For Supervisor

JOHN J. BARBAGELATA

My name is John J. Barbagelata.

My residence address is at No. 15 San Lorenzo Way, San Francisco.

My business or occupation is Real Estate Broker.

My qualifications for said office are as follows: As a neighborhood realtor, I have listened day after day to the complaints of San Franciscans. As a native San Franciscan and father of eight children, I am concerned. We all lose unless we meet these challenges: Stop the soaring crime rate by cutting City Hall red tape which binds our fine police department. Slow the spiraling property tax rate that forces out families and drives up rents. Develop jobs for all. Turn the tide for San Francisco before the completion of rapid transit brings a wholesale exodus. As a neighborhood businessman, I can bring the fresh look we need.

HOWARD NEMEROVSKI has been nominated by the Mayor of the City and County of San Francisco, subject to confirmation by the voters, to a five year term commencing January 8, 1970 as a member of the Board of Education.

Mr. Nemerovski submits the following statement of his qualifications: With my children in public school, I believe City schools must provide excellence to all students—average, disadvantaged, gifted, educationally handicapped and adult.

My experience as a White House Fellow and with local and national educational agencies convinces me that we can have excellence, now, in individualized instruction—particularly in reading and mathematics; bilingual instruction; modern resource centers; ethnic programs; and guidance and counseling.

As a home-owning taxpayer, I will demand: strict program budgeting; better utilization of teachers, equipment, buildings and playgrounds; Board meetings held throughout the City; and participation by parents, teachers and students in educational planning and evaluation.

The method and manner of payment of the estimated costs of the municipal improvements described herein are by the issuance of bonds of the City and County of San Francisco in the principal amounts specified.

Said estimates of cost as set forth in said resolutions, and each thereof, are hereby adopted and determined to be the estimated costs of said improvements, and each thereof.

cisco."

1969. To incur a bonded indebtedness of $5,000,000.00 for school

thirds of all the voters voting on any proposition voted in favor of
and authorized the incurring of a bonded indebtedness for the pur-
poses set forth in said proposition, then such proposition shall have
been accepted by the electors, and bonds shall be issued to defray the
cost of the municipal improvements described herein. Such bonds
shall be of the form and character known as "serials," and shall

PROPOSITION A

Recreation and Park Bonds, 1969. To incur a bonded indebtedness of $9,998,000.00 for additions to and improvement of the Recreation and Park System of the City and County of San Francisco.

ARGUMENT FOR PROPOSITION "A"

VOTE YES ON PROPOSITION "A"

San Francisco's Recreation and Park Department needs your help. In several areas of the City—South of Market, Chinatown, Hunters Point, Visitacion Valley, Bayview and Crocker-Amazon—the Recreation and Park Department is unable to fulfill basic needs. This bond issue represents the highest priority needs of your Recreation and Park Department.

Expanded leisure time has tremendously increased the use and need for parks, playgrounds and recreation areas. Your support of Proposition "A" will allow San Francisco to have the quality of recreation and open spaces its citizens deserve and require.

PROPOSITION "A" IS THE ANSWER FOR SAN FRANCISCO!

Vote Yes on "A"—A Good Investment for You

Proposition "A" represents neither frills nor extravagance. Project costs have been trimmed to the bone. Further delaying necessary rehabilitation will increase the cost of these improvements. The City will be able to greatly expand the use of many existing facilities.

Athletic field floodlighting at Jackson, Upper Noc, Eureka Val-
ley, and Portola Playgrounds and the Balboa Soccer Stadium will permit active night sports at these locations.

Desperately needed improvements to the Recreation Center and Playground in Chinatown will increase their usefulness to the residents of this densely populated area.

Complete rehabilitation including automatic irrigation and landscaping are proposed for the Mission District's rundown Garfield and Franklin Squares. Bernal and Duboce Parks will be restored.

**VOTE YES ON PROPOSITION “A”!**

**Increased Safety—Reduced Crime and Vandalism**

Parks must be made safe for the public. Too often dark parks have been the scenes of crime and vandalism. A major element in Proposition “A” is protective lighting for parks and playgrounds. This City-wide program will help deter vandals who have been burdening the taxpayers with costly attacks on recreation centers, swimming pools and other facilities. Three of the many facilities proposed for protective lighting are: Alta Plaza, Potrero Hill Playground, and Sigmund Stern Grove. To protect public property and, more importantly, to protect yourself.

**VOTE YES ON PROPOSITION “A”!**

**Golden Gate Park Centennial**

One of San Francisco's most famous attractions is the justly celebrated Golden Gate Park. Proposition “A” comes on the eve of a year-long Golden Gate Park Centennial Celebration. The two most pressing needs of the Park are: (1) restoration of the Stow Lake-Strawberry Hill-Huntington Falls complex, and (2) reconstruction of the damaged Growing House behind the Conservatory built in the 1870's. Improvements to Stow Lake are not merely for appearance. The Lake, which is a vital element in the Park's irrigation system, now stands as a partially filled and weakened reservoir. A new Growing House is necessary to provide flowering displays in the historic Conservatory.

**VOTE YES ON PROPOSITION “A”!**

**Proposition “A”—Part of Coordinated Program**

Proposition “A” is but part of a coordinated program to better serve you, the voter and taxpayer, and all residents of the City.

**VOTE YES ON PROPOSITION “A”!**

**Vote Yes on “A”—What It Provides**

All areas of San Francisco will benefit from Proposition “A.”

Vote Yes on “A”—Our Children’s Need Is Now

Children’s play areas in many parks and playgrounds are old-fashioned and often inadequate. Proposition “A” will provide modern children’s play facilities with innovatively designed equipment at many locations. Three of these locations are: North Beach, Balboa, and Mountain Lake Playgrounds. San Francisco is not providing for our children needed park and playground facilities in some districts such as South of Market. The need is real; the need is urgent. A Yes vote on Proposition “A” will meet this need. Proposition “A” is a necessary investment in our children.

Recreation And Park Bonds, 1969. To Incur A Bonded Indebtedness Of $9,998,000.00 For Additions To And Improvement Of The Recreation And Park System Of The City And County Of San Francisco.

Should the proposed bond issue be authorized and when all bonds shall have been issued on a fifteen year basis and after consideration of the interest rates related to current municipal bond sales and using the 1969-1970 assessment roll as the basis for calculating the effect upon the tax rate, in my opinion, it is estimated that approximate costs would be as follows:

Based on a 6 year construction program, average annual debt service requirement for 20 years is estimated to be $739,852 equivalent to three and three tenth (3.3) cents in the tax rate.

Based on a report submitted by Recreation-Park Department, the annual increase in main-
tenance and operation cost is estimated to be 518,515
equivalent to two and thirty-one hundredths (2.31) cents in the tax rate.
Net estimated annual recurring costs.............. $ 1,258,367
equivalent to five and sixty-one hundredths (5.61) cents in the tax rate.

Purchase of property to be acquired through this bond issue will
remove from the assessment roll an estimated sum of $762,254
equivalent to three and four tenths (3.4) cents in the tax rate.
The following statement is submitted pursuant to the provisions
of the State of California Election Code, Section 5801:
Based on consideration of interest rates related to current mu-
nicipal bond sales and using the 1969-1970 assessment roll, it is
estimated that the tax rate required to be levied to fund the pro-
posed bond issue during the first fiscal year after the sale of bonds
would be ninety-seven hundredths (.97) cents in the tax rate.
Based on six sales to complete the issue, it is estimated that five
and twenty-two hundredths (5.22) cents would be the highest rate
required during the twenty year redemption period to fund the pro-
posed bond issue, which rate is estimated to occur during the fiscal

PROPOSITION B

School Bonds — Hunters Point Redevelopment Proj-
ect, 1969. To incur a bonded indebtedness of $5,000,-
000.00 for school purposes to serve the Hunters Point
Redevelopment Project including land acquisition,
construction of new school buildings and grounds,
and improvements to existing school plant.

ARGUMENT FOR PROPOSITION "B"

Proposition "B" will authorize a bonded indebtedness of $5 mil-
lion to provide two new elementary schools and modernization of an
older school in the Hunters Point area.

Vote Yes on Proposition "B"

A YES vote for this measure will support an emergency need in
some of the long-neglected school facilities in the Hunters Point
community by providing additional educational facilities to meet
the present and immediate future requirements of the elementary
school children.

Fitting in with the master plan for the southeast section of the
City, approximately 2,000 new and replacement housing units are
scheduled to be built in the Hunters Point Redevelopment Project.
The boys and girls in this area need and deserve modern-day educa-
tional opportunities, as do all children in San Francisco.

31
Savings For The City

$2 million of the $5 million Bond Issue will be substituted for part of the City's cash 1/2 contribution to the Hunters Point Redevelopment Project.

Would Keep Tax Rate Down

If the proposed school improvements are made and paid for in full out of the City treasury on a current basis, the immediate effect on the tax rate will be drastic and upward. On the other hand, by passing these bonds the cost of the school improvements will be spread over 15 years.

Delay Can Be Costly

New school facilities and modernization are essential for the children of Hunters Point. Space requirements and existing facilities will be inadequate to meet the present and future needs of the educational programs in Hunters Point unless funds are made available for additional classrooms through passage of Proposition “B.” Because of rising construction costs, delay in authorizing these necessary school bonds will increase the eventual expenditure for building public schools.

How Will San Francisco Benefit?

1. Proposition “B” meets emergency educational needs for Hunters Point children.

2. A substantial share of the $5 million bond issue will meet, in part, the City’s financial obligation to the Hunters Point Redevelopment Project.

3. Additional schools are needed now—delay will result in increased construction costs.

4. All San Francisco school children need and deserve modern educational opportunities. This bond issue will help reach that goal.

Based on a 2 year construction program, the estimated average amount required to pay the interest thereon and the redemption thereof, would be approximately $462,500 annually for sixteen years which amount is equivalent to two and six hundredths (2.06) cents in the tax rate.

Purchase of property to be acquired under plans of this bond issue will remove from the assessment roll an estimated sum of $70,660 equivalent to thirty-two hundredths (0.32) cents in the tax rate.

The following statement is submitted pursuant to the provisions of the State of California Election Code, Section 5301:

Based on consideration of interest rates related to current municipal bond sales and using the 1969-1970 assessment roll, it is estimated that the tax rate required to be levied to fund the proposed bond issue during the first fiscal year after the sale of bonds would be one and forty-three hundredths (1.43) cents in the tax rate. Based on two sales to complete the issue, it is estimated that two
and eighty-one hundredths (2.81) cents would be the highest rate required during the sixteen year redemption period to fund the proposed bond issue, which rate is estimated to occur during the fiscal year 1972-1973.

Such bonds shall be of the form and character known as "serials," and shall bear interest at a rate not to exceed 7 per centum per annum, payable semiannually.

Section 7. For the purpose of paying the principal and interest on said bonds, the Board of Supervisors shall, at the time of fixing the general tax levy and in the manner for such general tax levy provided, levy and collect annually each year until such bonds are paid, or until there is a sum in the Treasury of said city and county set apart for that purpose to meet all sums coming due for the principal and interest on said bonds, a tax sufficient to pay the annual interest on such bonds as the same becomes due and also such part of the principal thereof as shall become due before the proceeds of a tax levied at the time for making the next general tax levy can be made available for the payment of such principal.

Section 8. This ordinance shall be published once a day for at least seven (7) days in the San Francisco Examiner, a newspaper published daily in the City and County of San Francisco, being the official newspaper of said city and county and such publication shall constitute notice of said election and no other notice of the election hereby called need be given.

PROPOSITION C

Capital Improvement Bonds, 1969. To incur a bonded indebtedness of $4,930,000.00 for additions and improvements to the plants of the Fire Protection System, the Police Protection System, the Jail System, the Juvenile Justice System, the Purchasing Department and the General Governmental Plant of the City and County and for improvements to the plants of the Public Health System and the Academy of Sciences and to the Maintenance Yard of the Department of Public Works.

ARGUMENT FOR PROPOSITION "C"

In November 1968, the voters approved a Charter Amendment to permit multi-purpose Municipal Improvement Bonds, a safe, flexible, modern way of programming capital improvements used successfully in other progressive cities. Municipal Improvement Bonds are designed to finance those projects which are generally too small for separate bond issues, yet, because of our serious budgetary limits, are too large to be financed in the annual budget.

Now is the first opportunity for the voters to approve a group of public improvements in a Municipal Improvement Bond Issue, which will protect the City's huge investment in buildings, health services, cultural facilities and fire and police protection.

Vital, Not Glamorous

None of these projects can be called extravagant or glamorous. They are all vitally-needed, workhorse projects which can be considered as (1) efficiency measures to increase the quality and quantity of service to the people of San Francisco; (2) sanitary measures to reduce the probability of disease in custodial facilities; (3) security measures to protect the City's investment in buildings and equipment; or (4) safeguards to maintain the City's facilities at a reasonable level and reduce the probability of lawsuits.

By doing necessary rehabilitation and improvement as required, we are saved the soaring cost of deferred maintenance—or, the more costly replacement of public buildings. With constantly in-
creasing construction and financing costs, we can no longer neglect this work until a large bond issue for each department is needed. This Municipal Improvement Bond includes necessary projects for eight major departments and several minor ones in a single package.

With a YES vote on "C" the following can be accomplished:

DEPARTMENT OF PUBLIC HEALTH $1,214,500. including:

Laguna Honda Hospital: $662,800. Improve open patient wards to comply with State Health Code, including partitions, curtains, lighting. Improve security, ventilation and sanitation. Enlarge dental clinic. Miscellaneous improvements to increase operating efficiency, thereby reducing costs of labor, equipment and supplies.

Other: $350,500. Install emergency standby generators at emergency hospitals. Install emergency radio system. Replace antiquated elevators at 101 Grove Street.

Various renovations at 240 Van Ness Avenue, 45 Hyde Street and within City Hall for operating efficiency. Security measures at Tax Collector's and Treasurer's Offices, Central radio station, Palace of the Legion of Honor and various other locations. Upgrade plumbing, heating, ventilating, electrical and lighting systems for operating efficiency and preventive maintenance in various public buildings.
Total cost of all Department projects in this Bond Issue $4,930,000.

Vote Yes On “C”
The Ingleside Police Station is the only new building in this Bond Issue. The other projects have been selected because they are necessary, key projects which will enable existing facilities to be used almost as intensively and efficiently as brand new facilities. By enabling us to modernize and fully use what we have—rather than building anew—they will return benefits far in excess of their costs.

Vote Yes On “C”
Just as a homeowner owes it to himself to preserve, protect and upgrade his investment; so should we preserve, protect and upgrade our investment in our public facilities. Yes on “C” will do exactly that!
The following, among many others, urge you to VOTE YES ON PROPOSITION “C”.

CONTROLLER'S STATEMENT PURSUANT TO CHARTER
SECTION 183 AND STATE ELECTIONS CODE SECTION 5301
PROPOSITION "C"

Capital Improvement Bonds, 1969. To incur a bonded indebtedness of $4,930,000.00 for additions and improvements to the plants of the fire protection system, the police protection system, the jail system, the juvenile justice system, the purchasing department and the general governmental plant of the City and County and for improvements to the plants of the public health system and the Academy of Sciences and to the maintenance yard of the Department of Public Works.

Should the proposed bond issue be authorized and when all bonds shall have been issued on a fifteen year basis, and after consideration of the interest rates related to current municipal bond sales and using the 1969-1970 assessment roll as the basis for calculating the effect upon the tax rate, in my opinion, it is estimated that approximate costs would be as follows:

<table>
<thead>
<tr>
<th>Bond Redemption</th>
<th>Interest Requirement</th>
<th>Total Debt Service Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>$4,930,000</td>
<td>2,366,400</td>
<td>$7,296,400</td>
</tr>
</tbody>
</table>

The estimated average amount required to pay the interest thereon and the redemption thereof, would be approximately $486,427 annually for fifteen years, which amount is equivalent to two and seventeen hundredths (2.17) cents in the tax rate.

Purchase of property to be acquired under plans of this bond issue will remove from the assessment roll an estimated sum of $56,225. Equivalent to twenty-five hundredths (.25) cents in the tax rate.

The following statement is submitted pursuant to the provisions of the State of California Elections Code, Section 5301:

Based on consideration of interest rates related to current municipal bond sales and using the 1969-1970 assessment roll, it is estimated that the tax rate required to be levied to fund the proposed bond issue during the first fiscal year after the sale of bonds would be two and seventy-seven hundredths (2.77) cents in the tax rate. Based on a single sale of the entire issue, it is estimated that two and seventy-seven hundredths (2.77) cents would be the highest rate required during the fifteen year redemption period to fund the proposed bond issue, which rate is estimated to occur during the fiscal year 1971-1972.

CHARTER AMENDMENT
PROPOSITION D

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the Charter of said City and County by amending Sections 35.3, 35.4, 35.5, 35.5½, 35.5.1, 36.1, 36.1½, 36.2 and 36.3 and adding Sections 35.5.5, 35.5.6, 35.5.7, 36.01 and 36.10 relating to administration and working conditions applicable to members of the Police and Fire Departments.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on November 4, 1969, a proposal to amend the Charter of said city and county by amending Sections 35.3, 35.4, 35.5, 35.5½, 35.5.1, 36.1, 36.1½, 36.2 and 36.3 and adding Sections 35.5.5, 35.5.6, 35.5.7, 36.01 and 36.10 thereto, so that the same shall read as follows:

NOTE: Additions or substitutions are indicated by bold-face type; deletions are indicated by ((double parentheses)).

Section 35.3. Assignments of police officers and sergeants to the positions of assistant inspectors and inspectors in the Police De-
partment shall be from among those members of the department who have qualified in the following manner:

Members of the police department in the rank of police officer who have been in such rank for a period of not less than three years, or in the rank of sergeant, shall be eligible to participate in a written examination which shall be administered by the civil service commission. Such written examination shall pertain to matters concerning the duties of the classifications of assistant inspector and inspector. The civil service commission, by rule, shall provide for the inspection by participants in the examination of their examination papers against the official rating key. In addition to the written examination, participants shall be examined orally by a board composed of two supervisory officers in the police department selected by the chief of police and one member of the police commission, selected by the president of the police commission. Rating of the examination shall be a composite of the grade attained in the written examination and the oral examination, with the written examination being given a weight of 60% and the oral examination being given a weight of 40%. The number of qualified candidates shall not be less than the number of current or anticipated vacancies for a two year period plus twenty-five per cent. The list of qualified candidates shall automatically expire two years from the date of adoption of such list. The Civil Service Commission shall certify to the Chief of Police the list of qualified candidates; said list to rank the candidates according to the composite grade attained in the examination.

The Chief of Police shall select from the certified list of qualified candidates, according to the grade achieved in the examination, the officers of the department to be assigned as assistant inspectors. Such initial assignments shall be without change in classification or pay of the officers assigned.

The Chief of Police may make appointments from among those members who have been assigned as assistant inspectors in accordance with this section (members of the department holding ranks of police officer and sergeant) to vacancies in the rank of assistant inspector (for performance of duty in the bureau of inspectors, the juvenile bureau, the accident investigation bureau, the bureau of special services, and the intelligence unit.)

Assistant inspectors shall serve at the pleasure of the Chief of Police during their first year of service as assistant inspectors and thereafter may only be removed and returned to their civil service rank in the manner provided herein for inspectors. An appointment as inspector or as assistant inspector shall not be subject to further competitive examination. In case of vacancy in said rank of inspector ((in the bureau of inspectors)), the appointment shall be made by the Chief of Police from among those holding the rank of assistant inspector who have actually served ((with the bureau of inspectors)) as assistant inspector for at least two years prior to such appointment. ((The Chief of Police may appoint inspectors in the juvenile bureau, the accident investigation bureau, the bureau of special services, and the intelligence unit; such appointment shall be made from among those holding the rank of assistant inspector who have actually served in the bureau or unit in which the appointment is made for at least two years prior to such appointment. The number of inspectors at any one time in the juvenile bureau, the
accident investigation bureau, the bureau of special services, and the intelligence unit shall not be greater than a total of twenty-five (25) inspectors.)

On the effective date of this amendment, the twenty-five (25) assistant inspectors now serving as such in the juvenile bureau, the accident investigation bureau, the bureau of special services, and the intelligence unit shall be reclassified as inspectors.

The Chief of Police may detail from time to time members of the department for performance of duty, without change in rank, in the various units and bureaus of the department as deemed appropriate ((bureau of inspectors, the juvenile bureau, the accident investigation bureau, the bureau of special services and the intelligence unit.))

Inspectors and assistant inspectors shall have the same rights as other members of the department to take competitive examinations from their respective civil service ranks. An inspector or assistant inspector guilty of any offense or violation of the rules and ((regulations)) procedures of the police department shall be subject to punishment as provided in Section 155 of the charter; provided, however, that in addition to the punishments set forth in section 155, an inspector or assistant inspector may be demoted to his civil service rank for any offense or violation set forth in said section and after trial and hearing before the police commission as set forth therein. The Chief of Police, in addition to the inspectors above provided for, ((shall)) may detail any member of the department to serve as inspector of school traffic patrols who shall have the rank and pay of inspector, subject to the provisions of this charter. The member detailed as inspector of school traffic patrols shall not be subject to the examination procedure as set forth in this section.

Any police officer and sergeant now assigned to the bureau of inspectors, the juvenile bureau, the traffic bureau (hit and run detail), the vice bureau and the intelligence unit, and who has been so assigned for a period of at least six months prior to the effective date of this amendment may be retained in such assignment and eligible for selection as assistant inspector without being subject to the examination procedure as set forth in this section.

The provisions of this section shall be effective on the first day of the month immediately following the date of ratification of this amendment by the State Legislature.

The board of supervisors shall have the power, and it shall be its duty, without reference to the annual budget, to amend the annual appropriation ordinance and the annual salary ordinance for the fiscal year 1969-1970, to include the provisions necessary for the reclassification of the twenty-five (25) assistant inspectors in the juvenile bureau, the accident investigation bureau, bureau of special services, and the intelligence unit to twenty-five (25) inspectors; said reclassification to become effective regardless of the length of service of such members as assistant inspectors.

Section 35.4. Subject to the provisions of Section 20 of this charter governing the appointment and removal of non-civil service appointees, and without competitive examination, the chief of police shall have the power to appoint a police surgeon; to designate a deputy chief of police, a department secretary, a director, bureau of community relations, director of planning and research, director
of intelligence, director of legal affairs, and a director, bureau of special services, from any rank in the department; to designate a director of traffic from among the members of the police department holding rank of lieutenant or higher; to designate a chief of inspectors from among the members of the department holding the rank of captain; to designate a director, bureau of criminal information, from among the members of the department having the rank of sergeant or higher; to designate from among the members of the department holding rank of lieutenant or higher, a captain of inspectors, who shall be administrative assistant to the chief of inspectors, a captain of traffic, and a director, bureau of personnel; and to designate a supervising captain of districts from among the members of the department holding the rank of captain. The department secretary or other suitable member of the department shall be assigned by the chief of police to serve also as secretary to the police commission without extra compensation. The chief of police shall assign a property clerk from among the members of the department, such assignment shall be made at the rank and pay of the member so assigned.

When any member of the department, detailed to any of the positions above mentioned, shall be removed from said detail or position, he shall be returned to his civil service rank and position, unless removed from the department pursuant to the provisions of Section 155 of the charter.

The provisions of this section shall be effective on the first day of the month immediately following the date of ratification of this amendment by the State Legislature.

Section 35.5. (The police force of the city and county shall not exceed one police officer for each five hundred inhabitants thereof.) The several ranks in the police department shall be as follows: chief of police, deputy chief of police, director of traffic, chief of inspectors, supervising captain of districts, department secretary, captain of inspectors, captain of traffic, director of bureau of personnel, director of bureau of criminal information, director, bureau of community relations, director of planning and research, director of intelligence, director of legal affairs, captains, criminologist, lieutenants, director of bureau of special services, inspectors, sergeants, assistant inspectors, (photographer), police surgeon, police officers, police patrol drivers and women protective officers. The compensation for these ranks shall be determined as provided in Section 35.5.1 and Section 35.5.2 of this charter. The authority of the directors other than the director of traffic, shall be as specified in rules and regulations promulgated by the police commission.

In determining years of service necessary for a police officer, woman protective officer and police patrol driver to receive the annual compensation as provided for herein, service rendered prior to the effective date of this amendment shall be given full credit and allowed. The absence of any police officer, woman protective officer, or police patrol driver on military leave, as defined by section 163 of this charter, shall be reckoned a part of his service under the city and county, for the purpose of computing years of service in gaining added compensation as provided for herein.

Section 35.5½. (a) The word “member” or “members” as used in this section shall mean the members of the several ranks in the Police Department set forth in section 35.5 of this charter.
(b) The basic week of service for each member shall be not more than forty hours and the annual compensation set forth in section 35.5 of this charter shall be based upon said basic week of service. The Chief of Police shall recommend and the police commission shall provide by rule for work schedules or tours of duty of the members occupying the several ranks of the police department.

(c) Each member shall be entitled to at least two days off during each week, except as hereinafter provided.

(d) Whenever in the judgment of the police commission, public interest or necessity requires the services of any member to serve in excess of the basic week of service during any week, the said police commission may authorize the Chief of Police to permit said service, and said member shall be compensated therefor or shall receive equivalent time credited to him in lieu thereof as provided by ordinance of the board of supervisors. ((In accordance with this subsection. For services performed in excess of the basic week, members shall be compensated on the basis of straight time in accordance with the ratio which said excess service bears to the basic week of service and the annual compensation provided therefor in section 35.5, or in lieu thereof equivalent time off duty with pay.))

(e) Nothing contained in this section shall be deemed to interfere with a vacation, as provided for in section 151 of this charter, or the normal days off per week; provided, however, that when in the judgment of the police commission public interest or necessity requires the services of any member to serve on his vacation, or part thereof, or normal days off, the said commission may authorize the Chief of Police to permit said member to serve during said vacation, or part thereof, or normal days off, and he shall receive additional compensation for the period so served. ((Said additional compensation shall be computed on the basis of straight time in accordance with the ratio which said extra service performed bears to the basic week of service and the annual compensation provided therefor in section 35.5.) as provided by ordinance of the board of supervisors.

(f) Nothing in this section shall abridge or limit in any way the provisions of Section 301, Part 1, of the San Francisco Municipal Code, approving Rule 32 of the civil service commission, insofar as sick leave and disability leaves for members of the department are concerned.

(g) Whenever in the judgment of the police commission the efficient performance of police duty requires that one or more members of the police department should report for roll call, orders, and assignments, prior to going on duty, the said commission may designate a period not to exceed fifteen minutes in any one day for said reporting, and the said periods of fifteen minutes need not be compensated for in money or in time off with pay.

(h) Notwithstanding the provisions of any of the foregoing subsections, the members of the police department shall be entitled to the days declared to be holidays for employees whose compensations are fixed on a monthly basis in the schedule of compensations adopted by the board of supervisors pursuant to the provisions of section 151 of the charter as additional days off with pay. Members required to perform police service in said department on said days shall be compensated as provided by ordinance of the board of supervisors ((on the basis of straight time as herein computed))
or shall be granted equivalent time off duty with pay in the judgment of the police commission.

(i) This section shall become effective on the first day of the month immediately following the date of ratification.

Section 35.5.1. Not later than the 15th day of February of each year, the civil service commission shall survey and certify to the board of supervisors rates of compensation paid police officers or patrolmen employed in the respective police departments in all cities of 100,000 population or over in the State of California, based upon the latest federal decennial census.

Not later than the 1st day of April of each year, the board of supervisors shall have power, and it shall be its duty, by ordinance, to fix rates of compensation for the members of the police department whose annual compensations are set forth in section 35.5 of this charter and said rates shall be in lieu of said annual compensations and shall be effective on the 1st day of July next following.

The rates of compensation, fixed in said ordinance,

(a) for the fourth year of service and thereafter for police officers, Police patrol drivers and women protective officers shall not be less than \((\text{exceed})\) the highest rate of compensation paid police officers or patrolmen in regular service in the cities included in the certified report of the civil service commission;

(b) for the first, second and third year of service for police officers, police patrol drivers and women protective officers shall include the same amount of adjustment as that used in fixing the rates of compensation for the fourth year of service for the same class;

(c) for said members of the police department other than police officers, police patrol drivers and women protective officers shall include the same percent of adjustment as that established by said ordinance for police officers in the fourth year of service; and

(d) shall be set at the dollar amount nearest the fractional amount which may result from percentage adjustment specified in this section, half dollars being taken to the next higher dollar amount.

The rates of compensation set forth in the budget estimates, the budget and the annual salary ordinance shall be those fixed by the board of supervisors as in this section provided and appropriations therefor shall be based thereon.

Not later than the 1st Monday of August of each year, the civil service commission shall survey and certify to the board of supervisors the rates of compensation paid police officers or patrolmen on the first day of August of that year in the cities hereinbefore referred to. The board of supervisors shall thereupon have the power by ordinance to revise all of the rates of compensation as in this section provided. Said revised rates shall be effective from the first day of July of the then current fiscal year.

If the board of supervisors revises said rates of compensation, then it shall, not later than the 25th day of August of the then current fiscal year, have the power, and it shall be its duty, subject to the fiscal provisions of the charter, but without reference or amendment to the annual budget, to amend the annual salary ordinance and the annual appropriation ordinance to include the provisions necessary for paying the rates of compensation fixed by the
board of supervisors as in this section provided for the then current fiscal year.

The expression "rates of compensation," as used in this section in relation to said survey, is hereby declared to apply only to a basic amount of wages, with included range scales, and does not include such working benefits as might be set up by any other city by way of holidays, vacations, other permitted absences of any type whatsoever, overtime, night or split shift, or pay for specialized services within a classification or rank, or other premium pay differentials of any type whatsoever. The foregoing enumeration is not exclusive, but it is the intent of this section that nothing other than a basic amount of wages, with included range scales, is to be included within the meaning of "rates of compensation."

Working benefits and premium pay differentials of any type shall be allowed or paid to members of the police department referred to herein only as provided by ordinance of the board of supervisors. ((is otherwise provided in this charter)).

For all purposes of the retirement system, the expression "rates of compensation" as used in this section, shall mean "salary attached to the rank" as used in section 166 and, with the addition of compensation ((of fifteen dollars per month)) now provided in section 35.5.2 of the charter with respect to members assigned to two-wheel motorcycle traffic duty, and section 35.5.5 of the charter with respect to members assigned to helicopter duty as pilots and/or observers, shall also mean "compensation earnable" as used in section 168.1.1.

The term "police officers or patrolmen" as used in this section shall mean the persons employed in the police departments of said cities of 100,000 population or over or of the City and County of San Francisco, to perform substantially the duties being performed on the effective days of this section by police officers, police patrol drivers and women protective officers in the San Francisco Police Department.

Section 35.5.5. Notwithstanding the provisions of section 35.5.1 or any other provisions of this charter, members of the Police Department assigned to helicopter duty as pilots or observers shall receive an additional ten per cent over and above the rates of compensation fixed by the board of supervisors pursuant to the provisions of section 35.5.1 of the charter.

The provisions of this section shall be effective on the first day of the month immediately following the date of ratification of this amendment by the State Legislature.

The board of supervisors shall have the power, and it shall be its duty, without reference or amendment to the annual budget, to amend the annual appropriation ordinance and the annual salary ordinance for the fiscal year 1969-1970 to include the provisions necessary for paying the additional rate of compensation for members of the police department assigned to helicopter duty as pilots or observers.

Section 35.5.6 Notwithstanding the provisions of section 35.5.1 or of any other provisions of this charter, and effective on the first day of the month immediately following the date of ratification of this amendment by the State Legislature, the monthly compensa-
tion for the following ranks in the police department for the balance of the fiscal year 1969-1970 shall be as follows:

For the fiscal year 1970-1971, and subsequent fiscal years, the rates of compensation for the above ranks shall be fixed in accordance with the provisions of section 35.5.1 of this charter.

The board of supervisors shall have the power, and it shall be its duty, without reference or amendment to the annual budget, to amend the annual appropriation ordinance and the annual salary ordinance for the fiscal year 1969-1970 to include the provisions necessary for paying the rates of compensation for the ranks herein provided.

Section 35.5.7. Notwithstanding the provisions of any section of this charter or any other provisions or limitations of this charter, the board of supervisors may, by ordinance, provide that members of the uniformed force of the police department shall receive premium pay for overtime, holidays and night duty, or for educational or other incentive programs.

The provisions of this section shall be effective on the first day of the month immediately following the date of ratification of this amendment by the State Legislature.

In the event the board of supervisors provides by ordinance that members of the uniformed force of the police department shall receive premium pay for overtime, holidays and night duty, or for educational or other incentive programs, the board of supervisors shall have the power, and it shall be its duty, without reference or amendment to the annual budget, to amend the annual appropriation ordinance and the annual salary ordinance to include the provisions necessary for granting premium pay to members of the uniformed force of the police department for overtime, holiday and night duty, or for educational or other incentive programs.

Section 36.01. Notwithstanding the provisions of Section 36 the several ranks in the fire department shall be: chief of department; deputy chief of department; chief, division of fire prevention and investigation; assistant chief of department; secretary to chief of department; battalion chief; supervisor of assignments; captain; lieutenant; inspector of fire department apparatus; engineer; chiefs operator; fire fighter; pilot of fire boats; and marine engineer of fire boats; director of community relations and the ranks specified in Sections 38.01 and 38.1 of this charter. The compensation of these ranks shall be determined as provided in section 36.2 of this charter.

The chief of department shall recommend and the commission shall provide by rule for work schedules or tours of duty and the board of supervisors shall by ordinance establish the basic week of
service which shall not be more than forty-eight hours, provided, however, that all tours of duty established for officers and members assigned to the fire fighting companies shall start at eight o'clock A.M. No such officer or member shall be required to work more than the basic week of service, nor shall any officer or member be required to work more than twenty-four consecutive hours except in case of a conflagration requiring the services of more than one-half of the force of the department. Officers and members may exchange watches with permission of the chief of department and time worked on such exchange of watches shall not be construed as time in violation of the limitation of the basic week of service nor twenty-four consecutive hours. Each such officer and each such member shall be entitled to at least one (1) day off duty during each week.

When, in the judgment of the fire commission, it is in the public interest that any such officer or member shall work on his day off and said officer or member consents to so work, he may at the direction of the chief of department work on said day off, and in addition to the regular compensation provided for said officer or member set forth in this charter, said officer or member shall be entitled to be compensated as provided by ordinance of the board of supervisors, or he shall be allowed the equivalent time off.

In any computation in the administration of the San Francisco city and county employees' retirement system in which the compensation, as defined in any provisions relating to the retirement system, is a factor, compensation for overtime provided for in this section shall be excluded, and no such overtime compensation shall be deemed as compensation for any purpose relating to such retirement provisions.

On the recommendation of the chief of department, the commission may reward any officer or member of the department for heroic or meritorious conduct, the form or amount of said award to be discretionary with the fire commission, but not to exceed one month's salary in any one instance.

Officers and members of the uniformed force shall be entitled to the days declared to be holidays for employees whose compensations are fixed on a monthly basis in the schedule of compensations adopted by the board of supervisors, pursuant to the provisions of section 151 of the charter, as additional days off with pay. Officers or members required to perform service in said departments on said days shall be compensated as provided by ordinance of the board of supervisors or shall be granted equivalent time off duty with pay in the judgment of the fire commission.

For payroll purposes, that portion of each tour of duty which falls within each calendar day shall constitute a single tour of duty.

The rate of compensation for the service performed by officers or members on a holiday or for service performed on an assigned day off, as in this charter, provided, shall be calculated by dividing the annual rate of pay for each fiscal year by the number of single tours of duty as scheduled for the several ranks in the fire fighting companies in said fiscal year.

The chief of department or, in his absence, the chief officer in charge, may, during a conflagration, cause to be cut down or otherwise removed any buildings or structures for the purpose of checking the progress of such conflagration.

The absence of any officer or member of the fire department on
military leave of absence, as defined by section 153 of this charter, shall be reckoned a part of his service under city and county, for the purpose of computing years of service in gaining added compensation as provided in this charter.

The provisions of this section shall be effective on the first day of the month immediately following the date of ratification of this amendment by the State Legislature.

((for said extra time served.))

(d) Each member of the uniformed force of the fire department shall be entitled to a vacation period ((of two weeks)) as provided for in section 151 of this charter, provided, however, that if in the judgment of the fire commission it is in the public interest that any member of the said department should continue his service to the department during his vacation period, or part thereof, and said member consents to continue his said service, the ((chief engineer of the department)) chief of department may permit said member to continue such service, and said member shall in addition to his annual vacation pay, or part thereof, be paid additional compensation for said vacation period so served. (e) Salary warrants for extra time served by officers and members of the uniformed force of the department shall be payable from the regular salary appropriation of said uniformed force for the prevailing fiscal year, and at no time shall extra compensation be authorized or paid in amounts exceeding the available unencumbered balance in said appropriation.

(f) Nothing in this section contained shall in any way interfere with the sick or disability leave provided for in Section 301, Part 1, of the San Francisco Municipal Code.

((g) This section shall be effective on the first day of July, if the same is ratified prior thereto by the legislature of the State of California, and if not so ratified shall be effective within fifteen (15) days after the date of its ratification.))

((h) The provisions of this section shall continue in force for a period of six (6) months after the termination of the present war between the United States and the Axis powers.))

The provisions of this section shall be effective on the first day
of the month immediately following the date of ratification of this
amendment by the State Legislature.

Section 36.1\(\frac{1}{2}\). Subject to the provisions of section 20 of the
charter governing the appointment and removal of non-civil service
officers, the assistants and employees, and without competitive
examination, the chief of department shall have the power to ap-
point, from among the members of the department having the rank
of assistant chief of department, a deputy chief of department and
from among the members of the department having the rank of
battalion chief, a secretary to the chief of department (\(\cdot\)), and
from any rank of the fire fighting force a director of community
relations.

\(\text{(This section shall become effective on the first day of July}
\text{1951.)}\)

The provisions of this section shall be effective on the first day
of the month immediately following the date of ratification of this
amendment by the State Legislature.

Section 36.2. Not later than the 15th day of February of each
year, the civil service commission shall survey and certify to the
board of supervisors rate of compensation paid (\((\text{firemen})\)) fire
fighters employed in the respective fire departments in all cities of
100,000 population or over in the State of California, based upon
the latest federal decennial census.

Not later than the 1st day of April of each year, the board of
supervisors shall have the power, and it shall be its duty, by ordi-
nance, to fix rates of compensation for the members of the fire
department whose annual compensations are set forth or otherwise
provided in sections 36 and 38.1 of this charter, and said rates shall
be in lieu of said annual compensations and shall be effective on the
1st day of July next following.

The rates of compensation, fixed in said ordinance,

(a) for the fourth year of service and thereafter for (\((\text{fire-
men})\)) fire fighters shall not (\((\text{exceed})\)) be less than the highest
rate of compensation paid (\((\text{firemen})\)) fire fighters in regular serv-
vice in the cities included in the certified report of the civil service
commission;

(b) for the first, second and third year of service for \((\text{fire-
men})\)) fire fighters shall include the same amount of adjustment as
that used in fixing the rates of compensation for the fourth year of
service for the same class;

(c) for said members of the fire department other than \((\text{fire-
men})\)) fire fighters shall include the same per cent of adjustment
as that established by said ordinance for \((\text{firemen})\)) fire fighters
in the fourth year of service; and

(d) shall be set at the dollar amount nearest the fractional
amount which may result from percentage adjustment specified in
this section, half dollars being taken to the next higher dollar
amount.

The rates of compensation set forth in the budget estimates, the
budget and the annual salary ordinance shall be those fixed by the
board of supervisors as in this section provided and appropriations
therefor shall be based thereon.

Not later than the 1st Monday of August each year, the civil
service commission shall survey and certify to the board of super-
visors the rates of compensation paid \((\text{firemen})\)) fire fighters on
the first day of August of that year in the cities hereinbefore referred to. The board of supervisors shall thereupon have the power by ordinance to revise all of the rates of compensation as in this section provided. Said revised rates shall be effective from the first day of July of the then current fiscal year.

If the board of supervisors revises said rates of compensation, then it shall, not later than the 25th day of August of the then current fiscal year, have the power, and it shall be its duty, subject to the fiscal provisions of the charter, but without reference or amendment to the annual budget, to amend the annual salary ordinance and the annual appropriation ordinance to include the provisions necessary for paying the rates of compensation fixed by the board of supervisors as in this section provided for the then current fiscal year.

The expression "rates of compensation" as used in this section, in relation to said survey, is hereby declared to apply only to a basic amount of wages, with included range scales, and does not include such working benefits as might be set up by any other city by way of holidays, vacations, other permitted absences of any type whatsoever, overtime, night or split shift, or pay for specialized services within a classification or rank, or other premium pay differentials of any type whatsoever. The foregoing enumeration is not exclusive, but it is the intent of this section that nothing other than a basic amount of wages, with included range scales, is to be included within the meaning of "rates of compensation."

Working benefits and educational incentive programs and premium pay differentials of any type whatsoever (shall be allowed or paid to) for members of the fire department (referred to herein only as is otherwise provided in this charter.) may be provided for by ordinance of the board of supervisors.

In the event the board of supervisors provides by ordinance that members of the fire department shall receive premium pay for working benefits, educational incentive programs or premium pay differentials of any type whatsoever, the board of supervisors shall have the power and it shall be its duty, without reference to or amendment of the annual budget to amend the annual appropriation ordinance and the annual salary ordinance to include the provisions necessary for granting premium pay to members of the fire department for working benefits, educational incentive programs or premium pay differentials of any type whatsoever.

For all purposes of the retirement system, the expression "rates of compensation" as used in this section shall mean "salary attached to the rank" as used in section 169 and "compensation earnable" as used in section 171.11.

The term ("firemen") "fire fighter" as used in this section shall mean persons employed, in the fire departments of said cities of 100,000 population or over or of the city and county of San Francisco, to perform substantially the duties being performed on the effective date of this section by (drivers, stokers, tillermen, truckmen, or hosemen,) fire fighters in the San Francisco Fire Department.

The expression "members of the fire department" does not include members of the fire commission.

Notwithstanding the provisions of this section or of any other provisions of this charter, and effective on the first day of the
month immediately following the date of ratification of this amendment by the State Legislature, the monthly compensation for the director of community relations for the balance of the fiscal year 1969-1970 and for subsequent fiscal years shall be five dollars below the compensation paid the next higher rank, excluding chief's operators, in the fire fighting service above the rank of the member selected.

Notwithstanding the provisions of this section or of any other provisions of this charter, and effective on the first day of the month immediately following the date of ratification of this amendment by the State Legislature, the monthly compensation for the following ranks in the fire department for the balance of the fiscal year 1969-1970 shall be as follows:

<table>
<thead>
<tr>
<th>Rank</th>
<th>Compensation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chief of department</td>
<td>$2,916</td>
</tr>
<tr>
<td>Deputy chief of department</td>
<td>2,625</td>
</tr>
<tr>
<td>Supervisor of assignments</td>
<td>1,613</td>
</tr>
</tbody>
</table>

For the fiscal year 1970-1971, and subsequent fiscal years, the rates of compensation for the above ranks shall be fixed in accordance with the provisions of section 36.2 of the charter.

The board of supervisors shall have the power, and it shall be its duty, without reference or amendment to the annual budget, to amend the annual appropriation ordinance and the annual salary ordinance for the fiscal year 1969-1970 to include the provisions necessary for paying the rates of compensation for the ranks herein provided.

Section 36.3. The rate of compensation fixed pursuant to the provisions of section 35.5.1 of the charter for police officers, police patrol drivers and women protective officers for the fourth year of service and thereafter and the rate of compensation fixed pursuant to the provisions of section 36.2 of the charter for fire fighters for the fourth year of service and thereafter shall be the same. Such rate shall not exceed the highest rate of compensation paid, whether it be paid to police officers, patrolmen, or fire fighters in the cities included in the certified report of the civil service commission submitted to the board of supervisors pursuant to the aforesaid sections of the charter.

((On ratification of this section, the board of supervisors shall have the power and it shall be its duty to adjust by ordinance the rate of compensation fixed for firemen for the fourth year of service and thereafter for the fiscal year 1963-1964 so that it shall be the same rate of compensation as that fixed for police officers, police patrol drivers and women protective officers for the fourth year of service and thereafter for the said fiscal year. Such ordinance shall adjust the rates of compensation for other members of the fire department for the said fiscal year by corresponding percentage adjustments in the manner provided by section 36.2 of the charter.

The board shall have the power and it shall be its duty, without reference or amendment to the annual budget, to amend the annual appropriation ordinance and the annual salary ordinance for the fiscal year 1963-1964 to include the provisions necessary for paying said rates of compensation from July 1, 1963.))

For all purposes of the retirement system, the expression "rates of compensation" as used in this section shall mean "salary attached to the rank" as used in section 169, and "compensation earnable" as used in section 171.1.1.
(For all purposes of the retirement system, the first adjustment of rates of compensation made by the board of supervisors after the effective date of this section shall be the rates of compensation for the members affected for the remainder of the fiscal year 1963-1964 following the month in which the ordinance making such adjustment becomes effective, and the rates of compensation set forth in the annual salary ordinance at the beginning of the fiscal year 1963-1964 shall be the rates of compensation for said retirement purposes for the period from the beginning of the said fiscal year through said month.)

The provisions of this section shall only apply to persons who are members of the fire department and the police department on or after the effective date of this section.

The provisions of this section shall be effective on the first day of the month immediately following the date of ratification of this amendment by the State Legislature.

Section 36.10. In the event of a dispute or grievance over work schedules of working conditions within the power of the fire commission to grant or establish, which is not resolved by discussions in good faith between the fire commission and the arbitration and grievance committee of the employees, hereinafter referred to as the parties, either party may submit the dispute to an arbitration board composed of a member of the fire commission, a representative designated by the arbitration and grievance committee of the employees and a third member to be appointed by the mayor after consultation with both parties.

