That a new section, to be numbered Section 14, be added to Chapter II of Article II, and to read as follows:

Section 14. The Board of Supervisors shall have power, and it shall be its duty, to fix by ordinance all salaries, wages and compensations of every kind and nature, except pensions or retirement allowances, for all officers and employees of all departments, offices, boards and commissions, including public utilities of the City and County; provided, however, that compensations specified elsewhere in this Charter for elective officials, officials appointed by the Mayor, and members and employees of the Police and Fire Departments, shall continue as so specified or as amended; and provided, further, that the compensations of the teaching and technical forces of the School Department, librarians and technical assistants of the Library Department, and employees under the jurisdiction of the Park Commission, and employees engaged on public utility construction outside of the City and County, shall be fixed by the board or commission in charge thereof, unless any such board or commission, by resolution, shall request the Supervisors to classify positions and determine standards of compensations, as herein provided, for employments under its control that are herein exempted. The Board of Supervisors, through the Civil Service Commission, shall cause all employments for which the Supervisors are to fix compensations to be classified and graded for the purpose of fixing such compensations, in accordance with duties and responsibilities of the employment, training and experience required, and seniority of the personnel, and shall cause a schedule of compensations to be proposed, under which like compensation shall be paid for like services, with due regard to prevailing economic conditions, and to all other compensations paid in the City and County service; provided, however, that such classification and grading shall not operate to adversely affect the civil service classification or duties of any person holding a position at the time of the adoption of this amendment. Department heads and employees shall furnish such information as may be required for such classification, grading and standardization. The Civil Service Commission by rule shall provide for the methods and procedure to be followed in acquiring the information necessary to properly classify employments and for investigations and hearings to establish the facts relative to duties and positions, and on compensation schedules to be proposed. The Civil Service Commission shall report the proposed classification of personnel to the Board of Supervisors for adoption or rejection. Upon adoption of the classification of personnel the Civil Service Commission shall, at the request of the Board of Supervisors, report to the Board of Supervisors proposed schedule
of compensation to cover such classification or subdivision thereof. The Board of Supervisors shall approve, amend or reject such schedule; provided, that any amendment shall be referred before adoption to the Civil Service Commission, for report as to what other changes such proposed amendment would require to maintain the proper relation with other rates in the proposed schedule. Where any compensation paid, at the time this amendment is adopted by the people, is higher than the standards of compensation determined as hereinbefore provided, the Supervisors shall direct the continuation of such compensation to any incumbent who held such position at such compensation on September 1, 1924, as long as he legally holds such position; provided, however, that heads of departments, in co-operation with the Civil Service Commission, where said commission has jurisdiction, shall continuously offer all possible opportunities for such employees to assume duties and responsibilities which will qualify them for higher classification subdivision. Changes in standards of compensation shall be made only at the time of the adoption of the annual budget, and to this end the Supervisors, by resolution, shall fix the dates for reference of proposed changes to the Civil Service Commission and report by the commission thereon; and said commission shall report on or before such dates. Changes of compensation shall take effect on the first day of July immediately following, except that changes of compensation due to emergency conditions may be made at other times by the Board of Supervisors after requesting and receiving a report thereon from the Civil Service Commission. Pending the adoption by the Supervisors of classification and compensation shall take effect on the first day of July immediately following, pensions, and Charter salary and wage fixing powers, shall remain in force and effect.

Amendment 22

United States Government statistics prove that present living costs have increased 69% since 1914, a period of 10 years. Chiefs' salaries in the Fire Department have been increased from 6 to 13% since 1907, a period of 17 years.

All other large cities have increased salaries in these ranks to offset the decrease in the buying value of the dollar.

Shall San Francisco be backward in this respect?

Amendment 22
proposes to increase the salary of the four Police Judges from $300 to $500 per month.

This amendment will not increase the tax rate. During the fiscal year the Police Judges placed in the city treasury over $69,000. The present salary of $300 per month or $3,600 per year was fixed twenty-five years ago and has not been increased since.

In comparing the salaries of local Police Judges with those in other cities we find that in New York where they are elected for ten years they receive $12,000 per year, and in Detroit where they are elected for four years they receive $11,000 per year.

Since the time the present salary was fixed the work of the Police Judges has been greatly increased, new laws have added to the work of the police courts such as the Prohibition Law, the Narcotic Law, the Medical Practice Act, the Chiropractic Act, Workingman's Compensation Act, Pure Food Act, besides the many State laws that have been passed.

