less than five per cent of the shares of a corporation for profit;
2. That of a nonsalaried officer of a nonprofit corporation;
3. That of an officer in being reimbursed for his actual and necessary expenses incurred in the performance of official duty;
4. That of an employee of the contracting party having ten or more other employees; provided, that the supervisor or officer was an employee of said contracting party for at least three years prior to his initially accepting such office;
5. That of a parent in the earnings of his minor child for personal services;
6. That of a landlord or tenant of the contracting party;
7. That of an attorney of the contracting party;
8. Except as to supervisors, such other interest or relationship other than those set forth in (1) to (7) above as may hereafter be designated by a vote of two thirds of the members of the Board of Supervisors.

PROPOSITION J

Amends Section 171.1.1; relating to retirement benefits of operating engineers, provides that all so employed on July 1, 1960 and all subsequently employed who meet age requirements of fire department, be deemed members of fire department for retirement purposes.

CHARTER AMENDMENT

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by amending Section 171.1.1 thereof, to provide for the inclusion of chief operating engineers, operating engineers and junior operating engineers in the Fire Department as members of the Fire Department.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on November 3, 1959, a proposal to amend the charter of
said city and county by amending Section 171.1.1 thereof, so that the same shall read as follows:

NOTE: Additions or substitutions are indicated by bold-face type; deletions are indicated by ((double parentheses)).

Section 171.1.1. The following words and phrases as used in this section, unless a different meaning is plainly required by the context, shall have the following meaning:

"Retirement allowance," "death allowance" or "allowance," shall mean equal monthly payments, beginning to accrue upon the date of retirement, or upon the day following the date of death, as the case may be, and continuing for life unless a different term of payment is definitely provided by the context.

"Compensation," as distinguished from benefits under the Workmen's Compensation Insurance and Safety Act of the State of California, shall mean the remuneration payable in cash, by the city and county, without deduction except for absence from duty, for time during which the individual receiving such remuneration is a member of the fire department, but excluding remuneration paid for overtime.

"Compensation earnable" shall mean the compensation which would have been earned had the member received compensation without interruption throughout the period under consideration and at the rates of remuneration attached at that time to the ranks or positions held by him during such period, it being assumed that during any absence he was in the rank or position held by him at the beginning of the absence, and that prior to becoming a member of the fire department he was in the rank or position first held by him in such department.

"Benefit" shall include "allowance," "retirement allowance," "death allowance" and "death benefit."

"Final compensation" shall mean the average monthly compensation earnable by a member during the three years immediately preceding his retirement, or death before retirement.

For the purpose of the retirement system and of this section, the terms "member of the fire department," "member of the department," or "member" shall mean any officer or employee of the fire department excluding such officers and employees as are members of the retirement system under section 169 of the charter, who was or shall be subject to the charter provisions governing entrance requirements of members of the uniformed force of said department, and said terms further shall mean, from the effective date of their employment in said department, persons employed on the effective date hereof, regardless of age, or employed after said date at an age not greater than the maximum age then prescribed for entrance into employment in said uniformed force, to perform the duties now performed by members of the salvage corps in the fire department, or duties now performed under the titles of pilot of fireboats, marine engineer of fireboats, marine fireman of fireboats, or hydrant-gateman; and said terms further shall mean, from the effective date of their employment in said department, persons employed on July 1, 1960, regardless of age, or employed after said date at an age not greater than the maximum age then prescribed for entrance into employment in said uniformed force, to perform the duties now performed under the title of chief operating engineer, operating engineer and junior operating engineer in the fire department, provided, however,
that any such person who on said date is a member of the system under section 165 or 165.2 of the charter shall have the option to be exercised in writing, on a form furnished by the retirement system and to be filed in the office of said system not later than ninety days after said date, of being members of the system under section 165 or 165.2 instead of section 171.1, the election under said option to be effective on said date, provided, that members who are absent by reason of service in the armed forces of the United States, or by reason of any other service included in section 161 of the charter, on said date, shall have the same option of electing to be members under section 165 or 165.2, as the case may be, instead of section 171.1, until ninety days after their return to service in the fire department. On and after said date the persons who affirmatively exercise said option, shall continue to be members of the system under section 165 or 165.2, respectively, and shall not be subject to any of the provisions of section 171.1. Any fire service performed by such member of the fire department outside the limits of the city and county and under orders of a superior officer of any such member, shall be considered as city and county service, and any disability or death incurred therein shall be covered under the provisions of the retirement system.

"Retirement system" or "system" shall mean San Francisco City and County Employees' Retirement System as created in section 158 of the charter.

"Retirement board" shall mean "retirement board" as created in section 159 of the charter.

"Charter" shall mean the charter of the City and County of San Francisco.

Noes: Supervisor McMahon.

I hereby certify that the foregoing charter amendment was ordered submitted by the Board of Supervisors of the City and County of San Francisco.

ARGUMENT FOR PROPOSITION "J"

A "yes" vote on Proposition "J" would correct an oversight that occurred in 1949 when the engineers were not mentioned in a charter amendment that included hydrant-gatemen, marine pilots, marine engineers, and marine firemen as "members of the Department" for the purpose of the retirement system. The above group have social security rights.

The engineer responds to all fire alarms when on duty and to major fire alarms when off duty. He is subject to the same rules and regulations,
the same disciplinary action, and the same hazards and risks as the above
mentioned group.

This amendment has the full approval of the Fire Commission.
This argument is sponsored by Stationary Local 39, International Union
of Operating Engineers.

JAMES T. RIVERS,
Business Manager and Secretary.

On September 8, 1959, the Board of Supervisors authorized the fore-
going argument for inclusion in the election pamphlet for November 3, 1959,
by the following vote:

Ayes: Supervisors Blake, Casey, Dobbs, Ertola, Ferdon, Halley, Rolph,

No: Supervisor McMahon.

ROBERT J. DOLAN, Clerk.

ARGUMENT AGAINST PROPOSITION "J"

Vote "No" on Proposition "J" Firemen's Pensions for Engineers

Voters should reject this giveaway measure allowing operating engineers
in the fire department to have liberal firemen's pension benefits. These em-
ployees work in pumping stations and do not fight fires.

There are three good reasons for voting no on "J": 1) These employees
are not firefighters and are not entitled to firemen's pensions which are
based on job hazard. 2) This unjustified amendment would be the opening
wedge for other non-firefighting employees to demand firemen's costly pen-
sion benefits. 3) Federal Social Security is available to these men—it is not
available to firemen. This is true because the State of California has said
that operating engineers are not firemen and cannot be excluded from social
security as all firemen are.

Proposition "J" would cost the taxpayers $56,714 a year to give this
coverage to 16 employees—this is an average increase of nearly $300.00
monthly per man!

The Civil Service Commission also opposed this measure because they

saw no valid reason why these employees should have special benefits.

Seldom has a proposal so lacking in merit as Proposition "J" been placed
on the ballot. You should express your opinion of such unsound and costly
measures with a resounding "No" vote.

Vote "No" on "J"

CONTROLLER'S STATEMENT PURSUANT TO CHARTER SECTION 183
PROPOSITION "J"

Charter amendment, amending Section 171.1.1 thereof, to provide for the
inclusion of Chief Operating Engineers, Operating Engineers and Junior
Operating Engineers in the Fire Department as members of the Fire
Department.

Should proposition "J" be enacted, the increase in the cost of govern-
ment of the City and County of San Francisco, based on a report prepared
by the Employees' Retirement System, is estimated to be about $56,700.00
per annum. Based on the 1959-60 assessment roll, said amount of $56,700.00
is equivalent to four tenths (0.4) of one cent in the tax annually.