If the parties cannot agree on the third member, the mayor shall request the conciliation service of the Department of Industrial Relations of the State of California to submit the names of five (5) arbitrators. The fire commission and the arbitration and grievance committee of the employees, shall alternately eliminate one of the five arbitrators until only one arbitrator remains who shall serve as the third member and chairman of the arbitration board. Upon submission of the dispute to the arbitration board, the board shall hold a hearing or hearings concerning the dispute and the findings of the majority of the members of the board in such arbitration shall be binding on both parties. The expenses of third member shall be borne equally by the parties. Each party shall bear the expense of its own presentation. Procedures for designation of the membership of the arbitration and grievance committee of the employees shall be set forth in an ordinance of the board of supervisors.

The provisions of this section shall be effective on the first day of the month immediately following the date of ratification of this amendment by the State Legislature.

Ayes: Supervisors Blake, Boas, Ertola, Francois, Gonzalces, Mailliard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen.

I hereby certify that the foregoing Charter amendment was ordered submitted by the Board of Supervisors of the City and County of San Francisco.

ARGUMENT FOR PROPOSITION "D"

VOTE "YES" ON PROPOSITION "D"

A "YES" vote on Proposition "D" will bring greater emphasis on Police Community Relations. It will provide for a Director of Community Relations with authority commensurate with the responsibility of the position.

A "YES" vote on Proposition "D" will assist in the recruitment and retention of police officers. It will provide for the following:

a) Assignment to the important investigative positions as the result of demonstrated merit in competitive examinations.

b) Enable the Board of Supervisors and Mayor to grant working conditions to police officers similar to those enjoyed by persons in private employment. If we are to be successful in recruiting police officers, conditions of employment must be competitive with those of other jurisdictions.

c) Salary adjustments will be provided to adequately compensate officers in certain specified positions. Similar benefits will be provided for the Fire Department.

ARGUMENT AGAINST PROPOSITION D

Please Read This Carefully . . . .
It Means Saved Tax Dollars to You . . . .
More Important, it Means Your Personal Safety . . . .
Dear Friend:
Keep Politics out of the San Francisco Police Department.

Keep Your Taxes Down.
Vote No On Proposition D When You Vote On November 4.

Here are the cold facts about Proposition D—facts which cannot be swept under the rug by the politicians.

City Hall politicians thought they had a great idea—for them and their favorites—a bad idea for you and the police.

The politicians drafted Proposition D, rammed it through the Board of Supervisors and put it on the November 4 ballot.

Proposition D will cost you wasted tax dollars by upping the salaries of a chosen few favored by the politicians.
Keep Your Taxes Down.
Proposition D will create new positions and higher salaries for those at the top, not the policemen who fight crime in the streets, who protect your homes and places of business—the men you call when you need help.
Proposition D will perpetuate the spoils system thus hurting the morale of the policemen—the officer on the sidewalk, in the patrol car, on the motorcycle, on horseback—the men on whom you depend for your safety.
Proposition D will not put more policemen on the street for your protection.

Keep Your Taxes Down.
We must put an end to the spoils system which enables City Hall politicians to take care of their favored few by raising your taxes.
We want Civil Service promotions—promotions based on merit—not on political influence.

Keep Your Taxes Down.
Vote NO on Proposition D and save your dollars, your business and—maybe your life.

Sincerely,
SAN FRANCISCO POLICE OFFICERS ASSOCIATION
By HARRY BELL, President

ARGUMENT AGAINST PROPOSITION D
VOTE NO ON “D”—DEFEAT THIS GIVEAWAY!
Prop. “D” is another City Hall salary giveaway that would add millions of dollars to your tax burden. The Controller reports the potential tax cost at $4,777,000 a year—equal to 21 cents in the tax rate.
Prop. “D” opens the door to political manipulation of hours of work for policemen and firemen. Firemen could be working two days a week and policemen less than 40 hours a week at full pay.
Prop. “D” would force San Francisco to pay the highest salaries in the State—perhaps on the basis of a handful of employees’ rates in a smaller city.
Prop. “D” is dangerous—it would give the Supervisors a blank check on fringe benefits.
VOTE NO ON “D.” Police and firemen have just been given a 12 per cent salary increase costing $6 million. Taxes are at a record high—do you want the rate to go higher?

CONTROLLER’S STATEMENT PURSUANT TO CHARTER
SECTION 183
PROPOSITION “D”
Amends Sections 35.3, 35.4, 35.5, 35.5 1/2, 35.5.1, 36.1, 36.1 1/2, 36.2
59
and 36.3, and adds Sections 35.5.5, 35.5.6, 35.5.7, 36.01 and 36.10. Relating to the Police and Fire Departments.

Should the proposed charter amendment be adopted, in my opinion, based on 1969-1970 budget provisions, the annual increase in the cost of government of the city and county would be approximately $4,845,000 of which approximately $68,000 would not be paid from property taxes; the remainder, $4,777,000, based on the 1969-1970 assessment roll is equivalent to twenty-one and three tenths (21.3) cents in the tax rate.

To the extent that the fire department administration is able to consolidate existing fire stations without impairing service, the above estimate of cost would be reduced. At the date this statement was prepared plans for such consolidation had not been formulated.

The above estimate of costs considers that the Board of Supervisors will provide to policemen and fire fighters the same rate of compensation for work performed on overtime, holidays, regular days off, and on night shifts as are now provided to other salaried employees.

Proposed amendment to section 35.5½ provides that the basic work week for police officers shall be not more than forty hours; proposed addition of section 36.01, among other things, provides that the basic work week for fire fighters shall be not more than forty-eight hours; proposed amendment to section 35.5.1, provides that rates of compensation for police officers shall be not less than compensation paid police officers employed in all cities of 100,000 population or over in the State of California; proposed amendment to section 36.2 provides that rates of compensation for fire fighters shall not be less than the compensation paid fire fighters employed in all cities of 100,000 population in the State of California. These provisions in themselves do not create any additional cost, but as a product of their application to future legislation additional costs of government may be incurred which are not determinable at this time.

City and County of San Francisco

PROPOSITION E

Shall the proposed Charter for the City and County of San Francisco be adopted?

The complete text of Proposition E will be found in two separate pamphlets titled Charter of the City and County of San Francisco, Part I and Part II which are included in this envelope containing your voting material.

ARGUMENT FOR PROPOSITION "E"

A Citizens' Charter for San Francisco

This Revised Charter was written with the broad participation of the people of San Francisco, not by special interests.

The basic approach was developed by a Citizens Charter Revisi
three annual installments. This revised Charter is the first install-
ment. It is presented in the form of a new charter in order to comply
with legal requirements. In fact, however, only a third of the charter
is new. The other two-thirds cover subjects which are to be studied by
the Charter Revision Committee in its second and third year.

The new provisions do the following:
1. Change parts of the present charter dealing with powers of
the City and County; powers and duties of the Board of Super-
visors; legislative procedures; organization of the executive
branch; powers and duties of the Mayor, appointive officers and
various offices, agencies, departments, boards, and commissions;
budget procedures and administration;
2. Provide for the changeover to the new provisions;
3. Provide that the jobs of the employees of the City and County
will not be adversely affected when the Revised Charter goes into
effect.

Many provisions of the existing charter are being carried over;
these relate to:
The rights and obligations of employees; election rules and
procedures; the number, compensation, and manner of election of
supervisors; the civil service commission, retirement board, and
port commission; schools; certain elective officers; limitations on
revenues and expenditures; special procedures; the judicial system.

At meetings and public hearings throughout the city, the Cit-
zens Charter Revision Committee heard the evidence of community
leaders, experts in and out of government, and—most important—
many, many concerned San Franciscans with no ax to grind but
their desire for a better city. Numerous interested civic and neigh-
borhood groups were asked for their views.

After nearly a year of testing possible approaches with the com-
munity, the Committee presented its recommendations. A commit-
tee of the Board of Supervisors then heard much further testimony.

The result is a revised charter based on wide community support
from average citizens. In a very real sense, it is their charter.

What's Wrong With the Old Charter?

Big flaws in the thirty-eight year old Charter make City Govern-
ment more costly and less effective than we can afford. Here is why:
The old Charter is too long. Over 400 amendments have made it
disorganized, ambiguous, confusing and in part obsolete.
The old Charter has lagged behind the times. It has preserved,
in concrete, ideas about government that were old-fashioned 20
years ago. Times have changed, but not the Charter.
The old Charter robs the City of effective fiscal controls. Both
preparation of the budget and administration of City spending are
old-fashioned and uninformative. No one really knows what City
programs cost, nor what they achieve. No one really knows if City
funds are being properly spent.
The old Charter splits authority and responsibility, and para-
lyzes decision-making. A multitude of independent, semi-independ-
ent, or hold-over boards, commissions and departments really run
the City. These groups are not directly responsible to the people or
even, in many cases, to the people's elected representatives.
The old Charter locks the citizen out of City Government. The
structure it imposes on City Government makes it difficult both to
hear the voice of the people and to respond to it.
The Revised Charter Will Save Tax Dollars

This is no spendthrift charter. It will make sense out of our senseless budget. In 1961, management experts estimated conservatively that budget changes like those in the revised Charter would save five per cent of the total annual budget, excluding the schools, or about $20 million a year.

The Revised Charter will require professional scrutiny of the City's budget—both by the Executive and the Board of Supervisors—to make sure not one unnecessary dollar is spent. It will end overlap and duplication of City operations and services. It will remove the causes of delays which have cost taxpayers millions of dollars.

The Revised Charter even contains a guarantee that it will save more than it may cost; before the Supervisors vote to spend, they must be satisfied that Revised Charter changes will save more than enough to cover any new expenses.

The Revised Charter Will Give City Government Back to the People

In a democracy, government belongs to the people, acting through elected representatives. But the old Charter won't let elected representatives do the job they are elected to do, because it ties their hands and builds a hundred hiding places for real authority in unresponsive boards, commissions, and officers, some appointed practically for life.

There are no hiding places in the Revised Charter. Elected officials will have clear responsibility and adequate authority. You, as a voter and taxpayer, will know who to blame—and vote out of office—if City government isn't meeting your needs.

No More Charter Road Blocks

Obsolete organization and procedures will be removed from the Revised Charter. This means City Government will no longer have to say "Of course we should do it that way, but we can't under the Charter." And City Government will be able to react quickly, efficiently, and economically, as the needs of the City change.

No Lifetime Appointments

There will be no top-level policy-makers who as a practical matter are locked into office for life. This undemocratic feature of the old Charter will be discarded. The performance of every key official will be subject to review at periodic intervals. Departments will be more directly accountable to elected officials who in turn must answer to the public.

Responsive, Representative Commissions

A change in the role of commissions will give you a real opportunity to be heard before decisions are made. Every new-style board and commission will be free to make policy, instead of being bogged down in operating detail. Freedom from management responsibility means commissions can be much larger, allowing more groups to be represented and everyone's interest to be served.

Strong Checks and Balances

The Revised Charter gives the Mayor, as the City's elected chief executive, the authority and tools he needs to meet his responsibilities to the people; at the same time the Charter builds in checks and balances to prevent abuse of his authority.

The Board of Supervisors will have everything it needs to keep a close watch on the Executive: staff, budget control, freedom to in-
vestigate and criticize, and a veto over the selection and arbitrary removal of the chief administrative officer. The Revised Charter will discard the antique Charter gag that has kept the Supervisors from telling City administrators when their policies and practices are unacceptable to the people.

Powerful independent watchdog offices will protect the public interest against corruption and favoritism. The Controller, released from long-outmoded procedures, will be able to adopt methods far more likely to reveal possible misuse of public funds. The Planning Commission, newly independent from direct political pressure, will be better equipped to promote orderly development without sacrifice of the City's special qualities. A unique and independent Office of Information and Complaints will help every resident get a fair deal from City Hall.

Tough new prohibitions, which can lead to removal from office, will prevent a Mayor from interfering in the award of City jobs, contracts, and permits.

Give San Francisco responsive, economical, honest government. Give Government back to the People. Vote YES on "E".

ARGUMENT AGAINST PROPOSITION “E”
A special argument against the proposed charter

To friends of: Department of Recreation and Parks, Library De-
partment, Art Commission, War Memorial, M. H. DeYoung Museum,
California Palace of the Legion of Honor, California Academy of
Sciences.

I believe you were double-crossed by the Charter Revisers.

I was present when there was presented to the Board of Super-
visors' Legislative and Personnel Committee your opposition to be-
ing arbitrarily reformed into a “Cultural and Recreational Resources
Agency” with loss of Charter status and of powers of independence
in policy-making and administrative management. This plan was
apparently just picked out of the air by the Charter Revisers be-
cause New York City had something similar. Your wishes or desires
in this matter had not been given weight or sympathetic considera-
tion prior to the issuance of the June, 1969 Charter Revision Report.

I was also present when it was verbally promised by the Legisla-
tive and Personnel Committee that your independence of status and
of powers of administrative and governmental management were to
be retained, but only to be organized within an informal framework
of a clearing house or Council. It was the distinct impression of your
representatives that the full Charter status of each of your organiza-
tions was to be retained just like any other City Commission in
City Government. Your representatives so spoke for you on this
basis. The exact wording of the new Charter provision was to be
left to the good faith of the Legislative and Personnel Committee.
As a result, you and your organization withdrew opposition, pres-
ence and representation before that Committee and the full Board
of Supervisors.
The detailed provisos that were supposed to protect your independent Charter status and your independence of administrative and governmental management appeared only after adoption in a closed door meeting of the Committee as Sections 11.108-11.111. I believe that a simple reading of these provisions will prove to you, just as it did to your representatives and other independent legal consultants, that the legal status of your organizations under the new Charter will have only the force and effect of simple ordinances. They will, therefore, be subject to peremptory modification by simple ordinance procedure or reorganization at the whim of any Mayor by executive order without recourse to referendum procedures. Your independence in policy making and in administrative management of your affairs in any event lasts only three years. However, on adoption of the new Charter, changes in your powers, jurisdictions and status will in no event be subject to automatic ratification by the voters.

In my opinion, you who opposed the original scheme were adroitly maneuvered out of your rights and opportunities to state your cases and press your opposition to the Board of Supervisors before this adoption of the package in camera. I call this to your attention and urge you to work for defeat of this scheme and thus give yourselves the opportunity to argue your cases in full before the proper tribunals of government that may in the future consider City and County government reform.

ARGUMENT AGAINST PROPOSITION “E”

Vote—NO—Charter Revision Shortchanges San Francisco

For almost three decades San Franciscans have discussed the necessity for a revised charter.

Their patience has been rewarded by a document, which if foolishly approved by the voters, would destroy the present protection of checks and balances, and allow the return of artful politicians who could descend upon a helpless San Francisco.

The term “foolishly approved by the voters” is used above simply because the so-called revised charter is so worded; its pitfalls unfortunately so concealed, that only the most careful, cautious voter is apt to spot the danger.
What Are These Pitfalls

(1) If it does not destroy, the revised charter surely adulterates and weakens the built-in Checks and Balances that protected all the citizens under the Present Charter.

(2) Under the revised charter the offices of Controller and Chief Administrator would be made politically subservient to the Mayor. This dangerous move could (a) destroy our system of Checks and Balances, (b) could transform our City Government into a personal political machine.

(3) The Controller must be free of political pressure so he can withhold funds if they fail to comply with legal provisions—certify the availability of funds—not on a political, but a legally prescribed basis.

Lush Fund Temptation

(4) The Chief Administrator is responsible for our Health Department, Hospitals, Department Works, Finance and Records offices and other institutions. He also disburses more than $1,000,000 (one million dollars) in the Publicity and Advertising Fund. The temptation to misuse this lush fund by a politically motivated Mayor is very great.

Can the voter imagine the chaos existing at City Hall each time a new Mayor came into office? In naming a new Controller? A new Chief Administrative Officer? A political Mayor could name inept, political ward-heelers to those mouth watering jobs. It has been done many times, in many places, you know.

The Lump Sum Budget

The new charter provides that appropriations shall be made in lump sum amounts. Do You Realize This Dangerous Fiscal Procedure?

Instead of the present check by the Controller that moneys shall be spent, item by item as provided in the budget, the department head will have authority to spend as he sees fit, regardless of responsible fiscal procedure.

Instead of a check first by the Controller, the audit will be made after he expends the funds. Like locking the door after the horse is gone.

Reckless Spending

Under the revised charter, many more new jobs would be frozen into the Mayors office—more jobs for the supervisors—and other new offices and bureaus. Did you ever hear of economy by creating more jobs and bureaus that continually expand, but never die.

We need a Charter that will help us save—not one that mandates more spending. Our present Charter protects fiscal integrity and responsibility of Officials and our City. It has been tested in the Courts—and holds public officials to full responsibility for misdeeds.

On past performance it deserves respect.

Can the revised charter promise respectable performance?

Many responsible citizens think not.

ARGUMENT AGAINST PROPOSITION “E”
San Francisco Junior Chamber of Commerce recommends a “NO” vote on charter revision

Do you really understand the multitude of drastic changes proposed for charter revision? A full discussion has not been had by all the people of San Francisco.

The proposal shifts the power structure and the philosophy of San Francisco government. In many respects the proposal could create the same unsatisfactory conditions that caused our present charter to be adopted.

The sections relating to appropriations, accounting methods, director of information and complaints, and budget analysts for the Board of Supervisors could probably best be adopted by ordinance rather than by inclusion in the charter.

Next year is soon enough to vote on a charter with which San Francisco will have to live for generations to come.

Defeat this proposal and help bring forth the needed charter changes for next year’s ballot.

Please vote NO!
SAN FRANCISCO JUNIOR CHAMBER OF COMMERCE

ARGUMENT AGAINST PROPOSITION “E”
Vote NO on Proposition “E”—Retain Checks and Balances in City Government

While the present Charter is unwieldy and needs revision, it has served well for more than a generation. During that time there has never been a hint of scandal in the administration of City government. The proposed Charter revision package would eliminate many of the important checks and balances which have prevented corruption and protected the interests of taxpayers. These checks and balances should be incorporated into a new, modernized Charter. Until they are, voters should reject proposals that do not contain important safeguards.

Vote NO on Proposition “E”—Keep Political Favoritism Out of City Hall

City government would become far more political under Proposition “E.” For example, the Chief Administrative Officer would become, in effect, a political appointee of the Mayor rather than a skilled, non-political administrator. Ironically, a Chief Administrative Officer charged with misconduct in office could be removed only with great difficulty, after a public hearing, while a Chief Administrative Officer whose only offense might be his personal political beliefs, could be removed immediately without any hearing and without any rights.

At the same time the proposed Charter would create six new highly-paid, politically-appointed positions under the Mayor. These positions would be exempt from Civil Service and appointees could be fired and hired by the Mayor at will. Each new department head will of course require a car, an office, an expense account, and a number of staff employees. The cost will be significant and the only result is likely to be the addition of another layer of politically-oriented employees at taxpayer expense.
Vote NO on Proposition "E"—Give Citizens a Voice in Government

If Proposition "E" passes, most City boards and commissions will be reduced to meaningless stature. Although the Charter proposal refers to these boards and commissions as "policy boards," in fact they would be toothless advisory bodies with authority to make, but not to implement, recommendations. Politically-appointed bureaucrats would be free to ignore recommendations from so-called policy boards. Thus, these boards would be a drain on City funds without performing any useful function.

Voters should vote NO on Proposition "E" and demand that the Charter Revision Committee go back to work and create real policy boards that will give citizens a voice in City government.

Vote NO on Proposition "E"—Reject False Promises of Tax Savings

Although proponents claim that great economies and tax savings will result from passage of Proposition "E," actually it is more likely that taxes will be increased. The ballot argument submitted by proponents states unequivocally that "not a single City officer or employee will lose his job" if this measure passes. Not only will no one be dismissed, a whole new layer of highly-paid, politically-appointed jobs will be added. Under the circumstances, it is difficult to see where any taxpayer dollars will be saved.

Vote NO on Proposition "E"—Protect Taxpayer Dollars

The present Charter assures honesty and integrity in government by providing absolute liability for public officials who misuse taxpayers' funds. The new Charter has a greatly reduced standard of fiscal responsibility for public officials. The present Charter has kept corruption out of City government since 1932. The taxpayers deserve the continued protection provided by tight controls against misuse of public funds.

Vote NO on Proposition "E"—Demand a Responsive City Charter

There is plenty of time to do the job of modernizing City government if it is done right the first time. There is not time to make a bad start that will immediately require countless amendments. Proposition "E" contains numerous defects that can be repaired only by many more amendments. Voters should reject this hasty measure and demand that the Citizens Charter Revision Committee go back to work to prepare a modern Charter that will protect the interests of the citizens and taxpayers.

GREATER SAN FRANCISCO CHAMBER OF COMMERCE
ARGUMENT AGAINST PROPOSITION "E"

The San Francisco Charter might well stand in need of some editing of surplus language. Yet as a developing document guaranteeing honesty of government and protection of city employee rights, it stands nationally recognized as a tested and respected document that has enhanced the reputation of our city.

Instead of amending or improving deficiencies, if any, in this charter, two young attorneys have been hired from the east coast as staff for a Charter Revision Committee and have presented, amended, doctored and politically negotiated an entirely new Lack of interest and inertia was unprecedented as a committee of three members of the Board of Supervisors spent several hours in abdicating their responsibility to the Charter Committee's staff
and approved this revision scheme that will constitute a new Charter for our city. The Board itself refused to debate the issue.

The resulting proposition contains the following points of concern for city employees and all San Franciscans:

1. Amendments designed to safeguard, regulate and protect rights of city employees have been relegated to a future, new, unknown proposal not included in this “new” charter unless found in “transition provisions” which are self-eliminating in three years and have only the powers of ordinances.

2. Submission now of only a third or less of the ultimate proposals tears apart a fabric that ought, in common sense and logic, to be considered as an organic whole. Suspicion rises particularly when city employee matters are separated for future consideration. The results, and the price tag, become impossible to forecast.

3. It proposes in Section 3.340 “In order to enhance the effectiveness and efficiency of the executive branch, the Mayor may... submit to the members of the Board of Supervisors a reorganization plan to create, alter, or abolish offices, agencies, departments or commissions; to designate or change their names or the titles of their principle executives; and to abolish or transfer functions among officers, agencies and departments.”

There is no real qualification on this total power of reorganization which might have serious effects on city employments. Under Section 3.343 it becomes effective 45 days after submission unless the Board rejects it by resolution. Any political analysis indicates this veto power by the Board means practically nothing. And the people will have no right to pass upon this even by referendum. So the Revision Committee, facing a difficult and key issue, simply took the easy way out by making organization and reorganization the duty and function of the Mayor without electorate approval. It is hoped we never have a Mayor that will make us regret this unprecedented gift of power.

4. Section 3.303 (a) “An ‘agency’, by ordinance or by reorganization plan, shall be given the responsibility to coordinate...the other administrative units defined in Section 10.101 (e) which perform activities related to the jurisdiction of the agency.” “Other administrative units” in Section 10.101 (e) are defined as “any other body which is not a part of City and County government, but which assists or is assisted by it, including without limitation, public or private bodies, associations, and corporations which...with the express consent of the City and County...perform administrative functions and duties for the City and County.”

This means we can farm out administrative functions in the Controller’s office to the often criticized Blythe-Zellerbach Committee; in the Board of Permit Appeals to SPUR; in the Public Utilities to the Chamber of Commerce; and in Planning to the Labor Council. All this without regard to Civil Service.

5. The refusal of Supervisors to request or heed the thoughts and warnings of responsible and respected officers of government is frightening in its implications. This includes the City Attorney on legal aspects (7/19/69); the Clerk of the Board on legislative matters (7/22/69); the Controller on fiduciary integrity (8/14/69); and others including previous Mayors.
6. (Section 2.302 (b)) "An emergency ordinance may be passed on the day of its introduction without reference to committee, notice or hearing..." And without the old requirement the Board find an emergency does exist.

7. The bonding requirements for officers found in the old Charter have been dropped. (A real mistake on the part of incumbent politicians.)

8. It is not proposed that supervisors be elected by districts so they will be responsive and representative to a definite constituency. Since such a proposal would have great effect on consideration of Charter amendments it must be assumed this omission was deliberate and the status quo will maintain.

9. The blank check of patronage becomes important when historical responsibilities are re-assigned. Previous controls, checks and balances that have successfully guaranteed fiscal integrity and individual responsibilities in the past need the utmost of careful consideration when the Chief Administrative Officer and Controller are being emasculated; only six Supervisors can pass any ordinance; and Commissioners are relegated to an "advisor" capacity.

10. Present Section 22 provides the Board of Supervisors may not interfere in administrative affairs. The new revision, Section 2.401 may allow a relaxation over the old Charter whereby Supervisors may bring about an investigation of Administration. It is the studied and informed opinion of many examiners that this new provision is questionable as to the extent to which it may be used. This same confusion applies in Section 2.103 where "The Board of Supervisors may appoint legislative and administrative analysts, exempt from the Civil Service..." It does not mention budget or political expertise.

ARGUMENT “AGAINST” PROPOSITION E

Vote “NO” on Proposition E

The Charter Revision would give excessive power to the Mayor and other City Hall politicians to create cush jobs for their favorites. This power would be taken from the people ... at taxpayers’ expense. Keep taxes down.

In the Police Department, for example, the Charter Revision would hamper advancements through Civil Service examinations. Keep promotions on the basis of merit. When City Hall Politicians take over the Police Dept.—or any other department—efficiency becomes non-existent and morale is killed. Keep City Hall politicians out of our Police and other departments and out of our pockets. We join the fight of the Police Officers Association and others in objecting to the Charter Revision which would put an additional tax burden on the people.

ARGUMENT AGAINST PROPOSITION E

Vote No on “E”—A “New Charter” on the Installment Plan

The Citizens Charter Revision Committee is attempting to revise the Charter in three stages. Prop. “E” is the first stage and is a radical change of government structure. It is not a re-writing of the present Charter to remove obsolete language but a different concept with greater powers given to the Mayor and the Supervisors. The voters may never act on stages two and three.

“E” would place the Chief Administrative Officer in the Mayor’s Office. The independence and freedom from politics of this important office is an asset to the taxpayers.

“E” would create additional high-paid non-civil service jobs, adding to the already crushing tax burden.

“E” could weaken the bonding procedure for public officers—a safeguard now in the Charter.

ARGUMENT AGAINST PROPOSITION E

Argument Against Charter Revision

This proposal is more than charter revision. It creates a brand new form of government with less control by the people. We presently enjoy the protection of a check & balance form of government with our Chief Administrative Officer free of political pressure. This guarantees divided responsibilities for separate functions; one for running the machinery of government and the other for setting policy & legislation. Under this new proposal, the Chief Administrative Officer can be fired without cause and without public notice by a possibly politically motivated Mayor and six Supervisors. A Charter, unlike a Constitution, is not only an outline of government functions but is a reservation of power in the people against government itself. Its very size is added protection to the people against government usurpation. This proposal takes too much power from the people and vests it in the hands of the politicians.

ARGUMENT AGAINST PROPOSITION E

Argument Against Charter Revision

If you don't want another estimated half million dollars added to your annual property taxes (which will mean increased rentals as landlords will be forced to pass this increase on to tenants), vote no on this bad piece of piecemeal legislation that creates 6 new high priced government executives. It will take away your right to vote on the remaining 2/3 of this charter, not included in this revision. Just because our Charter is old doesn't mean that it's bad. Though the new revision offers a few good ideas, the dangers contained therein far exceed the good points. We are glad that the President of the Board of Supervisors, Supervisor John Ertola and Supervisor William Blake recognized the dangers contained in this proposal and voted against its adoption.

ARGUMENT AGAINST PROPOSITION "E"
Vote "NO" on Proposition "E"

The present Charter provides for a division of power between the Mayor, Chief Administrative Officer and the Board of Supervisors, at least when the Board chooses to independently exercise that power.

The proposed revised Charter provides for the power to be vested in the Mayor.

Since the Mayor’s role would be strengthened, it is very important to develop also a strong, Independent Board of Supervisors to act as a check and balance; however, it will take a few years for such checks and balances to be studied before submission to the voters. Inasmuch as now all the present administration has to do is snap his fingers and six supervisors (his majority) snap to attention... where are your checks and balances in the meantime?

You are selling your birthright, the right to vote and be represented in government if this revised charter is passed.

The proposed revised Charter provides that in order to enhance the effectiveness and efficiency of the executive branch... that’s the Mayor... he may submit to the Board of Supervisors a reorganization plan to create, alter or abolish offices, agencies, departments or commissions; to designate or change their names or the titles of their principle executives; and to abolish or transfer functions among offices, agencies and departments. All this can be done within 45 (forty-five) days with the approval of the Board of Supervisors. Or if they fail to act, without their approval.

Why so long? The World was created in 7 days.

With the majority of power of appointments in the Mayor’s domain, civil service will be a shambles. You work yourself gradually to the top of the ladder, only to be cut down by some political appointee, subject to the wishes of one man.

The present charter is basically a sound document. We have spent over $250,000 to court test each segment of this instrument of justice. It needs a little updating; not an emasculation.

Vote "NO" on Proposition "E." It can and will destroy the citizens of San Francisco.

ARGUMENT FOR PROPOSITION "F"

We need more policemen in our City. Proposition "F" will remove the limitation on the number of police officers serving our City. Under the present provisions of the Charter, the police force is restricted to one policeman to every 500 inhabitants. This old limitation is absurd with the rising crime rate and the continued demands upon the police department of San Francisco. No other department of city government is restricted in this manner. The police department should not have its hands tied in rendering the protection that is demanded by citizens. Vote yes on "F" and help give San Francisco more effective law enforcement.

PROPOSITION G

Amends Section 146: Relating to promotive examinations in the uniformed forces of the Police and Fire Departments.

CHARTER AMENDMENT

PROPOSITION G

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the Charter of said city and county by amending Section 146, relating to promotions.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on November 4, 1969, a proposal to amend the Charter of said city and county by amending Section 146, thereto, so that the same shall read as follows:

NOTE: Additions or substitutions are indicated by bold-face type; deletions are indicated by ((double parentheses)).

PROMOTIONS

Section 146. Whenever it deems it to be practicable, the civil service commission shall provide for promotion in the service on the basis of such examinations and tests as the commission may deem appropriate, and shall, in addition, give consideration to ascertained merit and records of city and county service of applicants. The civil service commission shall provide for promotive examina-
tions in the uniformed forces of the police and fire departments within three years from the date of the adoption of the list resulting from the immediate prior examination. The commission shall announce in the examination scope circular the next lower rank or ranks from which the promotion will be made. Except as specifically provided in other sections of this charter, all promotions in the uniformed forces of the police and fire departments, respectively, shall be made from the next lower civil service rank attained by examinations, as herein set forth, giving consideration also to meritorious public service and seniority of service and a clean record in the respective departments. All such promotive examinations in the police and fire departments shall be entirely of a written character, and all questions asked or problems given in said examinations shall pertain to matters concerning the duties of members of the department for which the examination is held.

((Fifteen percent)) Ten per cent of the total credits obtainable under any promotive examination for eligibles for the police or the fire department shall be allowed for seniority of service, which said credits shall be distributed as follows:

Examination for Eligibles for the Police Department

(a) For Promotion to the Rank of Sergeant of Police: One per cent of the total credits allowed for the entire examination shall be allowed for each year of service in the department until a total of ((fifteen)) ten per cent of the credits of the entire examination is reached.

(b) For Promotion to the Rank of Lieutenant of Police: ((Six-tenths)) One half of one percent of the total credits allowed for the entire examination shall be allowed for each year of service in the department until a total of ((nine)) five per cent of said total credits of the entire examination is reached, and in addition thereto ((six-tenths)) one half of one percent of the total credits allowed for the entire examination shall be allowed for each year of service in the rank of corporal or sergeant until a total of ((six)) five per cent of the credits of the entire examination is reached.

(c) For Promotion to the Rank of Captain of Police: ((Forty-five hundredths)) One half of one percent of the total credits allowed for the entire examination shall be allowed for each year of service in the department until a total of ((nine)) five per cent of said total credits for said examination is reached, and in addition thereto ((six-tenths)) one half of one percent of the total credits allowed for the entire examination shall be allowed for each year of service in the rank of lieutenant until a total of ((six)) five per cent of the credits of the entire examination is reached.

(d) In addition to the foregoing credits for seniority, six per cent of the total credits allowed for said examination shall be allowed each applicant for a clean record in the department. (All members of the department who have performed acts of meritorious public service and have not heretofore received credit for such meritorious public service in a promotional examination and all members of the department who shall perform acts of meritorious public service prior to the effective date of this amendment shall be allowed in addition a maximum of four credits for said examination according to the judgment of the commission. Credits for meritorious public service, in a promotional examination within the police de-
partment shall not be allowed by the civil service commission except as herein provided.)

Examination for Eligibles for the Fire Department

((Fifteen)) Ten per cent of the total credits allowed for any promotive examination shall be allowed for seniority of service, which said credits shall be distributed as follows:

(e) For Promotion to the Rank of Lieutenant in the Fire Department:

One per cent of the total credits allowed for the entire examination shall be allowed for each year of service in the fire department until a maximum of ((fifteen)) ten per cent is reached.

(f) For Promotion to the Rank of Captain in the Fire Department:

((Six-tenths)) One half of one per cent of the total credits allowed for the entire examination shall be allowed for each year of service in the fire department until a total of ((nine)) five per cent is reached; and in addition thereto there shall be allowed ((six-tenths)) one half of one per cent of the total credits allowed for the entire examination for each year of service in the rank of lieutenant until a total of ((six)) five per cent of the credits of the entire examination is reached.

(g) For Promotion to all Ranks Above Captain in the Fire Department

((Forty-five hundredths)) one half of one per cent of the total credits allowed for the entire examination shall be allowed for each year of service in the fire department until a total of ((nine)) five per cent of said credits is reached, and in addition thereto there shall be allowed ((six-tenths)) one half of one per cent of the total credits allowed for the entire examination for each year of service as an officer in the rank held by the applicant at the time of the examination, until a total of ((six)) five per cent of the credits of the entire examination is reached.

(h) In addition to the foregoing credits for seniority, six per cent of the total credits allowed for said examinations shall be allowed to each applicant for a clean record in the department.

(i) In promotional examinations in the police and fire departments, seniority of service and a clean record in the respective departments shall be added to the credit obtained by the applicant in the written portion of said examination, and shall be taken into consideration by the commission in determining his passing mark and his place upon the list of eligibles.

(j) In computing the credits for service in both the police department and the fire department, fractional parts of the year shall not be considered.

Ayes: Supervisors Ertola, Francois, Gonzales, Mendelsohn, Morrison, Pelosi.

Noes: Supervisors Blake, Boas, Mailliard, Tamaras, von Beroldingen.

I hereby certify that the foregoing Charter amendment was ordered submitted by the Board of Supervisors of the City and County of San Francisco.

ARGUMENT FOR PROPOSITION "G"

One of the most serious problems now facing the police is the difficulty of recruiting the manpower needed to bring the department to its full complement. A major reason for this recruiting problem is that young men contemplating a police career notice that excessive seniority bonus points in promotional examinations obstruct the promotion of younger men. The potential recruit then elects to go into a field that offers more rewards for ability and service.

Promotions based too heavily on seniority tend to perpetuate the thought of by-gone days. Reduction of seniority will infuse the police department with more up-to-date ideas regarding police operations. The proposed change would result in a higher quality of police recruit and a higher quality promotional system.

San Francisco's present seniority allotment is three times greater than the suggested maximum presented by leading police authorities. Reduction of these seniority points will tend to base promotion more on ability and less on having filled a position for a required number of years. Many police departments across the country and in the Bay Area have already adopted similar recommendations with very successful results.

This proposal will result in a better quality of law enforcement for San Francisco. There will be absolutely no cost whatsoever to the taxpayer.

ARGUMENT AGAINST PROPOSITION "G"
Fire and Police Amendment-Promotional

The San Francisco Fire Department is recognized as one of the best fire departments in the world. A primary factor in this evaluation is the excellent morale in the San Francisco Fire Department despite the fact that the Department is working at a dangerously low man power level. This critical man power shortage is caused by the failure to budget sufficient vacation, disability, military leave and sick relief.

Fire Fighters Local 798 was instrumental in placing the present promotional safeguards in the Charter in order to protect and maintain the high fire fighter's morale. Fire Fighters instantly obey orders to go into any type of hazardous situation because they have a high degree of confidence in the fire fighting experience of their superior officers, especially chief officers.

This amendment would seriously jeopardize the morale of fire
fighters by undermining the confidence they now repose in their superior officers because it would enable men superior in book knowledge to achieve command positions without the necessary seasoned fire fighting experience. Any man is reluctant to risk his life unnecessarily on the orders of a superior who he has reason to believe does not have the necessary fire fighting experience. This amendment would seriously impair the Fire Department's excellent morale.

PROPOSITION H

Adds Section 151.1.1: Requires Board of Supervisors to enact legislation providing for collective bargaining procedure for certain City employees.

CHARTER AMENDMENT

PROPOSITION H

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the Charter of said city and county by adding Section 151.1.1 thereto, relating to the Board of Supervisors providing rules and regulations for public employees collective bargaining.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on November 4, 1969, a proposal to amend the Charter of said city and county by adding Section 151.1.1 thereto to read as follows:

Section 151.1.1. Notwithstanding any other section of this charter, any existing ordinance of the board of supervisors, or any civil service rule, regulation or policy, the board of supervisors shall, by ordinance, provide rules, regulations and procedures whereby employee organizations formally recognized according to provisions of state law, representing officers and employees whose compensation is fixed in accordance with the salary standardization provisions contained in sections 151 and 151.3.1 of this charter, may bargain collectively with the city and county for the purpose of coming to a written agreement on their conditions of employment, including schedules of compensation, vacations, sick leave and other conditions of work now covered by the administrative provisions of the salary standardization ordinance. Provided, however, employees whose wages are established by relationship to classes governed by Section 151.3 of this charter, shall be excluded from the provisions of this section.

After appropriate parties have finalized a collective bargaining agreement, said agreement shall be submitted to the board of supervisors for approval, and when approved, shall not be subject to referendum procedures.

Ayes: Supervisors Blake, Boas, Ertola, Francois, Gonzales, Mailliard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen.

I hereby certify that the foregoing Charter amendment was ordered submitted by the Board of Supervisors of the City and County of San Francisco.

ARGUMENT FOR PROPOSITION "H"

This amendment will permit the substitution of modern employer-employee relations procedures for an outmoded 26-year old Charter provision. The Board of Supervisors has approved this amendment without a single dissenting vote. The Board has recognized that methods of past generations must be updated.

The new rules are necessary to bring city and county practices in line with 1968 state legislation. The new rules will call for the same standard collective bargaining procedures that are followed in private employment. Taxpayer safeguards are built in by the provision that the Board of Supervisors must approve all negotiated agreements.

For many years, grand juries and other concerned groups have criticized the salary standardization procedures that were built into the Charter during the early days of World War II. This amendment will replace obsolete and unsatisfactory rules with modern tested techniques. It will bring San Francisco into the mainstream of mature and responsible employer-employee relations.

Passage of this amendment will involve no cost to taxpayers.

ARGUMENT AGAINST PROPOSITION H

Vote No on "H"—Don't Give City Employees a License to Strike!

Prop. "H" under the misleading guise of "collective bargaining" would result in labor confrontations over vital public services. Collective bargaining as it is in private industry is not possible in public service. Public management representation usually boils down to politicians who are sensitive to employee voting power.
"H" would make meaningless many of the Charter sections regulating salaries and other benefits which you voted for. As a further insult, "H" would deny you the right to vote on a so-called "collective bargaining" agreement by referendum.

LLOYD E. GRAYBIEL, Chairman

ARGUMENT AGAINST PROPOSITION "H"

Vote NO on Proposition "H"

Proposition "H" establishes procedures for collective bargaining for some—but not all—City employees. It does so without setting up any rules or procedures, without providing any protection against strikes, or without any protection against continued huge tax increases as a result of pressures from City employee unions.

Vote NO on Proposition "H"

City employees have been fairly treated over the years under the present Charter provisions. In fact, many City employees already earn wages and salaries far higher than do ordinary citizens working in private industry. This measure would mean, in effect, that "the sky is the limit" on City pay rates. The taxpayer would not even have the right to seek a referendum in the event of an excessive pay increase for City employees.

Vote NO on Proposition "H"

There is plenty of time to enact a collective bargaining provision for City employees. This should not be done, however, until the Charter Revision Committee has completed its second year of study, during which it is slated to review precisely this subject. In fact, the City did not even wait for the report of the consultant it hired to study collective bargaining before going ahead with this proposal.

Vote NO on Proposition "H"

Other cities have been paralyzed by strikes of City employees because collective bargaining was implemented hastily without protection for the taxpayers. San Francisco should not act in haste.

GREATER SAN FRANCISCO CHAMBER OF COMMERCE

CONTROLLER'S STATEMENT PURSUANT TO CHARTER SECTION 183: PROPOSITION "H"

Adds Section 151.1.1: Requires Board of Supervisors to enact legislation providing for collective bargaining procedure for certain city employees.
Should the proposed charter amendment be adopted, it is my opinion that it would not, of itself, create any additional costs but as a product of its future application, additional costs may be created that are not determinable at this time.

Such costs are determinable only after the Board of Supervisors provides rules, regulations and procedures and collective bargaining is entered into and the Board of Supervisors approves the results.

PROPOSITION I

Amends Sections 48.3 and 48.4 relating to revenue bonds of the Port Commission and expenditures of Port revenues.

Port Commission;

8. The power to nominate for appointment a port director who

ment of said harbor and of all of the facilities and equipment thereof

of said harbor or for the operation of any equipment or facility
thereof. Subject to the approval of the commission he shall appoint
and remove any and all heads of departments or bureaus, who may
not be subject to the civil service provisions of the charter. He shall

17. May promote the maritime and commercial interests of the harbor by advertising its advantages and facilities and by the solicitation of business. The advertising and solicitation may be conducted within or without this State and through such agencies, mediums, employees and agents as are determined by the Commission. The San Francisco Port Commission may authorize the City Treasurer to sell bonds at less than their par or face value, but no bond may be sold at a price below 95% of the principal amount of the bond and accrued interest thereon. The said San Francisco Port Commission may set the annual rate or rates of interest which the bonds to be issued shall bear, which rate or rates, at the discretion of the said Commission, may be determined by the bidder at the time of sale of said bonds. Such interest may be payable at such periods as may be fixed by the Commission.

ARGUMENT FOR PROPOSITION "I"

This proposition will not cost the San Francisco Taxpayer any money nor affect his property tax rate. Changes offered by these amendments are technical only, but are absolutely imperative to make revenue bonds of the Port salable in this very difficult money market. The Port is presently authorized to issue revenue bonds, but with interest limits no longer realistic in this market. The first amendment would permit the bonds to be sold on the basis of lowest net interest cost to the Port, the exact rate to be fixed by competitive bid, subject to rejection if the bid is too high.

The amendments to Section 48.4 are also technical and are designed to refer to the accounts of the Port in the City treasury by terminology customarily understood and used by bond buyers. This amendment also authorizes setting up of funds for service and retirement of revenue bonds. Port revenues are adequate to service all of the accounts; the order of priority is, however, important if revenue bonds are to be salable. This amendment places funds for revenue bonds third directly after maintenance and operating expenses, and the general obligation bonds of the State already assumed by San Francisco voters at the last election.

These amendments do not in any way affect costs to taxpayers. Unless the Port can issue revenue bonds, improvements to the Port under the terms of the statute granting the Port to the City will have to be made by the City and will be a burden on the taxpayer. With the passage of these amendments the Port will be able to issue and sell its own bonds which are limited to Port revenues, which do not affect the credit of the City and which do not require payment by taxpayers.

Your "yes" vote is urgently required.

CHARTER AMENDMENT

PROPOSITION J

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the Charter of said city and county by amending Section 96 thereof, relating to progressive payments on contracts.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on November 4, 1969, a proposal to amend the Charter of said city and county by amending Section 96 thereof to read as follows:

NOTE: Additions or substitutions are indicated by bold-face type; deletions are indicated by ((double parentheses))

Progressive Payments

Section 96. Any contract may provide for progressive payments, if the advertisement for sealed proposals shall specify. ((No progressive payments under any contract shall be made which, with prior payments, shall at any time exceed in amount ninety per cent of the value of the work and labor and materials furnished, and no contract shall authorize or permit the payment of more than ninety per cent of the total contract price before the completion of the work required by such contract and the acceptance thereof by the head of the department concerned.)) If so specified, the department head concerned, or his representative, shall, on or about the last day of each month during the performance of the contract, make an estimate of the value of the work done and materials incorporated into the work by the contractor since commencement of performance of contract based upon the total contract price.

Upon completion of each such progress estimate, the city and
county will pay or cause to be paid to the contractor a progressive payment in an amount equal to 95% of said estimate after first deducting therefrom an amount equal to the aggregate of all previous payments made; provided, that any contract providing for progressive payments may provide that after the estimate of the value of the work done and materials incorporated into the work equals at least 50% or more of the total contract price each progressive payment thereafter may be in an amount in excess of 95% of said estimate up to the full amount of said estimate, less the aggregate of all previous payments made, and less the amount previously retained, if, and so long as, the contractor proceeds in accordance with the contract and complies with the requirements of the contract and if, in the judgment of the head of the department concerned or his representative, such increased progressive payment is appropriate by reason of the contractor's progress.

Ayes: Supervisors Blake, Boas, Ertola, Francois, Gonzales, Mailliard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen.
I hereby certify that the foregoing Charter amendment was ordered submitted by the Board of Supervisors of the City and County of San Francisco.

ARGUMENT FOR PROPOSITION "J"

This Charter Amendment will save taxpayers money by reducing costs of City projects, improving the time schedules for completion of City schools and buildings, promote greater efficiency on construction projects, provide additional opportunities for local contractors to bid City projects.

Approximately 117 million dollars in contracts are awarded each year by various City agencies and departments. Section 96, in its present form, requires the City to withhold up to ten (10%) percent of the total contract price on all City work. Many years ago, when our City Charter was adopted, this was a reasonable regulation and provided a method of protecting the best interests of our City. The City is now protected because contractors are required to possess State licenses, carry contractors' bonds, provide labor, material, and performance bonds, and pass rigid inspection procedures established and enforced by our City.

The present Charter regarding progressive payments tends to limit the number of contractors bidding City work because of the delay in receiving payments on completed projects.