The POLICE COURTS ARE MORE THAN SELF SUPPORTING, and every citizen should vote YES on Amendment 25 thus rewarding faithful, honest and industrious service by retaining and attracting the highest type of men and lawyers to this branch of the public service. Amendment 25 is endorsed by:

ARGUMENT IN FAVOR OF CHARTER AMENDMENT No. 27

SALARY STANDARDIZATION

The proposed amendment will provide for a non-political, equitable and scientific method of fixing municipal compensations. It will end the present system under which compensations are fixed by the various departments, independently of each other. It will end the use of political influence to secure preferment. It will end the injustices that now exist, but which cannot be corrected under present charter provisions.

The Bureau of Governmental Research, the Labor Council, Civil Service Employees’ Association, and Office Employees’ Association co-operated and participated in the draft of this amendment. The Finance Committee and the Supervisors generally have declared it to be a thoroughly sound and badly-needed measure and have approved same by unanimous vote.

The Supervisors are required to cause all employments to be classified and graded in accordance with duties and responsibilities involved, and complete power is vested in the Board of Supervisors to fix compensations for each such group.

Charter Amendment No. 27 will build for the future. It will displace a system that has been almost universally condemned. It will eliminate the most prolific cause of obnoxious political activity. It will set up a sound, scientific, equitable system that is in keeping with modern practice in many cities and other governmental units of the United States. It should be approved.

ANGELO J. ROSSI,
Supervisor.
Amendment 33

A system has grown up in the city's government whereby the money set aside in the annual budget for expenditure by the boards or commissions has been expended for any purpose deemed advisable by such board or commission, regardless of the purpose for which it was set aside in the budget, thus destroying the efficiency of some of the departments for lack of the funds set aside in the budget which have been used for other purposes.

This amendment if passed by the people would prevent the spending of such money for any purpose except as provided in the budget, leaving the determination of such expenditure in the hands of the Supervisors instead of any appointed board or Commission.

The adoption of Amendment 33 would mean greater efficiency in the mechanical and labor departments, hence effect a saving to the taxpayers. We therefore ask your careful consideration before voting.

VOTE YES
On Charter Amendment 30

The Auditor is under $50,000 bonds. He must examine every demand upon the Treasury with the closest scrutiny, because the Charter requires that he must satisfy himself that the money is legally due and its payment authorized by law. If he approves a demand not authorized by law he is liable individually and upon his bond for the amount of the demand so illegally approved.

During the past fourteen years during which Thomas F. Boyle has been Auditor, the duties and responsibilities of that officer have increased tenfold.

Auditor Boyle has been sued hundreds of times because he has refused to approve various demands, and as a result of these suits, the city has been saved many thousands of dollars. He has been represented in these cases by his personal attorney.

The complexity of the various legal questions involving his determination whether demands for money are legally due and authorized by law, has increased greatly with the city's development.

UNDER CHARTER AMENDMENT NO. 30 THE AUDITOR WILL BE PERMITTED TO EXPEND NOT MORE THAN $3000 A YEAR FOR ATTORNEY'S FEES.

Provides for putting under classified Civil Service the Cashier and Bookkeeper in the Sheriff's Office.

There are now ninety-six deputies in this office, ninety-four of whom are now under classified civil service and this amendment is to place these two positions in the same class.

These two offices should always be filled by men who are especially qualified as provided for by the Civil Service examinations.

This amendment will insure the people that the positions will always be filled by competent and qualified men who will not be subject to the whims of POLITICAL DICTATION.

The civil service form of filling offices has proved so successful over many years that it can be seen that only good results will follow. Roosevelt said "that Civil Service insures to the people not only the faithful performance of duty on the part of the men employed but brings a higher and cleaner class of men into the service of the people."

Argument for Charter Amendment No. 37
Provides for the Retirement of Aged and Disabled
Employees Omitted When Original Retire-
ment Law Was Established

This amendment to the Enabling Act adopted in 1920, now Article XVII of the Charter of the City and County of San Francisco is proposed in order to do justice to the children of this city by retiring their aged and disabled teachers in the same manner and under the same terms as other employees of the city are retired under this law.

Teachers in the public schools of this city receive a portion of their salaries from the City and County of San Francisco and should pay liabilities to and receive benefits from the Retirement Fund in like proportion.