Both general contractors and sub-contractors have a very difficult time financing their jobs because of the ten (10%) percent retention on City work. Sub-contractors in many instances complete their work and must wait several months to receive their money until the completion of the total project by the general contractor. In some instances contractors doing City work are required to borrow money at high interest rates in order to meet labor and material costs.

The proposed Charter Amendment would provide a fair and equitable method of payment by the City to contractors. The City
would also be assured of the opportunity to make payments only when satisfactory progress is made on the job. In addition, more bidders would be interested in bidding City projects, thereby promoting more competitive figures on City jobs that would result in savings to the taxpayers. Furthermore, contractors would be inclined to expedite their work, thereby completing projects at an early date.

The State Division of Architecture, University of California, U. S. Air Force, U. S. Navy Procurement Section, State Dept. of Public Works, and other public agencies have recognized this problem and amended their progressive payment schedules accordingly. Various City Agencies including Dept. of Public Works, Bureau of Building Inspection, City Architect’s Office, Public Utilities Commission, and other awarding agencies, concur with the intent of this Charter Amendment.

**PROPOSITION K**

Amends Section 151.3: Changes dates for revising rates of compensation for employees whose rate of pay is established through collective bargaining agreements in private employment.

**CHARTER AMENDMENT**

**PROPOSITION K**

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the Charter of said city and county by amending Section 151.3 thereof, relating to standardization of compensation of certain employees.

The Board of Supervisors of the City and County of San Fran-
Cisco hereby submits to the qualified electors of said city and county at an election to be held therein on Tuesday, the 4th day of November, 1969, a proposal to amend the charter of said city and county by amending Section 151.3 thereof, so that the same shall read as follows:

NOTE: Additions or substitutions are indicated by bold-face type; deletions are indicated by ((double parentheses))

Basis of Standardization of Compensation of Certain Employees

Section 151.3. Notwithstanding any of the provisions of section 151 or any other provisions of this charter, whenever any groups or crafts establish a rate of pay for such groups or crafts through collective bargaining agreements with employers employing such groups or crafts, and such rate is recognized and paid throughout the industry and the establishments employing such groups or crafts in San Francisco and the civil service commission shall certify that such rate is generally prevailing for such groups or crafts in private employment in San Francisco pursuant to collective bargaining agreements, the board of supervisors shall have the power and it shall be its duty to fix such rate of pay as the compensations for such groups and crafts engaged in the city and county service. The rate of pay so fixed by the board of supervisors shall be determined on the basis of rates of pay certified by the civil service commission on or prior to April 1st of each year and shall be effective July 1st following; provided that the civil service commission shall review all such agreements as of ((July)) August 1st of each year and certify to the board of supervisors on or before the ((second)) first Monday of ((July)) August any modification in rates of pay established thereunder for such crafts or groups as herein provided. The board of supervisors shall thereupon revise the rates of pay for such crafts or groups accordingly and the said revised rates of pay so fixed shall be effective from July 1st of the fiscal year in which such revisions are determined.

(Should the budget estimates of the several departments be filed with the controller or transmitted to the mayor before any such report of said civil service commission is received by the board of supervisors, the head of each department affected by such report may amend its budget estimate to comply with the provisions of such report.) All budget estimates shall be amended to comply with the provisions of such report.

Notwithstanding the provisions of section 151 or any other provisions of this charter the wages of the various classifications of employment of platform employees and coach or bus operators of the municipal railway shall be determined and fixed, annually as follows:

(a) For the fiscal year beginning July 1, 1957, the basic hourly rate of pay shall be established at $2.244 per hour, and for the fiscal year beginning July 1, 1958, the basic hourly rate of pay shall be established at $2.448 per hour.

(b) On or before the first Monday of August 1959 and of each year thereafter the civil service commission shall certify to the board of supervisors for each classification of employment the average of the two highest wage schedules in effect on July 1st of that year for comparable platform employees and coach or bus operators
of other surface street railway and bus systems in the United States operated primarily within municipalities having each a population of not less than 500,000 as determined by the then most recent census taken and published by the director of the census of the United States, and each such system normally employing not less than four hundred (400) platform employees or coach or bus operators, or platform employees, coach and bus operators.

(c) The board of supervisors shall thereupon fix a wage schedule for each classification of platform employees and coach and bus operators of the municipal railway which shall not be in excess of the average of the two highest wage schedules so certified by the civil service commission for each such classification.

(d) When, in addition to their usual duties, such employees are assigned duties as instructors of platform employees or coach or bus operators they shall receive twenty (20¢) cents per hour in addition to the rate of pay to which they are otherwise entitled under the wage schedule as herein provided.

ARGUMENT FOR PROPOSITION "K"

Vote Yes on Proposition "K"

This Proposition will eliminate an injustice which involves Union members employed by the City belonging to crafts and whose wages, hours and working conditions are set by agreement negotiated in private industry. The injustice relates to the fact that many union contracts are negotiated and signed during the month of July.

As the Charter now stands, because the signed wage agreement must be in the hands of the Civil Service Commission by the first week in July, if they are delivered to the Civil Service Commission after that, the City employees lose out on the conditions negotiated for a full year before they get the benefits. This is obviously unfair and by setting the August 1 deadline, it would resolve this problem and comply with the intent of the Charter, which is to pay prevailing rates for Union employees in the crafts and trades.

It should be noted that the Controller reports that this amendment have no effect on the tax rate.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on November 4, 1969, a proposal to amend the Charter of said city and county by amending Section 172.1.11 thereof, so that the same shall read as follows:

(c) Monthly contributions required from retired members participating in the system shall be (equal to the monthly contribution received from members in the system;) as determined by the health service board with reference to medical care provided by Health Insurance for the Aged (Medicare) under the Survivors Old Age and Insurance Benefits Act, except that monthly contributions shall not exceed an amount equal to the monthly contributions required from active employee members in the system; provided, however, that for the fiscal year commencing July 1, 1962) 1970, and for each fiscal year thereafter, the city and county and the school district shall contribute funds sufficient to defray the (difference in cost to the system in providing the same health coverage to retired members as is provided for active employee members thereof.) total cost of retired members of the system, exclusive of dependents of retired members.

ARGUMENT FOR PROPOSITION "L"

Vote "Yes" on Proposition "L"

City Employees lag behind their fellow employees in both private industry and other public jurisdictions in working conditions and fringe benefits. Comparative studies and surveys indicate clearly that a serious lag exists concerning health service coverage.

Under current Charter provisions, City Employees have not had one basic change in health service coverage since 1957. At that time, the voters authorized the City to pay up to one-half of an employee's monthly health service premium. Unfortunately, due to a restrictive clause in the Charter, this one-half payment has never been realized. Today City Employees pay approximately two-thirds and the City pays one-third of an employees' monthly premium.

Proposition "L" provides that the City shall pay the full cost of active and retired employees' monthly health service premium, except that costs for dependent coverage shall continue to be paid by the employees. In support of this proposition, the following facts and statistics are listed for comparative purposes:

In private industry in the San Francisco Bay Area, according to recent figures supplied by the California State Department of Industrial Relations, 89% of workers covered by health plans had the full cost of the plans paid by their employers. Some 372,000 workers are affected by this coverage. The average monthly employer contribution amounts to $30.31 per employee. This compares to $4.76 contributed monthly by the City for each of its employees! A wide discrepancy exists.

On the government side, similar surveys conducted by the County Supervisors Association and the League of California Cities show that San Francisco's employees lag considerably behind their counterparts in other public jurisdictions.

For example, in the San Francisco Bay Area the following counties pay the full cost of employee's health plan: San Mateo, Marin, Santa Clara, Sonoma, and Sacramento.

Among the other public jurisdictions in the Bay Area, these also pay the full cost of an employee's health coverage: East Bay Municipal Utility District, Oakland School District, Oakland City, Berkeley, San Jose, Palo Alto, San Mateo, Daly City and many other Bay Area agencies including all major school districts.

In short, Proposition "L" will bring San Francisco into line with current health plan cost practices in both private industry and other public jurisdictions. This amendment provides the first improvement in Health Service System benefits since 1957.
The record is quite clear that this proposed amendment is fair and reasonable, one which will erase a serious inequity and will restore health benefits on a parity with private industry and other public jurisdictions.

ARGUMENT AGAINST PROPOSITION L

Vote No on "L"—Don't Pay More for City Employee Health Care!

"L" would place the cost of city employee health plans on you—the taxpayer! You are now paying heavily toward the cost of these plans; let the employees continue to share some of the cost.

"L" would add $2,853,756 to the public's cost of employee health care; of this, $2,376,065 in taxes could cost you more than 10 cents in the tax rate.

City employees already have civil service job protection, liberal
vacations and high pay. Why should you pay more of the cost of their health plans, too?

PROPOSITION “L”

Amends Section 172.1.11 to provide for payment by City and County and Unified School District of total cost of members, exclusive of dependents, of Health Service System.

Should the proposed charter amendment be adopted, based on a report submitted by the Health Service System, it is estimated that the annual increase in the cost of government, for the number of members currently in the Health Service System would be approximately $2,553,756.00 and $2,376,065.00 of this amount would be required from property taxes. Based on the 1969-1970 assessment roll, this estimated annual increase is equivalent to ten and six tenths (10.6) cents in the tax rate.

CHARTER AMENDMENT

PROPOSITION M

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the Charter of said city and county by adding Section 52.1 thereto, relating to the California Academy of Sciences.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on November 4, 1969, a proposal to amend the Charter of said city and county by adding Section 52.1 thereto, to read as follows:

Section 52.1. Notwithstanding the provisions of section 52 and
subject to the approval of the Board of Supervisors, reasonable and appropriate charges may be made by the California Academy of Sciences for admission to or use of the buildings or improvements erected by or under the authority of the California Academy of Sciences in or on property owned or controlled by the city and county.

ARGUMENT FOR PROPOSITION "M"

The California Academy of Sciences is the most popular cultural attraction in San Francisco, and its attendance of nearly 3 million visitors is by far the greatest of any museum in the western United States. The Academy is an outstanding educational and recreational asset of San Francisco and a valuable tourist attraction. But the tax support of the Academy is inadequate.

Under Section 52 of the Charter, the City and County of San Francisco is obligated to provide funds necessary for the maintenance, operation and continuation of Steinhart Aquarium, a department of the Academy, and the Board of Supervisors is empowered to furnish like funds for the other areas of the Academy. The City and County has not provided a satisfactory level of support. The 1969-70 operating budget of the Academy, including Steinhart Aquarium, is $1,633,134, of which the City and County will provide $558,195. More than one million dollars must be raised by the Academy's trustees from private sources for only minimum essential support during the year.

Section 52 of the Charter now prevents the Academy from charging admission except to its Morrison Planetarium and Auditorium. This amendment would allow reasonable and appropriate admission charges when approved by the Board of Supervisors. A modest admission charge for adults would mean that those who use the California Academy of Sciences would help support it, and at least 75 percent of the users are from outside the community. Steinhart Aquarium is the only major aquarium in the world which does not charge admission.

The Finance Committee of the Board of Supervisors recommends this Charter change, as does the Legislative and Personnel Committee. The California Academy of Sciences requests your "Yes" vote.

If a reasonable admission charge were made the taxpayers would be relieved of additional tax support which otherwise will be necessary. It is not proposed that children or student groups would be charged, and free days would make it possible for everyone to visit the Academy without cost.

Adds Section 171.1.9.1: Grants credit under retirement system to members of Fire Department for service in Underwriters Fire Patrol upon payment of necessary contributions.

CHARTER AMENDMENT

PROPOSITION N

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the Charter of said city and county by adding Section 171.1.9.1 thereto, to provide for the granting of credit under the Retirement System to members of the Fire Department for service rendered in the Underwriters’ Fire Patrol.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on November 4, 1969, a proposal to amend the Charter of said city and county by adding Section 171.1.9.1 thereto, reading as follows:

Section 171.1.9.1. Any person who is a member under Section 171.1 on February 1, 1970, and who was employed in the uniformed force of the Underwriters’ Fire Patrol of San Francisco prior to becoming such a member shall have the right to elect to make contributions pursuant to this section and to receive credit as service under the retirement system for all or any part of the time he was so employed.

Said election shall be made in writing on a form provided by the retirement system and filed with the retirement board within ninety (90) days after February 1, 1970.

Any such member who elects to make contributions and receive such credit shall contribute to the retirement fund an amount equal to the sum of (a) contributions computed by applying the rate of contribution applicable to him on the date he elected to receive credit for such service to the monthly compensation earnable by him on said date multiplied by the number of months of such service for which he has elected to receive credit and (b) interest on the unpaid balance of said contributions, commencing on the date of the members’ election to make such contributions, at the rate of interest currently being used from time to time under the retirement system.

Payment of the contributions required by this section shall be made in a lump sum or by installment payments. Installment payments shall be made at times and in a manner fixed by the retirement board, provided that the period for completion of such payments shall not extend beyond the effective date of the member’s retirement.

Upon completion of payment of contributions in the amount specified in this section, the member shall be credited with service under the retirement system in an amount equal to the service for which he has elected to receive credit pursuant to this section. The
service with which the member is so credited shall be credited as current service.

I hereby certify that the foregoing Charter amendment was ordered submitted by the Board of Supervisors of the City and County of San Francisco.

ARGUMENT FOR PROPOSITION "N"

Vote YES on Proposition "N" Salvage to correct a grave inequity existing in the Retirement System in regards to members of the San Francisco Fire Department who were former members of the Underwriters Fire Patrol.

These men only six (6) in number, four of whom are veterans of World War II, not only served their country but also provided a necessary service to the people of San Francisco in the protection of lives and property.

On July 1, 1943, while these men served in the armed forces, the people of San Francisco voted to absorb the Underwriters Fire Patrol into the San Francisco Fire Department. Due to an oversight no provision was made to give these men, on military leave, credit in the Retirement System for services they had performed for the people of San Francisco while members of the Underwriters Fire Patrol.

A "YES" vote on Proposition "M" will correct this oversight and give these six (6) men the option of paying into the Retirement Fund a sufficient sum to give them credit for a portion of this back service, thus allowing them the same retirement benefits as other members of the San Francisco Fire Department.

ARGUMENT FOR PROPOSITION "O"

Vote "Yes" on Proposition "O"

Some 72 City employees are being deprived of full credit in the Retirement System solely because they were serving their country during time of war. Proposition "O" will correct this inequity by giving these small number of employees credit in the Retirement System for military service during time of war.

Proposition "O" is a two-part proposal: First, it will give credit in the Retirement System to some 64 employees who were reached for appointment to civil service positions, but who were unable to accept appointment because of being in the military service during time of war. Credit in the Retirement System will cover the period from the date of notification of appointment to the date of the employee's discharge from military service. The proposal covers Police Officers, Fire Fighters, and Miscellaneous Employees.

Secondly, it will give credit in the Retirement System to eight (8) employees of the Municipal Railway who were former employees of the old Market Street Railway and who, at the time the City purchased the Market Street Railway, were serving in the Armed Forces during World War II. Whereas all other Market Street Railway employees were given full credit in the Retirement System at the time of the purchase, September 1944, these eight
(8) employees were deprived of similar credit only because they were serving their country during time of war.

Proposition "O" will correct these two serious inequities. Proposition "O" will provide justice to these men who were serving their country in the hour of its greatest need.

PROPOSITION "Q"

Amends Section 134 to provide for election of Members of Board of Education by District; divides city and county into seven districts and establishes boundaries therefor.

PROPOSITION Q

The people of the City and County of San Francisco hereby propose to amend the Charter of the City and County of San Francisco by amending Section 134 thereof to read as follows:

Notwithstanding any other provision of this Charter to the contrary, the matters contained in this Section shall be controlling as to the Board of Education. All of the public schools of the school districts of the City and County shall be under the control and management of a Board of Education, composed of seven commissioners elected by the qualified electors of each district, hereinafter established, of the City and County at the time, in the manner, and with the qualifications provided elsewhere in the Charter for the nomination and election of other elective officers of the City and County, provided further that a person to be eligible to run in said election must reside in the district in which he runs for one year prior to the time of the election. Each member shall serve a term of four (4) years thereafter and until his successor is elected and qualified.

Of the seven (7) members of the Board of Education elected at the 1970 Primary Election held in June of said year, the four (4) who receive the highest number of votes cast shall each serve an initial term of four (4) years and the three (3) who receive the next highest number of votes cast shall each serve an initial term of two (2) years. At subsequent Primary Elections held in June of each even year, either three (3) or four (4) members of said Board, as the case may be, shall be elected to four-year terms to fill the vacancies caused by expiration of the terms of the members. Said members of the Board of Education shall assume the responsibilities of the said office thirty (30) days after said election.

A vacancy on the Board of Education shall be filled by the runner-up in votes in the district involved for the unexpired term and if for any reason the runner-up is unavailable, not eligible, or refuses the position, then the vacancy will be filled as provided in Section 25 of this Charter.

The compensation of each member shall be Five Hundred ($500) Dollars per month.

It is hereby declared to be the intent of this Section that the only changes to be affected by its terms are to make the Board of Education elected by districts, rather than appointed, and to provide the manner in which the members thereof shall be elected and to provide the boundaries of the districts as well as the manner in which the members thereof shall be elected. Except to the extent that they are inconsistent with the provisions of this Section, other provisions of this Charter relating to the Board of Education and other elective officers shall apply to the Board of Education provided for by this Section.

ARGUMENT FOR PROPOSITION “Q”

Vote Yes on “Q”—Change to an Elected School Board

It is time for action. San Francisco must now change to an elected Board of Education to achieve quality education for all children of the City. Our archaic, politically appointed Board of Education has left a tragic record of failures—failure to achieve quality education for all children; failure to stem the deterioration of our public school system; failure to adopt consistent and effective educational policies in accordance with community interest; failure to develop sound fiscal policies; and failure to avoid widening the grave divisions that already exist in the community fabric.

No business could operate profitably burdened by such inept management. While the profits of an educational system are measured, not in monetary terms, but in terms of accomplished quality education for all children, those profits have not been and will not be realized under the continuing burden of inept management of an appointed Board of Education.

San Francisco Stands Alone

San Francisco is now the only city in the State of California with an appointed Board of Education. Under the charter, the seven commissioners of the Board are appointed by the mayor, subject only to a confirmatory vote of the electors. Not once has a mayor’s appointee been rejected.
Education, however, is not of concern only to the seven persons appointed by the mayor. Every parent, every taxpayer, and every citizen concerned with the orderly and peaceful progress of the City have a vital interest in our education system and the urgent need to upgrade substantially the quality of our public schools. All of the people, therefore, must have an effective voice in the educational process, including the determination of such current and important matters as school curriculums and textbooks, school construction program, "mini" school districts, busing of students, and school taxation and expenditures. The serious individual and community consequences of our educational process are far too important to be left to the sole judgment of seven persons appointed by the mayor.

Only a Board of Education elected directly by the people can and will give them an effective voice in the determination of educational policy and taxation. An elected Board is the only opportunity of returning education to those most concerned with it—the citizens of San Francisco.

Vote "Yes" on Proposition "Q" to change from a Board of Education appointed by the mayor to a Board elected directly by the people.

**Responsible Representation**

It is a fundamental principle of democracy and good government that there be responsible representation of the people.

Our appointed Board of Education is an autonomous governing body, not legally answerable to the mayor, the Board of Supervisors, or the people. (The Board also selects the Superintendent of Education, who is the chief executive officer of the school administration.) Only a Board elected directly by the people will respond to the needs and interest of the people, and will adopt acceptable educational policies for the benefit and best interest of the people.

Vote "Yes" on Proposition "Q" for responsible representation of the people on the Board of Education.

**Taxation Without Representation**

The Board of Education is legally invested in effect with the power to raise school funds by taxation (approximately one-third of our current tax rate is for education). The exercise of that power is solely within the discretion of the Board. In determining the amount of money to be raised by taxation, the Board legally does not answer to the mayor, the Board of Supervisors, or the people.

A governmental body that possesses such vast power of taxation, as well as the power to expend annually millions of dollars of public funds (in the last three years the school budget has increased from $76,000,000 to $116,000,000, in face of a decreasing student enrollment), must be answerable to the people through direct election of its members. The alternative—what we now have—is taxation without representation.

Vote "Yes" on Proposition "Q" for fiscal responsibility in the Board of Education.

**A Districeted Board of Education**

A "Yes" vote on Proposition "Q" will amend the charter to provide for the election of a seven member Board of Education on a
districted basis; one member from each of seven neighborhood districts. The advantages to the community of a districted Board are many:

1. Only a districted Board will assure true representation of the neighborhoods, rather than merely representation of those individuals or groups with community power or influence. The seven districts are based upon the constitutional principle of one man, one vote, and to the extent possible respect the neighborhood structure of the City.

2. Only a districted Board will assure personal representation of the people. Because of the charter amendment requirement that each Board member be a resident of the district from which he is elected, and the fact that each of the seven districts are relatively small in size, each member will intimately know the educational problems, needs and interests of the people of his district and will personally represent those people on the school board.

3. Only a districted Board will assure responsible representation of minority groups within the City. If we are to have a viable community school board, those groups must participate in the educational process.

4. A districted election will avoid the large expense of a citywide election campaign. The absence of that expense (plus the fact that the charter amendment increases each Board member's compensation more realistically to $500 a month) will open the school board election to all qualified persons and not merely to those with substantial financial resources available. A home district election also will open a reservoir of new talent.

5. A districted election will allow the electors of each district to determine the necessary qualifications for their school board representative, rather than, as now, having the mayor arbitrarily make such determination as part of his political patronage.

6. School board members elected on a districted basis also will share responsibility for citywide quality education. Since it is inevitable that some parents residing in one district will have children attending elementary or secondary public schools in other districts, the elected representative from the parents' district necessarily will be interested in all schools of the City.

While a districted election allows each elector to vote for one school board member only, on this same principle we have entrusted our interests to both the federal and state legislatures. We elect only one legislator (to each such legislative body), but have our affairs governed by the majority vote of all the legislators.

Revitalize Our Educational Process

Our present appointed Board of Education has lost the trust and confidence of the people. Its calamitous record of educational failure can and will be overcome only by San Francisco now changing from an archaic, politically appointed Board to an elected Board that will reflect the interest and needs of the entire community.

Other suggestions have been raised: the Board of Education should be elected on a citywide basis; it should be elected on the basis of nine (or more) districts; and so on. Such suggestions are extraneous. The only real choice now available to San Francisco is Proposition "Q"—to continue our Board of Education on a political
patronage basis, or to change to a districted Board elected by and responsible to the people.

We cannot afford the disastrous cost of an appointed Board of Education for one more day. Now is the time for change.

Vote "Yes" on Proposition "Q" as the first important step toward revitalizing education in San Francisco.

ARGUMENT AGAINST PROPOSITION Q

Vote "NO" on Proposition Q

Mothers Support Neighborhood Schools and Parents and Taxpayers, long active in the field of education and forerunners in the fight against forced busing, are in favor of a school board elected at large—but not by districts.

The 7 districts as outlined are a strange configuration of boundaries. Many parents would vote in one district while their own children attend schools in other districts. This would rob him completely of his vote for the Board of Education.

At this time of crisis in the public schools, the citizens of San Francisco must guard against throwing education into the political arena. The manner in which these districts are drawn will divide the people of this city rather than unite them in a common purpose.

ARGUMENT AGAINST PROPOSITION Q

Vote No on Proposition Q

Did you know that a small group met in a back room and without any public hearings or consultation set up this plan for an elected School Board based on old census figures that no longer apply?

What was their haste?

If a change is to be made in our system, it should be done not by a small self-appointed group, but after public hearings and democratic consultations with taxpayers and parents.

According to their plan, the boundaries of the seven election districts would be frozen into the City Charter and any amendments by the Board of Supervisors in the future would have "to conform as closely as possible to these boundaries."

The loser could win! Unexpired terms would be filled by the runner-up, no matter how few votes he had received, or how contrary his philosophy was to the winner's.

Elections would be held at the June primary when voter turn-out is always low. Where is the concern for democracy?

Money-spending—not money-saving—would be the result of this proposition. Salaries for Board members would be raised five-fold.

Improvement in the education system for our children is always in order. But let's do it right. Let's do it democratically.

Amends Section 134 to provide for election of members of the Board of Education by district; divides City and County into seven districts and establishes boundaries therefor.

Should the proposed charter amendment be adopted, it is estimated that the annual increase in the cost of government would be approximately $83,600.00. Based on the 1969-1970 assessment roll, this estimated annual increase is equivalent to fifteen hundredths (.15) cents in the tax rate.

GENERAL MUNICIPAL ELECTION
NOVEMBER 4, 1969
PROPOSITION E

Shall the proposed Charter for the City and County of San Francisco be adopted?

Describing and setting forth a proposal to adopt a charter for the City and County of San Francisco.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on November 4, 1969, a proposal to adopt a charter for the City and County of San Francisco to read as follows:

[Explanatory Note: The proposed charter includes a number of new provisions and carries over many more provisions from the existing charter. The new provisions are indicated in the table of contents by the word (new) and in the text of the charter by the words (new provisions) appearing after the title of a section. The provisions carried over from the existing charter are shown in the table of contents by the word (existing) and in the text of the charter by the words (existing provisions) appearing after the title of a section.

Several amendments to the existing charter are before the voters on Nov. 4, 1969, ballot as Propositions D, F through O, and Q. Those amendments are being voted on separately from Proposition E. If an amendment to the existing charter is approved by the voters it will be incorporated into this charter. If the separate amendment is not approved, the provisions in their present form will be carried over from the existing charter into this charter. Sections affected by these amendments appear below in alternative form: (1) as they will read if the amendment is approved, and (2) as they will read if the amendment is not approved.

All words in italics are included to help explain the charter text; they are not legally part of the charter.

A table showing what will happen to various sections of the existing charter by adoption of the proposed charter begins on page 235.]

Upon publication of the results of any General Census, the Board of Supervisors shall amend or change the district boundaries as is reasonably necessary but said district boundaries shall conform as closely as possible to those boundaries hereinabove set forth.

It is hereby declared to be the intent of this Section that the only changes to be affected by its terms are to make the Board of Education elected by districts, rather than appointed, and to provide the manner in which the members thereof shall be elected and to provide the boundaries of the districts as well as the manner in which the members thereof shall be elected. Except to the extent that they are inconsistent with the provisions of this Section, other provisions of this Charter relating to the Board of Education and other elective officers shall apply to the Board of Education provided for by this Section.

5.101 Powers and Duties of Board of Education. (existing provisions)

In addition to the powers conferred by the general laws of the state and other provisions of this charter, the board of education shall have power to establish and maintain such schools as are authorized by the laws of the state as the board may determine, and to change, modify, consolidate or discontinue the same as the public welfare may require.

The board shall also have power to employ such teachers and other persons as may be necessary to carry into effect its powers and duties; to fix, alter and approve their salaries and compensations, except as in this charter otherwise provided, and to withhold for good and sufficient cause the whole or any part of the wages, salary, or compensation of any person or persons employed as aforesaid; and to promote, transfer and dismiss teachers, but no teacher shall be dismissed from the department except for insubordination, immoral or unprofessional conduct, or evident unfitness for teaching. Appointment, promotion, assignment and transfer of deputy superintendents, principals, assistants, teachers and all other certificated employees shall be made by the board of education upon the recommendation of the superintendent of schools. All promotions of teachers shall be based solely on merit. Nothing in this
section shall be construed to prevent the board from removing teachers as provided in this charter and the laws of the state. Charges against teachers must be made in writing by the superintendent after investigation and shall be finally passed upon by the board after giving the accused teacher a fair and impartial hearing before said board.

All teachers, heads of departments, vice-principals, principals, supervisors and directors shall be classified as permanent employees in their respective positions after they have been successfully employed in such positions in the school department for a probationary period of three years. In the absence of any action to the contrary by the board of education at the end of the third year of such employment, the classification shall be considered as permanent. A deputy superintendent shall be classified as a permanent employee in such position in the school department in which he was permanently employed immediately prior to his appointment as deputy.

Non-teaching and non-technical positions, and positions not required by law to be filled by a person holding a teaching or other certificate as required by law, shall be employed under the civil service provisions of this charter and the compensations of such persons shall be fixed in accordance with the salary standardization provisions of this charter.

The board of education shall have power to grant and to renew, and, for insubordination, immoral or unprofessional conduct or unfitness for teaching, to revoke teachers' certificates.

The board shall establish regulations subject to the approval of the controller for the disbursement of all moneys belonging to the school department or the school fund or funds, and to secure strict accountability in the expenditure thereof, and to provide for the prompt payment of all salaries due and allowed to officers, teachers and other employees of the school department.

Notwithstanding any other provision of this charter to the contrary, the board of education of the San Francisco Unified School District may authorize payment of the annual compensation of certificated employees in twelve equal payments, the first such equal payment being made on or before the 5th day of August of each school year, and continuing each month thereafter until the full annual compensation shall be paid, provided that the last equal payment shall be made not later than the 5th day of July of the succeeding school year, and provided further that in the event that the certificated employee for any reason does not perform the full year of service, said certificated employee shall receive only such amount as is authorized by the school code of the State of California. In the event said certificated employee has been paid an amount greater than such employee is entitled to receive under the provisions of the school code of the State of California, said certificated employee shall be liable therefor and within thirty days after such excess payment said certificated employee shall reimburse the San Francisco Unified School District for the excess, and said certificated employee shall not be paid any of his retirement accumulations or credits until the San Francisco Unified School District has been reimbursed for the said excess.

The board shall, between the 1st and 21st days of May of each year, adopt a schedule of salaries for the next ensuing fiscal year for
teachers and other employees of the school department. Compensa-
tions of non-teaching and non-technical employees shall be fixed in
accordance with the salary standardization provisions of this
charter.

5.102 Non-Certificated Cafeteria Employees. (existing provisions)

All non-certificated public school cafeteria employees of the San
Francisco Unified School District, except those holding part-time
positions, which are within the limitations as set forth in Section
8.200 (2) of this charter shall be governed by and shall be subject to
the civil service and other provisions of this charter.

5.103 Superintendent of Schools. (existing provisions)

The superintendent of schools shall be the executive officer of the
board of education. He shall be appointed by said board to serve for
a term of four years and he shall receive an annual salary of $10,000
unless an increase in said salary shall be fixed by the board of edu-
cation and approved by the board of supervisors.

During his term of office the superintendent may be removed from
his office, as in this section hereinafter provided, for misconduct or
incompetency after charges setting forth the nature and character
of said misconduct or incompetency are filed against the said super-
intendent. Said charges must be in writing and shall be signed by
at least two members of the board of education. A copy of said
charges, together with a notice of the time and place of the hearing
on the same, shall within five days after the filing of the same be
served upon the said superintendent. The mailing of a copy of said
charges, with notice of time and place of hearing on the same, by
United States registered mail, with the proper amount of postage
prepaid thereon, addressed to said superintendent at his last known
place of residence, shall be deemed to be a service of said charges as
provided for in this section. A public hearing on said charges shall
be had by the board of education not less than ten, nor more than
twenty, days after the filing of said charges, provided that full
power and authority is hereby given to the board of education to
continue said hearing from time to time not to exceed sixty days
from the commencement thereof, provided that for good cause said
board may grant a further continuance on said hearing. The super-
intendent shall have the right to answer said charges, to appear at
the hearing thereof and to be represented by counsel thereat for the
purpose of defending himself against said charges. Pending the
determination of said charges, the superintendent may be suspended
from his office by a majority vote of the board of education, and the
board may appoint a qualified person to discharge the duties of said
superintendent during the period of suspension. If the board of edu-
cation after hearing said charges shall by a two-thirds vote of all the
members, determine that said charges have been sustained, it may
by the same vote remove said superintendent from his office. No
member of the board shall be entitled to vote on the removal of said
superintendent unless he or she has been present at the entire hear-
ing of such charges, provided that any member of the board who has
not been present may vote for the removal of the superintendent, if
such member has read a transcript of all the testimony taken on said
hearing during his absence therefrom, and shall file with the board
an affidavit to this effect. If said charges are not sustained by a two-thirds vote of all the members of said board, or if after said charges are sustained, the superintendent is not removed from office as a result thereof, said superintendent shall be reinstated in his position and shall be allowed his salary for the time that he has been under suspension, together with the costs of defending himself against said charges, including a reasonable fee for his attorney to be fixed and allowed by the board. If the charges are sustained, and as a result thereof said superintendent is removed from office, no further salary shall be allowed to said superintendent from the date of his suspension. In the hearing and determination of said charges filed against said superintendent, the judgment of said board of education shall be final unless in determining the sufficiency of said charges said board of education commits a clear abuse of discretion.

The superintendent shall have the powers and duties specified by this charter for department heads, in addition to such powers and duties as are fixed by general law.

The positions of superintendent and associate and assistant superintendents shall be held only by persons of expert or technical training; but shall not be subject to any provisions of this charter prescribing a residence qualification for officers or appointees, provided however, that during their incumbency appointees to such positions shall reside in the city and county, and in case any appointee shall fail so to do, his appointment shall at once be revoked by the board.

The superintendent may appoint a confidential secretary who shall hold office at his pleasure.

7.100 Material, Supplies, and Equipment. (existing provisions)

The purchaser of supplies shall purchase all materials, supplies and equipment of every kind and nature, and enter into agreements for all contractual services required by the several departments and offices of the city and county, except as in this section otherwise provided. Purchases of books, magazines and periodicals for the library departments, works of art for museums and other articles or things of unusual character as to the purchasing thereof, may, on the recommendation of a principal executive and the approval of the purchaser, be purchased directly by said principal executive.
Purchases for construction operations, or for any operations conducted outside the boundaries of the city and county may, on the recommendation of the principal executive in charge thereof and the approval of the purchaser of supplies, be made by the principal executive. All such purchases made by officials of offices, agencies, or departments other than the purchasing department shall be made in accordance with regulations established by the purchaser of supplies. The purchaser of supplies shall have authority to exchange used materials, supplies, and equipment to the advantage of the city and county, advertise for bids, and to sell personal property belonging to the city and county on the recommendation of a principal executive that such articles are unfit for use.

All purchases shall be by written purchase order or written contract. All purchases in excess of one thousand dollars ($1,000) shall be by written contract, provided, however, that on the recommendation of the principal executive, in case of an emergency actually existing, the purchaser of supplies, with the approval of the chief administrative officer, may make such purchases in the open market on the basis of informal bids. At least three bids or quotations shall be secured on open market purchases and a permanent record of all such quotations shall be kept. All contracts and purchase orders in excess of two thousand dollars ($2,000) for material, supplies or equipment shall require the signature of the chief administrative officer in addition to the signature of the purchaser of supplies. The purchaser of supplies shall not enter into any contract or issue any purchase order unless the controller shall certify thereon that sufficient unencumbered balances are available in the proper fund to meet the payments under such purchase order or contract as these become due.

The purchaser of supplies shall establish specifications and tests to cover all recurring purchases of material, supplies and equipment. He shall, as far as is practicable, standardize materials, supplies and equipment according to the use to which they are to be put, when two or more types, brands or kinds are specified or requested by individual departments.

Purchases of equipment shall be made in accordance with specifications furnished by the office, agency, or department requiring such equipment in case the use of such equipment is peculiar to such department. For patented or proprietary articles sold by brand name, the purchaser may require each office, agency, or department requisitioning same by such brand name, to furnish specifications of the article requisitioned and may advertise for bids on the basis of such specifications, under conditions permitting manufacturers of or dealers in other articles made and sold for the same purpose to bid on such specifications or on the specifications of their own product. If the purchaser of supplies recommends the acceptance of the lowest or best bid, stating his reasons in writing therefor, and if the principal executive concerned recommends the acceptance of any other bid on such proprietary articles, stating his reasons in writing therefor, the award shall be determined by the controller.

The purchaser of supplies shall require offices, agencies, and departments to make adequate inspection of all purchases, and shall make such other inspection as he deems necessary. He shall direct the rejection of all articles which may be below standards, specifications or samples furnished. He shall not approve any bill or
voucher for articles not in conformity with specifications, or which are at variance with any contract.

He shall have charge of central storerooms and warehouses of the city and county. He shall also have charge of a central garage and shop for the repair of city and county equipment. All garages and shops heretofore maintained by departments for the construction, maintenance, and repair of departmental supplies and equipment, and the personnel assigned thereto, excepting the shop and personnel for fire alarm, police telegraph and traffic signal manufacture and repair operated by the department of electricity, are hereby transferred to said central garage and shop.

He shall, under the supervision of the controller, maintain an inventory of all material, supplies and equipment purchased for and in use in all departments and offices of the city and county. He shall be responsible for the periodic check of such property, and in case of loss or damage deemed by him to be due to negligence, he shall report thereon to the mayor, the chief administrative officer and the controller. He shall have authority to require the transfer of surplus property in any department to stores or to other offices, agencies, or departments.

7.101 Surplus Commodities. (existing provisions)

Notwithstanding any other provision of the charter, the purchaser of supplies, with the approval of the chief administrative officer, may purchase any commodity either from the government of the United States or from the State of California without advertising for bids for said commodity, irrespective as to the cost thereof, and no written contract need be entered into with the government of the United States or with the State of California for the purchase of said commodity. Before any such purchase is made the controller shall certify as to the availability of funds to pay the purchase price of said commodity.

7.102 Limits on Use of Certain Purchasing Procedures. (existing provisions)

The board of supervisors shall by ordinance determine the monetary limits of purchases of materials, supplies and equipment to be made (a) by the taking of informal bids consistent with the manner provided in Section 7.100, and (b) by advertising for bids consistent with the manner provided for in Section 7.200.

They shall also provide by ordinance for the monetary limits within which procurements of materials, supplies and equipment may be made from departmental revolving funds. The purchaser of supplies shall by rules and regulations, approved by the chief administrative officer and the controller, establish the methods whereby procurements may be made from departmental revolving funds.

7.103 Requisition, Contract, and Payment. (existing provisions)

All purchase orders and contracts shall be based on written requisitions, or, for materials or supplies in common use in the various departments, on the purchaser's records of average use by all departments, when approved by the chief administrative officer. The purchaser of supplies shall approve all bills or vouchers for
materials, supplies, equipment; and contractual services before the controller shall draw and approve warrants therefor. All contracts for the purchase of materials, supplies and equipment shall be made after inviting sealed bids by publication. All sealed bids received shall be kept on file. When an award of contract is made, notice that the same has been made shall be given by one publication, and any interested person may examine the bids and records at the purchaser’s office.

7.104 Purchaser’s Revolving Fund. (existing provisions)

Appropriations for material, supplies, and equipment shall be segregated in each annual appropriation ordinance for each department or office. Any part of each such fund or appropriation may, on the recommendation of the purchaser of supplies and the approval of the controller, be transferred to or made available in the purchaser’s revolving fund. Warrants shall be drawn against such fund by the controller on demand of the purchaser for the payment of bills on which discount for prompt payment may be secured, or for advantageous cash purchasing, under favorable or emergency market conditions, of materials or supplies for future departmental requisition and use. Discounts obtained by the use of the purchaser’s revolving fund may be accumulated therein and the supervisors may make annual appropriations to such fund until a sufficient sum, as determined by the controller, is accumulated to meet the average purchasing and discount payment requirements of the city and county.

Chapter Two. Contracts.

7.200 Public Works and Purchasing Contracts. (existing provisions)

The construction, reconstruction or repair of public buildings, streets, utilities or other public works or improvements, and the purchasing of supplies, materials and equipment, when the expenditure involved in each case shall exceed the sum of two thousand dollars ($2,000) shall be done by contract, except as otherwise provided by this charter. It shall constitute official misconduct to split or divide any public work or improvement or purchase into two or more units for the purpose of evading the contract provisions of this section. In an emergency, provided an actual emergency be declared by the board of supervisors to exist, and when authorized by resolution of said board, any public work or improvement may be executed in the most expeditious manner. Notwithstanding any other provision in this section or this charter contained, upon the approval of the chief administrative officer declaring the work to be emergency in character, there may be expended by the department of public works the sum not to exceed five hundred dollars ($500) for new construction of any type in or upon unimproved or unaccepted streets.

Any public works or improvement estimated to cost less than two thousand dollars ($2,000) may be performed under contract or written order or by the employment of the necessary labor and purchase of the necessary materials and supplies directly by the city and county. Any public work or improvement executed by the city,
other than routine repair work, shall be authorized by the chief administrative officer or by the principal executive of an office, agency or department not under the chief administrative officer, only after detailed estimates have been prepared and submitted by the principal executive concerned. There shall be separate accounting for each work or improvement so executed, which accounting shall include all direct, indirect and supervisory elements of cost chargeable to such work or improvement, and each cost accounting shall be reported to the chief administrative officer. All such accounts shall be reported to the controller. Any public work or improvement costing less than two thousand dollars ($2,000) and not performed by the use of city and county labor, materials, and supplies shall, if not performed under contract, be covered by written order or agreement which shall be based on not less than three bids, notice of which shall be given by three days' posting. Records of such bids shall be kept by the department.

When the expenditure for any public work or improvement shall exceed the sum of two thousand dollars ($2,000), the same shall be done by contract, except as otherwise provided in this charter. The principal executive in charge of or responsible for the work for which a contract is to be let, or the purchaser of supplies in the case of purchases of materials, supplies and equipment, shall let such contract to the lowest reliable and responsible bidder not less than ten days after advertising by publication for two consecutive days for sealed proposals for the work, improvement or purchase contemplated. Each such advertisement shall contain the reservation of the right to reject any and all bids. The officer responsible for the awarding of any such contract shall require from all bidders information concerning their experience and financial qualifications, as provided by general law relative to such investigations authorized by departments of public works.

The purchaser of supplies with the approval of the chief administrative officer, for offices, agencies, and departments under his supervision, or the principal executive concerned, with the approval of the board or commission to which he is responsible, may reject any and all bids and readvertise for bids.

The principal executive or the purchaser of supplies, as the case may be, shall have power to sign such contract for the estimated expenditures thereunder not in excess of two thousand dollars ($2,000). Any contract involving the expenditure of over two thousand dollars ($2,000), if for the purchase of materials, supplies or equipment, shall require the joint approval of the purchaser of supplies and the chief administrative officer. If such contract is for any public work or improvement, it shall require the joint approval of the principal executive and the chief administrative officer relative to offices, agencies, and departments under his jurisdiction, or the signature of the principal executive of an office, agency, or department not under the chief administrative officer, and the approval of the board or commission concerned.

The board of supervisors, by ordinance, shall establish procedure whereby appropriate city and county offices, agencies, and departments may file sealed bids for the execution of any work to be performed under contract. If such bid is the lowest, the contract shall be awarded to the office, agency, or department. Accurate unit costs
shall be kept of all direct and indirect charges incurred by the office, agency, or department under any such contract, which unit costs shall be reported to and audited by the controller monthly and on the completion of the work.

In any case where the lowest gross price or unit cost bid is not accepted, and a contract is entered into with another bidder, written report shall be made to the chief administrative officer, the mayor and the controller by the officer authorized to execute the contract, with the reasons for failure to accept such lowest bid.

If any provision of this section is in conflict with any provision of section 7.100 of the charter, the provision contained in section 7.100 shall govern and control.

7.201 Public Works Contract Procedure by Ordinance. (existing provisions)

Notwithstanding any other provision of this Charter and in particular the provisions of Section 7.200, the board of supervisors shall by ordinance determine the monetary limits not to exceed five thousand dollars ($5,000), within which the construction, reconstruction or repair of public buildings, streets, utilities or other public works or improvements may be done by contract or by written order or by the employment of the necessary labor and purchase of the necessary materials and supplies directly by the city and county, consistent, save as to monetary limits, with the manner provided for in Section 7.100 and Section 7.200.

7.202 Progressive Payments. (existing provisions as they would continue to appear if the amendments proposed in Proposition J are not approved)

This section shall become operative and become part of this charter only in the event Proposition J on the November 4, 1969, ballot is not approved by a majority vote of the electorate of the City and County of San Francisco.

Any contract may provide for progressive payments, if the advertisement for sealed proposals shall so specify. No progressive payments under any contract shall be made which, with prior payments, shall at any time exceed in amount ninety per cent of the value of the work and labor and materials furnished, and no contract shall authorize or permit the payment of more than ninety per cent of the total contract price before the completion of the work required by such contract and the acceptance thereof by the principal executive concerned.

7.202 Progressive Payments. (provisions as they would appear in the present charter and be carried over into the revised charter if the amendments proposed in Proposition J are approved)

This section shall become operative and become a part of this charter only in the event Proposition J on the November 4, 1969, ballot is approved by a majority vote of the electorate of the City and County of San Francisco.

Any contract may provide for progressive payments, if the advertisement for sealed proposals shall specify. If so specified, the principal executive concerned, or his representative, shall, on or
about the last day of each month during the performance of the contract, make an estimate of the value of the work done and materials incorporated into the work by the contractor since commencement of performance of contract based upon the total contract price.

Upon completion of each such progress estimate, the city and county will pay or cause to be paid to the contractor a progressive payment in an amount equal to 95% of said estimate after first deducting therefrom an amount equal to aggregate of all previous payments made; provided, that any contract providing for progressive payments may provide that after the estimate of the value of the work done and materials incorporated into the work equals at least 50% or more of the total contract price each progressive payment thereafter may be in an amount in excess of 95% of said estimate up to the full amount of said estimate, less the aggregate of all previous payments made, and less the amount previously retained, if, and so long as, the contractor proceeds in accordance with the contract and complies with the requirements of the contract and if, in the judgment of the principal executive concerned or his representative, such increased progressive payment is appropriate by reason of the contractor's progress.

7.203 Penalties and Extras. (existing provisions)

If so specified in the published notice soliciting sealed bids for any public work or improvement, any contract therefor may be let for a gross price or on a basis of cost per unit of work to be performed, and may also provide for liquidated damages to the city and county for every day during which the contract is uncompleted beyond such specified date. In awarding any contract, the principal executive concerned is authorized to compare bids on the basis of time of completion. When any award of contract has been made in consideration, in whole or in part, of the relative time estimates of bidders for the completion of the work, the time within which the contractor shall start work shall be fixed and the performance within such time limits shall be covered by the bond required of the contractor, and no extension may be granted on such contract beyond the date specified for completion, unless the liquidated damages for each day the work is uncompleted beyond the specified date shall be collected; provided, however, that this shall not apply to unavoidable delays due to act of God.