Experience gained through the operation of this law has proved that it promotes municipal economy and efficiency and saves money to the taxpayers; provides a means of creating a reserve fund, which is invested in bonds of the City and State; is an act of humanity and justice to the city’s employees.

COMMITTEE OF SAN FRANCISCO FIRE DEPARTMENT

To The Voters of San Francisco

Argument in Favor of

AMENDMENT No. 41

Leading men and women of San Francisco who endorse the Amendment and advise keeping the Police Department intact and efficient.
To the Voters of San Francisco:—

September 30th, 1924.

The efficiency of any police department is measured by and depends upon the intelligence, honesty, courage, alertness and initiative of its members. Lacking any of these qualities, the department does not measure up to that character of service to which the people are entitled. These essentials cannot be purchased and should not now be demanded for compensation which fails to permit the police official to provide adequate support for himself and family and proper education for his children.

The police department is one of the most important branches of municipal government. Its members are the protectors of the people's property and the conservators of their lives and limbs. From this department the people are entitled to maximum police activity, which should not be expected and cannot be given unless adequate remuneration is offered for the character of service required.

In solving the problem as to whether the members of the police department are adequately compensated, two important elements should be given consideration: First—is the wage itself a living wage? and Secondly—Is it just compensation for the service required, considering its character and the opportunities, if any, for advancement?

Police statistics disclose that the average members in the family of each police officer number four plus, all of whom he must support and some of whom he must educate. He is also required, at a considerable cost, to purchase his uniform and equipment, which uniform is worn daily in all sorts of weather and which within a brief period is no longer in a condition to pass inspection, thereby involving duplication.

As far as possible, the department is governed by the merit system. Until an officer becomes entitled to day shifts by reason of seniority of service, he is required to perform duty at night. This performance of night duty continues for a period of approximately fifteen years.

The opportunities for promotion are likewise limited by the restricted number of non-commissioned and commissioned officers. There are but sixteen captains, out of a membership of approximately one thousand. It is, of course, obvious that but few men can ever hope to attain this rank.

The officer is put through a course of training comparable only with that of the man in the army. Whether on or off duty, he can never leave San Francisco excepting with the permission of his superior officer. He is always subject to call, both night and day, and in cases of emergency may be, and often is obliged to perform continuous police service.
The character of service required of an officer is constantly fraught with extreme danger. Those with whom he comes in contact are the violators of the law, many of whom are willing to destroy human life in order to escape detection and capture. The annals of the department show that in recent years a number of police officers have been killed in the performance of duty; many others have been seriously injured.

San Francisco can justly be proud of her Police Department. It is excelled by none in courage, in probity, in accomplishments, or in achievements. Its splendid services rendered during the recent war are attested not only by the results attained, but by communications emanating from military and civilian officials of the highest rank, and yet, in comparison with the wages paid in other walks of life the Police Department is poorly compensated. The mechanic and the artisan, enmeshed with no restrictions, and not menaced by the hazards to life and limb by which police officials are constantly confronted, receive greater pay than the man who is always willing to, and unfortunately often does sacrifice his life in the fulfillment of his official duties.

All members of the Police Department are required to reside in San Francisco. It is here that their families are raised and their compensation spent. To the extent to which their salaries are increased the merchant of San Francisco, as well as the police officer and his family, will be benefited.

The members of the Police Commission, who are charged with the control, management and direction of the Police Department, and who, with the assistance of the Chief of Police, are in large measure responsible for the present high state of efficiency of the Department, are strongly entrenched behind the proposed amendment. They believe that an increase of $1.00 per day in the pay of a patrolman is both reasonable and just; that a less compensation is inadequate.

Fair dealing between man and man—the right of the public to maximum police service—the right of the police official and his family to a just compensation for the services rendered—the dictates of justice—all require that Amendment 41 be passed by an overwhelming vote:

Charter Amendment 42 provides for children's playgrounds and recreation centers.

San Francisco's playground and recreation facilities have not kept pace with the city's growth and needs. More playground space is required in every section. For example, between the Castro and Potrero Hills, Sixteenth Street and the Excelsior district, within which region reside approximately one-third of the children, there is only one playground large enough for a baseball field. Similar conditions prevail elsewhere.

THE CHILDREN ARE THE CITY'S MOST VALUABLE ASSETS.

Formerly children could play with safety on the vacant lots. The vacant lots are gone. Ordinances and traffic conditions prohibit the use of streets for children's play. More than 100,000 automobiles make the streets almost as dangerous as a battlefield.

For moral and physical reasons, children and youths must have open spaces for healthy recreation. The alarming increase in the youthful criminals is an indication of the social dangers consequent on deficient recreational facilities.

San Francisco has no more important problem or pressing duty than to protect the children. IT IS NOT A QUESTION OF COST. IT IS A QUESTION OF CIVIC OBLIGATION AND MORAL RESPONSIBILITY.

Why Number 43
on the Ballot, the Ordinance Proposed by Mayor Rolph

To Prevent the Removal of the Cemeteries
Should be Approved by the Voters at the General Election,
November 4, 1924

Vote YES on Number 43

REPEAL REMOVAL ORDINANCES

Under the power given by the City's Charter, His Honor, Mayor Rolph, has proposed for submission to the voters, at the general election of November 4, 1924, an ordinance to repeal the four ordinances which respectively demand that the human bodies, approximately from 120,000 to 150,000, now buried in Masonic, Odd Fellows, Laurel Hill and Calvary Cemeteries, be disinterred and removed from San Francisco.

DEFEAT REMOVAL 1924

To defeat the threatened removal of the cemeteries the people must vote "YES" in favor of Mayor Rolph's ordinance, which is number 43 on the ballot.
Once before, at the general election of November 3, 1914, Mayor Rolph submitted this question to the people, and the people by an overwhelming majority voted against the land scheme to remove the cemeteries.

**Vote YES on Proposition 43**

The plot to remove the cemeteries is repugnant to sentiment and sense. It offends against natural feeling and the keenest sensibilities of the heart.

Among all, savage and civilized, the resting places of the dead are regarded as sacred.

In these four cemeteries, which are fire barriers, and wherein hundreds found shelter and refuge in the fire and earthquake of 1906, rest the bones of the pioneer citizens of California, and of the forebears of most of our citizens. These cemeteries, hallowed by our early history and consecrated by our dead, have an undeniable claim on the affections of the people of our city. The opening of these graves open anew old wounds, while sorrowing hearts renew the past. This city shall not behold the daily spectacle of end-
LAND
SHARKS
AND GOLD
FROM
GRAVES

less funeral processions, while the count-
less thousands of our dead are carted away
 wholesale, to satisfy private greed and
land shark speculators. The commercial-
ized removal of these bodies is abhorrent
to sentiment and decency.

FREEDOM

In a country where the exercise of re-
ligion is free, it is also free to consecrate
the graves of departed Christians, after
which it is religious profanity to trifle with
them.

HONOR

The honor of the city, by its original
grant, is pledged to the living and the
dead, to the effect that the cemeteries shall
not be desecrated.

NO NECESS-
SITY FOR
REMOVAL

There exists no honest reason for the
threatened removal of the cemeteries. But
some wolves in sheep's clothing are still
in our midst. Some, under the guise of
public-spirited citizens are once more
raising a false hue and cry.

FALSE
ISSUE

1914

In the election of 1914, those advocat-
ing the removal of the cemeteries loudly
cried that the cemeteries were an obstacle
to the city's progress and in particular,
prevented the development and growth of
the Richmond District.
RICHMOND DISTRICT

On the contrary, since 1914, no district in the city has grown so marvelously and great as the Richmond District, notwithstanding the presence of the cemeteries. Equally false are the claims now made by the removalists.

FALSE BASIS OF REMOVAL ORDINANCES

False indeed are the declarations which form the basis of the four removal ordinances. These declarations, though false, were necessary to make the four ordinances valid. These four ordinances declare that the cemeteries threaten and endanger the health, safety, comfort and welfare of the people—perish such subterfuge. It did perish before the testimony of five of the most prominent doctors in our city, including the president of San Francisco's Board of Health, who denied the existence of any such threat or danger to the public health.

ROADWAYS

If our public comfort and convenience require the extension of roadways through the cemeteries, this can easily be accomplished without removing the dead. The office of the City Engineer has stated that the heavy grades formed by the contour of the cemetery lands would in several instances prevent the direct extension of the streets through the cemeteries, and
that such thoroughfares must follow the winding contour of the land. Contour streets hardly aid transportation. In fact, the present detour around any of the cemeteries is but the matter of a moment, and insignificant compared to the detour now imposed on commercial vehicles going through the Park to and from the Richmond and Sunset Districts.