If it becomes necessary, in the prosecution of any work or improvement under contract, to make alterations or modifications, or provide for extras in such contract which shall increase the contract cost, such alterations, modifications or extras shall be made only on the written recommendation of the principal executive responsible for the supervision of the contract, together with the approval of the chief administrative officer for offices, agencies, and departments under his supervision, or the appropriate office, board, or commission, as the case may be, and also the approval of the controller. No such alteration, modification or extra shall be valid, unless the increased price to be paid under the altered or modified contract shall have been agreed upon in writing and signed by the contractor and the principal executive concerned, and approved as hereinbefore provided. In the performance of any contract awarded on the unit and the unit-cost basis, if the principal executive concerned ascertains that the amount of work done or to be done shall
exceed the estimated amount of the contract by ten per cent, or more, the excess shall be provided for as prescribed by Sections 6.307 and 6.308.

7.204 **Contractors Working Conditions. (existing provisions)**

Every contract for any public work or improvement to be performed at the expense of the city and county, or paid out of moneys deposited in the treasury, whether such work is to be done directly under contract awarded, or indirectly by or under sub-contract, sub-partnership, day labor, station work, piece work, or any other arrangement whatsoever, must provide: (1) That in the performance of the contract and all work thereunder, eight hours shall be the maximum hours of labor on any calendar day; (2) that any person performing labor thereunder shall be paid not less than the highest general prevailing rate of wages in private employment for similar work; (3) that any person performing labor in the execution of the contract shall be a citizen of the United States; (4) that all laborers employed in the execution of any contract within the limits of the city and county shall have been residents of the city and county for a period of one year immediately preceding the date of their engagements to perform labor thereunder; provided, however, that the officer empowered to award any such contract may, upon application of the contractor, waive such residence qualifications and issue a permit specifying the extent and terms of such waiver whenever the fact be established that the required number of laborers and mechanics possessing qualifications required by the work to be done cannot be engaged to perform labor thereunder.

The term "public work" or "improvement," as used in this section shall, include the fabrication, manufacturing or assembling of materials in any shop, plant, manufacturing establishment or other place of employment, when the said materials are of unique or special design, or are made according to plans and specifications for the particular work or improvement and any arrangement made for the manufacturing, fabrication or assembling of such materials shall be deemed to be a contract or a sub-contract subject to the provisions of this section.

The board of supervisors shall have full power and authority to enact all necessary ordinances to carry out the terms of this section and may by ordinance provide that any contract for any public work or improvement, or for the purchase of materials which are to be manufactured, fabricated or assembled for any public work or improvement, a preference in price not to exceed ten per cent shall be allowed in favor of such materials as are to be manufactured, fabricated or assembled within the City and County of San Francisco as against similar materials which may be manufactured, fabricated or assembled outside thereof. When any such materials are to be fabricated, assembled or manufactured by any sub-contractor or materialman for the purpose of supplying the same to any contractor bidding on or performing any contract for any public work or improvement, said sub-contractor or materialman manufacturing, fabricating, assembling or furnishing said materials manufactured, assembled or fabricated within the City and County of San Francisco, shall be entitled to the same preferential as would any original contractor or materialman furnishing the
same if the board of supervisors by ordinance so provide. When any ordinance shall so provide any officer, board or commission letting any contract may in determining the lowest responsible bidder for the doing or performing of any public work or improvement add to said bid or sub-bid an amount sufficient not exceeding ten per cent in order to give preference to materials manufactured, fabricated or assembled within the City and County of San Francisco.

7.205 Contract Procedure by Ordinance. (existing provisions)

The board of supervisors shall, by ordinance, establish the necessary procedure to be followed in the advertising for bids, the award of contracts, the supervision of contract work, and the acceptance thereof on completion; also for the security to be given on the filing of bids to guarantee the execution of the contract if awarded, and for the security to be given on the award of contract for the faithful performance thereof and to guarantee the payment of wages for services engaged and of bills contracted for material, supplies and equipment used in the performance of the contract.

7.206 Collusion. (existing provisions)

If any party or parties to whom a contract has been awarded has been guilty of collusion with any officer or representative of the city and county, or any other party or parties, in the submission of any bid or in preventing of any other being made, or in knowingly receiving preferential treatment by any officer or an employee of the city and county, then any contract so awarded, if not completed, may be declared null and void by the board of supervisors on the recommendation of the purchasing agent or the principal executive concerned, as the case may be, and the purchaser of supplies or the principal executive concerned shall thereupon re-advertise for bids for said work for the uncompleted portion thereof. If the work under such contract shall have been completed, the matter shall be referred to the city attorney for such action as may be necessary. Any party or parties guilty of such collusion shall not be permitted to participate in or to bid on any future public work, improvement or purchase to be made by the city and county.

Chapter Three. Bond Issue Procedure.

7.300 General Laws Applicable. (existing provisions)

The general laws of the State of California authorizing the incurring and establishing the procedure for the creation of bonded indebtedness and authorizing and establishing the procedure for the issuance of bonds to refund indebtedness of municipalities in force at the time any bonded indebtedness is created or refunded by the city and county shall, except as otherwise provided in this charter, be applicable to the creation of bonded indebtedness and the issuance of refunding bonds by the city and county.

7.301 Interest on Bonds During Construction. (existing provisions)

In any case where bonds have been authorized for the acquisition, construction or completion of a public utility or of extensions thereto, interest which may become due on said bonds during the actual period of construction of said utility, or of extensions to an
existing utility, as the case may be, and during the period of six
months immediately following the completion of the same may be
paid out of the proceeds of sale of the bonds authorized and sold for
such purpose, if such method of payment of interest be expressly
provided for in the proceedings authorizing such bond issue.

7.302 Bonds for Street and Other Public Work—Revolving Fund.
(existing provisions)

A municipal indebtedness may be authorized to be incurred by the
voters, in the manner now or hereafter provided by the general
laws of the State of California, for the purpose of financing public
improvements the cost of which is to be assessed against private
property benefited thereby, and bonds may be authorized by the
voters to be issued therefor, the proceeds of which shall be used
as a "Revolving Fund" to be applied to the payment of incidental
and other expenses, the progressive payments on the work or works
or to pay the principal or interest of bonds, securities or other evi-
dences of debt issued against said special assessments or to pur-
chase any bonds or coupons issued against such special assessments.

7.303 Bond Election by Petition. (existing provisions)

In addition to the method prescribed by the other provisions of
this charter, the proceedings for the authorization and issuance of
bonds for the acquisition, construction or completion of any public
utility or utilities may also be initiated by electors in the manner
following: Whenever a petition, signed by qualified electors of the
city and county equal in number to fifteen per cent of the electors
who voted for all candidates for the office of mayor at the last gen-
eral election at which a mayor of the city and county was elected,
requesting the board of supervisors to submit to the electors of the
city and county a proposition or propositions for incurring bonded in-
debtedness for the acquisition, construction or completion of any
public or utilities shall be filed in the office in which initiative pe-
titions are required by this charter to be filed, the board of super-
visors shall, as soon thereafter as in its judgment shall be practi-
cable, proceed to call an election and submit to the electors of the
city and county the proposition or propositions of incurring bonded
indebtedness of the city and county for the purpose or purposes set
forth in said petition. Neither errors nor informalities in said pe-
tition or in the signatures thereto nor the failure of the percentage
of electors herein specified to sign the same, nor any delay in sub-
mitting said proposition or propositions to the electors shall invalid-
ate any bonds which may be issued and sold pursuant to the pro-
visions hereof. The provisions of this charter relating to the filing,
verification and certification of initiative petitions shall be appli-
cable to the petition herein referred to. Such election shall be called
and held in the same manner as other bond elections of the city
and county, and all proceedings for the issuance of bonds for the
acquisition, construction or completion of such public utility or
utilities, excepting only as otherwise provided in this section, shall
be taken in accordance with the provisions hereinbefore set forth
in this charter.

7.304 Bonds for Capital Improvement Projects. (existing provisions)

Whenever the capital improvement program recommended by the planning commission pursuant to Section 3.431 contains a number of capital improvement projects with estimated costs of less than $2,000,000 each and the board of supervisors by resolution adopted by two-thirds vote of all its members determines that public interest and necessity require the acquisition, construction or completion of more than one of such capital improvement projects to be specified in said resolution, but that the total estimated cost of said improvements will be too great to be paid out of the ordinary annual income and revenue of the city and county, and will require an expenditure greater than the amount allowed therefor by the annual tax levy and will require the incurring of a bonded debt, the board at any subsequent meeting may by a two-thirds vote of all its members pass an ordinance calling an election and ordering submission to the qualified voters of the city and county the single proposition of incurring a bonded indebtedness for the group of public improvements specified in said resolution. Such election shall be called and held in the same manner as other bond elections of the city and county. If the proposition receives the assent of two-thirds of the qualified electors voting in favor thereof, the bonded indebtedness may then be incurred for said group of public improvements. No proposition or propositions for incurring a bonded indebtedness shall be submitted to the voters at any one election pursuant to the provisions of this section where the total estimated cost of the group or groups of public improvements involved exceeds the sum of $6,000,000.

The proceeds of the sale of bonds authorized at any such election (except premium and accrued interest received on the sale thereof) shall be applied exclusively for said group of public improvements, but in such amounts applicable to each thereof as the board of supervisors may from time to time determine, provided that as nearly as practicable each capital improvement project comprising a part of said group of public improvements shall be acquired, constructed and completed to the extent of funds then available therefor, which may be more or less than the original estimated cost of any capital improvement project comprised within said group of public improvements.

The provisions of the Municipal Bond Act of 1901, as amended, presently codified as Article 1, Chapter 4, Division 4, Title 4, of the Government Code of the State of California authorizing the incurring and establishing the procedure for the creation of bonded indebtedness by cities shall except as otherwise provided herein, be applicable to the creation of the bonded indebtedness authorized by this section.

7.305 Revenue Bonds of the Port Commission. (existing provisions as they would continue to appear if the amendments proposed in Proposition I are not approved)

This section shall become operative and become part of this charter only in the event Proposition I on the November 4, 1969 ballot is not approved by a majority vote of the electorate of the City and County of San Francisco.
The port commission may issue revenue bonds in the same manner and to the same extent as is provided for by the San Francisco Harbor Revenue Bond Act of 1951, enacted by Stats. 1951, Chapter 1712, page 4020, of the Statutes of California. All of the provisions of said Act are by this reference incorporated in and made a part of this charter, except that where the term "Board of State Harbor Commissioners" is used it shall be deemed to mean the "Port Commission," and where the term "San Francisco Harbor Bond Finance Board" or "Bond Finance Board" is used it shall be deemed to mean "Board of Supervisors of the City and County of San Francisco," and where the term "Attorney General of the State of California" is used it shall be deemed to mean "City Attorney," and where the term "State Treasurer" is used it shall be deemed to mean "City Treasurer," and where the term "State Controller" is used it shall be deemed to mean "City Controller." The revenue bonds issued hereunder shall be known as "Revenue Bonds of the Port Commission of San Francisco."

7.305 Revenue Bonds of the Port Commission. (provisions as they would appear in the present charter and be carried over into the revised charter if amendments proposed in Proposition I are approved)

This section shall become operative and become a part of this charter only in the event Proposition I on the November 4, 1969 ballot is approved by a majority vote of the electorate of the City and County of San Francisco.

The Port Commission may issue revenue bonds in the same manner and to the same extent as is provided for by the San Francisco Harbor Revenue Bond Act of 1951, enacted by Stats. 1951, Chapter 1712, page 4020, of the Statutes of California and codified as Sections 3200 to 3369 of the Harbors and Navigation Code of the State of California, except that the provisions of said Act codified as Section 3338 of the said Harbors and Navigation Code shall not be applicable to these bonds and the bonds shall instead be governed by the following provision:

The San Francisco Port Commission may fix terms and conditions for the sale or other disposition of any authorized issue of bonds and may provide that the bonds may be sold on the basis of the lowest net interest cost to the San Francisco Port Commission, the coupon rates to be fixed by the successful bidder on the sale of the bonds. The San Francisco Port Commission may authorize the City Treasurer to sell bonds at less than their par or face value, but no bond may be sold at a price below 95% of the principal amount of the bond and accrued interest thereon. The said San Francisco Port Commission may set the annual rate or rates of interest which the bonds to be issued shall bear, which rate or rates, at the discretion of the said Commission, may be determined by the bidder at the time of sale of said bonds. Such interest may be payable at such periods as may be fixed by the Commission.

All of the other provisions of said Act are by this reference incorporated in and made a part of this charter, except that where the term "Board of State Harbor Commissioners" is used it shall be deemed to mean the "Port Commission," and where the term "San Francisco Harbor" is used it shall be deemed to mean all the prop-
Chapter Four. Zoning Procedure.

7.400 Zoning Changes. (existing provisions)

The planning commission shall consider and hold hearings on proposed changes in the zoning ordinance which classifies the uses to which property in the city and county may be put, and on the establishment or changing of building setback lines, either on its own motion, or on the application of interested property owners or their authorized agents. The board of supervisors, by ordinance, shall establish procedure for action on such matters. The planning commission shall give notice of time and place of such hearings and shall act upon such applications for change within ninety days from the date of conclusion of the hearing. Failure to act within said time shall constitute disapproval. If approved, such applications, together with the approval of the commission, shall be presented to the board of supervisors, which may adopt such changes by a majority vote. If disapproved, the action of the planning commission shall be final, except that appeal may be taken from the ruling of the commission by filing written protest with the board of supervisors within a period of thirty days after the action of the planning commission, if such protest is subscribed by the owners of twenty per cent of the property affected. The board of supervisors or the clerk thereof shall set a time and place for hearing such appeal, which shall be not less than ten nor more than thirty days after such filing. The board must decide such appeal within ten days of the time so set for such hearing, provided that, if the full membership of the board is not present on the last day on which said objections are set or continued for hearing within said period, the board may postpone said hearing and decision thereon until, but not later than, the full membership of the board is present, or the action of the commission shall be deemed to be approved by the board, provided, further, that the latest date to which said hearing and decision may be postponed on such account shall not be more than ninety (90) days from the date of filing of such protest. The supervisors may disapprove the action of the commission on such appeal by a vote of not less than two-thirds of all members of the board and adopt such change in said ordinance. Any action of the commission so appealed shall not become effective unless and until approved by the board within the time aforesaid. In case of disapproval by the commission or by the supervisors on appeal of a proposed change, such proposed change may not be resubmitted to or reconsidered by the commission for at least one year.
7.401 Zoning Administration. (existing provisions)

There shall be in the office of planning a zoning administrator appointed subject to the civil service provisions of this charter who shall administer and enforce the zoning and set-back ordinances. He shall receive and investigate all applications for proposed amendments thereto and shall submit his report and recommendations thereon to the director of planning prior to the hearing by the planning commission.

7.402 Variances. (existing provisions)

The zoning administrator shall receive, investigate, hear and determine all applications for variances from the strict application of the provisions of the aforesaid ordinances. The board of supervisors shall establish by ordinance the procedure for action on such matters, including the manner by which notice of time and place of hearings shall be given. The zoning administrator shall have power to grant only such variances as may be in harmony with the general purpose and intent of said ordinances and in accordance with the general and specific rules therein contained, subject to such conditions and safeguards as he may impose. He shall have authority to grant such variances only when the strict and literal interpretation and enforcement of the provisions of said ordinances would result in practical difficulties, unnecessary hardships or results inconsistent with the general purposes of the zoning regulations. Before any such variance may be granted, there shall appear, and the zoning administrator shall specify in his findings, the facts in each case which shall establish:

(1) That there are exceptional or extraordinary circumstances or conditions applying to the property involved or to the intended use of the property that do not apply generally to the property or class of uses in the same district or zone;

(2) That such variance is necessary for the preservation and enjoyment of a substantial property right of the petitioner, possessed by other property in the same zone and vicinity; and

(3) That the granting of such variance will not be materially detrimental to the public welfare or injurious to the property or improvements in such zone or district in which the property is located.

VARIANCE APPEALS

The determination of the zoning administrator shall be final except that appeals therefrom may be taken, as hereinafter provided, to the board of permit appeals, exclusively and notwithstanding any other provision of this charter, by any person aggrieved or by any office, agency, or department of the city and county. An appeal from a determination of the zoning administrator shall be filed within ten days from the date of such determination with the board of permit appeals. Upon making a ruling or determination upon any matter under his jurisdiction, the zoning administrator shall thereupon furnish a copy thereof to the applicant and to the director of planning. No variance granted by the zoning administrator shall become effective until ten days thereafter. An appeal shall stay all proceedings in furtherance of the action appealed from.
BOARD OF PERMIT APPEALS—POWER TO ACT ON VARIANCES

The board of permit appeals shall have and exercise the following powers:

(a) To hear and determine appeals where it is alleged there is error or abuse of discretion in any order, requirement, decision or determination made by the zoning administrator in the enforcement of the provisions of any ordinance adopted by the board of supervisors creating zoning districts or regulating the use of property in the city and county;

(b) To hear and determine appeals from the rulings, decisions and determinations of the zoning administrator granting or denying applications for variances from any rule, regulation, restriction or requirement of the zoning or set-back ordinances, or any section thereof. Upon the hearing of such appeals said board may affirm, change, or modify the ruling, decision or determination appealed from, or, in lieu thereof, make such other additional determination as it shall deem proper in the premises, subject to the same limitations as are placed upon the zoning administrator by this charter or by ordinance.

7.403 Permits. (existing provisions)

No permit or license that is dependent on or affected by the zoning, set-back or other ordinances of the city and county administered by the planning commission shall be issued except on the prior approval of the planning commission.

Chapter Five. Property.

7.500 Records of Real Property. (existing provisions)

He shall annually report to the mayor, the controller, the chief administrative officer, and the supervisors the estimated value of each parcel and improvement. He shall make recommendations to the mayor and chief administrative officer relative to the advantageous use, disposition, or sale of real property not in use.

7.501 Purchase, Lease, and Sale of Real Property and Improvements. (existing provisions)

The director of property shall be the head of the department of property. He shall have charge of the purchase of real property and improvements required for all city and county purposes, and the sale and lease of real property and improvements thereon owned by the city and county, except as otherwise provided by this charter. In the acquisition of property required for street opening, widening or other public improvements, the director of property shall make preliminary appraisals of the value of the property sought to be condemned or otherwise acquired, and report thereon to the
responsible officer. It shall be his duty, in addition, to assist in such proceedings on the request of the responsible officer.

He shall have charge of the management of the exposition auditorium.

Each office, agency, or department authorized by the approval of bond issues or by annual or supplemental appropriation ordinances to purchase or lease property or improvements needed for the purposes of such office, agency, or department shall make such purchases or leases through the director of property. He shall make a preliminary valuation of the property to be acquired or leased and report the same to the office, agency, or department requiring such property. For such purposes he may employ independent appraisers. He shall conduct negotiations with the owner or owners thereof, at the conclusion of which he shall report the terms on which such sale or lease may be concluded, together with his recommendations thereon. The principal executive concerned may report to the board of supervisors and recommend acceptance or that proceedings in eminent domain be instituted for the acquisition of such property.

7.502 Sale of Real Property. (existing provisions)

Any real property owned by the city and county, excepting lands for parks and squares, may be sold on the recommendation of the principal executive in charge of the office, agency, or department responsible for the administration of such property. When the board of supervisors, by ordinance, may authorize such sale and determine that the public interest or necessity demands, or will not be inconvenienced by such sale, the director of property shall make a preliminary appraisal of the value of such property. The director of property shall advertise by publication the time and place of such proposed sale. He shall forthwith report to the principal executive concerned and to the supervisors the amount of any and all tenders received by him. The supervisors may authorize the acceptance of the highest and best tender, or they may, by ordinance, direct that such property be sold at public auction, date of which shall be fixed in the ordinance. No sale other than a sale at public auction shall be authorized by the supervisors unless the sum offered shall be at least ninety per cent of the preliminary appraisal of such property hereinbefore referred to.

The proceeds of the sale of any property under the control of an office, agency, or department shall be applied by the supervisors to the purchase of additional land for the use of such office, agency, or department if required thereby. Otherwise such proceeds shall be applied to the purchase of additional real property for any city and county purpose, or, if not required therefor, may be appropriated by the board of supervisors for capital improvements; provided, however, that the proceeds of the sale of any property acquired for the use of any utility, bond, special or trust fund shall revert to the related, utility bond, special or trust fund.

The director of property may, in lieu of sale, arrange for the trading of any real property proposed to be sold for other property required by the office, agency, or department in charge thereof, on the recommendation of the principal executive in charge of such property and the authorization, by ordinance, of the board of supervisors.
7.503 Lease of Real Property. (existing provisions)

When the principal executive of any office, agency, or department in charge of real property shall report to the board of supervisors that certain land is not required for the purposes of the office, agency, or department, the board of supervisors, by ordinance, may authorize the lease of such property. The director of property shall arrange for such lease for a period not to exceed twenty years, to the highest responsible bidder at the highest monthly rent. The director of property shall collect rents due under such lease.

The administrative unit responsible for water resources shall have exclusive power to lease agricultural or other lands used and useful for its purposes and at the same time available for leasing or rental for agricultural or other purposes and such leases shall be subject to administration by its operating forces.

The administrative unit responsible for airport operations shall have exclusive power to lease lands now devoted to airport purposes or lands that may hereafter be acquired and devoted to airport purposes for a period not to exceed forty years, and the director of property shall arrange for such lease to the highest responsible bidder at the highest monthly or annual rent, subject to approval of such administrative unit, and thereafter the administration of any and all such leases shall be by such administrative unit. Section 7.512 of this charter shall not be applicable to leases referred to in this paragraph provided, however, that no lease of airport lands or agreement which divests the city and county of the right to manage, operate or control the aircraft landing field, the entire part of the airport not devoted to the aircraft landing field, or the entire airport shall be made without the approval of the board of supervisors by ordinance and referral and submission to a vote of the electors of the city and county at the election next ensuing not less than sixty days after the adoption of such ordinance, and such ordinance shall not go into effect until ratified by a majority of voters voting thereon.

7.504 Longer Term of Lease. (existing provisions)

The board of supervisors shall have the power, by ordinance, subject to the referendum provisions of this charter, to provide a longer term for leases executed under section 7.503 of this charter than that provided for therein, providing however, that until such ordinance shall become effective the limitations contained in section 7.503 as to the term of the lease shall control.

7.505 Sale, Abandonment or Discontinuance of Use of Land Held for Park Purposes. (existing provisions)

Notwithstanding any other provisions of this charter, whenever lands which are or shall be used or intended for use for parks or squares are no longer needed for park or recreational purposes, such lands may be sold or otherwise disposed of, or their use for park purposes may be abandoned or discontinued; provided that nothing herein shall be construed to authorize the discontinuance or abandonment of the use of such lands, or any change in the use thereof which will cause the reversion of such lands to private ownership, or cause the forfeiture of the ownership thereof in fee by the City and County of San Francisco, or as authorizing the dis-
continuance of the use of park lands acquired in any proceeding wherein a local assessment based on benefits was or shall be levied to provide funds for such acquisition; and provided further that the general laws of the State of California authorizing municipal corporations to abandon or to discontinue the use of land for park purposes, authorizing the sale or other disposition of such lands, and providing procedures therefor and for matters relating thereto, shall be applicable to the City and County of San Francisco and to all lands held or used by it for park purposes and shall govern and control exclusively in respect thereto.

7.506 Lease of Park Land. (existing provisions)

Except as provided in section 7.507, the administrative unit responsible for recreation and parks shall not lease any part of the lands under its control nor permit the building or maintenance or use of any structure on any park, square, avenue or ground, except for recreation purposes, and each letting or permit shall be subject to approval of the board of supervisors by ordinance. Such administrative unit may lease to the highest responsible bidder for a term of not to exceed fifty years and upon such other terms and conditions as it may determine, subsurface space under any public park or square and the right and privilege to conduct and operate therein a public automobile parking station, provided that the said construction, when completed, and the operation will not be, in any material respect or degree, detrimental to the original purpose for which said park or square was dedicated or in contravention of the conditions of any grant under which said park or square might have been received.

7.507 Lease or Rental of Recreational Facilities. (existing provisions)

Suspension on these grounds shall continue until the person is acquitted or the indictment or information against him is set aside.

(d) The board shall designate which of its members shall act as mayor while the mayor is suspended. The mayor shall designate a qualified person to discharge the duties of office while any other person is suspended. Suspension shall be with pay.

(e) A suspended person shall have the right to appear in his own defense, with counsel, before any proceeding of the board having to do with his suspension or removal, and shall have the right to produce evidence in his own behalf, to subpoena witnesses, and to examine and cross-examine witnesses. Provided that for each fiscal year following fiscal year 1963, the civil service commission shall adjust the one hundred fifty dollar ($150) maximum for part-time service as provided herein, in accordance with the average percentage increase or decrease approved for all classifications under the provisions of sections 8.400 and 8.401 of this charter, and such adjusted rate shall be included in the annual salary ordinance.

Provided further that any occupant of a part-time position on February 5, 1968, who is occupying such position under certification from the appropriate list of civil service eligibles shall be continued in such position subject to the conditions of his current appointment.
These provisions shall not be used to split or divide any position into two or more units for the purpose of evading the provisions of this section.

The civil service rights, acquired by persons under the provisions of the charter superseded by this charter, shall continue under this charter.

Where existing positions that have heretofore been exempt from civil service examinations are now made subject to examination by this charter, the incumbents of such positions who have held such positions for a period of one year continuously next preceding the time that this charter shall go into effect, shall be continued in their positions as if appointed thereto after examination and certification from a list of eligibles and shall be governed thereafter by the provisions of this charter, provided, however, the provisions of this paragraph shall not apply to positions heretofore defined and classified by the civil service commission as "institutional help."

Subject to the provisions of this charter dealing with joint service, any person holding a salaried office under the city and county, whether by election or appointment, who shall, during his term of office, hold or retain any other salaried office under the government of the United States, or of this state, or who shall hold any other salaried office connected with the government of the city and county, or who shall become a member of the legislature, shall be deemed to have thereby vacated the office held by him under the city and county.

(b) Positions as heads of offices, agencies, departments, bureaus, or institutions shall be subject to the civil service provisions of this charter unless specifically exempted.

8.201 Employment Rights of Employees of the Port Authority. (existing provisions)

Notwithstanding any other provisions of this charter, the city and county shall perform all acts necessary to protect the employment rights of employees of the Port Authority as specified in Section 20 of Statutes 1968, ch. 1333.

8.202 Employees of California Academy of Sciences. (existing provisions)

All positions in buildings and improvements of the California Academy of Sciences for which funds shall be furnished by the city and county, under section 6.410 of this charter, shall be held by employees of the city and county, with the exception of the director, the secretary of the board of trustees of said California Academy of Sciences, the curators and other scientific and professional per-

8.203 Procedure for Creation of Positions. (existing provisions)

Positions in any office, agency, or department of the city and county may be created, as provided by this charter, by appropriation ordinance of the board of supervisors. Copy of each such ordinance creating or abolishing positions shall be filed, on the approval thereof, with the civil service commission by the clerk of the board of supervisors. Before the appointing officer shall make recommendation for the creation of any new or additional position in any office, agency, or department, he shall request and receive from the commission the proper designation and classification of such position based on the duties and responsibilities thereof, and if such position is included in the classified civil service, the commission may, in writing, express to the appointing officer its opinion as to whether or not such position is needed.

Immediate notice in writing shall be given to the civil service commission by the appointing officer of each office, agency, and department of the city and county of the creation or abolition of any position, or of any change in duties if the position is included in the classified civil service, or of any appointment, resignation, suspension, dismissal or other creation of vacancy therein, with the date of any such change. If said appointing officer is also empowered to establish compensation rates or make changes therein, he shall notify the commission of any such rate or change therein. The commission shall maintain a record of all such notifications.

The term “appointing officer” as used in this charter shall also include any board or commission in the exercise of its power to appoint a principal executive or other officer or employee designated by this charter as appointive by such board or commission.

Chapter Three. Appointments and Promotions.

8.300 Applications. (existing provisions)

Any citizen having the qualifications prescribed by section 8.100 of this charter may submit himself for any examination under conditions established by the civil service commission. Provided, however, applicants for positions as motorman, conductor or bus operator on the municipal railway need not be residents of the city and county at the time of application, examination or appointment, but must become residents within the meaning of section 8.100 within a reasonable time, not to exceed six months, after completion of the probationary period provided in section 8.309. The commission shall advertise in the official paper the time, place and general scope of all examinations for entrance into the public service and may take further appropriate means to interest suitable applicants. When examinations for promotion are to be held, the commission shall give notice thereof to all persons in positions entitling them under the civil service rules, to participate in such examination, by posting information thereof in the office of the commission for a period of ten days and notifying the office, agency, or department concerned.
8.301 Qualifications and Tests. (existing provisions)

All applicants for places in the classified service shall submit to tests which shall be competitive provided, however, that no test in either entrance or promotional examinations shall be deemed to be competitive unless two or more persons shall participate, except that any such examination may be held for one qualified applicant on recommendation of the civil service commission and approval by resolution of the board of supervisors, after a finding by the board that reasonable publicity of the proposed examination has been given by the civil service commission. Such tests shall be without charge to the applicants. The commission shall control all examinations and may employ suitable persons in or out of the public service to act as examiners. The tests may be written, oral, mechanical or physical, or any combination of them, practical in character and related to matters fairly to test the relative capacity of the applicants for the positions to be filled. The commission shall be the sole judge of the adequacy of the tests to rate the capacity of the applicants to perform service for the city and county. The commission may, for each examination, establish a passing mark or may determine the total number of persons who shall constitute the list of eligibles. The commission shall prepare from the returns of the examiners the list of eligibles, arranged in order of relative excellence. No question submitted to applicants shall refer to political or religious opinions or fraternal affiliations.

Applicants for entrance positions in the uniformed force of the fire department shall not be less than nineteen years of age at the time of taking the examination, nor less than twenty years of age or more than thirty-two years of age at the time of appointment and shall have the physical qualifications required for enlistment in the United States Army, Navy and Marine Corps.

Applicants for entrance positions in the uniformed force of the police department shall not be less than twenty years of age at the time of taking the examination, nor less than twenty-one years of age or more than thirty-five years of age at the time of appointment and shall have the physical qualifications required for enlistment in the United States Army, Navy and Marine Corps.

Applicants for positions in the mechanical trades and occupations may, in the discretion of the commission, be rated solely on experience and physical qualifications which may be demonstrated by such evidence and in such manner as the commission may direct, and such applicants may be submitted to such further tests as the commission may require. Examinations of laborers shall relate only to physical qualifications and experience, and laborers establishing their fitness shall rank upon the register in order of priority application.

The commission may remove all names from the list of eligibles after they have remained thereon for more than two years and all names thereon shall be removed at the expiration of four years. The commission may, however, provide in the scope-circular of any examination that the list of eligibles secured thereby shall automatically expire at a date not less than two or more than four years after the adoption of such list.

Veterans with thirty days or more actual service, and widows of
such veterans, who become eligible for appointment by attaining the passing mark in any entrance examination, shall be allowed an additional credit of five per cent in making up the list of eligibles secured by such examination. The term "veteran" as used in this section shall be taken to mean any person who has been mustered into, or served in, the Army, or enlisted in, or served in, the Navy or Marine Corps, of the United States, in time of war and received an honorable discharge or certificate of honorable active service. In the case of promotive examinations, when the passing mark has been attained, a credit of three per cent shall be allowed to veterans or to widows of such veterans, when requested by such veterans or widows. When an eligible has secured a permanent appointment from a list of eligibles derived from an entrance examination in which he has been allowed additional credits of five per cent as herein provided, and has served the full probationary period therein as provided in this charter, such other additional credits of five per cent that have been allowed him on the list of eligibles derived from other entrance examinations shall be automatically cancelled, and his rank on such other list or lists revised to accord with his relative standing before such additional credits were added and he shall not be allowed such additional credits in any other entrance examinations. If he has received a permanent appointment from a list of eligibles derived from a promotive examination in which he has requested and been allowed the additional credits of three per cent as herein provided, and has served the full probationary period therein as provided in this charter, such additional credits of three per cent that have been allowed him on the lists of eligibles derived from other promotive examinations shall be automatically cancelled, and his rank on such other list or lists revised to accord with his relative standing before such additional credits were added, and he shall not be allowed such additional credits in any other promotive examinations. The civil service commission may, for services or employment specified by the commission, allow general or individual preference, but not less than ten per cent, for entrance appointment of veterans who have suffered permanent disability in the line of duty, provided that such disability would not prevent the proper performance of the duties required under such service, or employment, and provided that such disability is of record in the United States Veterans' Bureau.

8.302 Time of War. (existing provisions)

In the administration hereafter of the provisions of section 8.301 of this charter, the terms Army, Navy or Marine Corps of the United States shall be deemed to include the Army, the Air Corps, the Navy, the Marine Corps, and the Coast Guard of the United States, and for the purposes of determining whether any person was mustered into, or served in, the Army, the Air Corps, the Navy, the Marine Corps, or the Coast Guard of the United States, in time of war, the expression, time of war, shall include the following periods of time:

(a) The period of time from the commencement of a war as shown by any declaration of war of the Congress of the United States, or by any statute or resolution of the Congress a purpose of which is to declare in any manner the existence of a state of war,
until the time of termination thereof by any truce, treaty of peace, cessation of hostilities, or otherwise.

(b) The period of time during which the United States is or has been engaged in active military operations against any foreign power, whether or not war has been formally declared.

(c) The period of time during which the United States is or has been assisting the United Nations or any nation or nations in accordance with existing treaty obligations, in active military operations against any foreign power, whether or not war has been formally declared.

(d) The period of time during which the United States is engaged in a campaign or expedition in which a medal has been authorized by the government of the United States; provided, however, that no person shall be eligible for the benefits provided for veterans in section 8.301 unless he shall have been eligible to receive such a medal.

8.303 Limited Tenure Appointments. (existing provisions)

When in time of war declared by the Congress of the United States eligibles are not available for appointment from registers established through the regular examination procedure as provided under section 8.301 hereof, the civil service commission may qualify applicants for wartime appointments to positions through informal and non-competitive tests. Such tests and appointments resulting therefrom shall be governed solely by the provisions of this section and by rule of the civil service commission adopted pursuant thereto and the tests shall be adequate in the judgment of the civil service commission to determine the capacity of applicants to perform the duties of the positions to be filled pending creation of lists of eligibles through the regular examination procedure as provided in section 8.301 hereof. Appointments made under the provisions of this section shall be designated “limited tenure appointments” and may continue only until registers of eligibles are established through the regular examination procedure provided in section 8.301 hereof but in no event to exceed six months beyond the cessation of hostilities. Limited tenure appointments may be terminated by the appointing officer at any time for lack of work or funds. Limited tenure appointments may be terminated by the appointing officer for good cause at any time with the approval of the civil service commission without reference to the procedures governing removals set forth in section 8.800 hereof. Persons serving under limited tenure appointments as in this section provided shall by reason of such service acquire no right or preference to permanent civil service status as defined elsewhere in this charter or by rule of the civil service commission which is conferred on persons completing probationary appointments made from lists of eligibles established through the regular examination procedures provided in section 8.301 of this charter. Service after January 1, 1951, under limited tenure appointment, by platform employees of the municipal railway, shall not be included in the calculation of service of such employees for the purpose of determining assignments of runs when such assignments are made on the basis of seniority of service.

Non-civil service appointments in the absence of civil service eligibles as provided in section 8.310 of this charter shall not be author-
ized if applicants qualified for limited tenure appointments are available. The civil service commission shall make every effort consistent with current conditions to maintain adequate registers of eligibles established through the regular examination procedure provided in section 8.301 hereof. If its annual appropriation is insufficient to meet the cost of the examinations required to establish registers of eligibles through the examination procedures set forth in section 8.301 hereof, or to qualify applicants for limited tenure appointments as herein provided, the commission shall report to the mayor the estimated costs thereof and the mayor shall request and the supervisors shall make supplemental appropriations therefor in the manner provided herein for supplemental appropriations.

The civil service commission shall adopt rules to carry out the provisions of this section and to govern the administration of limited tenure appointments.

In time of national emergency declared by the President of the United States or by the Congress or while any act authorizing compulsory military service or training is in effect, the provisions of this section may also be made operative upon recommendation of the civil service commission and approval of the board of supervisors by ordinance enacted by two-thirds vote of the board. Authority for limited tenure appointments, if established pursuant to the authority of this paragraph, shall cease six months after repeal by the board of supervisors of the ordinance which authorized such appointments.

8.304 Employment of Blind Persons. (existing provisions)

Notwithstanding anything to the contrary in section 3.600 of this charter, or any other provisions of the charter, it shall be the policy of the City and County of San Francisco, consistent with a policy of acquiring qualified personnel for the service of the city and county, to encourage the hiring of blind persons. It shall further be the policy of the City and County of San Francisco that no otherwise qualified blind person shall be discriminated against in examination, re-examination, appointment, reappointment, waiver of eligibility for appointment or reappointment, promotion or demotion in any class, subclass or position in the civil service unless eyesight is indispensible for the performance of the duties and responsibilities of the class, subclass or position. It shall be the duty of the commission to classify, and from time to time it may reclassify, places of employment in the civil service the duties of which may be efficiently performed by qualified blinds persons and to conduct appropriate examinations which will fairly test the capacity of blind persons as well as sighted persons to perform such duties.

8.305 Promotions. (existing provisions as they would continue to appear if the amendments proposed in Proposition G are not approved)

8.306 Substitute Promotional Examinations for Persons Returning From Authorized Military Leave. (existing provisions)

Employees under permanent civil service appointment who, because of absence on duly authorized military leave after June 27, 1950, did not participate in a promotional examination held after June 27, 1950, and during time of war as defined in section 8.302 of this charter, and in which examination the employee would have been otherwise eligible to compete had the war not intervened, and which examination is hereinafter referred to as the original promotional examination, shall after abridgment of military leave, have the right to participate in a similar promotional examination. Provided, that persons and employees who were on entrance or

95
promotive eligible lists, shall, for the purpose of this amendment, be deemed to be appointees in their classifications from the time their names were reached for permanent certification while in the military service.

In order to qualify for participation in a similar promotional examination under the provisions of this section, such employee who desires to participate therein must make application in writing to the civil service commission within thirty days after the abridgment of his military leave, or within thirty days after the effective date of this amendment. Failure to file such written request to participate in a similar promotional examination as herein provided shall be deemed a waiver of all rights of the employee to participate in such similar promotional examination.

The civil service commission shall arrange to hold such similar promotional examination within a reasonable time after employees eligible to request participation in any such similar promotional examination under the provisions of this section have indicated their desire to so participate, or have waived their right to participate, as herein provided.

The civil service commission shall be the sole judge of the adequacy of such similar promotional examination. If the employee obtains in the similar promotional examination a score rating equal to or more than the minimum passing mark established by the civil service commission for inclusion on the list of eligibles resulting from the original promotional examination, his name shall thereupon be entered on the eligible list resulting from the original promotional examination in accordance with the relative excellence obtained by all the qualified participants in the original and similar promotional examinations. Such employees shall be eligible for appointment from such list of eligibles in accordance with civil service rules to any vacancy thereafter occurring, and subject to satisfactory completion of a probationary period as provided in section 8.309 of this charter for a period of four years after the date on which their name is entered on the eligible list and before eligibles procuring standing through examinations held subsequent to the original promotional examination.

If it is determined by the civil service commission that the name of such person would have been reached for permanent appointment from the list of eligibles established as a result of the original promotional examination during his term of military service had the name of such person appeared thereon, then such employee, upon appointment to a permanent position as herein provided, shall be granted seniority in such appointment from the date his name would have been reached had his name appeared thereon, but such seniority shall be used only for the purpose of determining salary increments and calculating city and county service credits in other promotional examinations held subsequent to the similar promotional examination herein authorized. For all other purposes, seniority of service shall date from the date of appointment as a result of qualifying in the similar promotional examination as herein authorized.

Such employees who qualify for appointment as a result of a similar promotional examination as herein provided, and who are appointed to permanent positions, as herein provided, shall be permitted to participate in other promotional examinations for which they are otherwise eligible, while serving under probationary ap-
pointment in the position to which appointed as a result of the similar promotional examination, provided that certification from lists of eligibles established from such other examinations shall not be made until the employee has satisfactorily completed the afore-
said probationary appointment.

The civil service commission shall adopt rules to govern the ad-
ministration of similar promotional examinations herein author-
ized, and appointments and other matters resulting therefrom.

8.307 No Aid, Hindrance, Fraud or Collusion Permitted. (existing
            provisions)

No person or officer shall, by himself or in cooperation with other
persons, defeat, deceive or obstruct any person in respect to his or
her right of examination; or falsely mark, grade, estimate or report
upon the examination or proper standing of any person examined
hereunder, or aid in so doing; or make any false representations
concerning the same, or concerning the person examined; or furnish
to any person any special or secret information for the purpose of
either improving or injuring the prospects or chances of any person
of being appointed, employed or promoted.

Any eligible securing standing on a list by fraud, concealment of
fact or violation of commission rules shall be removed from such
list and if certified or assigned to a position shall be removed there-
from.

8.308 Inspection of Civil Service Examination Papers. (existing
            provisions)

After the written portion of a civil service examination has been
held, and prior to the scoring thereof, the questions used and the
answers thereto shall be made available for review by the partici-
pants. During the review period, participants shall have an oppor-
tunity to protest questions or answers they believe to be incorrect or
improper, and for this purpose shall be permitted to bring to the
place of review such written authorities as they may desire to assist
them in the preparation of their protests. The written portion
of the examination shall not be scored until all protested items have
been acted on by the civil service commission and an official rating
key has been adopted. After the official rating key has been adopted,
the examination papers have been scored and the identification
sheets of the participants have been opened so that the identity of
the participant is known, the civil service commission shall not make
any changes in the examination questions or answers.

After the civil service commission has prepared and published or
posted a tentative list of eligibles, arranged in order of relative ex-
cellence, as the result of any examination held by said commission,
all examination papers, questions and answers, and all marks and
grades given on any test given in said examination shall be open to
public inspection, provided that the identity of the examiner giving
any mark or grade in an oral test shall not be disclosed; and pro-
vided further that the commission may require the payment of a fee
of not more than one dollar (§1.) for the inspection of all of the
papers relating to the examination of any one person participating
in said examination; and provided further that a participant may
examine his own examination papers without charge. The civil ser-
vice commission shall have power to correct any error which in its
judgment may have occurred in the rating of any participant in
said examination, and to alter said published or posted tentative list
of eligibles and to make changes accordingly therein. The civil serv-
ice commission shall provide for a reasonable period of time for
such inspection, but not less than three (3) working days for en-
trance examinations nor less than five (5) working days for pro-
motive examinations nor more than two (2) calendar weeks for
either entrance or promotive examinations. If no protests are re-
ceived during the time limits provided by the civil service commis-
sion for such inspection, the tentative list of eligibles shall be given
immediate final approval and adoption. If any protests are filed
within the inspection period provided by the civil service commis-
sion, the investigation and action on such protests shall be expedited
to the end that final approval and adoption of the eligible list may
be made at the earliest possible time, provided that in no event shall
such final approval and adoption be delayed beyond sixty (60) days
after the date of publication or posting of the tentative list of
eligibles.

The civil service commission by rules shall establish procedures
for the review of written tests and the inspection of examination
papers, as herein provided, for the maintenance of the security of
examination material and for the protection of the public interest.

8.309 Requisition, Certification and Appointment. (existing pro-
visions)

Whenever a position controlled by the civil service provisions of
this charter is to be filled, the appointing officer shall make a requisi-
tion to the civil service commission for a person to fill it. Thereupon,
the commission shall certify to the appointing officer, the name and
address of the person standing highest on the list of eligibles for
such position. In case the position is promotive, the commission
shall certify the name of the person standing highest on such list.
In making such certification, sex shall be disregarded except when a
statute, a rule of the commission or the appointing officer specifies
sex.

From the requisition of the appointing officer or otherwise, the
commission shall determine whether the position is, in character,
temporary, seasonal or permanent, and shall notify the candidate
in accordance therewith to the end that the candidate may have
knowledge of the probable duration of employment. The commis-
sion shall provide for such waiver of temporary or seasonal employ-
ment as it may deem just to candidates.

Any appointment to a position declared permanent by the civil
service commission shall be on probation for a period of six months,
provided that the probationary period for entrance positions in the
uniform rank of the police department shall be for one year. At any
time during the probationary period the appointing officer may ter-
minate the appointment upon giving written notice of such termina-
tion to the employees and to the civil service commission specifying
the reasons for such termination. Except in the case of uniformed
members of the police and fire departments the civil service commis-
sion shall inquire into the circumstances. If the appointment re-
sulted from an entrance examination the commission may declare
such person dismissed or may return the name to the list of eligibles
under such conditions for further appointment as the commission
may deem just. If the appointment resulted from a promotional examination the employee shall have the right of appeal and hearing before the civil service commission. The commission shall render a decision within thirty days after receipt of the notice of termination and (a) may declare such person dismissed; or (b) order such person reinstated in his position without prejudice, and the commission may in its discretion order that the employee be paid salary from time of the termination of his appointment; or (c) order the return of such person to the position from which he was promoted. The decision of the commission shall be final. Immediately prior to the expiration of the probationary period the appointing officer shall report to the civil service commission as to the competence of the probationer for the position, and if competent, shall recommend permanent appointment.

8.310 Emergency Appointments. (existing provisions)

When no list of eligibles exists or no eligible is available on an existing list for a position in the class requisitioned by the appointing officer, and immediate service in the position is required by the appointing officer and another list exists which is deemed by the commission to be suitable to provide temporarily the service desired, the commission shall certify for civil service temporary appointment an eligible from such list; if no such other list deemed by the commission to be suitable exists, the commission pursuant to its rules may authorize the appointing officer to make a non-civil service or emergency appointment thereto for a period not exceeding ninety working days. Such non-civil service or emergency appointment, however, shall cease prior to the expiration of such ninety working days at the time a civil service eligible reports for duty as provided in section 8.309 of the charter.

If a list of eligibles exists for the position requisitioned, but immediate service is deemed necessary by the appointing officer pending the time an eligible from such list is certified and reports for duty as provided in section 8.309 of the charter, the commission may authorize the appointing officer to make a non-civil service or emergency appointment thereto for a period not exceeding thirty working days. Such non-civil service or emergency appointment, however, shall cease prior to the expiration of such thirty working days at the time a civil service eligible reports for duty as provided in section 8.309 of this charter.