It is claimed that the cemeteries are not well kept. But removal is not necessary to accomplish the desired result. The present condition would not exist if the trust funds which should have been spent on two of the cemeteries had not been misappropriated to other purposes. Efforts are now being made to recover these funds from the persons responsible for misappropriation, and when recovered, the moneys can be used to restore such cemeteries to their former state. Furthermore, constant threats of removal have made improvements impossible. When the question of removal is definitely settled at the polls, then the cemetery authorities can safely make the required improvements.
Equally false is the cry that the dead must give way to the living. The City of San Francisco is not so overcrowded that in order to get place for the living, the dead should be removed. At public hearings before the Board of Supervisors on this question, uncontradicted testimony showed that under normal growth, it will take over fifty years to absorb the available and now unoccupied land in San Francisco, and that there is no need to remove the cemeteries to provide homesites. There are enough vacant lots in the Mission to house a million people. You can take the present population of San Francisco and plant it south of the park and there would still be vacant lots to sell.

The living have still such a right in these cemeteries that they should not be compelled to remove their dead out of the City and County of San Francisco for the benefit of those, who, when purchasing their lots, were not ignorant of the fact that their property was beside a cemetery.

The living, and, in their life time, those now dead, bought and paid for these last earthly resting places, believing in good faith that their contractual rights of
sepulture would not be violated, that their property rights would not be taken from them, and that any deeds thereto were more than mere scraps of paper. Theirs were and are rights made sacred by those instincts of nature, which precede constitutions, and imprint upon them the highest obligations of mankind to one another.

Vote "NO" on Repeal of Cemetery Removal Ordinance No. 43 on Ballot

There have been no burials in any of the cemeteries of San Francisco since 1900, at which time further burials were prohibited by ordinances of the Board of Supervisors under authority of law. Recently the Board of Supervisors through authority of an act of Legislature passed in 1923, adopted four ordinances directing the removal of Calvary, Laurel Hill, Odd Fellows and Masonic Cemeteries, respectively. The Mayor, believing that these ordinances should be submitted to a vote of the people, has had prepared for that purpose an ordinance repealing them, which will appear as No. 43 on the ballot.

Vote "NO" on this ordinance. This means that you wish the cemeteries removed.

Mayor Rolph Urges Removal of All Cemeteries

The Mayor in a letter to the Board of Supervisors in which he suggested that this repealing ordinance be submitted to the people said, among other things the following: "I believe the removal of the cemeteries to be necessary. * * * The duty of government, however, is always more to the living than to the dead. We must provide for the expansion of our city; it must be a city of homes. To this end sentiment must yield to progress. * * * It is conceded by all that at sometime these cemeteries must be
removed. * * * All the ground within San Francisco is required for living inhabitants. To contribute to that end we must, where necessary, lay aside sentiment. The city belongs to the generation now living, and to those who are to come after."

Supervisors Vote 17 to 1 for Removal of All Cemeteries

The Board of Supervisors carefully and exhaustively considered this subject of cemetery removal for many months, both before committees and the full Board. Everyone who wished to be heard was allowed to speak as often as he or she wished, and every phase of the subject thoroughly gone into with the fullest desire on the part of the Supervisors to act fairly and justly to every interest concerned. After all this discussion the Board of Supervisors passed each of the separate ordinances to remove the Masonic, Odd Fellows and Laurel Hill cemeteries by the following vote:

Ayes—Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, McGregor, McLeran, McSheehy, Morgan, Robb; Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—(17). Noes—None. Absent—Supervisor Katz. The Calvary Cemetery Removal Ordinance was passed by a like vote favoring it except that on this ordinance Supervisor McSheehy voted "No." Your vote of "NO" will sustain the action of the Board of Supervisors.

Leading Civic Bodies Unanimous in the Opinion That Cemetery Ordinances Already Passed Should Not Be Repealed

These removals as provided by these ordinances have been approved by the Chamber of Commerce, Down Town
Association, Civic League of Improvement Clubs, San Francisco Real Estate Board, Mission Merchants, Fillmore Merchants and Improvement Association, Divisadero District Improvement Association, Geary Street Merchants, Western Addition Protective and Improvement Association, and a long list of other Improvement Associations.