No person shall be compensated under any non-civil service or emergency appointment or appointments as authorized under the provisions of the foregoing paragraphs of this section for a period exceeding ninety working days in any fiscal or calendar year, and no claim or warrant therefor shall be approved, allowed or paid for any compensation in excess of such ninety working days in any fiscal or calendar year.

If no eligibles are available for appointment to a permanent position in the class requested by the appointing officer the commission shall immediately hold an examination and establish an eligible list for such position. If its annual appropriation is insufficient to meet the cost of said examination, it shall report to the mayor the estimated cost thereof, and the mayor shall request and the supervisors shall make supplemental appropriation therefor in the manner provided herein for supplemental appropriations.
The board of supervisors shall have the power, and it shall be its duty, without reference or amendment to the annual budget, to amend the annual appropriation ordinance and the annual salary ordinance for the fiscal year 1966-1967 to include the provisions necessary for paying the adjusted basic rates of compensation herein provided.

Chapter Four. Compensation.

Part One. Salaries and Expenses.

8.400 Standardization of Compensation. (existing provisions)

The board of supervisors shall have power and it shall be its duty to fix by ordinance from time to time, as in this section provided, all salaries, wages and compensations of every kind, and nature, except pension or retirement allowances, for the positions, or places of employment, of all officers and employees of all offices, agencies, and departments of the city and county in all cases where such compensations are paid by the city and county.

Compensations specified in this charter shall not be subject to the provisions of this section. Compensations of the teaching and other technical forces of the school department and employees of the Steinhart Aquarium and law library departments, construction employees engaged outside of the city and county, part-time employees, and inmate and institutional help receiving less than fifty dollars ($50) per month, shall be fixed by the principal executive in charge thereof, with the approval of the board or commission, if any, in charge of the department concerned and subject to the budget and appropriation provisions of this charter; provided that part-time employees shall be recorded as such by a principal executive, only with approval of the civil service commission and, when so recorded, shall be noted as part-time on payrolls, budget estimates, salary ordinance and similar documents.

In fixing schedules of compensation as in this section provided, the civil service commission shall prepare and submit to the board of supervisors and the board shall adopt a schedule of compensations which shall include all classifications, positions and places of employment the wages or salaries for which are subject to the provisions of this section; provided, that the civil service commission shall from time to time prepare and submit to the board of supervisors and the board shall adopt amendments to the schedule of compensations which are necessary to cover any new classifications added by the civil service commission. Under the schedules of compensation recommended by the civil service commission and adopted by the board of supervisors as herein provided, like compensation shall be paid for like service, based upon the classification as provided in section 3.601 of the charter, and for those classifications of employment in which the practice is customary, the proposed schedules of compensation shall provide for minima, intermediate, and maxima salaries and for a method of advancing the salaries of employees from the minimum to the intermediate and to the maximum with due regard to seniority of service. The compensations fixed as herein provided shall be in accord with the generally prevailing rates of wages for like service and working conditions in private employment, or in other comparable govern-
mental organizations in this state; provided, that for specialized services which are peculiar to the municipal service and not duplicated elsewhere in private or other governmental organizations in this state, the commission shall recommend and the board of supervisors shall fix a compensation which shall be in accord with the wages paid in private employment or other governmental organizations in the state for the nearest comparable service and working conditions; and provided further that if the civil service commission determines on the basis of facts and data collected as hereinafter provided that the rates generally prevailing for a particular service in private employment or in other governmental organizations are inconsistent with the rates generally prevailing in private employment or other governmental organizations for services requiring generally comparable training and experience, the commission shall set forth these data in its official records and shall recommend and the board of supervisors shall fix a compensation for such service that shall be consistent with the compensations fixed by the board of supervisors for other services requiring generally comparable training and experience; and provided further that the minimum compensation fixed for full time employment subject to the civil service provisions of this charter shall be not less than one hundred and six dollars ($106) per month.

The proposed schedules of compensation or any amendments thereto shall be recommended by the civil service commission solely on the basis of facts and data obtained in a comprehensive investigation and survey concerning wages paid in private employment for like service and working conditions or in other governmental organizations in this state. The commission shall set forth in the official records of its proceedings all of the data thus obtained and on the basis of such data the commission shall set forth in its official records an order making its findings as to what is the generally prevailing rate of pay for each class of employment in the municipal service as herein provided, and shall recommend a rate of pay for each such classification in accordance therewith. The proposed schedules of compensation recommended by the civil service commission shall be transmitted to the board of supervisors, together with a compilation of a summary of the data obtained and considered by the civil service commission and a comparison showing existing schedules. Before being presented to the board of supervisors for consideration, the proposed schedules and a comparison with existing schedules shall be published once a week for two weeks.

The board of supervisors may approve, amend or reject the schedule of compensations proposed by the civil service commission; provided, that before making any amendment thereto the data considered by the board of supervisors as warranting such amendment shall be transmitted to the civil service commission for review and analysis and the commission shall make a report thereon to the board of supervisors, together with a report as to what other changes, and the cost thereof such proposed amendments would require to maintain an equitable relationship with other rates in such schedule.

Where any compensation paid on January 1st, 1931, is higher than the standard compensation fixed as provided in this section for such position or employment, said compensation shall be con-
continued to the incumbent of such position as long as he legally holds said position, and department heads, in cooperation with the civil service commission where said commission has jurisdiction, shall continuously offer all possible opportunities to said incumbents to assume duties and responsibilities in higher classifications consistent with the higher rates of compensation hereby continued. The salaries and wages paid to employees whose compensations are subject to the provisions of this section shall be those fixed in the schedule of compensations adopted by the board of supervisors as herein provided and in accord with the provisions of the ordinance of the board of supervisors adopting the said schedule, and the compensations set forth in the budget estimates, and the annual salary ordinance and appropriations therefor shall be in accord therewith.

Not later than January 15th, 1944, and every five years thereafter and more often if in the judgment of the civil service commission or the board of supervisors economic conditions have changed to the extent that revision of existing schedules may be warranted in order to reflect current prevailing conditions, the civil service commission shall prepare and submit to the board of supervisors a schedule of compensations as in this section provided. A schedule of compensations or amendments thereto as provided herein which is adopted by the board of supervisors on or before April 1st of any year shall become effective at the beginning of the next succeeding fiscal year and a schedule of compensations or amendments thereto adopted by the board of supervisors after April 1st of any year shall not become effective until the beginning of the second succeeding fiscal year. The board of supervisors shall appropriate twelve thousand five hundred dollars ($12,500) to the civil service commission to be known as the salary survey fund and to be used exclusively for defraying the cost of surveys of wages in private employment and in other governmental jurisdictions and making reports and recommendations thereon and publication thereof as herein provided. No expenditures shall be made therefrom except on authorization of board of supervisors. In the event of the expenditure of any of said funds, the board of supervisors in the next succeeding annual budget shall appropriate a sum sufficient to reimburse said salary survey fund.

Where compensations for services commonly paid on an hourly or a per diem basis are established on a weekly, semi-monthly or monthly salary basis for city and county service, such salary shall be based on the prevailing hourly or per diem rate, where this can be established, and the application thereto of the normal or average hours or days of actual working time, in the city and county service, including an allowance for annual vacation.

The rate of pay so fixed by the board of supervisors shall be determined on the basis of rates of pay certified by the civil service commission on or prior to April 1st of each year and shall be effective July 1st following; provided, that the civil service commission shall review all such agreements as of July 1st of each year and certify to the board of supervisors on or before the second Monday of July any modifications in rates of pay established thereunder for such crafts or groups as herein provided. 8.403 Compensation of Platform Employees and Coach and Bus Operators of the Municipal Railway. (existing provisions)

Notwithstanding the provisions of section 8.402 or any other provisions of this charter, the wages, conditions and benefits of employment as provided for in this section of the various classifications of employment of platform employees and coach or bus operators of the municipal railway as compensation, shall be determined and fixed annually as follows:

(a) On or before the first Monday of August of each year, the civil service commission shall certify to the board of supervisors for each classification of employment the average of the two highest wage schedules in effect on July 1st of that year for comparable platform employees and coach or bus operators of other surface street railway and bus systems in the United States operated primarily within the municipalities having each a population of not less than 500,000 as determined by the then most recent census taken and published by the director of the census of the United States, and each such system normally employing not less than four hundred (400) platform employees or coach or bus operators, or platform employees, coach and bus operators.

(b) The board of supervisors shall thereupon fix a wage schedule for each classification of platform employees and coach and bus operators of the municipal railway which shall not be in excess of the average of the two highest wage schedules so certified by the civil service commission for each such classification.

(c) When, in addition to their usual duties, such employees are assigned duties as instructors of platform employees or coach or bus operators they shall receive twenty (20ø) cents per hour in addition to the rate of pay to which they are otherwise entitled under the wage schedule as herein provided.

(d) The rates of pay fixed for platform employees and coach and bus operators as herein provided shall be effective from July 1st of the year in which such rates of pay are certified by the civil service commission.

(e) The terms wage schedule and wage schedules wherever used in this section are hereby defined and intended to include only the maximum rate of pay provided in each such wage schedule.

(f) At the time the board of supervisors fixes the wage schedule
as provided in (b) above, the board of supervisors may fix as conditions and benefits of employment other than wages as compensation for platform employees and coach or bus operators of the municipal railway, conditions and benefits not to exceed those conditions and benefits granted by collective bargaining agreements to the comparable platform employees and coach or bus operators of the two systems used for certification of the average of the two highest wage schedules by the civil service commission. The board of supervisors may establish such conditions and benefits notwithstanding other provisions or limitations of this charter, with the exception that such conditions and benefits shall not involve any change in the administration of, or benefits of the retirement system, health service system or vacation allowances as provided elsewhere in this charter. For all purposes of the retirement system as related to this section, the word "compensation" as used in section 8.609 of this charter shall mean the "wage schedules" as fixed in accordance with paragraphs (a) and (b) above, including those differentials established and paid as part of wages to platform employees and coach and bus operators of the municipal railway, but shall not include the value of those benefits paid into the fund established as herein provided. Provided that when in the two systems used for certification as provided above, vacation, retirement and health service benefits are greater than such similar benefits provided by this charter for platform employees, coach or bus operators of the municipal railway, then an amount not to exceed the difference of such benefits may be converted to dollar values and the amount equivalent to these dollar values shall be paid into a fund. The fund shall be established to receive and to administer said amounts representing the differences in values of the vacation, retirement and health service benefits, and to pay out benefits that shall be jointly determined by representatives of the city and county government and the representatives of the organized platform employees and coach and bus operators of the municipal railway. The civil service commission shall adopt rules for the establishment and general administration of the fund as herein provided. Such rules shall provide for a joint administration of the fund by representatives of the city and county government, which shall include representatives of the administrator of the agency responsible for the municipal railway and representatives of the organized platform employees, coach and bus operators of the municipal railway. Such rules may provide a procedure for final and binding arbitration of disputes which may arise between representatives of the city and county government and the representatives of the organized platform employees and coach and bus operators of the municipal railway. Such rules shall provide that all investments of the fund shall be of the character legal for insurance companies in California. Such rules and any amendments thereto shall be effective upon approval by the board of supervisors by ordinance.

(g) Not later than the 25th day of August, the board of supervisors shall have the power and it shall be its duty, subject to the fiscal provisions of the charter but, without reference or amendment to the annual budget, to amend the annual appropriation ordinance and the annual salary ordinance as necessary to include the provisions for paying the rates of compensation and conditions and benefits other than wages fixed by the board of supervisors as
in this section provided for platform employees and coach or bus operators for the then current fiscal year.

On recommendation of the civil service commission the board of supervisors shall establish a rate of pay for trainee platform men and bus or coach operators at a level reflecting the current labor market but below the basic hourly rate for motorman, conductor and bus operator.

8.404 Compensation of Police Officers. (existing provisions as they would continue to appear if the amendments proposed in Proposition D are not approved)

This section shall become operative and become part of this charter only in the event Proposition D on the November 4, 1969, ballot is not approved by a majority vote of the electorate of the City and County of San Francisco.

(a) Not later than the 15th day of February of each year, the civil service commission shall survey and certify to the board of supervisors rates of compensation paid police officers or patrolmen employed in the respective police departments in all cities of 100,000 population or over in the State of California, based upon the latest federal decennial census.

Not later than the 1st day of April of each year, the board of supervisors shall have power, and it shall be its duty, by ordinance, to fix rates of compensation for the members of the police department whose annual compensations are set forth in section 8.902 of this charter and said rates shall be in lieu of said annual compensations and shall be effective on the 1st day of July next following.

The rates of compensation, fixed in said ordinance,

(1) for the fourth year of service and thereafter for police officers, police patrol drivers and women protective officers shall not exceed the highest rate of compensation paid police officers or patrolmen in regular service in the cities included in the certified report of the civil service commission;

(2) for the first, second and third year of service for police officers, police patrol drivers and women protective officers shall include the same amount of adjustment as that used in fixing the rates of compensation for the fourth year of service for the same class;

(3) for said members of the police department other than police officers, police patrol drivers and women protective officers shall include the same per cent of adjustment as that established by said ordinance for police officers in the fourth year of service; and

(4) shall be set at the dollar amount nearest the fractional amount which may result from percentage adjustment specified in this section, half dollars being taken to the next higher dollar amount.

The rates of compensation set forth in the budget estimates, the budget and the annual salary ordinance shall be those fixed by the board of supervisors as in this section provided and appropriations therefore shall be based thereon.

Not later than the 1st Monday of August of each year, the
civil service commission shall survey and certify to the board of supervisors the rates of compensation paid police officers or patrolmen on the first day of August of that year in the cities hereinbefore referred to. The board of supervisors shall thereupon have the power by ordinance to revise all of the rates of compensation as in this section provided. Said revised rates shall be effective from the first day of July of the then current fiscal year.

If the board of supervisors revises said rates of compensation, then it shall, not later than the 25th day of August of the then current fiscal year, have the power, and it shall be its duty, subject to the fiscal provisions of the charter, but without reference or amendment to the annual budget, to amend the annual salary ordinance and the annual appropriation ordinance to include the provisions necessary for paying the rates of compensation fixed by the board of supervisors as in this section provided for the then current fiscal year.

The expression "rates of compensation," as used in this section in relation to said survey, is hereby declared to apply only to a basic amount of wages, with included range scales, and does not include such working benefits as might be set up by any other city by way of holidays, vacations, other permitted absences of any type whatsoever, overtime, night or split shift, or pay for specialized services within a classification or rank, or other premium pay differentials of any type whatsoever. The foregoing enumeration is not exclusive, but it is the intent of this section that nothing other than a basic amount of wages, with included range scales, is to be included within the meaning of "rates of compensation."

Working benefits and premium pay differential of any type shall be allowed or paid to members of the police department referred to herein only as is otherwise provided in this charter.

For all purposes of the retirement system, the expression "rates of compensation" as used in this section, shall mean "salary attached to the rank" as used in section 8.640 and, with the addition of fifteen dollars per month now provided in section 8.405 of the charter with respect to members assigned to two-wheel motorcycle traffic duty, shall also mean "compensation earnable" as used in section 8.645.

(b) In determining years of service necessary for a police officer, woman protective officer and police patrol driver to receive the annual compensation as provided for herein, service rendered prior to the effective date of this amendment shall be given full credit and allowed.

The absence of any police officer, woman protective officer, or police patrol driver on military leave, as defined by section 8.702 of this charter, shall be reckoned a part of his service under the city and county, for the purpose of computing years of service in gaining added compensation as provided for herein.

(c) On the recommendation of the chief of police, the commission may reward any member of the department for heroic or meritorious conduct. The form or amount of said reward to be discretionary with the commission, but not to exceed one month's salary in any one instance.

(d) If any member of the department appointed as an assistant
inspector is a sergeant at the time of the appointment or is appointed a sergeant thereafter, he shall receive the rate of compensation attached to the rank of sergeant.

8.404 Compensation of Police Officers. (provisions as they would appear in the present charter and be carried over into the revised charter if the amendments proposed in Proposition D are approved)

This section shall become operative and become a part of this charter only in the event Proposition D on the November 4, 1969, ballot is approved by a majority vote of the electorate of the City and County of San Francisco.

(a) Not later than the 15th day of February of each year, the civil service commission shall survey and certify to the board of supervisors rates of compensation paid police officers or patrolmen employed in the respective police departments in all cities of 100,000 population or over in the State of California, based upon the latest federal decennial census.

Not later than the 1st day of April of each year, the board of supervisors shall have power, and it shall be its duty, by ordinance, to fix rates of compensation for the members of the police department whose annual compensations are set forth in this section and section 8.405 of this charter and said rates shall be in lieu of said annual compensations and shall be effective on the 1st day of July next following.

The rates of compensation, fixed in said ordinance,

(1) for the fourth year of service and thereafter for police officers, police patrol drivers and women protective officers shall not be less than the highest rate of compensation paid police officers or patrolmen in regular service in the cities included in the certified report of the civil service commission;

(2) for the first, second and third year of service for police officers, police patrol drivers and women protective officers shall include the same amount of adjustment as that used in fixing the rates of compensation for the fourth year of service for the same class;

(3) for said members of the police department other than police officers, police patrol drivers and women protective officers shall include the same percent of adjustment as that established by said ordinance for police officers in the fourth year of service; and

(4) shall be set at the dollar amount nearest the fractional amount which may result from percentage adjustment specified in this section, half dollars being taken to the next higher dollar amount.

The rates of compensation set forth in the budget estimates, the budget and the annual salary ordinance shall be those fixed by the board of supervisors as in this section provided and appropriations therefore shall be based thereon.

Not later than the 1st Monday of August of each year, the civil service commission shall survey and certify to the board of supervisors the rates of compensation paid police officers or patrolmen
on the first day of August of that year in cities hereinbefore referred to. Whenever, in the judgment of the mayor and the board of supervisors, extraordinary economic conditions actually exist due to unemployment, fire, earthquake, flood or other calamity, which adversely affect the life, health and welfare of the citizens of the city and county or of any considerable portion thereof, the board of supervisors, by a three-fourths vote of all of its members, with the concurrence of the mayor, shall have power as follows, to-wit:

Sub. 1. To officially declare that a public emergency exists, and to fix the approximate anticipated time during which said emergency shall continue, provided that no such emergency shall be anticipated to continue beyond the end of the fiscal year during which the same is declared, unless such emergency be declared subsequent to the 1st day of January of said year, in which event the said emergency may be anticipated to continue until the end of the next succeeding fiscal year.

Sub. 2. To provide that while said emergency as declared shall continue to exist there shall be deducted from the gross salaries and compensations, exclusive of pension and retirement allowances, of each officer and employee of the City and County of San Francisco, including officers and employees of the board of education, not more than the respective amounts hereinafter set forth. Said deductions shall be made on the basis of the salary and compensation rate of said several officers and employees which were in effect during the calendar month immediately preceding the month during which said emergency was declared and not reduced by this section.

If said salary and compensation deductions are not reflected in the annual budget and appropriation ordinances, as set forth in subdivision 3 of this section, the amount of said deductions shall be used for the purpose of meeting or alleviating the emergency which has been declared, or to balance any deficiency existing in the general funds of the city arising by reason of the delinquency in the payment of taxes or other revenue as compared with the anticipated revenues over the same period. Provided that where salaries or compensations are paid out of bond funds, utility funds, or other trust funds, which are not provided from the revenues of the city, all deductions made shall revert to the respective funds from which said salaries or compensations are paid.

The maximum deductions from the salary or compensation of each officer or employee heretofore referred to shall be as follows, to-wit:

(a) From the salaries or compensation of officers or employees whose gross earnings exceed $100 per month and do not exceed $120 per month, three (3) per cent of the amount of the gross monthly earnings of each of said officers or employees.

(b) From the salaries or compensations of officers or employees whose gross earnings exceed the sum of $120 per month and do not
exceed the sum of $150 per month, seven (7) per cent of the gross monthly earnings of each of said officers or employees.

(c) From the salaries or compensations of officers or employees whose gross earnings exceed the sum of $150 per month, and do not exceed the sum of $185 per month, ten (10) per cent of the gross monthly earnings of each of said officers or employees.

(d) From the salaries or compensations of all officers or employees whose gross earnings exceeds the sum of $185 per month, and do not exceed the sum of $275 per month, twelve and one-half (12 1/2) per cent of the gross monthly earnings of each of said officers or employees.

(e) From the salaries or compensations of all officers or employees whose gross earnings exceed the sum of $275 per month, and do not exceed the sum of $600 per month, fifteen (15) per cent of the gross monthly earnings of said officers or employees.

(f) From the salaries or compensations of all officers or employees whose gross earnings exceed the sum of $600 per month and do not exceed the sum of $834 per month, eighteen (18) per cent of the gross monthly earnings of each of said officers or employees.

(g) From the salaries or compensations of all officers or employees whose gross earnings exceed the sum of $834 per month, twenty (20) per cent of the gross monthly earnings of each of said officers or employees.

(h) Provided, however, that no more than five and one-half (5 1/2) per cent of the gross monthly earnings of per diem employees whose compensations are fixed on the basis of a five-day week shall be deducted from the salaries or earnings of any such employee.

Said deductions shall be made from said earnings or compensations in monthly or semi-monthly installments according to the time at which said salaries or compensations are paid, provided that where the earnings of any officer or employee are on an hourly or per diem basis deductions based on his total earnings for the month shall be deducted from the installment of said earnings paid for the last half of the month.

Sub. 3. Should any such emergency declared as herein provided be anticipated to continue into the next fiscal year following the one during which said emergency has been declared, the officials preparing the budget shall base and estimate the net salaries and compensations to be paid at amounts not to exceed the said salaries and compensations as reduced by the above-mentioned percentages on the above-mentioned salary and compensation rates, and the annual appropriation and salary ordinance shall fix said net salaries and compensation accordingly. When any emergency is declared after the annual budget is prepared or adopted, or after the annual appropriation or salary ordinances are enacted, and before the annual tax rate is fixed as provided by law, said budget and said appropriation and salary ordinances may be revised or reenacted, so that the deductions herein authorized to be made may be reflected in the amount of the tax levy.

Sub. 4. All of such deductions, whether made after the passing of the annual budget appropriation and salary ordinance or included therein, shall be deemed as temporary deductions from the salaries
and compensations of said officers and employees, and shall be continued only during the anticipated period for which said emergency has been declared.

Sub. 5. In making the deductions herein provided for, the value of board, room and laundry or other maintenance furnished by the city and county to any officer or employee, when the same is made a part of his compensation by the civil service commission, shall be added to the monetary salary or compensation paid to said employee, and the amount of deductions from said salary or compensation shall be based on said monetary salary plus the value of said board, room and laundry or other maintenance, provided that no deduction shall be made for quarters furnished to any officer or member of the fire department.

Sub. 6. During the period that any emergency shall exist after being so determined as hereinbefore provided, the controller, with the approval of the mayor and the board of supervisors, may reallocate any unencumbered balance, or any part thereof, to the credit of any department or office exclusive of moneys or appropriations made or required to be made to any bond, bond interest, bond redemption, pension, utility, or trust fund, so that the same shall be available to meet the necessities of said emergency, irrespective as to whether the amount allocated to said department or office is fixed by this charter or is the result of a tax provided by said charter to be levied for said department. Should the period during which said emergency is anticipated to exist extend beyond the end of the fiscal year in which the same was declared to exist, the mayor, with the approval of the board of supervisors, may reduce the amount of any mandatory appropriation provided to be allocated to any office or department; or may reduce the amount of any tax provided by the charter to be levied for the support or maintenance of any department or office. Provided that no such deduction in appropriation, provided by this charter to be made to any department, or in the reallocation of funds, or reduction in the amount of said tax otherwise provided to be levied to produce funds for any department, shall be greater than is necessary to reflect the deductions in salaries provided in the section to be made by reason of said emergency.

The provisions of this section shall have precedence over conflicting provisions of this charter, but nothing herein contained shall adversely affect the rights of the officials and employees as set forth in section 8.411 of the charter, during the period when no public emergency exists. Contributions by the city and county and by members of the San Francisco City and County Employees' Retirement System to, and benefits, pension payments and allowances under said retirement system, shall be calculated on the basis of gross salaries and compensations of such members in the same manner and amounts as if no deductions from said gross salaries and compensations were made under this section.

Should any emergency be declared pursuant to the provisions of this section, which will be effective after the end of the fiscal year 1933-1934, which, in the judgment of the board of supervisors, will necessitate deductions from the salaries of the officers and employees of the city and county, over and above the amounts herein provided for, the board of supervisors, by unanimous vote of all of
its members, and with the approval of the mayor, may authorize a further deduction from the salaries and compensations of any of said officers and employees by increasing the maximum deductions in this section provided for, up to and including an amount not to exceed twenty-five (25) per cent of said respective salaries or compensations as the same existed before any deduction by authority of this section.

8.411 Salary Increases. (existing provisions)

All increases in salaries or wages of officers and employees shall be determined at the time of the preparation of the annual budget estimates and the adoption of the annual budget and appropriation ordinances, and no such increases shall be effective prior to the fiscal year for which the budget is adopted. Salary and wage rates for classes of employments subject to salary standardization, as in this charter provided, shall be fixed in the manner provided in this charter. Salary and wage rates for classes of employment not subject to salary standardization, exclusive of compensations fixed by this charter, shall be recommended by the officer, board or commission having appointive power for such employments, and fixed by the budget and the annual salary ordinance. Pending the adoption of salary standards as in this charter provided, the salary and wage rates for positions subject to such standardization shall be as recommended by the officer, board or commission having appointing power for such positions and fixed by the budget and annual salary ordinance; provided that the minimum compensation for employees subject to the civil service provisions of this charter shall be not less than fifty cents (50¢) per hour nor less than one hundred six dollars ($106) per month; and provided further that any compensation paid as of January 1, 1931, to an incumbent who legally held a position in the city and county service at that time, shall not be reduced so long as such incumbent legally holds such position. No compensation other than the minimum as in this section provided shall be increased so as to exceed the salary or wage paid for similar services of like character and for like service and working conditions in other city departments or in private employments, nor so as to exceed the rate fixed for such service or position in the proposed schedule of compensations issued by the civil service commission under date of April 9, 1930, except as such proposed schedule or compensation is amended as provided in this charter, or extended by the civil service commission to include classification not included therein.

8.412 Pay Periods and Claims for Service. (existing provisions)

The board of supervisors shall have power by ordinance to provide the periods when salaries and wages earned shall be paid provided, that until such ordinance becomes effective, all wages and salaries shall be paid semi-monthly. No salary or wage shall be paid in advance. It shall be official misconduct for any officer or employee to present or approve a claim for full-time or continuous personal service other than in the manner provided by this charter.

8.413 Verification of Payrolls. (existing provisions)

All personal services shall be paid by check or warrant on the basis of a claim, bill, timeroll or payroll approved by the principal execu-
tive of the office, agency, or department employing such service. The claims, bills or payrolls, hereinafter designated as payrolls, for salaries, wages or compensation for personal services of all officers, assistants and employees of every class or description, without regard to the name or title by which they are known, for each office, agency, or department of the city and county shall be transmitted to the civil service commission before presentation to the controller.

The secretary of the commission shall examine and approve such payroll for all persons legally appointed to or employed in positions legally established under this charter. The payrolls thus approved, with notation of any item thereof disapproved, shall then be certified by the secretary of the commission and transmitted by him to the controller. The controller shall not approve and the treasurer shall not pay any claim for personal services, or pay check or warrant for salary, wages or compensation unless the same shall have been approved by the said secretary.

For the purpose of the verification of claims, bills, timerolls, or payrolls, contractual services represented by teams or trucks hired by any principal executive or other officer of the city and county shall be considered in the same manner as personal service items and shall be included on payrolls as approved by said principal executive or other officers, and shall be subject to examination and approval by the secretary of the civil service commission and the controller in the same manner as payments for personal services.

The salary, wage or other compensation fixed for each officer and employee in, or as provided by this charter, shall be in full compensation for all services rendered, and every officer and employee shall pay all fees and other moneys received by him, in the course of his office or employment, into the city and county treasury except as provided in section 3.504 of this charter.

No officer or employee shall be paid for a greater time than that covered by his actual service; provided, however, that the basic amount of salary, wage or other compensation, excluding premium pay differentials of any type whatsoever of any officer or employee who may be called upon for jury service in any municipal state or federal court, shall not be diminished during the term of such jury service. There shall, however, be deducted from the amount of basic salary, wage or other compensation, excluding any pay premium differentials of any type whatsoever payable by the city and county to the officer or employee for such period as such officer or employee may be absent on account of jury service, any amounts which the officer or employee may receive on account of such jury service. Any absence from regular duty or employment while on jury duty shall be indicated on timerolls by an appropriate symbol to be designated by the controller.

Chapter Five. Health Service System.

8.500 Continuation of Existing Plans. (existing provisions)

The medical care plans in effect upon February 5, 1958, shall continue in force and effect until rescinded or superseded by a new plan or plans adopted by the health service board and approved by ordinance of the board of supervisors, adopted by three-fourths of its members.
8.501 Adoption of Plans. (existing provisions)

The board shall have power and it shall be its duty by a two-thirds vote of the entire membership of the health service board to adopt a plan or plans for rendering medical care to members of the system, or for the indemnification of the cost of said care, or for obtaining and carrying insurance against such costs or for such care.

Such plan or plans as may be adopted, shall not become effective until approved by ordinance of the board of supervisors, adopted by three-fourths of its members.

The board of supervisors shall secure an actuarial report of the costs and effect of any proposed change in the benefits of the health service system or rates of contribution before enacting an ordinance or before voting to submit any proposed charter amendment providing for such change.

8.502 Revision of Schedules and Compensation. (existing provisions)

In January of each year, or more often if it deems necessary, at public hearings, the health service board shall review and determine the adequacy of medical care provided for members of the system and the adequacy of fee schedules and the compensation paid for all services rendered and it may make such revisions therein as it deems equitable but such revisions shall not become effective until approved by ordinance of the board of supervisors adopted by three-fourths of its members.

8.503 Specificity Required. (existing provisions)

Each plan shall make detailed and specific provision for the benefits to be provided thereunder and for the rates of contribution required to support the plan.

8.504 Persons Covered. (existing provisions)

Each plan may make provision for the participation in the benefits of the system by the dependents of members, retired city and county employees, temporary city and county employees, such other dependents of deceased and retired city and county employees as the board of supervisors may authorize by ordinance, teachers and other employees of the San Francisco Unified School District retired under the San Francisco City and County Employees' Retirement System and resigned employees of the city and county and resigned teachers and employees of the school district whose resignations occur after June 15, 1955, and within thirty days immediately prior to the date on which, but for their resignations, they would have become retired members of the said retirement system, on whose relinquishment of retirement allowances as permitted by the charter occurs after such date and resigned employees of the San Francisco Unified School District not otherwise included. A resigned employee or teacher is one whose employment has terminated other than by retirement, discharge or death or who has relinquished retirement allowances. The purpose of empowering the health service board to make provision for the participation in the benefits of the system to the aforementioned resigned teachers and employees of the San Francisco Unified School District is to enable them, subject to the health service board's exercise of its power, to participate in the benefits of the system after transferring to
the State Teachers' Retirement System from the San Francisco City and County Employees' Retirement System. The purpose of empowering the health service board to make provision for participation in the benefits of the system by the aforementioned resigned employees of the city and county and other resigned employees of San Francisco Unified School District is to permit the health service board to have power to treat them the same as it treats resigned teachers and employees of the San Francisco Unified School District.

As used in this section, and for the purpose of this section, the terms "city and county employees" and "employees of the city and county" shall include officers and employees of the Parking Authority of the City and County of San Francisco.

8.505 Right of Selection. (existing provisions)

No member of the system shall be required to accept the services or medical supplies of any physician (physician includes physicians and surgeons, optometrists, dentists, chiropodists and osteopathic and chiropractic practitioners licensed by California State Law and within the scope of their practice as defined by California State Law), person licensed to treat human diseases without the use of drugs, nurse, pharmacist or hospital selected by the health service board, but, subject to rules and regulations of that board, every member shall have the right to select, of his own choice, any duly licensed physician, as defined herein, person licensed to treat human diseases without the use of drugs, nurse, pharmacist, hospital or other agency of medical care as herein defined, who or which will render the required services pursuant to said rules and regulations, and the health service board shall make provision for the exercise of such choice; and is hereby expressly prohibited from entering into any exclusive contract for the rendering of said services.

Any duly licensed physician, as defined herein, person licensed to treat human diseases without the use of drugs, nurse, pharmacist, hospital or other agency of medical care shall have the right to furnish such services or medical supplies at uniform rates of compensation to be fixed by the health service board.

8.506 Certain Powers and Duties. (existing provisions)

The health service board shall have power and it shall be its duty:

(a) To establish and maintain detailed historical costs for medical care, hospital care.

(b) To review such costs annually.

(c) To apply benefits without special favor or privilege.

(d) To put said plans into effect and through its medical director to conduct and administer the same and, for all or any of said purposes, to contract therefor and use the funds of the system.

(e) To make rules and regulations for the transaction of its business, the granting of exemptions and the admission to the system of persons who are hereby made members thereof and such other officers and employees as may voluntarily become members of the system with the approval of the health service board.

(f) To receive, consider and, within sixty (60) days after receipt, act upon any matter pertaining to the administration, operation or conduct of the health service system submitted to it in writing by any member of the system or any person who has contracted to render medical care to the members of the system.
8.507 Medical Director or Executive Officer. (existing provisions)

The health service board shall appoint a full time medical director who shall be a doctor of medicine with the experience in administering health plans or in comparable work. He shall hold office at its pleasure. The medical director shall have all of the powers and responsibilities of an appointing officer, a department head, and a chief executive under the provisions of the charter. The health service board shall administer the system through the medical director. The medical director shall be responsible to the health service board as a board, but not to any individual member or committee thereof. Instead of a full-time medical director, the board may appoint a full-time executive officer who is not a doctor of medicine, but with experience in administering health plans or in comparable work, and a part-time medical advisor who shall be a doctor of medicine with such experience, and both of whom shall hold office at its pleasure. If an executive officer is appointed, the provisions of this and other sections which would apply otherwise to the medical director shall apply equally and instead to the executive officer. The health service board and each committee of the board shall confine its activities to policy matters and to matters coming before it as an appeal board. The health service board shall prepare its plans, rules and regulations so that they are clear, definite and complete and so that they can be readily administered by the medical director and his staff.

8.508 Effect of Other Charter Provisions. (existing provisions)

Except as otherwise specifically provided herein, all provisions of the charter shall be fully applicable to the health service board, the health service system and its medical director and employees in the same manner that they apply to other boards, commissions, and departments of the city and county. All employees of the health service system who are actually employed, or on authorized leave of absence from employment on February 5, 1958, shall be continued in their respective positions as if appointed thereto after examination and certification from a civil service list of eligibles and thereafter shall be governed by and subject to the civil service provisions of this charter. Each such employee shall, for purposes of civil service seniority, be deemed to have been appointed to such position by the city and county upon the date of commencement of his occupancy thereof and shall also retain all other civil service rights and privileges held immediately prior to the effective date of this amendment.

8.509 Health Service Systém Fund. (existing provisions as they would continue to appear if the amendments proposed in Proposition L are not approved)

This section shall become operative and become part of this charter only in the event Proposition L on the November 4, 1969, ballot is not approved by a majority vote of the electorate of the City and County of San Francisco.

There is hereby created a health service system fund. The costs of the health service system shall be borne by the members of the system and retired persons, the City and County of San Francisco because of its members and retired persons and because of the members and retired persons of the Parking Authority of the City
and County of San Francisco, and the San Francisco Unified School District because of its members and retired persons. A retired person as used in this paragraph means a former member of the health service system retired under the San Francisco City and County Employees' Retirement System.

The city and county and the school district shall each contribute to the health service system fund amounts sufficient for the following purposes, and subject to the following limitations:

(a) All funds necessary to efficiently administer the Health Service System.

(b) Matching contributions for the fiscal year commencing July 1, 1962, and each fiscal year thereafter, equal to the amounts contributed thereto by members of the system, provided, however, that the total amount contributed by the city and county and the school district to the health service system fund in each fiscal year, for this purpose, shall not exceed an amount equal to the tax yield that can be produced in each fiscal year by six cents in the tax rate on each one hundred dollars ($100.00) valuation of the real and tangible personal property assessed in and subject to taxation by the city and county and the school district.

(c) Monthly contributions required from retired members participating in the system shall be equal to the monthly contributions required from members in the system; provided, however, that for the fiscal year commencing July 1, 1962, and for each fiscal year thereafter, the city and county and the school district shall contribute funds sufficient to defray the difference in cost to the system in providing the same health coverage to retired members as is provided for active employee members thereof.

The city and county and the San Francisco Unified School District shall not contribute to the health service system fund any sums, except as hereinbefore set forth, on account of participation in the benefits of the system by members' dependents, retired persons' dependents, persons who retired and elected not to receive benefits from San Francisco City and County Employees' Retirement System and resigned employees and teachers defined in section 8.504.

It shall be the duty of the board of supervisors and of the board of education annually to appropriate to the health service system fund such amounts as are necessary to cover the obligation of the city and county and of the San Francisco Unified School District hereby imposed. Contributions to the health service system fund of the city and county and of the school district shall be charged against the general fund or the school, utility, bond or other special fund concerned.

8.509 Health Service System Fund. (provisions as they would appear in the present charter and be carried over into the revised charter if the amendments proposed in Proposition L are approved)

This section shall become operative and become a part of this charter only in the event Proposition L on the November 4, 1969, ballot is approved by a majority vote of the electorate of the City and County of San Francisco.

There is hereby created a health service system fund. The costs
of the health service system shall be borne by the members of the
system and retired persons, the City and County of San Francisco
because of its members and retired persons and because of the
members and retired persons of the Parking Authority of the City
and County of San Francisco, and the San Francisco Unified School
District because of its members and retired persons. A retired per-
son as used in this paragraph means a former member of the health
service system retired under the San Francisco City and County
Employees’ Retirement System.

The city and county and the school district shall each contribute
to the health service system fund amounts sufficient for the follow-
ing purposes, and subject to the following limitations:

(a) All funds necessary to efficiently administer the Health
Service System.

(b) Matching contributions for the fiscal year commencing July
1, 1962, and each fiscal year thereafter, equal to the amounts con-
tributed thereto by members of the system, provided, however, that
commencing July 1, 1970, the city and county and the school district
shall contribute to the health service system fund in each fiscal year
an amount which shall defray the total cost of members of the
system, exclusive of dependent of members.

(c) Monthly contributions required from retired members par-
ticipating in the system shall be as determined by the health service
board with reference to medical care provided by Health Insurance
for the Aged (Medicare) under the Survivors Old Age and Insur-
ance Benefits Act, except that monthly contributions shall not ex-
ceed an amount equal to the monthly contributions required from
active employee members in the system; provided, however, that for
the fiscal year commencing July 1, 1970, and for each fiscal year
thereafter, the city and county and the school district shall contrib-
ute funds sufficient to defray the total cost of retired members of the
system, exclusive of dependents of retired members.

The city and county and the San Francisco Unified School Dis-
trict shall not contribute to the health service system fund any sums,
except as hereinbefore set forth, on account of participation in the
benefits of the system by members’ dependents, retired persons’ de-
pendents, persons who retired and elected not to receive benefits
from San Francisco City and County Employees’ Retirement System
and resigned employees and teachers defined in section 8.504.

It shall be the duty of the board of supervisors and of the board of
education annually to appropriate to the health service system fund
such amounts as are necessary to cover the obligation of the city and
county of the San Francisco Unified School District hereby imposed.
Contributions to the health service system fund of the city and
county and of the school district, shall be charged against the general
fund or the school, utility, bond or other special fund concerned.

8.510 Contributions to Fund. (existing provisions)

The health service board shall determine and certify to the con-
troller the amount to be paid monthly by the members of the system
to the health service system fund for the purposes of the system here-
by created. The controller shall deduct said sums from the compen-
sation of the members and shall deposit the same with the treasurer
of the city and county to the credit of the health service system
fund.
Such deductions shall not be deemed to be a reduction of compensation under any provision of this charter.

The health service board shall have control of the administration and investment of the health service system fund, provided that all investments shall be of the character legal for insurance companies in California. Disbursements from the fund shall be made only upon audit by the controller and the controller shall have and exercise the accounting and auditing powers over the health service system fund which are vested in him by this charter with respect to all other municipal boards, officers and commissions.

8.511 “Medical Care” Defined. (existing provisions)

The term “medical care” shall be defined by the health service board.

All acts performed and services rendered under the provisions of this section shall be performed in accordance with the provisions as to professional conduct prescribed by the statutes of the State of California regulating such professional conduct and services.

Medical care, as defined by the health service board, shall not be furnished or supplied to any member of the system by or in any of the public health and hospital facilities of the city and county, except that emergency medical and hospital care may be rendered to any member of the system in the usual course of emergency health service.

8.512 Limitation on Claims by Members. (existing provisions)

Except as herein provided members of the system shall have and possess no claim or recourse against any of the funds of the municipality by virtue of the adoption or operation of any plan for rendering medical care, indemnifying costs of said care or carrying insurance against such costs, but except as herein provided, the claim and recourse of any such member shall be limited solely to the funds of the system. All expenses of the system shall be paid exclusively from the health service system fund, and, except as herein provided, the city and county and the San Francisco Unified School District shall not appropriate or contribute funds in any manner for the purposes of the system hereby established and provided.

8.513 Transition Provision. (existing provisions)

The board of supervisors is authorized to enact by a vote of three-fourths of its members, any and all ordinances necessary to carry out the provisions of sections 8.500 to and including 8.512.

Any surplus or deficit existing in the health service fund on February 5, 1958, shall belong to or be the obligation of members, as the case may be, and the city and county and the San Francisco Unified School District shall neither receive payment nor credit nor shall it contribute to such fund on account of medical care rendered prior to such date.

Chapter Six. Pension and Retirement System.

Part One. Existence of System; Membership.

8.600 Retirement System for Officers and Employees. (existing provisions)

In order to continue in force provisions already existing for retirement and death benefits for officers and employees of the city
and county, the San Francisco City and County Employees' Retirement System, hereinafter referred to as the retirement system or the system, is hereby continued. The enactment of Section 3.620 and Sections 8.600 to 8.681, inclusive, of this Charter is not intended to, and shall not in any way, alter or modify the rights, benefits, or obligations of any member or beneficiary of the retirement system or of the city and county with respect to that system as they exist at the time this Charter becomes effective. Elective officers and members of boards and commissions shall not be eligible to the benefits of said retirement system.

Ordinance provisions already existing with respect to the retirement system shall continue in force until amended or revoked by the board of supervisors as provided in this section. The board of supervisors is hereby empowered to enact, by a vote of three-fourths of its members, any and all ordinances necessary to carry into effect the provisions of sections 3.620, 8.600-8.604, and 8.606-8.683 of this charter; provided that the board of supervisors shall secure, through the retirement board, an actuarial report of the cost and effect of any proposed change in the benefits under the retirement system, before enacting an ordinance or before voting to submit any proposed charter amendment providing for such change.

8.601 Retirement of Elective Officers. (existing provisions)

Notwithstanding the provisions of section 8.600 of this charter, elective officers, except members of the board of supervisors and of boards and commissions, shall be members of the San Francisco City and County Employee's Retirement System and shall be subject to all of the conditions applying to other members thereof, except members of the fire and police departments, and except as herein otherwise provided. In the determination of contributions and benefits of any officer becoming a member of the retirement system by virtue of the provisions hereof; that part of the salary of such officer which exceeds one thousand dollars ($1,000) per month shall be excluded. Elective officers in office on January 7, 1947, and otherwise eligible to the provisions hereof shall have the option to become members of said retirement system to be exercised in writing on a form furnished by the retirement system and to be filed at the office of said system not later than ninety days after January 7, 1947.

Each such present and future elective officer may retire at his option but only after having attained the age of seventy years and only after having occupied such an elective office or having been otherwise employed in a position subject to membership in the retirement system for at least twenty years immediately preceding retirement, and may retire by filing written application therefor with the retirement board, and the mayor shall thereupon appoint a qualified person for the unexpired term of office remaining at the time of any such retirement. Such elective officer shall thereafter receive a retirement allowance equal to one-half of the compensation received by him at the time of retirement, provided that such allowance shall not exceed five hundred dollars ($500) per month. Contributions required to provide the portion of the benefits under this section not provided by the member's contribution shall be paid to the retirement system by the city and county.
8.602 Retirement of Elective Officers (Continued). (existing provisions)

Notwithstanding the provisions of section 8.601 of this charter, elective officers, except members of boards and commissions, shall be members of the San Francisco City and County Employees’ Retirement System under section 8.609 instead of section 8.601; and, notwithstanding the provisions of subdivision (B) of section 8.609, elective officers who are members of the retirement system under section 8.609 shall be retired on the day following the end of the term of office in which the age of seventy years is attained. Contributions, with credited interest, standing to the credit of such individual officers shall be adjusted as of January 9, 1953, to the amount which they would have been if the contributions had been made in accordance with section 8.607 prior to July 1, 1947, and section 8.609 after June 30, 1947. Time during which said members have rendered service as elective officers shall be included under subsection (G) of section 8.609, in addition to other time now so included. Contributions required to provide benefits based on service rendered as an elective officer prior to the effective date of membership in the retirement system, shall be paid to the retirement system in the manner provided in section 8.609 for contributions for service rendered prior to the date upon which the member’s rate of contribution is based. Elective officers in office on January 9, 1953, who are members of the retirement system under section 8.601 at such time, shall have the option to continue as members of the retirement system under section 8.601, instead of this section, to be exercised in writing on a form furnished by the retirement system and to be filed at the office of said system not later than ninety days after January 9, 1953.

8.603 Retirement—Court Employees and Attaches. (existing provisions)

Employees and attaches of the superior or municipal court, including persons performing duties performed under the titles of commissioners, phonographic reporters who are paid compensation on a monthly or per diem basis by the city and county, secretaries, stenographers, investigators, messengers and other employees of the superior and municipal courts, in and for the City and County of San Francisco, shall be members of the San Francisco City and County Employees’ Retirement System under section 8.609, and shall be subject to all of the conditions applying to other members under that section, except as herein otherwise provided.

Service rendered to the said superior or municipal court in and for the city and county, other than as a phonographic reporter, by persons prior to becoming members under this section on February 1, 1953, shall be credited under the retirement system to such persons, provided that it would have qualified for credit when rendered, if said persons had been subject then, as they will be under this section, to the provisions of section 8.609 of this charter and of the ordinances and provisions of the Municipal Code of the City and County of San Francisco relating to retirement of members under said section.

Service rendered to said superior court on and after September 15, 1945, or to said municipal court on and after September 1, 1947, by phonographic reporters prior to becoming members under this
section on February 1, 1953, shall be credited under this retirement system to such persons.

Said service, rendered prior to becoming a member under this section on February 1, 1953, shall only be credited to each of such persons if he elect, by written notice, on a form provided by the retirement system, filed in the office of the retirement board of said system prior to July 1, 1953, to receive credit for all or any part of said service, and to pay into the retirement fund, at times and in the manner hereinafter provided, the following amounts: (1) an amount equal to the normal contributions he would have contributed, had he been a member of the retirement system under section 8.609, during the time for which he has elected to receive credit for service, on the basis of compensation paid to him by the city and county on account of said service, and (2) an amount equal to the interest which would have been credited to his account on account of such contributions from the date upon which they would have been made, to the date of payment of such contributions to the retirement system. However, a member shall not receive credit for any portion of such service rendered prior to April 1, 1922, unless he has elected to receive credit for, and has paid into the retirement fund such amounts with respect to, all of said service rendered after March 31, 1922. Such amounts shall be paid into the retirement fund by lump sum payment, or payroll deductions or other installments, over a period not exceeding thirty-six months from July 1, 1953, provided that any balance remaining unpaid at his retirement shall become due and payable forthwith. Benefits, not provided by such amounts, granted to said persons on account of said service rendered prior to February 1, 1953, shall be provided by contributions of the city and county. Such service shall include time during which such person was absent from a status included in the paragraph above by reason of service in the armed forces of the United States in any war in which the United States has engaged.

Notwithstanding the foregoing provisions, any such employee or attache not already a member of the system and who is such an employee or attache on February 1, 1953, shall not become a member of the retirement system, unless he elect prior to July 1, 1953, on a form provided by the retirement system, to be a member of said system, and if he does not so elect, he shall not be a member of the retirement system, and shall not be prevented from continuing in such employment by reason of such provision.

8.604 Retirement—Parking Authority Employees. (existing provisions)

Officers and employees of the Parking Authority of the city and county shall become members of the San Francisco City and County Employees' Retirement System under Section 8.609 on February 1, 1963, and thereupon shall be subject to all conditions applying to other members under that section inclusive of the provisions of Section 8.614 of the charter, except as herein otherwise provided; provided, however, that Members of such Authority are excluded from the San Francisco City and County Employees' Retirement System.

Service rendered to the said Parking Authority by persons prior to becoming members under this section on February 1, 1963, shall
be credited under the Retirement System to such persons, subject to the terms and conditions provided herein. Said service shall only be credited to each of such persons if he elect, by written notice, on a form provided by the retirement system and filed in the office of the retirement board of said system prior to July 1, 1963, to receive credit for said service, and to pay into the retirement fund, at times and in the manner fixed by the Retirement Board, the following amounts: (1) an amount equal to the normal contributions he would have contributed, had he been a member of the retirement system under section 8.609, during the period in which said service was rendered, on the basis of compensation paid to him by the city and county on account of said service and (2) an amount equal to the interest which would have been credited to his account on account of such contributions from the date upon which they would have been made, to the date of payment of such contributions to the retirement system; provided that any balance remaining unpaid at his retirement shall become due and payable forthwith. If any such person shall not so elect to receive credit for said service and to pay such amounts of contributions and interest, or having so elected, subsequently does not pay into the retirement fund such amounts at times and in the manner herein provided, and prior to February 1, 1963, he shall enter as a new member without credit for any of said service, any moneys there- tofore received from his as payment on such amounts together with accumulated interest thereon shall be refunded to him, and the rate of his contribution shall be the normal rate provided in subsection (H) of Section 8.609 at his age on February 1, 1963, otherwise his rate of contributions shall be the rate provided in said subsection (H) of Section 8.609 based on his age at the earliest date in the period for which said service is credited. Benefits, not provided by such amounts, granted to said persons on account of said service rendered prior to the effective date of membership under this section, shall be provided by contributions of the city and county.

Notwithstanding the foregoing provisions, any such officer or employee not already a member of the system and who is such an officer or employee on February 1, 1963, shall not become a member of the retirement system, unless he elects to be a member of said system, in writing, on a form provided by the retirement system and filed in the office of the retirement system prior to July 1, 1963; if he does not so elect he shall not be a member of the retirement system, and shall not be prevented from continuing in such employment by reason of the provisions of this section.

8.605 Retirement—Port Authority Employees. (existing provisions)

All employees of the Port Authority who, on February 7, 1969, are members of the Public Employees' Retirement System of the State of California shall continue to be members of said Public Employees' Retirement System, with all the rights, privileges and benefits of said system and they shall not be members of the San Francisco City and County Employees' Retirement System; and, notwithstanding any other provisions of this charter, the city and county shall perform all acts necessary to continue the membership of such employees in said Public Employees' Retirement System.

All employees of the Port Authority who, at the time the transfer
provided for herein shall go into effect, are covered under the provi-
sions of a retirement program other than the Public Employees' 
Retirement System of the State of California shall thereafter con-
tinue to be covered under such retirement program and they shall 
not be members of the San Francisco City and County Employees' 
Retirement System; and, notwithstanding any other provisions of 
this charter, the city and county shall perform all acts necessary 
to continue the coverage of such employees under such retirement 
program.

Persons who, after February 7, 1969, become employees of the 
city and county in positions related to the operation of the State 
Belt Railroad and who become covered under the provisions of the 
Railroad Retirement Act by virtue of their employment in such posi-
tions shall not be members of the San Francisco City and County 
Employees' Retirement System.

8.606 Sheriff's Department. (existing provisions)

Notwithstanding any other provisions of this Charter, the board 
of supervisors shall have the power to contract with the Board of 
Administration of the Public Employees' Retirement System of the 
State of California to provide that the sheriff, undersheriff and all 
deputized personnel of the sheriff's department shall be members 
of the public employees' retirement system, and the board of super-
visors and the retirement board shall have the power to perform all 
acts necessary to carry out the terms and purposes of such contract.

Any person who shall become a member of the public employees' 
retirement system pursuant to such contract shall have the right to 
be a member of the health service system and the health service 
board shall make provision for participation in the benefits of the 
health service system by such persons.

8.607 Miscellaneous Officers and Employees on January 8, 1932. 
(existing provisions)

Persons who are officers and employees of this city and county 
on January 8, 1932, shall become members of the retirement sys-
tem subject only to the following provisions, in addition to the 
provisions contained in sections 3.620, 8.600, 8.610, 8.611, 8.620, 
8.625 and 8.660, of this charter.

(a) The system shall be applied to such offices, departments, 
bureaus, or classes of officers or employees of the city and county, 
including teachers in the San Francisco school department, as the 
supervisors shall determine; provided however, that the contribu-
tions to be made by said teachers and the benefits to be received 
by said teachers under said retirement system shall be based upon 
the proportion of salaries of said teachers which have been and 
shall be paid out of funds contributed by the city and county, 
excluding therefrom the portion of such salaries which have been 
or shall be paid out of funds contributed by the State of California; 
and in determining such proportion it shall be taken to be the same 
proportion which the whole amount of money contributed by the 
city and county to the common school fund in any fiscal year bears 
to the whole amount of money contributed to such fund in such 
year by the state and by the city and county; and provided, further, 
that nothing herein contained shall be construed to deprive any
teacher of the right to receive benefits under any pension or retire-
ment system now or hereafter established by the State of California.

(b) No member of the retirement system shall be retired, except
in case of disability incapacitating him for the performance of his
duties, unless he shall have attained the age of sixty-two years and
completed ten years of continuous service, but retirement shall be
compulsory at the age of seventy years. It may be provided, how-
ever, under such retirement system, that members may retire after
thirty years of continuous service; the benefits at retirement in such
cases to be determined, because of retirement at an age below
sixty-two, in accordance with the tables recommended by the ac-
tuary and approved by said retirement board.

(c) All persons who were retired prior to October 1, 1925, from
service as teachers in the public schools of San Francisco, under
the provisions of the law of 1913, establishing the California Public
School Teachers’ Retirement Salary Fund, shall be entitled to and
shall receive retirement allowances, to be calculated on the same
basis as that established for determining the retirement allowances
provided for members of the said retirement system.

8.608 Pacific Gas & Electric Company Employees. (existing pro-
visions)

The board of supervisors shall have the power to provide by
ordinance retirement benefits for persons who become employees
of the City and County of San Francisco under any lease, or other
temporary arrangement, entered into between said city and county
and the Pacific Gas & Electric Company, and because of their em-
ployment by said company at the effective date of said lease, or
other temporary arrangement. The effect of said ordinance shall
be to provide essentially the same retirement benefits for said em-
ployees on account of service rendered under said lease, or other
temporary arrangement, as if said persons had been employees of
said company throughout the term of said lease.

The further effect of said ordinance shall be to provide for perma-
nent retirement rights for said persons, in the event they become
employees of said city and county upon purchase or other perma-
nent acquisition of the properties of said company, essentially the
same benefits on account of service rendered as employees of said
city and county, as they would have received if they had been mem-
bers throughout said service of the San Francisco City and County
Employees’ Retirement System on the same basis as other employ-
ees of said city and county, except members of fire or police depart-
ments.

8.609 Retirement—Miscellaneous Officers and Employees on and
after July 1, 1947. (existing provisions)

Miscellaneous officers and employees, as defined in this section,
who are members of the retirement system under this section
of the charter on February 1, 1969, and persons who become
miscellaneous officers and employees after February 1, 1969, shall
be members of the retirement system, subject to the following pro-
visions of this section, in addition to the provisions contained in
sections 3.620, 8.600, 8.610 and 8.620 of this charter notwithstanding
the provisions of any other section of the charter, provided that
the retirement system shall be applied to persons employed on a part-time temporary or substitute basis only as the board of supervisors shall determine by ordinance enacted by three-fourths vote of all members of the board. Miscellaneous officers and employees of the said departments who are members of the retirement system under section 8.607 of the charter on February 1, 1969, shall continue to be members of the system under section 8.607 and shall not be subject to any of the provisions of this section, except as specifically provided in this section.

(A) The following words and phrases as used in this section unless a different meaning is plainly required by the context, shall have the following meaning:

“Retirement allowance,” or “allowance,” shall mean equal monthly payments, beginning to accrue upon the date of retirement, and continuing for life unless a different term of payment is definitely provided by the context.

“Compensation,” as distinguished from benefits under the workmen’s compensation laws of the State of California shall mean all remuneration whether in cash or by other allowances made by the city and county, for service qualifying for credit under this section.

“Compensation earnable” shall mean the compensation as determined by the retirement board, which would have been earned by the member had he worked, throughout the period under consideration, the average number of days ordinarily worked by persons in the same grade or class of positions as the positions held by him during such period and at the rate of pay attached to such positions, it being assumed that during any absence, he was in the position held by him at the beginning of the absence, and that prior to entering city-service he was in the position first held by him in city-service.

“Benefit” shall include “allowance,” “retirement allowance,” and “death benefit.”

“Average final compensation” shall mean the average monthly compensation earned by a member during any five consecutive years of credited service in the retirement system in which his average final compensation is the highest, unless the board of supervisors shall otherwise provide by ordinance enacted by three-fourths vote of all members of the board.

For the purposes of the retirement system and of this section, the terms “miscellaneous officer or employee,” or “member,” as used in this section shall mean any officer or employee who is not a member of the fire or police departments as defined in the charter for the purpose of the retirement system, under section 8.607 of the charter.

“Retirement system” or “system” shall mean San Francisco City and County Employees’ Retirement System as created in section 8.600 of the charter.

“Retirement board” shall mean “retirement board” as created in section 3.620 of the charter.

“Charter” shall mean the charter of the City and County of San Francisco.

Words used in the masculine gender shall include the feminine and neuter genders, and singular numbers shall include the plural and the plural the singular.

“Interest” shall mean interest at the rate adopted by the retirement board.
(B) Any member who completes at least twenty years of service in the aggregate credited in the retirement system and attains the age of fifty-five years, or at least ten years of service in the aggregate credited in the retirement system, and attains the age of sixty years, said service to be computed under subsection (G) hereof, may retire for service at his option. Members shall be retired on the first day of the month next following the attainment by them of the age of sixty-five years. A member retired after reaching the age of sixty years shall receive a service retirement allowance at the rate of 1½ per cent of said average final compensation for each year of service; provided, however, that upon the compulsory retirement of a member upon his attainment of the age of 65 years, if the allowance available to such member pursuant to the provisions of subsection (F) of this section shall be greater in amount than the service retirement allowance otherwise payable to such member under this subsection (B), then such member shall receive as his service retirement allowance, in lieu of the allowance otherwise payable under this subsection (B), an allowance computed in accordance with the formula provided in said subsection (F). The service retirement allowance of any member retiring prior to attaining the age of sixty years, after rendering twenty years or more of such service and having attained the age of fifty-five years, computed under subsection (G), shall be such as can be provided at the age of retirement by the actuarial value, at the age of retirement, of the retirement allowance to which he would be entitled upon retirement at age sixty and with the service credited at the date of actual retirement.

Before the first payment of a retirement allowance is made, a member retired under this subsection or subsection (C) of this section, may elect to receive the actuarial equivalent of his allowance, partly in an allowance to be received by him throughout his life, and partly in other benefits payable after his death to another person or persons, provided that such election shall be subject to all the conditions prescribed by the board of supervisors to govern similar elections by other members of the retirement system, including the character and amount of such other benefits; provided, however, that at any time within 30 days after the date on which his compulsory retirement would otherwise have become effective, a member who has attained the age of 65 years may elect, without right of revocation, to withdraw his accumulated contributions, said election to be exercised in writing on a form furnished by the retirement system and filed at the office of said system and a member so electing shall be considered as having terminated his membership in said system on the date immediately preceding the date on which his compulsory retirement would otherwise have become effective and he shall be paid forthwith his accumulated contributions, with interest credited thereon. Notwithstanding the provisions of Section 8.614 of this charter, the portion of service retirement allowance provided by the city and county's contributions shall be not less than $100 per month upon retirement after thirty years of service and after attaining the age of sixty years, and provided further that as to any member with fifteen years or more of service at the compulsory retirement age of sixty-five, the portion of the service retirement allowance provided by the city and county's contribution shall be such that the total retirement allowance shall not be less than
$100 per month. In the calculations under this subsection of the retirement allowance of a member having credit for service in a position in the evening schools and service in any other position, separate retirement allowances shall be calculated, in the manner prescribed for each class of service, the average final compensation in each case being that for the respective class of service; provided that the aggregate retirement allowance shall be taken into account in applying the provisions of this subsection providing for a minimum retirement allowance. Part time service and compensation shall be reduced to full time service and compensation in the manner prescribed by the board of supervisors, and when so reduced shall be applied on full time service and compensation in the calculation of retirement allowances.

(C) Any member who becomes incapacitated for performance of duty because of disability determined by the retirement board to be of extended and uncertain duration, and who shall have completed at least ten years of service credited in the retirement system in the aggregate, computed as provided in subsection (G) hereof, shall be retired upon an allowance of one and one-half per cent of the average final compensation of said member, as defined in subsection (A) hereof for each year of credited service, if such retirement allowance exceeds one-third (1/3) of his average final compensation; otherwise one and one-half (1 1/2) per cent of his average final compensation multiplied by the number of years of city-service which would be credited to him were such city-service to continue until attainment by him of age sixty, but such retirement allowance shall not exceed one-third (1/3) of such average final compensation. In the calculation under this subsection of the retirement allowance of a member having credit for service in a position in the evening schools and service in any other position, separate retirement allowances shall be calculated, in the manner prescribed, for each class of service, the average final compensation in each case being that for the respective class of service; provided that the average final compensation upon which the minimum total retirement allowance is calculated in such case shall be based on the compensation earnable by the member in the classes of service rendered by him during the five (5) years immediately preceding his retirement. Part time service and compensation shall be reduced to full time service and compensation in the manner prescribed by the board of supervisors, and when so reduced shall be applied as full time service and compensation in the calculation of retirement allowances. The question of retiring a member under this subsection may be brought before the retirement board on said board's own motion, by recommendation of any commission or board, or by said member or his guardian. If his disability shall cease, his retirement allowance shall cease, and he shall be restored to service in the position or classification he occupied at the time of his retirement.

(D) No modification of benefits provided in this section shall be made because of any amounts payable to or on account of any member under workmen's compensation laws of the State of California.

(E) If a member shall die, before his retirement, regardless of cause:

(1) If no benefit is payable under subdivision (2) of this subsection (E), a death benefit shall be paid to his estate or desig-
nated beneficiary consisting of the compensation earnable by him during the six months immediately preceding death, plus his contributions and interest credited thereon.

(2) If, at the date of his death, he was qualified for service retirement by reason of service and age under the provisions of subsection (B) of this section, and he has designated as beneficiary his surviving spouse, who was married to him for at least one full year immediately prior to the date of his death, one-half of the retirement allowance to which the member would have been entitled if he had retired for service on the date of his death shall be paid to such surviving spouse who was his designated beneficiary at the date of his death, until such spouse's death or remarriage, or if there be no surviving spouse, to the unmarried child or children of such member under the age of eighteen years, collectively, until every such child dies, marries or attains the age of eighteen years, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. If, at the death of such surviving spouse, who was receiving an allowance under this subdivision (2), there be one or more unmarried children of such member under the age of eighteen years, such allowance shall continue to such child or children, collectively, until every such child dies, marries or attains the age of eighteen years, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. If the total of the payments of allowance made pursuant to this subdivision (2) is less than the benefit which was otherwise payable under subdivision (1) of this subsection, the amount of said benefit payable under subdivision (1) less an amount equal to the total of the payments of allowance made pursuant to this subdivision (2) shall be paid in a lump sum as follows:

(a) If the person last entitled to said allowance is the remarried surviving spouse of such member, to such spouse.

(b) Otherwise, to the surviving children of the member, share and share alike, or if there are no such children, to the estate of the person last entitled to said allowance.

The surviving spouse may elect, on a form provided by the retirement system and filed in the office of the retirement system before the first payment of the allowance provided herein, to receive the benefit provided in subdivision (1) of this subsection in lieu of the allowance which otherwise would be payable under the provisions of this subdivision. If a surviving spouse, who was entitled to make the election herein provided, shall die before or after making such election but before receiving any payment pursuant to such election, then the legally appointed guardian of the unmarried children of the member under the age of eighteen years may make the election herein provided before any benefit has been paid under this subsection (E), for and on behalf of such children if in his judgment it appears to be in their interest and advantage, and the election so made shall be binding and conclusive upon all parties in interest.

If any person other than such surviving spouse shall have and be paid a community property interest in any portion of any benefit provided under this subsection (E), any allowance payable under this subdivision (2) shall be reduced by the actuarial equivalent, at
the date of the member's death, of the amount of benefits paid to such other person.

Upon the death of a member after retirement and regardless of the cause of death, a death benefit shall be paid to his estate or designated beneficiary in the manner and subject to the conditions prescribed by the board of supervisors for the payment of a similar death benefit upon the death of other retired members.

(F) Should any miscellaneous member cease to be employed as such a member, through any cause other than death or retirement, all of his contributions, with interest credited thereon, shall be refunded to him subject to the conditions prescribed by the board of supervisors to cover similar terminations of employment and re-employment with and without redeposit of withdrawn accumulated contributions of other members of the retirement system, provided that if such member is entitled to be credited with at least ten years of service or if his accumulated contributions exceed one thousand dollars ($1,000), he shall have the right to elect, without right of revocation and within 90 days after said termination of service, or if the termination was by lay-off, 90 days after the retirement board determines the termination to be permanent, whether to allow his accumulated contributions to remain in the retirement fund and to receive benefits only as provided in this paragraph. Failure to make such election shall be deemed an irrevocable election to withdraw his accumulated contributions. A person who elects to allow his accumulated contributions to remain in the retirement fund shall be subject to the same age requirements as apply to other members under this section for service retirement but he shall not be subject to a minimum service requirement. Upon the qualification of such member for retirement by reason of age, he shall be entitled to receive a retirement allowance which shall be the actuarial equivalent of his accumulated contributions and an equal amount of the contributions of the city and county, plus 1% per cent of his average final compensation for each year of service credited to him as rendered prior to his first membership in the retirement system. Upon the death of such member prior to retirement, his contributions with interest credited thereon shall be paid to his estate or designated beneficiary.

(G) The following time and service shall be included in the computation of the service to be credited to a member for the purpose of determining whether such member qualifies for retirement and calculating benefits:

(1) Time during which said member is a member of the retirement system and during and for which said member is entitled to receive compensation because of services as a miscellaneous officer or employee.

(2) Service in the fire and police departments which is not credited as service of a member under this section shall count under this section upon transfer of a member of either of such departments to employment entitling him to membership in the retirement system under this section, provided that the accumulated contribution standing to the credit of such member shall be adjusted by refund to the member or by payment of the member to bring the account at the time of such transfer to the amount which would have been credited to it had the member been a
miscellaneous employee throughout the period of his service in
either of such departments at the compensation he received in
such departments.

(3) Time during which said member is absent from a status
included in paragraphs (1) or (2) next preceding which is not
deemed absence from service under the provisions of section
8.620 of the charter and for which such member is entitled to
receive credit as service for the city and county by virtue of
contributions made in accordance with the provisions of such
section.

(4) Prior service determined and credited as prescribed by the
board of supervisors for persons who are members under section
8.607.

(5) The board of supervisors, by ordinance enacted by a three-
fourths vote of its members, may provide for the crediting as
service under the retirement system of service, other than mil-
tary service, rendered as an employee of the federal government
and service rendered as an employee of the State of California or
any public entity of public agency in the State of California. Said
ordinance shall provide that all contributions required as the
result of the crediting of such service shall be made by the mem-
ber and that no contributions therefor shall be required of the
city and county.

(H) All payments provided under this section shall be made from
funds derived from the following sources, plus interest earned on
said funds:

(1) The rate of contribution of each member under this sec-
tion shall be based on his nearest age at the effective date of his
membership in the retirement system. The normal rate of contri-
bution of each such member, to be effective from the effective
date of membership under this section, shall be such as, on the
average for such member, will provide, assuming service without
interruption, under subsection (B) of this section, one-half of
that portion of the service retirement allowance to which he
would be entitled if retired at age sixty or higher age after ren-
dering ten years of service for retirement under that subsection.
No adjustment shall be included in said rates because of time
during which members have contributed at different rates. Mem-
bers’ rates of contributions shall be changed only in the manner
prescribed by the board of supervisors for changing contributions
rates of other members.

(2) There shall be deducted from each payment of compensa-
tion made to a member under this section, a sum determined by
applying the member’s rate of contribution to such compensation.
Amounts which would have been deducted in the absence of the
limit on such deductions according to service credited, shall be
paid to the retirement system following the removal of such limit,
in manners and at times approved by the retirement board. The
sum so deducted shall be paid forthwith to the retirement system.
Said contribution shall be credited to the individual account of
the member from whose salary it was deducted, and the total
of said contributions, together with interest credited thereon in
the same manner as is prescribed by the board of supervisors for
crediting interest to contributions of other members of the retire-
ment system, shall be applied to provide part of the retirement allowance granted to, or allowance granted on account of said member, under this section or shall be paid to said member or his estate or beneficiary as provided in subsections (E) and (F) of this section, provided that the portion of the salaries of the teachers as provided in section 8.607, paragraph (a), as a basis for fixing the contributions to be made, and the benefits to be received, by the teachers under the retirement system shall be determined by the method provided in section 8.607, paragraph (a) and shall not be less than eighty per cent of the total salary received by the teachers, unless the board of supervisors shall otherwise provide by ordinance enacted by three-fourths vote of all members of the board.

(3) Contributions based on time included in paragraphs (1) and (3) of subsection (G), and deducted prior to July 1, 1947, from compensation of persons who become members under this section, and standing with interest thereon, to the credit of such members on the records of the retirement system on said date, shall continue to be credited to the individual accounts of said members and shall be combined with and administered in the same manner as the contributions deducted after said date.

(4) The total contributions, with interest thereon, made by or charged against the city and county and standing to its credit, on July 1, 1947, in the accounts of the retirement system, on account of persons who become members under this section, shall be applied to provide the benefits under this section.

(5) The city and county shall contribute to the retirement system such amounts as may be necessary, when added to the contributions referred to in the preceding paragraphs of this subsection (H), to provide the benefits payable under this section. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by each member prior to the date upon which his rate of contribution is determined in paragraph (1), subsection (H), shall not be less during any fiscal year than the amount of such benefits paid during said year. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by respective members on and after the date stated in the next preceding sentence, shall be made in annual installments, and the installment to be paid in any year shall be determined by the application of a percentage to the total salaries paid during said year, to persons who are members under this section, said percentage to be the ratio of the value of the effective date hereof, or at the later date of a periodical actuarial valuation and investigation into the experience under the system, of the benefits thereafter to be paid under this section, from contributions of the city and county, less the amount of such contributions, and plus accumulated interest thereon, then held by said system to provide said benefits on account of service rendered by respective member after the date stated in the sentence next preceding, to the value at said respective dates of salaries thereafter payable to said members. Said values shall be determined by the actuary, who shall take into account the interest which shall be earned on said contributions, the compensation
experience of members, and the probabilities of separation by all causes, of members from service before retirement and of death after retirement. Said percentage shall be changed only on the basis of said periodical actuarial valuation and investiga-
tion into the experience under the system. Said actuarial valuation shall be made every even-numbered year and said investiga-
tion into the experience under the system shall be made every odd-numbered year.

(6) To promote the stability of the retirement system through a joint participation in the result of variations in the experience under mortality, investment and other contingencies, the contribu-
tions of both members and the city and county held by the system to provide the benefits under this section, shall be a part of the fund in which all other assets of said system are included. Nothing in the section shall affect the obligations of the city and county to pay to the retirement system any amounts which may or shall become due under the provisions of the charter prior to the effective date hereof, and which are represented on July 1, 1947, in the accounts of said system by debits against the city and county.

(I) Upon the completion of the years of service set forth in sub-
section (B) of this section as requisite to retirement, a member shall be entitled to retire at any time thereafter in accordance with the provisions of said subsection (B), and nothing shall deprive said member of said right.

(J) No person retired under this section, for service or disability and entitled to receive a retirement allowance under the retirement system shall serve in any elective or appointive position in the city and county service, including membership on boards and commis-
sions, nor shall such persons receive any payment for service rendered to the city and county after retirement, provided that service as an election officer or juror shall not be affected by this section.

(K) Any section or part of any section in this charter, insofar as it should conflict with this section, or with any part thereof, shall be superseded by the contents of this section. In the event that any word, phrase, clause or subsection of this section shall be adjudged unconstitutional, the remainder thereof shall remain in full force and effect.

(L) Notwithstanding the provisions of subsections (B), (C), (F) and (I) of this section, any member convicted of a crime involving moral turpitude committed in connection with his duties as an officer of employee of the City and County of San Francisco, shall, upon his removal from office of employment pursuant to the pro-
visions of this charter, forfeit all right to any benefits under the retirement system except refund of his accumulated contributions; provided, however, that, if such member is qualified for service retirement by reason of service and age under the provisions of sub-
section (B) of this section, he shall have the right to elect, without right of revocation and within 90 days after his removal from office or employment, whether to withdraw all of his accumulated con-
tributions or to receive as his sole benefit under the retirement system an annuity which shall be the actuarial equivalent of his
accumulated contributions at the time of such removal from office or employment.

8.610 Actuarial Tables, Rates and Valuations. (existing provisions).

The mortality, service and other tables and the rates of contributions for members as recommended by the actuary and the valuations determined by him and approved by the retirement board shall be conclusive and final, and the retirement system shall be based thereon. The total amount, as determined by the actuary and approved by the board, of the contributions required during any fiscal year of the city and county under the retirement system shall be paid into the retirement system by the city and county during such year. Liabilities accruing under the retirement system because of service rendered to the city and county by persons prior to the date their respective classes become eligible for membership in the system, and administrative costs under the system, shall be met by contributions to the retirement system by the city and county, in addition to any amounts contributed to meet liabilities accruing because of service rendered by such persons after becoming members of the system, provided that such prior service liabilities may be met by annual appropriations instead of by one appropriation for the total amount of the liabilities; and provided further, that such appropriation for any one year shall not be less than the amount disbursed during that year on account of prior service. All expenses in connection with the investment of such fund or funds as may be established, including but not limited to travel and transportation costs, investment seminar expenses, postage, insurance, telephone, and subscriptions to investment publications, shall be paid from the accumulated contributions of the city and county.

Contributions to the retirement system required of the city and county shall be charged by the controller against the general fund or the school, utility, bond or other special fund under which the service was rendered, on account of which the contribution is required; provided that contributions required on account of service rendered by any person prior to becoming a member of the system, under a temporary fund, such as bond or county roads funds, or a fund then no longer existing, may be charged against the general fund, and provided further, that any contributions required on account of persons receiving benefits under subdivision (c) of section 8.607, shall be charged against the general fund.

8.611 Pensions of Retired Persons. (existing provisions).

(a) No person retired for service or disability and in receipt of a retirement allowance under the retirement system shall serve in any elective or appointive position in the city and county service, including membership on boards and commissions, nor shall such persons receive any payment for service rendered to the city and county after retirement, provided that service as an election officer or juror or in the preparation for or the giving of testimony as an expert witness for or on behalf of the City and County of San
Francisco before any court or legislative or administrative body shall not be affected by this section or by section 8.609, section 8.646 or section 8.681 of the charter.

(b) Should any retired person, except persons retired for service prior to January 8, 1932, and persons retired because of disability incurred in the performance of duty, engage in a gainful occupation prior to attaining the age of sixty-two, the retirement board shall reduce that part of his monthly pension or retirement allowance which is provided by contributions of the city and county, to an amount which, when added to the amount earned monthly by him in such occupation, shall not exceed the compensation on the basis of which his pension or retirement allowance was determined.

8.612 Relinquishment of Certain Retirement Allowances. (existing provisions)

Any person who retired under the San Francisco City and County Employees’ Retirement System from an employment status in which he was a member of the State Teachers’ Retirement System, and whose retirement was effective after June 30, 1955, and not later than ninety days after February 1, 1957, may elect, in writing on a form provided by the retirement system and to be filed at the office of said system within ninety days after February 1, 1957, to relinquish his right to a retirement allowance from said City and County Employees’ Retirement System. If such person so elects to relinquish said right, his retirement allowance shall be cancelled forthwith and no payments of such allowance shall be made to him, or on his account, for time on and after the effective date of such election, and such election shall be irrevocable. The San Francisco City and County Employees’ Retirement System shall pay or be liable to pay to or on account of such person only an amount equal to the actuarial equivalent, as of the effective date of such relinquishment, and on the basis of the mortality tables and interest rate then used under the system, of the portion of the cancelled allowance which was provided by said person’s accumulated contributions at the effective date of his retirement. An amount equal to such actuarial equivalent shall be forwarded forthwith to the Retirement Annuity Fund of said State Teachers’ Retirement System, to be applied on the amount due to said fund from said person under the provisions of Division (7), Chapter 14 of the Education Code of the State of California, but not to exceed the amount so due as may be quoted in a written statement requested of and received from said State Teachers’ Retirement System as applied to any person herein involved. Any excess of the actuarial equivalent over said amount so quoted as due shall be paid forthwith to said person.

8.613 Credit on Current Contributions, for Certain Public Reserves Released by Withdrawal or Relinquishment by Retiring or Retired Teachers. (existing provisions)

In the event that any teacher or other employee of the board of education resigns and withdraws during or after the fiscal year which will end June 30, 1957, his accumulated contributions from the San Francisco City and County Employees’ Retirement System, and instead within 90 days after such withdrawal is in the status of a person retired under the State Teachers’ Retirement System of California on an allowance based on the full allowance formulae.
under said state system, the contributions which the San Francisco Unified School District is required to make to said City and County Employee’s Retirement System on account of service rendered by employees of such unified school district as such members of such system, in accordance with the rate of contribution determined under section 8.609 of the charter, shall be reduced by an amount equal to the actuarial equivalent as of the day next following the date of such withdrawal, of the portion of the allowance to which such person would have been entitled from said City and County Employees’ Retirement System, if he had not resigned, and which would have been based on his service as a member of such City and County Employees’ Retirement System, minus the amount of his accumulated normal contributions withdrawn.

In the event that any person retired under the San Francisco City and County Employees’ Retirement System from an employment status in which he was a member of the State Teachers’ Retirement System, has elected or elects to relinquish his right to a retirement allowance from said City and County Employees’ Retirement System, the contributions which the San Francisco Unified School District is required to make to the City and County Employees’ Retirement System on account of service rendered by employees of such unified school district as members of such system in accordance with the rate of contribution determined under section 8.609 of the charter, shall be reduced by an amount equal to the actuarial equivalent as of the effective date of such relinquishment, and as determined in connection with such relinquishment, of the portion of the allowance to which said person would have been entitled had he not so elected, and which was based on his service as a member of the City and County Employees’ Retirement System, minus the actuarial equivalent determined in connection with such relinquishment of the portion of the cancelled allowance which was provided by said person’s accumulated normal contributions at the effective date of his retirement.

If the total of the actuarial equivalents by which the contributions required of the San Francisco Unified School District in any year are to be reduced, exceeds such contributions, the amount of the excess shall be carried over to subsequent fiscal years and applied to reduce such contributions for such years in chronological order.

8.614 Social Security Coverage. (existing provisions)

The board of supervisors may enact, by a vote of three-fourths of its members, an ordinance or ordinances prescribing the conditions according to which any and all employees of the San Francisco Unified School District and employees of the City and County of San Francisco, other than members of the fire and police department as defined in section 8.660, may be covered under the Federal Old-Age and Survivors Disability Insurance provisions of the Federal Social Security Act, subject to the provisions of this section. “City and county” as hereinafter used shall mean the City and County of San Francisco and the San Francisco Unified School District.

(A) Any member of the San Francisco City and County Employees’ Retirement System, hereinafter referred to as the system, who is or becomes covered by the Federal Old-Age and Survivors Disability Insurance provisions of the Federal Social Security Act,
hereinafter referred to as the Act, shall continue to contribute to the system the normal contributions required of him, except that he shall have the right to reduce his normal contributions under the system at his option to be exercised by an election on the system's form, said election to be effective on the first day of the month next following its filing in the system's office. Such reduction of normal contributions shall apply only to time during which said member is covered under the Act, and after February 1, 1959, and the amount of said reduction, which may be changed from time to time by said member, in accordance with rules and regulations of the Retirement Board, shall not be more than the amount of said member's contribution under the Act.

Any allowance payable to or on account of such member by the system shall be reduced on the effective date of said allowance by the actuarial equivalent on that date of the normal contributions, including interest to said date, with which said member would have been but was not credited under the system because of said reduction in his normal contributions and because of amounts paid from such member's accumulated contributions for the retroactive period hereinafter provided for, and any continuation of said allowance shall be based on such reduced allowance but said allowance shall not be effected otherwise by the member's reduction of his normal contributions. Said member shall have the right to contribute amounts, which shall be administered as additional contributions, to replace all or part of such reduction in his retirement allowance.

(B) The reductions in allowances and contributions of members shall be made as provided in the foregoing paragraphs, notwithstanding any provisions in the charter to the contrary.

(C) Every employee covered by the agreement providing coverage under the Act shall be liable for the employee contributions required by the Act.

(D) The effective date of coverage under the Act may be made retroactive to such date as the board of supervisors may determine. Contributions required under the Act of each member for time included by the retroactive application shall be paid from such member's accumulated contributions held by the system on account of his compensation not in excess of the maximum compensation taxable under this Act for such retroactive time. If the required contributions under the Act exceed the member's accumulated contributions held by the system so determined, the additional contributions under the Act equal to the excess shall be paid by the member. Contributions required under the Act of the employer on account of such retroactive period shall be paid from funds held by the system on account of active members and derived from contributions of the city and county.

(E) Any member who is covered by section 210(1) of the Act on the effective date of the agreement between the state and federal government to extend coverage to the members of the system under the Act shall not be subject to this section unless he elect to be covered in accordance with this section, such election to be on a form furnished by the system and to be filed in the office of the system not later than one hundred eighty (180) days after the effective date of such agreement. Such election shall be irrev-
ocable. Such election shall fix the status of the member under such coverage as the same in all respects as if he had not been covered under section 210(1), except that there shall be no adjustment of the member’s accumulated contributions or of the funds held by the system, and derived from contributions of the city and county, on account of social security tax for such retroactive period.

Each member who enters the employ of the municipal railway after the effective date of the agreement between the state and federal government to extend coverage to other members of the system under the Act shall be covered under the act in accordance with the terms of this section and the ordinance or ordinances enacted pursuant thereto.

(F) Provision shall be made for modification of the member’s retirement allowance at his option, if he retires before he attains the minimum age of qualification for his primary benefit under the Act, in such manner that will make his increased monthly retirement allowance under the system prior to attainment of such age equal to the sum of his decreased monthly allowance after attainment of such age, and his primary benefit under the Act, upon the basis of an estimated primary benefit under the Act, subject to the requirement that the amounts of the increase and decrease in the monthly allowance shall be actuarially equivalent, and that the increase shall not be modified under an option provided by ordinance.

(G) Words used in the masculine gender shall include the feminine and neuter genders, and singular numbers shall include the plural and the plural the singular.

(H) The contribution rates of the city and county applicable to various memberships under section 8.609 shall be adjusted to rates determined by the actuary according to methods stated in section 8.609.

(I) The board of supervisors shall submit to the eligible employees for purposes of referendum as defined in the Act the question as to whether they desire coverage under the Act in accordance with conditions prescribed in this section.

(J) The powers of the board of supervisors granted in section 8.600 shall include the authority to make such adjustments in the retirement system, by a vote of three-fourths of its members, as are not made by this section, but as required because of changes in the Act, to carry out the purposes of this section.

8.615 Compensation Insurance Payments. (existing provisions)

The benefit provisions of the workmen’s compensation laws included in the Labor Code of the State of California, as they affect the benefits provided for or payable to or on account of officers and employees, including teachers of the city and county, shall be administered exclusively by the retirement board, provided that the retirement board shall determine whether the city and county, through the retirement system, shall assume the risks under the said law, in whole or in part, or whether it shall reinsure such risks, in whole or in part, with the state compensation insurance fund. Benefits under such risks as may be assumed by the city and county, and premiums under such risks as may be reinsured shall be paid by the retirement
system, and an amount equal to the total of such benefits and pre-
miums, as determined by the actuary for any fiscal year, including
the deficit brought forward from previous years, shall be paid dur-
ing such fiscal year to the retirement system by the city and county.

Every patrol special police officer, as referred to in section 8.905
of this charter shall be entitled, under this section, to the benefits of
such compensation law, if injured while performing regular city
and county police duties, which shall include only duties performed
while preventing the commission of a crime, or while apprehending
the person or persons committing such crime, and shall not include
duties of any character performed for private employers either on
or off the premises of such employers, provided that no payments
shall be made under this paragraph in the event that the patrol
special officer shall receive the benefits of such compensation law
from any other source.

Whenever any member of the fire or police department, as defined
in sections 8.645, 8.665, and 8.669, respectively, is incapacitated for
the performance of his duties by reason of any bodily injury re-
ceived in or illness caused by the performance of his duty, as deter-
mined by the retirement board, he shall become entitled, regardless
of his period of service with the city and county, to disability benefits
equal to and in lieu of his salary as fixed by the charter, while so dis-
able, for a period or periods not exceeding twelve months in the
aggregate, with respect to any one injury or illness. Said disability
benefit shall be reduced in the manner fixed by the board of super-
visors by the amount of any benefits other than medical benefits
payable to such person under the Labor Code concurrently with said
disability benefit, and because of the injury or illness resulting in
said disability. Such disability benefits as are paid in the absence of
payments of any benefits other than medical benefits under the
workmen's compensation laws included in said Labor Code, shall be
considered as in lieu of such benefits, payable to such person under
the said Code concurrently with said disability benefits, and shall be
in satisfaction and discharge of the obligations of the city and
county to pay such benefits under the Labor Code. Medical treatment
which may become necessary to relieve or cure said member from
the effects of the injury or illness shall be furnished by the city and
county, in the same manner that such treatment is furnished under
said Labor Code, but without first requiring continuing awards of
such treatment by the Industrial Accident Commission of the State
of California, relating to impairments of permanent or of extended
and uncertain duration. The provisions of this paragraph shall be
administered exclusively by the retirement board, and the city and
county shall pay to the retirement system during each fiscal year, an
amount equal to the total disability benefits paid by said system dur-
ing that year. A member of the fire or police department shall receive
credits as service, under the retirement system, for time during
which he is incapacitated for performance of duty and receives said
disability benefit. Contributions for the retirement system shall be
deducted from said benefits in the same manner as they would be
deducted from salary paid to him, and the city and county shall con-
tribute, in addition to its other contributions provided herein, to the
retirement system on the basis of said benefits in the same manner
as it would contribute on salary paid to said member.

152
Part Three. Continuous Service.

8.620 Continuous Service. (existing provisions)

(a) Continuous service shall be defined by the board of supervisors, but the absence prior to September 14, 1940, of any officer or employee of the city and county from service caused by reason of the service of such officer or employee in the military or naval forces of the United States in any war in which the United States has engaged, shall not be deemed to be absence from service for the purposes of the retirement system and such officer or employee shall receive credit under the retirement system, for the period of such absence, in the same manner as if he had not been absent.

On and after September 14, 1940, a member is absent on military service when he is absent from city service by reason of (1) service with the armed forces of the United States or the State of California; (2) service on ships operated by or for the United States government when such service is granted as “military leave” pursuant to section 8.702 of the charter; (3) service connected with the war effort for which leaves of absence shall be authorized pursuant to section 8.702 of the charter; or (4) any other service, under an order of the government of the United States or the State of California, or by lawful order of any of the departments or offices of said governments, provided that such absence in any of such services occurs (1) either during a war involving the United States as a belligerent or in time of national emergency, declared by the President of the United States or by the Congress, and for such time thereafter as may be provided by rule of the civil service commission, but not to exceed two years after the proclamation of peace, except in case of disability incurred in line of duty with said armed forces or said ships when such disability extends beyond such period; or (2) in time of peace if he is drafted for such services by the United States government or volunteers for such service while subject to such draft.

For the purposes of this section a war involving the United States as a belligerent exists: (a) whenever Congress has declared any war which has not been terminated by any truce, treaty of peace, or otherwise; (b) whenever the United States is engaged in active military operations against any foreign power, whether or not war has been formally declared; or (c) whenever the United States is assisting the United Nations, in actions involving the use of armed force, to maintain or restore international peace and security.

(b) Any member so absent on military service may contribute to the retirement system during such absence, at times and in the manner prescribed by the board, amounts equal to the contributions which would have been made by him to the system on the basis of his compensation earnable at the commencement of his absence, if he had remained in city service.

Any member who makes the contributions as provided in the preceding paragraph shall receive credit for the absence as service in the manner as if he had not been absent. If, however, a member does not affirmatively exercise the option herein provided, or if he exercised it affirmatively and defaults in any of the contributions due to the retirement system under said election, and in either event if such contributions are not made for him, he shall be considered
absent during the period for which no contributions are made, and he shall not receive credit as service for the city and county for such period; but the absence during such period shall not break the continuity of such service required of such member to entitle him to a retirement allowance, as provided under the retirement system.

Any member who was absent on military service and who did not make the contributions as provided in this section, and whose contributions are not paid for him by the city and county as provided herein, may make such contributions upon his return to city service at times and in the manner prescribed by the board. If he does so contribute, he shall receive credit for the absence as service in the same manner as if he had not been absent.

When a member makes the contributions as provided herein, the same contributions shall be made by the city and county in respect to such absence that would have been made if the member had not been absent on military service, except that such contributions shall be determined by the employer's rate of contribution in effect when such contributions are made, and on the basis of his compensation earnable at the commencement of his absence.

(c) Notwithstanding other provisions of this charter to the contrary, the city and county shall contribute for each member of this system who was absent on military service after September 14, 1940, amounts equal to the contribution which would have been made by such member and the City and County of San Francisco on the basis of his compensation earnable at the commencement of his absence, provided that the member's base pay in such military service is less than $100.00 per month, and provided, further (1) that if the absence in military service was by reason of service in the armed forces of the United States; (2) that the absence began on or after June 25, 1950; and (3) that the member's base pay in such service was less than $250.00 per month, the city and county shall pay the contributions which would have been made by both the member and the city and county on the basis of his compensation earnable at the commencement of his absence. Contributions made by the city and county, in lieu of contributions which otherwise would be required of the member, shall be administered as if made by said member as normal contributions. Any such member who exercises or did exercise the right to contribute to the system during the period of absence on military service, and whose contributions otherwise would be paid by the city and county under this section, shall have his contributions plus credited interest, refunded.

(d) Absence commencing on or after December 7, 1941, of any member of the retirement system from city service caused by reason of his evacuation or exclusion from the city and county by an authorized military commander because such member was of Japanese ancestry shall not be deemed to be absence from service for purposes of the retirement system, for the period of such absence, provided that he returned to city service within one year after the termination of his evacuation or exclusion, and provided further that upon his return to city service, and at times and in the manner prescribed by the retirement board, he elects to contribute to the retirement system amounts equal to the contributions which would have been made by him to the system on the basis of his compensation earnable at the commencement of his absence, if he had remained in city service.
Any member who makes the contributions as provided in the preceding paragraph shall receive credit under the retirement system for the absence as service in the same manner as if he had not been absent. If, however, a member does not affirmatively elect to make such contributions as herein provided, or if he affirmatively elects to make such contributions and defaults in any of the contributions due to the retirement system as herein provided, he shall be considered absent during the period for which no contributions are made, and he shall not receive credit in the retirement system as service for the city and county for such period; but the absence during such period shall not break the continuity of such service required of such member to entitle him to a retirement allowance as provided under the retirement system.