**Eminent Pastor Speaks in Favor of Removal**

Many years ago, the late Reverend E. R. Dille, one of San Francisco's most beloved pastors, wrote with reference to this question, "I have just had a call from a dear lady, who protests against this measure of cemetery removal, but I showed her that her objections were based largely upon misapprehension, and I would be the last one to lift a finger or raise my voice to wound the feelings of those whose loved ones sleep in our cemeteries."

**Prominent Jewish Rabbi for Removal of Cemeteries**

Dr. Jacob Nieto, in an address before an audience of over two thousand people, stated "I feel that we show care and respect and reverence for the memory of the dead when we take their remains out of the places where they are uncared for and place them where there is at least the semblance of respect. I think it best to place them somewhere where the sun shines and everything is beautiful, where the recollection of those men shall return when we are thinking of the prettiest things, and where the grewsome sight of uncared for graves shall not disgust us."

**Read What Former Chief Justice Matt I. Sullivan Wrote to the Legislature**

In a statement when the matter was before the State Legislature, Matt I. Sullivan, former Chief Justice of the
Supreme Court of the State of California, and now President of the City Planning Commission of San Francisco, wrote: "The spirit of progress which should animate us all demands that life and energy should supplant the innumerable signs of death and desolation in evidence over the entire unsightly waste of land occupied by the cemeteries; that streets be opened through this extensive territory; that homes for the accommodation of thousands of families be erected there, as they certainly will be if the cemeteries are removed. I feel sure that sentiment, common sense and the spirit of progress will prevail."

**Law Provides Proper Procedure and at No Cost to Lot Owners**

The state law, under which the Supervisors acted in ordering these removals, requires that removal must be done at the expense only of the cemetery lands, and no association or individual will be called upon to bear any expense whatsoever, all costs being borne by the proceeds from the sale of the cemetery lands; that removals must be made reverently; and very elaborate rules and regulations are provided for the protection of individual lot owners and the public. The law particularly states that each body removed must be placed in a separate receptacle, deposited in a separate grave or separate compartment of a mausoleum, and separately marked.

**Suitable Portions May Be Retained**

The ordinance also provides that a large and suitable portion of the cemetery when removed may remain for the purpose of holding historical graves or for having erected thereon a suitable mausoleum for the care of the dead.
Two Cemeteries Have Five Years and Two Have Ten Years to Accomplish Removal

These ordinances, give the Masonic and Odd Fellows cemeteries five years for removal, which was all the time they asked for, and ten years for Laurel Hill and Calvary cemeteries.

No Opposition to Removal of Masonic and Odd Fellows Cemeteries

It is a well known fact that practically everyone with any interest in either the Masonic or Odd Fellows cemeteries wants them removed, and unless enough people vote "No" on this repealing ordinance No. 43, the wishes of all those who want them removed will be denied.

Removal Ordinances Fair and Just to All

These ordinances were all drawn with the utmost desire to be fair and just, to do harm to no one, but to benefit the city of San Francisco. Many good citizens who believe the city would be greatly benefited by these removals have been alarmed by reports of expense that might devolve upon them.

No Expense to Lot Owners or the People

It has been estimated by persons who are skilled and expert in the matter that all of these cemeteries can be removed without entailing expense or hardship on any one, and that the value of the land when removal has taken place will be far in excess of the cost of removal.

No Disrespect—Present Surroundings Unsuitable

While one of the sweetest and purest of human emotions is reverence for the dead, no disrespect is shown by re-
moving them from unsuitable surroundings to a more favored spot—a City Beautiful of the Dead, and respect for the dead should not carry the corollary of contempt for the living.

Living Representatives Should Supervise Removals

We believe that removals should be accomplished while the living representatives of the dead are here to supervise the work, and to see that everything is done decently and in order.

And finally, the respect for the dead, the rights of the living, obedience to the law, the properties and the decencies, all demand that this necessary task be done quickly by those whose duty it is to do it, so that the depressing and neglected homes of the dead shall be replaced by beautiful homes of modern construction, the happy abode of the living and that the dead shall sleep peacefully and forever beneath the beautiful green lawns of the cemeteries down the peninsula.

If you have any doubt as to the disgraceful conditions of these cemeteries please go out and look at them before you vote, and remember, removal is the only possible remedy. All agree on that.