When a member makes the contributions as provided herein, the same contributions shall be made by the city and county in respect to such absence that would have been made by the city and county if the member had not been absent because of such evacuation or exclusion, except that such contributions shall be determined by the employer's rate of contribution in effect when such contributions are made, and on the basis of his compensation earnable at the commencement of his absence.

(e) (provisions that would be added to the present charter and carried over into the revised charter if the amendments proposed in Proposition O are approved)

This subsection shall become operative and become a part of this charter only in the event Proposition O on the November 4, 1969, ballot is approved by a majority vote of the electorate of the City and County of San Francisco.

For the purpose of this section, the term "member" as used shall mean and include: (1) any person who entered military service from a position with the Market Street Railway Company, was absent on such military service on September 29, 1944, and thereafter commenced employment with the Municipal Railway of the City and County of San Francisco within one year after his discharge from such military service; provided, however, that such person shall be considered as having been absent on military service only during the period from September 29, 1944, to the date of his discharge from such military service; (2) any person serving in the armed forces of the United States of the State of California during time of war or any emergency lawfully declared by the President of the United States, who had standing on an eligible list for appointment to a permanent position and was reached for certification to a permanent position while so serving; provided, that such person entered into employment with the city and county as a result of such certification made in accordance with the provisions of section 8,402 of the Charter, within one year after his discharge from such military service; provided, further, that such person shall be considered as being absent on military service only during the period from the date on which his name was reached for certification to a permanent position to the date of his discharge from such military service; and provided, further, that such person's age at entry as calculated for retirement purposes, shall not be changed but shall remain as it was prior to the granting of the additional service credit for military leave.
Part Four. Contributions to Retirement Fund.

8.625 Contributions to Retirement Fund. (*existing provisions*)

The city and county shall contribute jointly with the members of the retirement system to meet the liabilities accruing under the system because of service rendered to the city and county by persons after becoming members of the system. Members of the system shall contribute not to exceed ten per cent of their salaries or wages, provided that members may, at their option, elect to contribute at rates in addition to those fixed as normal by the retirement board. The city and county shall contribute an amount equal to normal contributions of members as provided for in the preceding sentence, but the city and county shall not contribute any amount because of additional contributions by members.

8.626 Cost of Living Adjustments in Allowances. (*existing provisions*)

(A) Each retirement or death allowance which is not subject to change when the salary rate of any member is changed and which is payable to or on account of any member who has retired or died prior to July 1, 1967, except such allowances payable to or on account of persons who retired or died prior to July 1, 1947, as members under Section 8.607, but including death allowances payable under Section 8.661 which are not subject to change when the salary rate of any member is changed, shall be increased for time on and after July 1, 1968, by the percentage set forth in the following table opposite the fiscal year in which said allowance became effective, said percentage to be applied to the allowance payable to the individual who was receiving the allowance on July 1, 1968, (a) exclusive of the annuity provided by additional contributions and (b) prior to reduction pursuant to subsection (A) of Section 8.614:

(1) Funds necessary for the payment of such increases in allowances payable to or on account of members who retired or died as members under Charter Sections 8.607 or 8.609 shall be provided from the City’s accumulated contributions held by the system on account of miscellaneous members under Section 8.609.

(2) Funds necessary for the payment of such increases in allowances to or on account of members who retired or died as members under Charter Sections 8.643 or 8.644 shall be provided from the City’s accumulated contributions held by the system on account of police members under Section 8.644.

156
(3) Funds necessary for the payment of such increases in allowances to or on account of members who retired or died as members under Charter Sections 8.667 or 8.668 shall be provided from the City’s accumulated contributions held by the system on account of fire members under Section 8.668.

The necessary funds shall be transferred on the effective date of this section from said accumulated contributions to the accumulated contributions held by the system to meet the obligations of the city and county on account of benefits that have been granted and which are based on services rendered as members. The contribution being required of the city and county currently, as percentages of salaries of persons who are members under Sections 8.609, 8.644 and 8.668 shall be increased to percentages determined by the actuary as necessary to replace the accumulated contributions so transferred.

(B) (1) The retirement board shall determine, prior to April 1 of each year, the percentage of increase or decrease in the cost of living during the preceding calendar year or years, as shown by the then current Consumer Price Index, All Items, San Francisco (1957–59=100), issued by the U. S. Bureau of Labor Statistics and published in the Monthly Labor Review or a successor publication. The cost of living adjustments as hereinafter provided shall be based on the percentage of such increase or decrease.

(2) Notwithstanding any other charter or ordinance provision governing the retirement system, every retirement or death allowance payable to or on account of any member who retires or dies as a member of the system or who has retired or died as such a member, except allowances subject to change when the salary rate of any member is changed, shall be increased or decreased as of July 1, 1969, and on July 1 of each succeeding year, subject to the provisions of this subsection (B), by a percentage of the allowance established on July 1, 1968, after any increase under subsection (A) of this section or on the effective date of such allowance, whichever is later, as payable to the individual who is receiving the allowance on the date of any such adjustment (a) exclusive of the annuity provided by additional contributions, and prior to modification pursuant to subsection (F) of Section 8.614. On July 1, 1969, the percentage of increase in each such allowance shall be the percentage which is determined by the retirement board to approximate to the nearest one per cent, the percentage of increase in the cost of living during the preceding calendar year. On July 1, 1970, and on July 1 of each succeeding year, the percentage of increase or decrease in each such allowance shall be the percentage which is determined by the retirement board to approximate to the nearest one percent of increase or decrease in the cost of living in the calendar year or years since January 1, 1969, or since January 1 of the year in which the last such cost of living adjustment in allowances was made, whichever is later. Any such allowance shall be so adjusted only if it was in effect for at least one year prior to the date of such adjustment. Such adjustment in any year shall not exceed two percent of such allowance; provided, however, that no allowance shall be reduced below the amount being received by the member or his beneficiary on July 1, 1968, or on the effective date he began to receive the allowance, whichever is later.
(3) Any such increases in allowances shall be paid from funds which shall be allocated for that purpose by the retirement board from such earnings on investments not otherwise allocated and after crediting of regular interest to accumulated contributions as are in excess of two per cent of the assets of the retirement system at the close of each fiscal year.

(4) Any such increases in allowances which are not funded by such allocation of such earnings, shall be funded by contributions of members under Sections 8.607, 8.609, 8.644, 8.668 and by contributions of the city, which shall be at rates which are in addition to the rates of contribution otherwise provided by charter or ordinance, provided that a member’s rate of contribution shall not exceed one-half of one per cent of his monthly compensation. The contributions made under this section by any member shall be credited together with regular interest thereon to his individual account and shall be subject to the same charter and ordinance provisions relating to accumulated contributions of the member, including withdrawal and death benefits other than death allowances, provided, however, that upon his retirement or death, such accumulated contributions and interest shall not be applied to provide a part of the retirement benefits payable to him or the death allowance benefits payable on account of his death otherwise provided by charter or ordinance, but instead shall be held, together with the accumulated contributions made by the city pursuant to this subsection (B), with interest thereon, to provide the benefits under this subsection (B). Whenever such accumulated contributions of a member with interest have been paid to him on account of his termination of service or to his beneficiary or estate as a part of his death benefits, as provided by charter or ordinance, an amount equal to the amount of contributions and interest so paid shall be applied to reduce the contributions by the city then currently payable under this section. If a member, upon his reentry into membership after the withdrawal of his accumulated contributions, shall redeposit the accumulated contributions withdrawn with interest, as otherwise provided by the charter or ordinance, he shall redeposit the accumulated contributions made under this section with interest in the same manner and under the same conditions as the redeposit of his other accumulated contributions, and an amount equal to the amount of such redeposit of accumulated contributions made under this section with interest, shall become payable forthwith by the city to be included in the city’s contributions under this section.

(5) The rates of contribution of members and the city, as provided herein, shall be fixed by the retirement board from time to time as it determines necessary.

Part Five. Specific Adjustments to Retirement Allowances.

8.630 Retirement—Miscellaneous Officers and Employees Prior to July 1, 1947. (existing provisions)

Every retirement allowance payable by the San Francisco City and County Employees’ Retirement System, for time commencing on January 1, 1950, to or on account of any person who was retired prior to July 1, 1947, as a member of said system under section 8.607,
is hereby increased by the amount of twenty-five dollars per month, provided such member was entitled to be credited under the retirement system with at least twenty years of service upon which the retirement allowance was determined at retirement. If the member was entitled to be credited with less than twenty years of such service, then said monthly increase shall be an amount which shall bear the same ratio to twenty-five dollars that the service with which the member was entitled to be credited at effective date of retirement, bears to twenty years. This section does not give any member retired prior to January 1, 1950, or his successors in interest, any claim against the city and county for any increase in any retirement allowance paid or payable for any time prior to January 1, 1950. If a member elected at retirement to have his retirement allowance modified under Options 2 or 3, provided by ordinance, and if his beneficiary is living on January 1, 1950, the increase in his allowance shall be modified under the option elected at retirement, and on the basis of current ages, mortality tables and interest rate. Persons who are members of the police department on the 8th day of January, 1932, shall become members of the retirement system on that date, subject to the following provisions in addition to the provisions contained in sections 3.620, 8.600-8.602, 8.610, 8.611, 8.620, and 8.660 of this charter:

(a) Any member of the department who has arrived or shall arrive at the age of sixty-two years, and who has completed thirty years of continuous service as an active member of the department next preceding his retirement, may retire from service at his option, provided that retirement shall be compulsory at the age of seventy
years. Such retired member shall receive a monthly pension, payable throughout his life, equal to one-half of the amount of the monthly salary attached to the rank held by him three years prior to the date of his retirement, hereinafter referred to in this section and section 8.642 as a “pension.”

Before the first payment of the pension is made, such retired member may elect to receive the actuarial equivalent of his pension, partly in a pension to be received by him throughout his life, and partly in other benefits payable after his death to another person or persons, provided that such election shall be subject to all the conditions prescribed by the board of supervisors to govern similar elections by other members of the retirement system, including the character and amount of such other benefits.

(b) Any member of the department who shall become physically disabled by reason of any bodily injury received in the performance of his duty, may be retired upon a monthly pension, as defined in subdivision (a), of this section, payable throughout his life. In case his disability shall cease, his pension shall cease, and he shall be restored to the service in the rank he occupied at the time of his retirement.

(c) The family of any member of the department who may be killed or injured while in the performance of his duties, and who shall have died within three (3) years from the date of such injury as a result of such injury, shall receive the following benefits and the receipt by such member of a pension under this section during his lifetime shall not bar said family from such benefits:

First, should the decedent leave a widow to whom he was married prior to the date of the injury resulting in death, such widow shall, as long as she may live and remain unmarried, be paid a monthly pension equal to one-half of the salary attached to the rank held by the decedent at the time of his said injury; provided, however, that should said widow die, leaving a child or children under the age of sixteen years, said pension shall continue to such child or such children collectively until the youngest child arrives at the age of sixteen years.

Second, should the decedent leave no widow, but leave an orphan child or children under the age of sixteen years, such child or children collectively shall receive a monthly pension equal to one-half of the salary attached to the rank held by their father at the time of his said injury until the youngest attains the age of sixteen years.

Third, should the decedent leave no widow and no orphan child or children, but leave a parent or parents depending solely upon him for support, such parents, so depending, shall collectively receive a monthly pension equal to one-half of the salary attached to the rank held by the decedent at the time of his said injury during such time as the retirement board may unanimously determine its necessity.

(d) A sum equal to the contributions, with interest, made by persons who become members of the retirement system under this section to any other pension fund shall be paid by the city and county to the retirement system. Each member of the department shall contribute two dollars ($2) per month to the retirement system to be applied on the cost of the benefits at death and retire-
ment provided under this section. Should a member be separated from city service through any cause other than death or retirement, then such contributions with interest shall be refunded to him under such conditions as may be fixed by the board of supervisors for the refund of contributions of other members of the retirement system.

(e) When any member of the department shall die from natural causes and before retirement, there shall be paid to his estate or beneficiary a death benefit, the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system.

Upon the death of a member after retirement and regardless of the cause of death, a death benefit shall be paid to his estate or designated beneficiary, the amount of which and the conditions for payment of which shall be determined in the manner prescribed by the board of supervisors for the payment of a similar death benefit upon the death of other retired members.

(f) In addition to the other contributions required of the city and county under the retirement system, the city and county shall contribute to the retirement system during each fiscal year a sum which, together with the members' contributions provided for in subdivision (d) of this section, shall be equal to the liabilities accruing under the retirement system because of the service rendered during such year by persons becoming members on the 8th day of January, 1932, under this section. If, subsequent to such fiscal year, it shall be determined that such contributions by the city and county, together with the members' contributions, was not sufficient to meet such liability, then the city and county shall make such additional contributions as may be necessary to make up the deficit.

(g) No benefits shall be provided under the retirement system for, nor shall any contribution be required of, persons who become members of the retirement system under this section, in addition to the benefits specifically provided and contributions specifically required in such section.

That portion of any pension payable because of the death or retirement of any such persons which is provided by contributions of the city and county shall be reduced, in the manner fixed by the board of supervisors, by the amount of any benefits payable to or on account of such person, under the workmen's compensation insurance and safety law of the State of California.

(h) Persons who were members of the police department on the 8th day of January, 1932, shall have the option, to be exercised in writing on or before the 1st day of January, 1936, of becoming members of the retirement system under the provisions of section 8.643, which applies to persons who become members of the department after the 8th day of January, 1932. If such persons shall affirmatively exercise such option within the time specified, then on and after the first day of the month next following such affirmative action, referred to hereinafter in this subdivision (h) as "effective date," they shall not receive any benefit or make any contribution under this section, but on and after said effective date shall be members of the retirement system and shall receive benefits and
make contributions on the same basis as persons who become members of the department after the 8th day of January, 1932, provided that a pension for each person affirmatively exercising such option shall be payable on account of service rendered to the city and county prior to said effective date, by such members' contributions made prior to such effective date, with interest, and by contributions of the city and county, which pension shall be the same percentage regardless of the age of retirement, of his final compensation, as defined by the board of supervisors, for each year of such service, as the contributions of the member and the city and county are calculated to provide upon retirement at age sixty-two for each year of service rendered as a member of the retirement system.

For all purposes of the retirement system, and notwithstanding any other provisions of the charter, the monthly salary attached to the former rank of corporal, heretofore held by a member of the police department, shall henceforth be deemed to be an amount equal to the maximum monthly salary attached to the rank of police officer, plus three-fourths of the difference between such amount and the monthly salary attached to the rank of sergeant.

Said allowance shall be paid to him until the date upon which said member would have qualified for service retirement had he lived and rendered service without interruption in the rank held by him at retirement, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date, based on the final compensation as defined in Section 8.645 he would have received immediately prior to said date had he lived and rendered service as assumed, but such allowance shall not be less than fifty-five per cent of such final compensation. If at the time of retirement because of disability, he is qualified as to age and service for retirement under section 8.646, he shall receive an allowance equal to the retirement allowance which he would receive if retired under section 8.646 but not less than fifty-five per cent of said final compensation. Any member of the police department who becomes incapacitated for the performance of his duty, by reason of a cause not included under the provisions of the immediately preceding sentences, and who shall have completed at least ten years of service in the aggregate, computed as provided in section 8.654 shall be retired upon an allowance of one and one-half per cent of the final compensation of said member, as defined in section 8.645, for each year of service provided that said allowance shall not be less than thirty-three and one-third per cent of said final compensation. The question of retiring a member under this section may be brought before the retirement board on said board's own motion, by recommendation of the police commission, or by said member or his guardian. If his disability shall cease, his retirement allowance shall cease, and he shall be restored to the service in the rank he occupied at the time of his retirement.

8.648 Death Allowance. (existing provisions)

If a member of the police department shall die before or after retirement by reason of an injury received in, or illness caused by the performance of his duty, a death allowance, in lieu of any allowance payable under any other section of the charter or by ordinance, on account of death resulting from injury received in or illness caused by the performance of duty, shall be paid, beginning on the date next following the date of death, to his surviving wife, throughout her life or until her remarriage. If the member, at the time of death, was qualified for service retirement, but had not retired, the allowance payable shall be equal to the retirement allowance which the member would have received if he had been retired for service on the day of death, but such allowance shall not be less than fifty-five percent of the final compensation earnable by said member immediately preceding death. If death occurs prior to qualification for service retirement the allowance payable shall be equal to the final compensation of said member at the date of death, until the date upon which said member would have qualified for service retirement, had he lived and rendered service without interruption in the rank held by him at death, and after said date the allowance payable
shall be equal to the retirement allowance said member would have received if retired for service on said date, based on the final compensation he would have received immediately prior to said date, had he lived and rendered service as assumed, but such allowance shall not be less than fifty-five per cent of such final compensation. If he had retired prior to death for service or for disability resulting from injury received in, or illness caused by the performance of duty, the allowance payable shall be equal to the retirement allowance of the member, except that if he was a member under section 8.644 and retirement was for such disability, and if death occurred prior to qualification for the service retirement allowance, the allowance continued shall be reduced upon the date at which said member would have qualified for service retirement, in the same manner as it would have been reduced had the member not died. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. Should said member leave no surviving wife and no children under the age of eighteen years, but leave a parent or parent's dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving widow otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving wife following the death of a member unless she was married to the member prior to the date of the injury or onset of the illness which results in death.

8.649 Payment of Surviving Dependents. (existing provisions)

Upon the death of a member of the police department resulting from any cause, other than injury received in or illness caused by performance of duty, (a) if his death, occurred after qualification for service retirement under sections 8.640, 8.643 or 8.646, or after retirement for service or because of disability which resulted from any cause other than an injury received in, or illness caused by the performance of duty, three-fourths of his retirement allowance to which he would have been entitled if he had retired for service at the time of his death or three-fourths of his retirement allowance as it was at his death, as the case may be, shall be continued throughout life or until remarriage, to his surviving wife or (b) if his death occurred after retirement because of disability which resulted from injury received in, or illness caused by the performance of duty, his retirement allowance as it was at his death shall be continued throughout life or until remarriage, to his surviving wife, except that, if death occurred prior to qualification for service retirement allowance, the allowance continued shall be adjusted upon the date at which said member would have qualified for service retirement, in the same manner as it would have been adjusted had the member not died. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving wife would have received had she lived and not re-
married shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. Should said member leave no surviving wife and no children under the age of eighteen years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving wife otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving wife unless she was married to the member prior to the date of the injury or the onset of the illness which results in death, if he had not retired, or unless she was married to the member at least one year prior to his retirement.

As used in this section and section 8.648, "surviving wife" shall mean and include a surviving spouse, and shall also mean and include a spouse who has remarried since the death of the member but whose remarriage has been terminated by death, divorce or annulment within five years after the date of such remarriage and who has not thereafter again remarried.

The surviving wife, in the event of death of the member after qualification for but before service retirement, may elect before the first payment of the allowance, to receive the benefit provided in section 8.652 in lieu of the allowance which otherwise would be continued to her under this section. If there be no surviving wife, the guardian of the child or children under age eighteen may make such election, and if there be no such children, the dependent parent or parents may make such election. Persons heretofore or hereafter retired under other charter sections, as members of the police department at the time of retirement, shall be subject to the provisions of this section. With respect to members under section 8.644, "Qualified for service retirement," "Qualification for service retirement" or "Qualified as to age and service for retirement," as used in this section and other sections to which persons who are members under section 8.644 are subject, shall mean completion of twenty-five years of service and attainment of age fifty, said service to be computed under section 8.654.

8.650 Adjustment of Allowances. (existing provisions)

(a) Every allowance based on the average monthly compensation earnable by the member during the three or ten years prior to retirement or death, and payable for time commencing on April 1, 1952, to or on account of persons who were retired or who died prior to January 1, 1951, as members of the police department, shall be adjusted to the amount it would be if it had been based on the monthly compensation fixed in section 8.902 of the charter as of July 1, 1951, for the rank of police officer in the respective years of service, regardless of the rank or position the member held in the department prior to his retirement, or death before retirement. Every service retirement allowance under section 8.643 which is included in the sentence next preceding, shall be adjusted to what it would have been, if prior to optional modification, the allowance had been fifty percent of said monthly compensation. Allowances payable under sections 8.647, 8.648 or 8.661 to or on account of persons who were retired for disability or died prior to January 1, 1951, on and after the date such persons would have qualified for service retirement,
shall be calculated as provided in said sections 8.647, 8.648, or 8.661, respectively. The provisions of section 8.649 with respect to continuance of one-half of retirement allowance upon deaths after retirement, shall be applied from April 1, 1952, as if they were effective on November 2, 1948. This section does not authorize any decrease in any allowance from the amount being paid as of April 1, 1952, nor does this section give any retired member, or any beneficiary of such member, or his successors in interest, any claim against the city and county for any increase in any allowance paid or payable for the time prior to April 1, 1952. Adjustment in reserves under allowances which are changed according to this section, shall be made on the basis of current interest rate and mortality tables.

The increase in the retirement allowance shall be apportioned according to services rendered by the member in the same manner that the allowance prior to increase was apportioned. Contributions to the retirement system, necessary for the payment of the increase of the portion of the retirement allowances which is paid from reserves held by the retirement system, shall be provided from the reserves held by the retirement system on account of members under section 8.644, the necessary amount being transferred upon April 1, 1952, from said reserves to the reserves held by the retirement system to meet the obligations on account of benefits that have been granted and on account of prior service of members. The contribution being required of the city and county currently, as a percentage of salaries of persons who are members under section 8.644, shall be increased to a percentage determined by the actuary as necessary to replace the reserves so transferred. Contributions to the retirement system necessary for the payment of said increases with reference to current and prior service portions of the allowances which are not paid from reserves held by the retirement system, shall be paid to the system by the city and county by annual appropriations, provided that such appropriation for any year shall not be less than the amount disbursed during that year on account of said increases.

(b) Every retirement or death allowance payable for time commencing on April 1, 1956, to or on account of any person who died or was retired prior to November 8, 1955, as a member of the police department, unless such person was retired or died as a member of the retirement system or the former police relief and pension fund, under any section of the charter, other than section 8.643, or 8.644, is hereby increased by the amount of $25.00 per month; provided, however, that such increased retirement allowance or death allowance shall not exceed 50 per cent of the compensation as of July 1, 1954, attached to the rank of police officer in the fourth year of service as set forth under section 8.902 of the charter, regardless of the rank or position the member held in the department prior to his retirement or death before retirement.

Such increase shall not be modified under, nor subject to, option 2 or 3 provided by ordinance. Allowances payable under sections 8.647, 8.648, or 8.661, to or on account of persons who were retired for disability or died prior to November 8, 1955, on and after the date such persons would have qualified for service retirement, shall be calculated as provided in said sections 8.647, 8.648, or 8.661, respectively.

This section does not authorize any decrease in any allowance.
from the amount being paid as of April 1, 1956, nor does this section
give any member who retired, or the beneficiary of any member who
died prior to April 1, 1956, or his successors in interest, any claim
against the city and county for any increase in retirement allowance
paid or payable for time prior to April 1, 1956.

The increase in allowance shall be apportioned between service
rendered prior to the entry of the member into the retirement sys-
tem under section 8.643 or 8.644, and service rendered as such a
member, in the same proportion that such prior and current service
respectively, bears to the total service credited at retirement. Con-
tributions to the retirement system necessary for the increases in
the allowances provided in this section, shall be provided, with re-
spect to the portion of the benefit based on service rendered as mem-
ers under section 8.643 or 8.644 from the reserves held by the re-
irement system on account of members of the retirement system
under section 8.644, the necessary amount being transferred upon
April 1, 1956, from said reserves to the reserves held by the retire-
ment system to meet the obligations on account of allowances which
are increased by this subsection 8.650(b). The contribution being
required of the city and county currently, as percentages of salaries
of persons who are members under section 8.643 or 8.644, shall be
paid to the system by the city and county by annual appropriations,
provided that such appropriation for any year shall not be less than
the amount disbursed during that year on account of said increases.

8.651 Adjustment of Allowances Because of Compensation Bene-
fits. (existing provisions)

That portion of any allowance payable because of the death or
retirement of any member of the police department, which is pro-
vided by contributions of the city and county, shall be reduced in the
manner fixed by the board of supervisors, by the amount of any
benefits, other than medical benefits, payable to or on account of such
person, under the Workmen's Compensation Insurance and Safety
Law of the State of California and because of the injury or illness
resulting in said death or retirement. Such portion which is paid
because of death or retirement which resulted from injury received
in or illness caused by performance of duty, shall be considered as
in lieu of any benefits, other than medical benefits, payable to or on
account of such persons under the said law of the State of Califor-
nia, and shall be in satisfaction and discharge of the obligation of
the city and county to pay such benefits.

8.652 Death Benefits. (existing provisions)

If a member of the police department shall die, before retirement,
from causes other than an injury received in, or illness caused by
the performance of duty, or regardless of cause, if no allowance
shall be payable under sections 8.648 or 8.649 preceding, a death
benefit shall be paid to his estate or designated beneficiary, the
amount of which and the conditions for the payment of which shall
be determined in the manner prescribed by the board of supervisors
for the death benefit of other members of the retirement system.
Upon the death of a member after retirement and regardless of
the cause of death, a death benefit shall be paid to his estate or des-
ignated beneficiary, the amount of which and the conditions for pay-
ment of which shall be determined in the manner prescribed by the
board of supervisors for the payment of a similar benefit upon the
death of other retired members.

8.653 Refunds and Redeposits. (existing provisions)

Should any member of the police department cease to be employed
as such a member, through any cause other than death or retirement
or transfer to another office or department, all of his contributions,
with interest credited thereon, shall be refunded to him subject to
the conditions prescribed by the board of supervisors to govern
similar terminations of employment of other members of the retire-
ment system. If he shall again become a member of the police depart-
ment, he shall redeposit in the retirement fund the amount refunded
to him. Contributions with interest, which are credited because of
service rendered in any other office or department and which will
not be counted under section 8.654 to any person who becomes a
member of the retirement system under section 8.644, shall be re-
funded to him forthwith. Should a member of the police department
become an employee of any other office or department, his accumu-
lated contribution account shall be adjusted by payments to or from
him as the case may be, to make the accumulated contributions
credited to him at the time of change, equal to the amount which
would have been credited to him if he had been employed in said
other office or department at the rate of compensation received by
him in the police department, and he shall receive credit for service
for which said contributions were made, according to the charter
section under which his membership in the retirement system con-
tinues.

8.654 Computation of Service. (existing provisions)

The following time shall be included in the computation of the
service to be credited to a member of the police department for the
purposes of determining whether such member qualifies for retire-
ment, and calculating benefits, excluding, however, any time the
contributions for which were withdrawn by said member upon
termination of his service while he was a member under any other
charter section, and not redeposited upon re-entry into service:

(1) Time during and for which said member is entitled to receive
compensation because of services as a member of the fire or police
department.

(2) Time during which said member served and received com-
pensation as a jail matron in the office of the sheriff.

(3) Time during which said member is entitled to receive com-
pensation while a member of the retirement system, because of
service rendered in other offices and departments before July 1,
1949, provided that accumulated contributions on account of such
service, previously refunded, are redeposited, with interest from
date of refund to date of redeposit, at times and in the manner fixed
by the retirement board; and solely for the purpose of determining
qualification for retirement under section 8.647 for disability not
resulting from injury received in, or illness caused by performance
of duty, time during which said member serves, after June 30, 1949,
and receives compensation because of services rendered in other
offices and departments.

(4) Time during which said member is absent from a status in-
cluded in paragraphs (1), (2) or (3) next preceding, by reason of service in the armed forces of the United States of America, or by reason of any other service included in section 8.620 of the charter, during any war in which the United States was or shall be engaged or during other national emergency, and for which said member contributed or contributes to the retirement system or for which the city and county contributed or contributes on his account.

8.655 Sources of Fund. (existing provisions)

All payments provided for persons who are members under section 8.644 shall be made from funds derived from the following sources, plus interest earned on said funds:

(1) The normal rate of contribution of each member shall be based on his age taken to the next lower complete quarter year, (a) at the date he became a member under sections 8.607 or 8.643, in the case of persons who are members under these sections, or (b) at July 1, 1945, in the case of persons who are members under section 8.640, and his age taken to the next lower completed quarter year, when he entered the police department, or (c) on his age at the date he becomes a member under section 8.644, in the case of persons who become members on or after July 1, 1945, without credit for services counted under section 8.654. The age of entrance into the police department shall be determined by deducting the member's service credited under section 8.654 as rendered prior to the date upon which his age is based for determination of the rate of contribution according to the sentence next preceding, from said age. The normal rate of contribution of each such member, to be effective from the effective date of membership under section 8.644, shall be such as, on the average for such member, will provide, assuming service without interruption, under section 8.646, one-third of that portion of the service retirement allowance to which he would be entitled, without continuance to dependents, upon first qualifying as to age and service, for retirement under that section, without discount of allowance, which is based on service rendered after the date upon which his age is based for determination of his rate of contribution according to the first sentence in this paragraph, and assuming the contribution to be made from that date. The normal rate of contribution, however, shall not exceed six per cent.

(2) The dependent rate of contribution of each member which shall be required of each member throughout his membership in addition to the normal contributions, and in the same manner as normal contributions, shall be such as, on the average for such member, will provide, assuming service without interruption under section 8.646, and upon his first qualifying as to age and service for retirement under that section, one-third of the portion of his allowance, which is to be continued under section 8.649, after his death and throughout the life of a surviving wife whose age at said death is three years less than the age of said member. If, at the date of retirement for service or retirement for disability resulting from injury received in performance of duty, said member has no wife who would qualify for the continuance of the allowance to her after the death of said member, or upon retirement from disability resulting from other causes, regardless of his marital condition, the dependent contributions with accumulated interest thereon, shall
be paid to him forthwith. The dependent rate of contribution, however, shall not exceed the difference between six per cent and the member's normal rate of contribution, and said dependent rate may be taken as a flat percentage of the member's normal rate, regardless of the age of qualification for service retirement.

(3) There shall be deducted from each payment of compensation made to a member under section 8.644, a sum determined by applying the member's rates of contribution to such compensation payment. The sum so deducted shall be paid forthwith to the retirement system. Said contribution shall be credited to the individual account of the member from whose salary it was deducted, and the total of said contributions, together with interest credited thereon in the same manner as is prescribed by the board of supervisors for crediting interest to contributions of other members of the retirement system, shall be applied to provide part of the retirement allowance granted to, or allowance granted on account of said members or shall be paid to said member or his estate or beneficiary as provided in sections 8.652, 8.653, and 8.654.

(4) Contributions based on time included in paragraphs (1), (2), (3), and (4) of section 8.654 and deducted prior to July 1, 1945, from compensation of persons who become members under section 8.644, and standing with interest thereon, to the credit of such members on the records of the retirement system on said date, shall continue to be credited to the individual accounts of said members and shall be combined with and administered in the same manner as the contributions deducted after said date.

(5) The total contributions, with interest thereon, made by or charged against the city and county and standing to its credit, in the accounts of the retirement system, on account of persons who become members under section 8.644, shall be applied to provide the benefits under said section.

(6) The city and county shall contribute to the retirement system such amounts as may be necessary, when added to the contributions referred to in the preceding paragraphs of this section 8.655, to provide the benefits payable under this section. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by each member prior to the date upon which his age is based for determination of his rate of contribution in paragraph (1), section 8.655 shall not be less during any fiscal year than the amount of such benefits paid during said year. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by respective members on and after the date stated in the next preceding sentence, shall be made in annual installments, and the installment to be paid in any year shall be determined by the application of a percentage to the total compensation paid during said year, to persons who are members under section 8.644, said percentage to be the ratio of the value on July 1, 1945, or at the later date of a periodical actuarial valuation and investigation into the experience under the system of the benefits thereafter to be paid under this section, from contributions of the city and county, less the amount of such contributions, and plus accumulated interest thereon, then held by said system to provide said benefits on account of service rendered by respective members.
after the date stated in the sentence next preceding, to the value at said respective dates of salaries thereafter payable to said members. Said values shall be determined by the actuary, who shall take into account the interest which shall be earned on said contributions, the compensation experience of members, and the probabilities of separation by all causes, of members from service before retirement and of death after retirement. Said percentage shall be changed only on the basis of said periodical actuarial valuation and investigation into the experience under the system. Said actuarial valuation shall be made every even-numbered year and said investigation into the experience under the system shall be made every odd-numbered year.

(7) To promote the stability of the retirement system through a joint participation in the result of variations in the experience under mortality, investment and other contingencies, the contributions of both members and the city and county held by the system to provide the benefits under this section, shall be a part of the fund in which all other assets of said system are included. Nothing in this section shall affect the obligation of the city and county to pay to the retirement system any amounts which may or shall become due under the provisions of the charter prior to July 1, 1945, and which are represented on July 1, 1945, in the accounts of said system by debits against the city and county.

8.656 Right to Retire. (existing provisions)

Upon the completion of the years of service set forth in section 8.646 as requisite to retirement, a member of the police department shall be entitled to retire at any time thereafter in accordance with the provisions of said section 8.646, and nothing shall deprive said member of said right.

8.657 Limitation on Employment during Retirement. (existing provisions)

No person retired as a member under section 8.644 after June 30, 1945, for service or disability and entitled to receive a retirement allowance under the retirement system shall serve in any elective or appointive position in the city and county service, including membership on boards and commissions, nor shall such person receive any payment for service rendered to the city and county after retirement, provided that service as an election officer or juror shall not be affected by this section.

Part Seven. Police and Fire.

8.660 Definition, Members of Fire and Police Departments. (existing provisions)

For the purposes of the retirement system, any officer or employee of the police or the fire departments whose employment therein began prior to January 1, 1900, or whose employment therein began on or shall begin after that date and was or shall be subject to a charter maximum age at the time of employment of not over thirty-five years, shall be considered to be a member of the police department or the fire department, respectively. Any fire or police service.
outside the limits of the city and county performed by a member of the retirement system and under orders of a superior officer of any such member, shall be considered as city and county service, and any disability or death incurred therein shall be covered under the provisions of the retirement system.

8.661 Pension Provisions—Dependents of Members of Fire and Police Departments Killed in Line of Duty. (existing provisions)

If a member of the fire or police departments, as defined in the charter for the purposes of the retirement system, or a member of the salvage corps in the fire department, or any person employed by the city and county to perform duties now performed under the titles of pilot of fireboats, marine engineer of fireboats, or marine fireman of fireboats, all of whom are hereinafter designated as members, shall die before or after retirement as a result of an injury received in, or illness caused by the performance of his duty, a monthly allowance, in lieu of any allowance payable under any other section of the charter or by ordinance, shall be paid, beginning on the date next following the date of death, to his surviving wife throughout her life or until her remarriage. If the member, at the time of death, was qualified for service retirement, but had not retired, the allowance payable shall be equal to the retirement allowance which the member would have received if he had been retired for service on the day of death, but such allowances shall not be less than one-half of the average monthly compensation earnable by said member during the three years immediately preceding death, and if he had retired prior to death, the allowance payable shall be equal to the retirement allowance of the member. If death occurs prior to qualification for service retirement, the allowance payable shall be equal to the compensation of said member at the date of death, until the date upon which said member would have qualified for service retirement, had he lived and rendered service without interruption in the rank held by him at death, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date, based on the average monthly compensation he would have received during the three years immediately prior to said date, had he lived and rendered service as assumed, but such allowance shall not be less than one-half of such average monthly compensation. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. Should said member leave no surviving wife and no children under the age of eighteen years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving widow otherwise would have received, during such dependency. No allowance, however, shall be paid under this subsection to a surviving wife following the death of a member unless she was married to the
member prior to the date of the injury or onset of the illness which results in death.

Benefits provided under this section shall be in lieu of all benefits payable under other sections of the charter upon death of such member resulting from an injury received in, or illness caused by the performance of duty, except the five hundred dollar benefit payable upon death after retirement.

Contributions to provide the allowance under this section shall be made to the San Francisco City and County Employees’ Retirement System by the city and county. The amount of the contribution shall be determined and payment to the system shall be made in the same manner as contributions are determined and paid which are required for other benefits provided under the retirement system for the respective groups of members who are included under this section.

Notwithstanding any other provision of this charter, any member of the salvage corps in the fire department, or any person employed by the city and county to perform duties now performed under the titles of pilot of fire boats, marine engineer of fire boats, or marine fireman of fire boats, who becomes incapacitated for performance of his duty by reason of any bodily injury received in or illness caused by the performance of his duty, shall receive the same benefits as members of the fire department who are members of the retirement system under section 8.667 of the charter.

8.662 Credit for Service in Underwriters’ Fire Patrol. (provisions that would be added to the present charter and carried over into the revised charter if Proposition N is approved)

This section shall become operative and become a part of this charter only in the event Proposition N on the November 4, 1969, ballot is approved by a majority vote of the electorate of the City and County of San Francisco.

Any person who is a member under Section 8.668 on February 1, 1970, and who was employed in the uniformed force of the Underwriters’ Fire Patrol of San Francisco prior to becoming such a member shall have the right to elect to make contributions pursuant to this section and to receive credit as service under the retirement system for all or any part of the time he was so employed.

Said election shall be made in writing on a form provided by the retirement system and filed with the retirement board within ninety (90) days after February 1, 1970.

Any such member who elects to make contributions and receive such credit shall contribute to the retirement fund an amount equal to the sum of (a) contributions computed by applying the rate of contribution applicable to him on the date he elected to receive credit for such service to the monthly compensation earnable by him on said date multiplied by the number of months of such service for which he has elected to receive credit and (b) interest on the unpaid balance of said contributions, commencing on the date of the member’s election to make such contributions, at the rate of interest currently being used from time to time under the retirement system.

Payment of the contributions required by this section shall be made in a lump sum or by installment payments. Installment payments shall be made at times and in a manner fixed by the retire-
ment board, provided that the period for completion of such payments shall not extend beyond the effective date of the member’s retirement.

Upon completion of payment of contributions in the amount specified in this section, the member shall be credited with service under the retirement system in an amount equal to the service for which he has elected to receive credit pursuant to this section. The service with which the member is so credited shall be credited as current service.

Part Eight. Fire.

8.665 Members of Fire Department on January 8, 1932. (existing provisions)

Persons who are members of the fire department on the 8th day of January, 1932, shall become members of the retirement system on that date, subject only to the following provisions, in addition to the provisions contained in sections 3.620, 8.600-8.602, 8.610, 8.611, 8.620, and 8.660 of this charter.

(a) Any member of the fire department who shall have completed twenty-five years of continuous service as a member of the fire department next preceding the date of his retirement, or any member of the fire department who shall have reached the age of fifty-five years and shall have completed twenty years of continuous service as a member of the fire department next preceding the date of his retirement, may retire from service at his option. Any member of the fire department who shall become physically disabled by reason of any bodily injury received in the performance of his duty may be retired from service on satisfactory proof thereof. The retirement board, by unanimous vote, may retire from service any aged, disabled or infirm member of the fire department who has arrived at the age of sixty years and who has completed twenty years of continuous service as a member of the department next preceding such age, who may be ascertained to be, by reason of such age, infirmity or other disability, unfit for the performance of his duties. Such retired member shall receive a monthly pension, payable throughout his life, equal to one-half the amount of the salary attached to the rank held by him three years prior to the date of his retirement hereinafter referred to as “pension” in this and the following sections; provided that where such retirement is based on disability alone, in case the disability of such member shall cease, his pension shall cease, and he shall be restored to service in the rank he occupied at the time of his retirement. Should any said retired member die leaving a widow, who shall have been married to the decedent at least one year prior to the date of his retirement, such widow shall, as long as she may live and remain unmarried, be paid said pension; provided, further, that should said widow die leaving a child or children under the age of sixteen years, said pension shall continue to be paid such child or such children collectively until the youngest child arrives at the age of sixteen years; and provided, further, that should said retired member die leaving no widow but leaving an orphan child or children under the age of sixteen years, such child or children collectively shall receive said pension until the youngest child attains the age of sixteen years.
(b) The family of any member of the fire department who shall die as a result of any injury received during the performance of his duty, or from sickness clearly, unmistakably and directly caused by and resulting from the discharge of such duty, or while eligible for a pension on account of years of service in the department, or who has served twenty consecutive years in the department and attained the age of fifty-five years, shall receive the following benefits:

First, should the decedent leave a widow to whom he was married prior to the date of the injury resulting in death, his widow shall, as long as she may live and remain unmarried, be paid a monthly pension equal to one-half of the salary attached to the rank held by the decedent at the time of his said injury, provided, however, that should said widow die, leaving a child or children under the age of sixteen years, said pension shall continue to such child or children collectively until the youngest child arrives at the age of sixteen years.

Second, should the decedent leave no widow, but leave an orphan child or children under the age of sixteen years, such child or such children collectively shall receive said pension until the youngest child attains the age of sixteen years.

Third, should the decedent leave no widow and no orphan child or children, but leave a parent or parents dependent solely upon him for support, such parents so depending shall collectively receive said pension during such time as the retirement board may unanimously determine its necessity.

(c) When any member of the department shall die from natural causes and before retirement, and when no pension is payable to his widow or children, there shall be paid to his estate or beneficiary a death benefit, the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system.

Upon the death of a member after retirement and regardless of the cause of death, a death benefit shall be paid to his estate or designated beneficiary, the amount of which and the conditions for payment of which shall be determined in the manner prescribed by the board of supervisors for the payment of a similar death benefit upon the death of other retired members.

(d) In addition to the other contributions required of the city and county under the retirement system, the city and county shall contribute to the retirement system during each fiscal year a sum which shall be equal to the liabilities accruing under the retirement system because of service rendered during such year by persons becoming members on the 8th day of January, 1932, under this section. If, subsequent to such fiscal year, it shall be determined that such contribution by the city and county was not sufficient to meet such liability, then the city and county shall make such additional contribution as may be necessary to make up the deficit.

(e) No benefits shall be provided under the retirement system for, nor shall any contributions be required of, persons who become members of the retirement system under this section, in addition to the benefits specifically provided and contributions specifically required in such section. Any pension payable because of the death.
or retirement of any such persons shall be reduced in the manner fixed by the board of supervisors, by the amount of any benefits payable to or on account of such person, under the workmen's compensation insurance and safety law of the State of California.

(f) Persons who are members of the fire department on the 8th day of January, 1932, shall have the option, to be exercised in writing on or before the 1st day of July, 1932, of becoming members of the retirement system under the provisions of section 8.667, which applies to persons who become members of the department after the 8th day of January, 1932. If such persons shall affirmatively exercise such option within the time specified, then they shall not receive any benefit under this section, but shall become members of the retirement system and shall receive benefits and make contributions on the same basis as persons who become members of the department after the 8th day of January, 1932, provided that a pension for each person affirmatively exercising such option shall be payable on account of service rendered to the city and county prior to the 8th day of January, 1932, by contributions of the city and county, which pension shall be the same percentage, regardless of the age of retirement, of his final compensation, as defined by the board of supervisors, for each year of service, as the contributions of the member and the city and county are calculated to provide upon retirement at age fifty-five for each year of service rendered as a member of the retirement system.

8.666 Fire Department—Retired Members and Beneficiaries on January 8, 1932. (existing provisions)

Any member of the fire department who shall have been retired on or after January 21, 1925, or prior to January 1, 1900, and shall be receiving a pension on the 8th day of January, 1932, and any widow, child, children or parents of a deceased member of the department who shall be receiving a pension on the 8th day of January, 1932, shall continue to receive such pension subject to the provisions of section 8.665 governing the payment of pensions to retired members, widows, children and parents. Any member of the fire department who shall have been retired on or after the 1st day of January, 1900, and prior to the 21st day of January, 1925, and shall be receiving a pension on the 8th day of January, 1932, shall continue to receive such pension throughout his life, subject to the provisions of section 8.665 governing the payment of pensions granted because of disability incurred in the performance of duty, including the payment of such pension to widows, children and parents of deceased members who had been retired because of such disability. Such pensions shall be paid by the retirement system, but no other benefits shall be provided for such retired members, widows, children or parents; except that upon the death of any such member who is receiving a pension under this section and regardless of the cause of death, a death benefit shall be paid to his estate or designated beneficiary, the amount of which shall be determined in the manner prescribed by the board of supervisors.

8.667 Members of the Fire Department—January 8, 1932 to July 1, 1949. (existing provisions)

Persons who become members of the fire department after the 8th day of January, 1932 and prior to July 1, 1949, shall become
members of the retirement system subject only to the following provision in addition to the provisions contained in sections 3.620, 8.600-8.602, 8.610, 8.611, 8.620, 8.625 and 8.660 of this charter. No member of the retirement system shall be retired, except in case of disability incapacitating him for the performance of his duties, unless he shall have attained the age of fifty-five years and completed twenty years of continuous service, except that retirement shall be compulsory at the age of seventy years. It may be provided, however, under such retirement system, that members may retire after thirty years of continuous service; the benefits at retirement in such cases to be determined, because of retirement at an age below fifty-five, in accordance with the tables recommended by the actuary and approved by said retirement board.

8.668 Members of the Fire Department After July 1, 1949. (existing provisions)

Members of the fire department, as defined in section 8.669, who are members of the retirement system under sections 8.607, 8.609, or 8.667 of the charter on the first day of July, 1949, and persons who become members of said department after said date, shall be members of the retirement system under this section 8.668 on and after said date, and shall be subject to the following provisions of section 8.668 and sections 8.669, 8.670, 8.671, 8.672, 8.673, 8.675, 8.676, 8.677, 8.678, 8.679, 8.680, 8.681, 8.682 (which shall apply only to members under section 8.668 unless otherwise indicated) in addition to the provisions contained in sections 3.620, 8.600-8.604, 8.606, 8.610 and 8.620 of this charter notwithstanding the provisions of any other section of the charter. Members of the said department who are members of the retirement system under sections 8.607 or 8.609 of the charter, on July 1, 1950, however, shall have the option to be exercised in writing, on a form furnished by the retirement system and to be filed at the office of said system not later than ninety days after said date, of being members of the system under sections 8.607 or 8.609 instead of section 8.668, the election under said option to be effective on said date, provided, that members who are absent by reason of service in the armed forces of the United States or by reason of any other service included in section 8.620 of the charter, on July 1, 1949, shall have the same option of electing to be members under sections 8.607 or 8.609, as the case may be, instead of section 8.668 until ninety days after their return to service in the fire department. On and after said date the persons who affirmatively exercise said option, shall continue to be members of the system under section 8.607 or 8.609, respectively, and shall not be subject to any of the provisions of section 8.668.

8.669 Definitions. (existing provisions)

The following words and phrases as used in this section, unless a different meaning is plainly required by the context, shall have the following meaning:

"Retirement allowance," "death allowance" or "allowance," shall mean equal monthly payments, beginning to accrue upon the date of retirement, or upon the day following the date of death, as the case may be, and continuing for life unless a different term of payment is definitely provided by the context.
"Compensation," as distinguished from benefits under the Workmen's Compensation Insurance and Safety Act of the State of California, shall mean the remuneration payable in cash, by the city and county, without deduction except for absence from duty, for time during which the individual receiving such remuneration is a member of the fire department, but excluding remuneration paid for overtime.

"Compensation earnable" shall mean the compensation which would have been earned had the member received compensation without interruption throughout the period under consideration and at the rates of remuneration attached at that time to the ranks or positions held by him during such period, it being assumed that during any absence he was in the rank or position held by him at the beginning of the absence, and that prior to becoming a member of the fire department he was in the rank or position first held by him in such department.

"Benefit" shall include "allowance," "retirement allowance," "death allowance" and "death benefit."

"Final compensation" shall mean the monthly compensation earnable by a member at the time of his retirement, or death before retirement, as the case may be, at the rate of remuneration attached at that time to the rank or position which said member held, provided that said member has held said rank or position for at least one year immediately prior to said retirement or death; and provided, further, that if said member has not held said rank or position for at least one year immediately prior to said retirement or death, "final compensation," as to such member shall mean the monthly compensation earnable by such member in the rank or position next lower to the rank or position which he held at the time of retirement or death at the rate of remuneration attached at the time of said retirement or death to said next lower rank or position.

For the purpose of the retirement system and of this section, the terms "member of the fire department," "member of the department," or "member" shall mean any officer or employee of the fire department, excluding such officers and employees as are members of the retirement system under section 8.665 of the charter, who was or shall be subject to the charter provisions governing entrance requirements of members of the uniformed force of said department, and said terms further shall mean, from the effective date of their employment in said department, persons employed on July 1, 1949, regardless of age, or employed after said date at an age not greater than the maximum age then prescribed for entrance into employment in said uniformed force, to perform the duties now performed by members of the salvage corps in the fire department, or duties now performed under the titles of pilot of fireboats, marine engineer of fireboats, marine fireman of fireboats, or hydrant-gatem an. Any fire service performed by such member of the fire department outside the limits of the city and county and under orders of a superior officer of any such member, shall be considered as city and county service, and any disability or death incurred therein shall be covered under the provisions of the retirement system.

"Retirement system" or "system" shall mean San Francisco City and County Employees' Retirement System as created in section 8.600 of the charter.
"Retirement board" shall mean "retirement board" as created in Section 3.620 of the charter.

"Charter" shall mean the charter of the City and County of San Francisco.

Words used in the masculine gender shall include the feminine and neuter genders, and singular numbers shall include the plural and the plural the singular.

"Interest" shall mean interest at the rate adopted by the retirement board.

8.670 Service Retirement. (existing provisions)

Any member of the fire department who completes at least twenty-five years of service in the aggregate and attains the age of fifty (50) years, said service to be computed under section 8.678, may retire for service at his option. Members shall be retired on the first day of the month next following the attainment by them of the age of sixty-five years. A member retired after meeting the service and age requirements in the two sentences next preceding, shall receive a retirement allowance equal to fifty-five per cent of the final compensation of said member, as defined in section 8.669 plus an allowance at the rate of three per cent of said final compensation, for each year of service rendered after qualifying as to age and service for retirement; provided, however, that such retirement allowance shall not exceed seventy per cent of said member's final compensation. A member retired after attaining the age of sixty-five years, but before completing twenty-five years of service in the aggregate computed under section 8.678, shall receive a retirement allowance which bears the same ratio to fifty per cent of the final compensation of said member, as defined in section 8.669, as the service with which he is entitled to be credited, bears to twenty-five years. If, at the rate of retirement for service, or retirement for disability resulting from an injury received in performance of duty, said member has no wife, children or dependent parents, who would qualify for the continuance of the allowance after the death of said member, or with respect to the portion of the allowance which would not be continued regardless of dependents, or upon retirement for disability resulting from other causes, with respect to all of the allowance and regardless of dependents at retirement, a member retired under this section, or section 8.671, may elect before the first payment of the retirement allowance is made, to receive the actuarial equivalent of his allowance or the portion which would not be continued regardless of dependents, as the case may be, partly in a lesser allowance to be received by him throughout his life, and partly in other benefits payable after his death to another person or persons, provided that such election shall be subject to all the conditions prescribed by the board of supervisors to govern similar election by other members of the retirement system, including the character and amount of such other benefits.

8.671 Retirement for Incapacity. (existing provisions)

Any member of the fire department who becomes incapacitated for the performance of his duty by reason of any bodily injury received in, or illness caused by performance of his duty, shall be retired. If he is not qualified for service retirement, he shall receive a retirement allowance in an amount which shall be equal to the
same percentage of the final compensation of said member, as
defined in section 8.669, as his percentage of disability is deter-
mined to be. The percentage of disability shall be as determined
by the Workmen's Compensation Appeals Board of the State of
California upon referral from the retirement board for that pur-
pose; provided that the retirement board may, by five (5) affirma-
tive votes, adjust the percentage of disability as determined by
said Appeals Board; and provided, further, that such retirement
allowance shall be in an amount not less than fifty per cent nor more
than ninety per cent of the final compensation of said member, as
defined in section 8.669. Said allowance shall be paid to him until
the date upon which said member would have qualified for service
retirement had he lived and rendered service without interruption
in the rank held by him at retirement, and after said date the
allowance payable shall be equal to the retirement allowance said
member would have received if retired for service on said date
based on the final compensation, as defined in section 8.669, he would
have received immediately prior to said date, had he lived and ren-
dered service as assumed, but such allowance shall not be less than
fifty-five per cent of such final compensation.

If at the time of retirement because of disability, he is qualified
as to age and service for retirement under section 8.670 he shall
receive an allowance equal to the retirement allowance which he
would receive if retired under section 8.670, but not less than fifty-
five per cent of said final compensation. Any member of the fire
department who becomes incapacitated for performance of his duty,
by reason of a cause not included under the provisions of the imme-
diately preceding sentences, and who shall have completed at least
ten years of service in the aggregate, computed as provided in sec-
section 8.678, shall be retired upon an allowance of one and one-half
per cent of the final compensation of said member as defined in
section 8.669 for each year of service, provided that said allowance
shall not be less than thirty-three and one-third per cent of said
final compensation. The question of retiring a member under this
section may be brought before the retirement board on said board's
own motion, by recommendation of the fire commission, or by said
member or his guardian. If his disability shall cease, his retirement
allowance shall cease, and he shall be restored to the service in the
rank he occupied at the time of his retirement.

8.672 Death Allowance. (existing provisions)

If a member of the fire department shall die before or after retire-
ment by reason of an injury received in, or illness caused by the
performance of his duty, a death allowance, in lieu of any allowance
payable under any other section of the charter or by ordinance, on
account of death resulting from injury received in or illness caused
by the performance of duty, shall be paid, beginning on the date
next following the date of death, to his surviving wife throughout
her life or until her remarriage. If the member, at the time of
death, was qualified for service retirement, but had not retired, the
allowance payable shall be equal to the retirement allowance which
the member would have received if he had been retired for service
on the day of death, but such allowances shall not be less than
fifty-five per cent of the final compensation earnable by said member
immediately preceding death. If death occurs prior to qualification
for service retirement, the allowance payable shall be equal to the final compensation of said member at the date of death, until the date upon which said member would have qualified for service retirement, had he lived and rendered service without interruption in the rank held by him at death, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date, based on the final compensation he would have received immediately prior to said date, had he lived and rendered service as assumed, but such allowance shall not be less than fifty-five per cent of such monthly final compensation. If he had retired prior to death, for service or for disability resulting from injury received in, or illness caused by the performance of duty, the allowance payable shall be equal to the retirement allowance of the member, except that if he was a member under section 8.663 and retirement was for such disability, and if death occurred prior to qualification for the service retirement allowance, the allowance continued shall be reduced upon the date at which said member would have qualified for service retirement, in the same manner as it would have been reduced had the member not died. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. Should said member leave no surviving wife and no children under the age of eighteen years, but leave a parent or parents dependent upon him for support; the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving widow otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving wife following the death of a member unless she was married to the member prior to the date of the injury or onset of the illness which results in death.

8.673 Payment to Surviving Dependents. *(existing provisions)*

Upon the death of a member of the fire department resulting from any cause, other than an injury received in or illness caused by performance of duty, (a) if his death occurred after qualification for service retirement, under section 8.670, or after retirement for service or because of disability which resulted from any cause other than an injury received in, or illness caused by performance of duty, three-fourths of his retirement allowance to which the member would have been entitled if he had retired for service at the time of death or three-fourths of the retirement allowance as it was at his death, as the case may be, shall be continued throughout life or until remarriage, to his surviving wife, or (b) if his death occurred after retirement for disability by reason of injury received in or illness caused by performance of duty, his retirement allowance as it was at his death shall be continued throughout life or until remarriage, to his surviving wife, except that, if death occurred prior to qualification for service retirement allowance, the allowance continued shall be adjusted upon the date of which said
member would have qualified for service retirement, in the same manner as it would have been adjusted had the member not died. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. Should said member leave no surviving wife and no children under age of eighteen years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving wife otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving wife unless she was married to the member prior to the date of the injury or onset of the illness which results in death if he had not retired, or unless she was married to the member at least one year prior to his retirement.

As used in this section and section 8.672, "surviving wife" shall mean and include a surviving spouse, and shall also mean and include a spouse who has remarried since the death of the member but whose remarriage has been terminated by death, divorce or annulment within five years after the date of such remarriage and who has not thereafter again remarried.

The surviving wife, in the event of death of the member after qualification for but before service retirement, may elect before the first payment of the allowance, to receive the benefit provided in section 8.676, in lieu of the allowance which otherwise would be continued to her under this section. If there be no surviving wife, the guardian of the child or children under age eighteen, may make such election, and if there be no such children, the dependent parent or parents may make such election. Persons heretofore retired under charter section 8.667 as members of the fire department, at the time of retirement shall be subject to the provisions of this section. "Qualified for service retirement," "Qualification for service retirement" or "Qualified as to age and service for retirement," as used in this section and other sections to which persons who are members under section 8.668 are subject, shall mean completion of twenty-five years of service and attainment of age fifty, said service to be computed under section 8.678.

8.674 Adjustment of Allowances. (existing provisions)

Every allowance based on the average monthly compensation earnable by the member during the ten years prior to retirement, and payable for time commencing on February 1, 1957, to or on account of persons who were retired, as members under section 8.667, for disability resulting from bodily injury received in the performance of duty, shall be adjusted to the amount it would be, if it had been based on the monthly compensation fixed by the board of supervisors as of July 1, 1956, for the rank or position held by such retired member in the fire department prior to retirement. This section does not authorize any decrease in any allowance from the amount being paid as of February 1, 1957, nor does this section, give any retired member, or any beneficiary of such member, or his
successors in interest, any claim against the city and county for any increase in any allowance paid or payable for the time prior to February 1, 1957. Adjustment in reserves under allowances which are changed according to this section, shall be made on the basis of current interest rate and mortality tables.

The increase in the retirement allowance shall be apportioned according to service rendered by the member in the same manner that the allowance prior to increase was apportioned. Contributions to the retirement system, necessary for the payment of the increase of the portion of the retirement allowances which is paid from reserves held by the retirement system, shall be provided from the reserves held by the retirement system on account of members under section 8.668, the necessary amount being transferred upon February 1, 1957, from said reserves to the reserves held by the retirement system to meet the obligations on account of benefits that have been granted and on account of prior service of members. The contribution being required of the city and county currently, as a percentage of salaries of persons who are members under section 8.668, shall be increased to a percentage determined by the actuary as necessary to replace the reserves so transferred. Contributions to the retirement system necessary for the payment of said increases with reference to current and prior service portions of the allowances which are not paid from reserves held by the retirement system, shall be paid to the system by the city and county by annual appropriations, provided that such appropriation for any year shall not be less than the amount disbursed during that year on account of said increases.

8.675 Adjustment for Compensation Payments. (existing provisions)

That portion of any allowance payable because of the death or retirement of any member of the fire department which is provided by contributions of the city and county; shall be reduced in the manner fixed by the board of supervisors, by the amount of any benefits other than medical benefits, payable to or on account of such person, under the Workmen’s Compensation Insurance and Safety Law of the State of California and because of the injury or illness resulting in said death or retirement. Such portion which is paid because of death or retirement which resulted from injury received in or illness caused by performance of duty, shall be considered as in lieu of all benefits, other than medical benefits, payable to or on account of such person under said law of the State of California and shall be in satisfaction and discharge of the obligation of the city and county to pay such benefits.

8.676 Death Benefit. (existing provisions)

If a member of the fire department shall die, before retirement, from causes other than an injury received in or illness caused by the performance of duty, or regardless of cause, if no allowance shall be payable under section 8.672 or 8.673 preceding, a death benefit shall be paid to his estate or designated beneficiary, the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system. Upon the death of a member after retirement and regardless of the
cause of death, a death benefit shall be paid to his estate or design-
nated beneficiary the amount of which and the conditions for the
payment of which shall be determined in the manner prescribed by
the board of supervisors for the death benefit of other members
of the retirement system.

8.677 Refunds and Redeposits. (existing provisions)

Should any member of the fire department cease to be employed
as such a member, through any cause other than death or retire-
ment or transfer to another office or department, all of his con-
tributions, with interest credited thereon, shall be refunded to him
subject to the conditions prescribed by the board of supervisors to
govern similar terminations of employment of other members of
the retirement system. If he shall again become a member of the
department, he shall redeposit in the retirement fund, the amount
refunded to him. Contributions, with interest, which are credited
because of service rendered in any other office or department and
which will not be counted under section 8.678, to any person who
becomes a member of the retirement system under this section, shall
be refunded to him forthwith. Should a member of the fire depart-
ment become an employee of any other office or department, his
accumulated contribution account shall be adjusted by payments
to or from him as the case may be to make the accumulated contrib-
utions credited to him at the time of change, equal to the amount
which would have been credited to him if he had been employed
in said other office or department at the rate of compensation
received by him in the fire department and he shall receive credit
for service for which said contributions were made, according to the
charter section under which his membership in the retirement
system continues.

8.678 Computation of Service. (existing provisions)

The following time shall be included in the computation of the
service to be credited to a member of the fire department for the
purposes of determining whether such member qualified for retire-
ment, and calculating benefits, excluding, however, any time, the
contributions for which were withdrawn by said member upon ter-
mination of his service while he was a member under any other
charter section, and not redeposited upon re-entry into service:

(1) Time during and for which said member is entitled to receive
compensation because of services as a member of the fire or police
department.

(2) Time during which said member is entitled to receive com-
penstation while a member of the retirement system, because of serv-
ice rendered in other offices and departments prior to July 1, 1949,
provided that accumulated contributions on account of such service,
previously refunded, are redeposited, with interest from date of
refund to date of redeposit, at times and in the manner fixed by the
retirement board; and solely for purpose of determining qualifica-
tion for retirement under section 8.671 for disability not resulting
from injury received in, or illness caused by performance of duty,
time during which said member serves, after July 1, 1949, and re-
ceives compensation because of services rendered in other offices and
departments.

191
(3) Time during which said member is absent from a status included in paragraphs (1) or (2) next preceding, by reason of service in the armed forces of the United States of America, or by reason of any other service included in section 8.620 of the charter, during any war in which the United States was or shall be engaged or during other national emergency, and for which said member contributed or contributes to the retirement system or for which the city and county contributed or contributes on his account.

8.679 Sources of Funds. (existing provisions)

All payments provided for members under section 8.668 shall be made from funds derived from the following sources, plus interest earned on said funds:

(1) The normal rate of contribution of each member under this section shall be based on his age taken to the next lower complete quarter year, (a) at the earlier of the dates he became a member under section 8.607, 8.609 or 8.667, in the case of persons who are members under these sections, or (b) on his age at the date he becomes a member under section 8.668 in the case of persons who become members on or after July 1, 1949, without credit for service counted under section 8.678. The age of entrance into the fire department shall be determined by deducting the member's service credited under section 8.678 as rendered prior to the date upon which his age is based for determination of his rate of contribution according to the sentence next preceding, from said age. The normal rate of contribution of each such member, to be effective from the effective date of membership under section 8.668, shall be such as, on the average for such member, will provide, assuming service without interruption, under section 8.670, one-third of that portion of the service retirement allowance to which he would be entitled, without continuance to dependents, upon first qualifying as to age and service, for retirement under that section, which is based on service rendered after the date upon which his age is based for determination of his rate of contribution according to the first sentence in this paragraph, and assuming the contribution to be made from that date. The normal rate of contribution, however, shall not exceed six per cent.

(2) The dependent contributions of each member under this section which shall be required of each member throughout his membership in addition to the normal contributions, and in the same manner as normal contributions, shall be such as, on the average for such member, will provide, assuming service without interruption under section 8.670, and upon his first qualifying as to age and service for retirement under that section, one-third of the portion of his allowance, which is to be continued under section 8.673 after his death and throughout the life of a surviving wife whose age at said death is three years less than the age of said member. If, at the date of retirement for service or retirement for disability resulting from injury received in performance of duty, said member has no wife who would qualify for the continuance of the allowance to her after the death of said member, or upon retirement for disability resulting from other causes, regardless of his marital condition, the dependent contributions with accumulated interest thereon, shall be paid to him forthwith. The dependent rate of contribution, however,
shall not exceed the difference between six per cent and the member's normal rate of contribution, and said dependent rate may be taken as a flat percentage of the member's normal rate, regardless of the age of qualification for service retirement.

(3) There shall be deducted from each payment of compensation made to a member under this section, a sum determined by applying the member's rates of contribution to such compensation payment. The sum so deducted shall be paid forthwith to the retirement system. Said contribution shall be credited to the individual account of the member from whose salary it was deducted, and the total of said contributions, together with interest credited thereon in the same manner as is prescribed by the board of supervisors for crediting interest to contributions of other members of the retirement system, shall be applied to provide part of the retirement allowance granted to, or allowance granted on account of said member, or shall be paid to said member or his estate or beneficiary as provided in sections 8.676, 8.677 and 8.678.

(4) Contributions based on time included in paragraphs (1), (2) and (3) of section 8.678, and deducted prior to July 1, 1949, from compensation of persons who become members under section 8.668, and standing with interest thereon, to the credit of such members on the records of the retirement system on said date, shall continue to be credited to the individual accounts of said members and shall be combined with and administered in the same manner as the contributions deducted after said date.

(5) The total contributions, with interest thereon, made by or charged against the city and county and standing to its credit, in the accounts of the retirement system, on account of persons who become members under section 8.668, shall be applied to provide the benefits under said section.

(6) The city and county shall contribute to the retirement system such amounts as may be necessary, when added to the contributions referred to in the preceding paragraphs of this section 8.679, to provide the benefits payable under this section. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by each member prior to the date upon which his age is based for determination of his rate of contribution in paragraph (1) section 8.679, shall not be less during any fiscal year than the amount of such benefits paid during said year. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by respective members on and after the date stated in the next preceding sentence, shall be made in annual installments, and the installment to be paid in any year shall be determined by the application of a percentage to the total compensation paid during said year, to persons who are members under section 8.668, said percentage to be the ratio of the value on July 1, 1949, or at the later date of a periodical actuarial valuation and investigation into the experience under the system, of the benefits thereafter to be paid under this section, from contributions of the city and county, less the amount of such contributions, and plus accumulated interest thereon, then held by said systems to provide said benefits on account of service rendered by respective members after the date stated in the
sentence next preceding, to the value at said respective dates of salaries thereafter payable to said members. Said values shall be determined by the actuary, who shall take into account the interest which shall be earned on said contributions, the compensation experience of members, and the probabilities of separation by all causes, of members from service before retirement and of death after retirement. Said percentage shall be changed only on the basis of said periodical actuarial valuation and investigation into the experience under the system. Said actuarial valuation shall be made every even-numbered year and said investigation into the experience under the system shall be every odd-numbered year.

(7) To promote the stability of the retirement system through a joint participation in the result of variations in the experience under mortality, investment and other contingencies the contributions of both members and the city and county held by the system to provide the benefits under this section, shall be a part of the fund in which all other assets of said system are included. Nothing in this section shall affect the obligations of the city and county to pay to the retirement system any amounts which may or shall become due under the provisions of the charter prior to July 1, 1949, and which are represented on said effective date, in the accounts of said system by debits against the city and county.

8.680 Right to Retire. (existing provisions)

Upon the completion of the years of service set forth in section 8.670 as requisite to retirement, a member of the fire department shall be entitled to retire at any time thereafter in accordance with the provisions of said section 8.670, and nothing shall deprive said member of said right.

8.681 Limitation on Employment during Retirement. (existing provisions)

No person retired as a member under section 8.668 for service or disability and entitled to receive a retirement allowance under the retirement system shall serve in any elective or appointive position in the city and county service, including membership on boards and commissions, nor shall such person receive any payment for service rendered to the city and county after retirement, provided that service as an election officer or juror shall not be affected by this section.

Notwithstanding any provision in this charter to the contrary, should any such retired person engage in a gainful occupation prior to attaining the age of sixty, the retirement board shall reduce that part of his monthly retirement allowance which is provided by contributions of the city and county, to an amount which, when added to the amount earned monthly by him in such occupation, shall not exceed the amount of the compensation earnable at the time he engages in the gainful occupation, by the member if he then held the position which he held at the time of his retirement, or, if that position has been abolished, the compensation earnable by the member if he held the position from which he was retired, immediately prior to its abolition.
Chapter Seven. Vacations, Leaves of Absence, Transfers and Layoffs.

8.700 Annual Vacation of Employees. (existing provisions)

(a) Every person employed in the city and county service shall be allowed a vacation with pay annually, as long as he continues in his employment, as follows:

(1) After one year's continuous service, ten working days.
(2) After five years' continuous service, fifteen working days.
(3) After fifteen years' continuous service, twenty working days.

(b) Employees may elect not to take their entire vacation in any one year and in such event may accumulate the days allowable and not taken for use at some future time, provided, however, that no employee may accumulate unused vacation allowance in excess of thirty working days regardless of length of service.

(c) In computing vacation pay, no employee shall be considered to work more than five days each week. Vacation pay for employees working less than a five day week shall be computed proportionately.

(d) If a holiday occurs during such employee's vacation, and the employee would as a matter of law have been entitled to said day as a regular day off, such holiday shall not be considered a day of vacation chargeable to the employee's vacation allowance.

(e) The time when vacations are to be taken shall be at the convenience of the principal executive, with due regard for seniority.

(f) An employee with one year or more of service who ceases to be employed by the city and county and who has neither received nor waived his current annual vacation allowance shall receive a pro rata payment for all service performed since January 1 of the calendar year in which he ceases to be employed, together with an amount equivalent to any accumulated vacation allowances due him.

(g) The board of supervisors shall enact any and all ordinances necessary to administer, interpret and regulate the provisions of this section.

8.701 Vacation for Per Diem Workers. (existing provisions)

(a) Every employee of the City and County of San Francisco whose rate of compensation is fixed pursuant to the provisions of section 8.402 of this charter shall be entitled to receive an annual vacation at the time, with the pay and of the duration specified in section 8.700, and no section of the charter nor any provision of any collective bargaining agreement nor any street railway or bus wage schedule shall be construed in any manner or for any purpose to increase, reduce or otherwise affect the time or duration of, or pay for, vacations provided by section 8.700 nor shall any employee be deemed to have any vacation rights other than or in excess of the vacation rights specified in section 8.700.

(b) The vacation rights granted by section 8.700 or by this section, or contained in any collective bargaining agreements, or in any street railway or bus wage schedules, as any of said terms are referred to in section 8.402 of this charter, shall in no way increase, reduce or otherwise affect or be deemed to affect the wage or pay
rate or schedule determinations made pursuant to the provisions of said section 8.402:

8.702 Leaves of Absence. (existing provisions)

Leaves of absence to officers and employees of the city and county shall be governed by rules established by the civil service commission.

Leaves of absence shall be granted to officers and employees of the City and County of San Francisco and non-certificated officers and employees of the San Francisco Unified School District for service in the armed forces of the United States or the State of California or for service on ships operated by or for the United States government in time of war and for such time thereafter as may be provided by rule of the civil service commission, but not to exceed two (2) years after the proclamation of peace, except in case of disability incurred while in active service with the armed forces or the merchant marine when such disability shall extend beyond such period.

Whenever any officer or employee of the City and County of San Francisco, or any non-certificated officer or employee of the San Francisco Unified School District shall, by order of the government of the United States or by lawful order of any of its departments or officers, or by lawful order of the State of California, or any of its departments or officers, be directed in time of peace to report and serve in the armed forces of the United States, or in the armed forces of the State of California, said officer or employee shall be entitled to a leave of absence from his office or position during the time of such service and for a period not to exceed three (3) months after the expiration thereof. Officers and employees entering or being inducted into any of the services requiring military leave as provided in this section shall file with the civil service commission a copy of the orders necessitating such service prior to the effective date of the leave of absence. Leaves granted pursuant to the provisions of this and the preceding paragraph of this section shall be designated “military leaves.”

The board of supervisors may, on the recommendation of the civil service commission, provide by ordinance that leaves of absence shall be granted to officers and employees during time of war or during any emergency declared by the President of the United States, for other service directly connected with the prosecution of the war or national defense or preparedness. Leaves granted under authority of ordinances enacted pursuant to the provisions of this paragraph shall be designated “war effort leaves.”

In time of emergency declared by the President of the United States or by the Congress, or while any act authorizing compulsory military service or training is in effect, the board of supervisors, upon recommendation of the civil service commission, may provide by ordinance that subject to rules of the civil service commission, leaves of absence shall be granted to officers and employees of the City and County of San Francisco and non-certificated officers and employees of the San Francisco Unified School District, for sea duty as licensed officers aboard ships operated by or for the United States government.

Any officer or employee on military leave, who, prior to such
leave, has been appointed to a permanent position in the city and county service, shall be entitled to resume such position at the expiration of his leave, and in determining and fixing rights, seniority, salary and otherwise, which have accrued and shall inure to the benefit of such officer or employee, the term of military leave shall be considered and accounted a part of his service under the city and county.

Persons serving in the armed forces of the United States or the State of California during time of war or during any emergency lawfully declared by the President of the United States, who have standing on an eligible list, shall retain their places thereon, and upon presenting an honorable discharge or certificate of honorable active service from such military service within the period of time and subject to the conditions as prescribed by rules of the civil service commission, shall be preferred for appointment for a period of four (4) years after the proclamation of peace or the termination of said emergency in the order of standing upon such register at the time of entering such military service and before candidates procuring standing through an examination held subsequent to the entrance of such eligibles into the military service. If while in said military service the names of such persons are reached for certification to permanent positions, appointments shall be made to serve until such persons in the military service shall present to the civil service commission an honorable discharge or certificate of honorable active service within the period of time and subject to the conditions as prescribed by rules of the civil service commission, but not more than one (1) year after the date of discharge of each such eligible, when they shall be certified and assume the duties of positions in said class and their certification to said positions for all purposes of seniority shall be deemed to be the date when their names on such eligible lists were reached for certification, provided that each appointee to a position shall serve such probationary period as is required in section 8.309 of this charter, and provided that such employee while serving on such probation shall be permitted to participate in any promotive examination to which his classification is eligible but shall not be entitled to certification by virtue of such promotional examination prior to satisfactory completion of said probationary period and provided further that no such persons shall be certified to entrance positions in the uniformed ranks of the police and fire departments under this provision who are more than thirty-five (35) years of age unless the names of such persons were reached for certification to such positons before such persons reached said age.

Persons who participate in a regular written civil service examination and who by reason of their active services in the Army, Navy or Marine Corps are unable to complete all parts of the examination and who present their orders or other competent proof of service in the same manner as is required of eligibles, shall acquire standing on eligible lists in accordance with the relative excellence attained by participation in the part or parts of the examinations already completed; provided that upon presenting their honorable discharges or certificates of honorable active service within the time limits specified in this section covering eligibles, they must qualify in the remainder of the examinations. When qualified they shall be certified as of the date they would have been reached for certifica-
tion in accordance with the relative excellence attained by their participation in the entire examination.

The civil service commission shall adopt rules to govern the administration of leaves as herein provided and to govern lay-offs occasioned by the return of officers, employees, or eligibles who have been appointed and granted leave or certified as provided in this section.

All leaves of absence granted under Rule 31.2 of the civil service commission are hereby ratified and approved.

For the purpose of certifications, appointments, leaves or any other matters concerning the rights of persons who are serving or have served in the armed forces of the United States or the State of California, the provisions of this section shall be retroactive to September 16, 1940, and any persons heretofore granted military leaves for any purpose other than to enter the armed forces of the United States or the State of California shall be deemed to have been granted war effort leaves by the civil service commission in accordance with the provisions of this section.

The civil service commission by rule shall provide for leaves of absence, due to illness or disability, which leave or leaves may be cumulative, if not used as authorized, provided that the accumulated unused period of sick leave shall not exceed six (6) months, regardless of length of service, and provided further that violation or abuse of the provisions of said rule and ordinance by any officer or employee shall be deemed an act of insubordination and inattention to duties.

The board of supervisors shall approve, amend or reject all amendments to the rules governing leaves of absence as proposed by the civil service commission; provided, that before making any amendment thereto the board of supervisors shall request the civil service commission to review and report on said proposed amendment.

8.703 Reinstatement of and Leaves of Absence for Members of American Red Cross. (existing provisions)

(a) Whenever any officer or employee of the City and County of San Francisco, or any non-certified employee of the Unified School District thereof, after the 8th day of December, 1941, and during the existence of the present war between the United States of America and the Axis Powers, has resigned from or relinquished his or her position under the government of the city and county, or under said Unified School District thereof, and within a period of sixty days thereafter has entered the service of the American Red Cross, as a social service worker, field director or assistant field director therein, said officer or employee after the termination of his or her service with said American Red Cross, and within the time limits prescribed by law for persons on military leave, shall be entitled to resume his or her position from which he or she resigned or which he or she relinquished, upon presentation of proof that said person did within sixty days after resigning from, or relinquishing, his or her position with the city and county, or with the Unified School District thereof, enter the service of the American Red Cross as a social service worker, field director or assistant field director. Service with the American Red Cross as a social service worker, field director or assistant field director, during the existing war shall be deemed to be service with the city and county insofar as seniority
of service and compensation are concerned, and said person so serving with the said American Red Cross shall be deemed to be on military leave, and shall be entitled to all the rights and privileges accorded to other officers and employees of said city and county who have been granted military leave to serve in the armed forces of the United States, or of the State of California.

The rights and privileges herein granted to former officers and employees serving as social service workers, field directors or assistant field directors with the American Red Cross shall cease at the expiration of two years after the end of the present war between the United States of America and the Axis Powers, provided, however, that any person who severs his or her connection with the American Red Cross, and who fails to seek reinstatement to his or her position with the city and county, or with the Unified School District, within the time limits prescribed for persons on military leaves as defined in section 8.707 of the charter and rules of the civil service commission, shall not be entitled to reinstatement.

(b) From and after January 16, 1945, military leave as provided in section 8.707 of this charter for those serving in the armed forces of the United States or of the State of California shall be granted for service with the American Red Cross as social service worker, field director or assistant field director.

8.704 Transfer of Disabled. (existing provisions)

(a) When a permanent civil service employee other than a member of the fire department and police department who has served not less than three (3) years in his position, has become incapable through advanced age, accident or other disability, of performing the duties of his position, the civil service commission may, with the consent of the appointing officer or appointing officers involved, transfer him to a position within his capacities to perform, whether or not within the classification for which he qualified for appointment, but such position shall not be in a classification having a higher compensation schedule than the one from which he is transferred, and his compensation shall not thereafter be increased beyond the maximum salary for the classification to which such employee is transferred, nor in any event shall his salary be increased to equal the salary such employee would have received had he remained in his former position; provided, however, that a permanent employee, including any permanent member of the fire department and police department, who has become incapable of resuming his former position through disability incurred while on active service with the armed forces while on military leave may upon application after his discharge from military service be transferred under the provisions of this section, regardless of his length of service.

Employees transferred under the provisions of this section may, upon recovery from the disability, and with the consent of the civil service commissions, return to a vacancy in their former classification.

Positions filled under the provisions of this section shall not be subject to salary standardization, but the salaries thereafter shall be fixed by the civil service commission within the limitations
herein set forth, provided, however, that salaries of such employees who were transferred from or to positions the compensations for which are subject to section 8.402 hereof may be revised as of July 1st within the limitations herein set forth to reflect rates of pay adopted under the provisions of section 8.402 for the then ensuing fiscal year by appropriate amendment to the annual appropriation ordinance and annual salary ordinance but without reference or amendment to the annual budget. The civil service commission shall make rules to carry out the intent of this section and such rules shall govern all transfers made under the provisions of this section.

(b) Notwithstanding any of the provisions of sub-section (a) or any other provisions of this Charter, whenever any employee is transferred under the provisions of sub-section (a) and has held such position for ten (10) years, he shall be eligible to participate in any promotional examination in which his classification is designated as the next lower rank from which promotion will be made; provided that the disability of said employee is not of such nature as to interfere with the performance of the duties required in the promotive classification. The civil service commission shall make such determination after examination of the employee by a civil service examining physician.

The salary of an employee who is promoted as the result of participation in a promotional examination under the provisions of this sub-section shall be fixed in accordance with the salary standardization provisions of this charter.

8.705 Automation. (existing provisions)

When, because of technological advances, automation, or the installation of new equipment a surplus of employees is created and a permanent civil service employee who has completed his probationary period is to be laid off, the civil service commission may transfer such employee to a position within his capacities to perform, whether or not within the classification for which he qualified for appointment. The civil service commission may administer any examinations which the commission deems advisable to test the capacity of such employee, and shall be the judge of the ability of the employee to perform the duties in the position to which transfer is to be made. The position to which transfer is to be made shall not be in a classification having a higher compensation schedule than the one from which he is transferred, and compensation in the position to which transferred shall be governed by the provisions of the salary standardization ordinance and the salary ordinance. Employees transferred under the provisions of this section may, with the approval of the civil service commission and the appointing officer involved, be returned to a vacancy in his former classification. The civil service commission shall adopt rules to carry out the intent of this section, and such rules shall govern all transfers made under the provisions of this section.

8.706 Service in Non-Civil Service Positions. (new provisions)

Any person holding a permanent civil service position at the time of his appointment to a position which is authorized by the charter to be exempt from the civil service provisions shall, upon the termination of such appointment for reasons other than for cause, be
entitled to resume a position in the civil service classification in which he was serving at the time of such appointment. In determining seniority, salary, and other rights and benefits accruing to such person, the term of service in the non-civil service position shall be considered and accounted a part of his service under the civil service classification.

Chapter Eight. Discipline of Employees.

8.800 Suspension and Dismissal for Cause. (existing provisions)

No person employed under the civil service provisions of this charter, exclusive of members of the police and fire departments as provided under section 8.801, hereof, in a position defined by the commission as "permanent" shall be removed or discharged except for cause, upon written charges, and after an opportunity to be heard in his own defense. Pending such hearing, the appointing officer may suspend the person so accused; but such suspension shall not be valid for more than thirty days, unless hearing upon the charges shall be delayed beyond such time by the act of the accused person. When charges are made, the appointing officer shall, in writing, notify the person accused of the time and place when the charges will be heard, by mailing such statement to his last known address. The appointing officer shall publicly hear and determine the charges, and may exonerate, suspend or dismiss the accused. If the employee is exonerated the appointing officer may, at his discretion, remit the suspension and may order payment of salary to the employee for the time under suspension, and the report of such suspension shall thereupon be expunged from the record of service of such employee. The civil service commission shall immediately be notified of the charges when made, of the hearing, and of the finding thereon. The finding of the appointing officer shall be final, unless within thirty days thereafter from the dismissed employee appeals to the civil service commission. The appeal and all proceedings shall be in writing and shall briefly state the grounds therefor. The civil service commission shall examine into the case and may require the appointing officer to furnish a record of the hearing and may require in writing any additional evidence it deems material, and may, thereupon, make such decision as it deems just. The order or decision of the commission upon such appeal shall be final and shall forthwith be enforced by the appointing officer. If the civil service commission shall reverse or alter the finding of the appointing officer it may, in its discretion, order that the employee affected be paid salary from the time of his discharge or suspension.

The civil service commission may hear and determine any charge filed by a citizen or by the authorized agents of the commission when the appointing officer neglects or refuses to act. Removal or discharge may be made for any of the following causes: incompetence, habitual intemperance, immoral conduct, insubordination, discourteous treatment of the public, dishonesty, inattention to duties, or engaging in prohibited political activities.

Nothing in this section shall limit or restrict rules adopted by the commission governing lay-offs or reduction in force.

The appointing officer may, for disciplinary purposes, suspend a subordinate for a period not exceeding thirty days; and suspension
shall carry with it the loss of salary for the period of suspension. The suspended employee shall be notified in writing of the reason for such suspension, and if the suspension be for more than five days the employee shall, at his request, be given a hearing by the appointing officer. The decision of the appointing officer in all cases of suspension for disciplinary purposes shall be final.

8.801 Fire and Police Disciplinary Procedure. (existing provisions)

Members of the fire or the police department guilty of any offense or violation of the rules and regulations of their respective departments, shall be liable to be punished by reprimand, or by fine not exceeding one month's salary for any offense, or by suspension for not to exceed three months, or by dismissal, after trial and hearing by the commissioners of their respective departments; provided, however, that the chief of each respective department for disciplinary purposes may suspend a member for a period not to exceed ten days for violation of the rules and regulations of his department. Any member so suspended shall have the right to appeal such suspension to the fire commission or to the police commission, as the case may be, and have a trial and hearing on such suspension. Written notice of appeal must be filed within 10 days after such suspension and the hearing of said appeal must be held within 30 days after the filing of said notice of appeal. If the commission shall reverse or alter the finding of the chief, it shall in the case of a reversal and in other cases it may in its discretion, order that the member affected be paid salary for the time of his suspension. In the event the chief should exercise such power of suspension, the member involved shall not be subject to any further disciplinary action for the same offense.

Subject to the foregoing members of either department shall not be subject to dismissal, nor to punishment for any breach of duty or misconduct, except for cause, nor until after a fair and impartial trial before the commissioners of their respective departments, upon a verified complaint filed with such commission setting forth specifically the acts complained of, and after such reasonable notice to them as to time and place of hearings as such commission may, by rule, prescribe. The accused shall be entitled, upon hearing, to appear personally and by counsel; to have a public trial; and to secure and enforce, free of expense, the attendance of all witnesses necessary for his defense.

8.802 Prohibition of Political Activity. (existing provisions)

Active participation in city and county politics, relative to the election or appointment of public officials, by civil service employees and eligibles of the city and county, is subversive of the best interests of the merit system and, therefore, persons holding positions in the classified civil service or on eligible lists for such positions shall take no active part in such political campaigns, or in soliciting votes, or in levying, contributing or soliciting funds or support, in each case for the purpose of favoring or hindering the appointment or election of candidates for city and county offices. Violation of the provisions of this section shall be deemed an act of insubordination and considered good cause for suspension or dismissal from position or removal from eligible list.
Chapter Nine. Miscellaneous Provisions for Police, Fire and Utilities Employees.

Part One. Police.

8.900 Inspectors. (existing provisions as they would continue to appear if the amendments proposed in Proposition D are not approved)

This section shall become operative and become part of this charter only in the event Proposition D on the November 4, 1969, ballot is not approved by a majority vote of the electorate of the City and County of San Francisco.

The chief of police may appoint members of the department holding ranks of police officer and sergeant to the rank of assistant inspector for performance of duty in the bureau of inspectors, the juvenile bureau, the accident investigation bureau, the bureau of special services, and the intelligence unit. Assistant inspectors shall serve at the pleasure of the chief of police during their first year of service as assistant inspectors, and thereafter may only be removed and returned to their civil service rank in the manner provided herein for inspectors. An appointment as inspector or as assistant inspector shall not be subject to competitive examination. In case of vacancy in said rank of inspector in the bureau of inspectors, the appointment shall be made by the chief of police from among those holding the rank of assistant inspector who have actually served with the bureau of inspectors for at least two years prior to such appointment. The chief of police may appoint inspectors in the juvenile bureau, the accident investigation bureau, the bureau of special services, and the intelligence unit; such appointments shall be made from among those holding the rank of assistant inspector who have actually served in the bureau or unit in which the appointment is made for at least two (2) years prior to such appointment. The number of inspectors at any one time in the juvenile bureau, the accident investigation bureau, the bureau of special services, and the intelligence unit shall not be greater than a total of twenty-five (25) inspectors.

The chief of police may detail from time to time members of the department for performance of duty, without change in rank, in the bureau of inspectors, the juvenile bureau, the accident investigation bureau, the bureau of special services and the intelligence unit.

Inspectors and assistant inspectors shall have the same rights as other members of the department to take competitive examinations from their respective civil service ranks. An inspector or assistant inspector guilty of any offense or violation of the rules and regulations of the police department shall be subject to punishment as provided in section 8.801 of this charter; provided, however, that in addition to the punishments set for in section 8.801 an inspector may be demoted to his civil service rank for any offense or violation set forth in said section and after trial and hearing before the police commission as set forth therein. The chief of police, in addition to the inspectors above provided for, shall detail any member of the department to serve as inspector of school traffic patrols who shall have rank and pay of inspector, subject to the provisions of this section.
8.900 **Inspectors.** (provisions as they would appear in the present charter and be carried over into the revised charter if the amendments proposed in Proposition D are approved)

This section shall become operative and become a part of this charter only in the event Proposition D on the November 4, 1969, ballot is approved by a majority vote of the electorate of the City and County of San Francisco.

Assignments of police officers and sergeants to the positions of assistant inspectors and inspectors in the police department shall be from among those members of the department who have qualified in the following manner:

Members of the police department in the rank of police officer who have been in such rank for a period of not less than three years, or in the rank of sergeant, shall be eligible to participate in a written examination which shall be administered by the civil service commission. Such written examination shall pertain to matters concerning the duties of the classifications of assistant inspector and inspector. The civil service commission, by rule, shall provide for the inspection by participants in the examination of their examination papers against the official rating key. In addition to the written examination, participants shall be examined orally by a board composed of two supervisory officers in the police department selected by the chief of police and one member of the police commission, selected by the president of the police commission. Rating of the examination shall be a composite of the grade attained in the written examination and the oral examination, with the written examination being given a weight of 60% and the oral examination being given a weight of 40%. The number of qualified candidates shall not be less than the number of current or anticipated vacancies for a two year period plus twenty-five per cent. The list of qualified candidates shall automatically expire two years from the date of adoption of such list. The civil service commission shall certify to the chief of police the list of qualified candidates, said list to rank the candidates according to the composite grade attained in the examination.

The chief of police shall select from the certified list of qualified candidates, according to the grade achieved in the examination, the officers of the department to be assigned as assistant inspectors. Such initial assignments shall be without change in classification or pay of the officers assigned.

No defect in any declaration, nomination paper or certificate presented to the registrar shall prevent the filing of another declaration, nomination paper or certificate within the period allowed for presenting the declaration, nomination paper or certificate. The name of every candidate who has been duly and regularly nominated shall be placed on the ballot under the title of the office for which he is a candidate, provided that a candidate whose nomination has been completed, may, not less than forty days before a municipal election, withdraw as a candidate by filing with the
registrar his withdrawal, naming the office; such withdrawal must be signed and sworn to by the person withdrawing.

No incumbent shall have any further preference in the location of his name on said ballot unless the same is permitted by this section.

When voting machines are used one inspector and two judges shall be appointed. The general law as to the appointment of election officers shall apply when not otherwise provided herein. The registrar is authorized to withhold the pay of any election officer who neglects, disregards or violates the election laws.

9.107 Results of Election—Failure to Qualify. (existing provisions)

Such ordinance, act, charter amendment or other measure may be so proposed by filing with the registrar a petition setting forth said measure in full, signed by registered voters of the city and county as many in number as the percentages hereinafter required of the entire vote for all candidates for the office of mayor cast at the last preceding regular municipal election.

Any declaration of policy may be submitted to the electors in the manner provided for the submission of ordinances; and when approved by a majority of the qualified electors voting on said declaration, it shall thereupon be the duty of the board of supervisors to enact an ordinance or ordinances to carry such policies or principles into effect, subject to the referendum provisions of this charter.

Any ordinance which the supervisors are empowered to pass may be submitted to the electors by a majority of the board at a general election or at a special election called for the purpose, said election to be held not less than thirty days from the date of the call. Any such ordinance may be proposed by one-third of the supervisors or by the mayor, and when so proposed shall be submitted to the electors at the next succeeding general election. No ordinance passed by the supervisors granting any public utility franchise or privilege, shall go into effect until the expiration of sixty days from the date it becomes final. At the end of such sixty days such ordi-
inance shall be in force and effect, unless within such period there shall be filed with the registrar a petition signed by registered voters equal in number to five per cent of the entire vote cast for mayor at the last preceding regular municipal election, requesting that such ordinance be submitted to the electors. In case such petition is filed, such ordinance shall not go into effect until approved by a majority of the voters voting thereon at a general or special election.

If before the time any other ordinance involving legislative matters becomes effective, there shall be filed with the board of supervisors a petition signed by qualified electors of the city and county equal in number to at least ten per centum of the entire vote cast for all candidates for mayor at the last preceding general municipal election at which a mayor was elected, protesting against the passage of such ordinance the same shall be suspended from going into operation, and it shall be the duty of the board of supervisors to reconsider such ordinance, and if the same be not entirely repealed, said board shall submit the ordinance to the vote of said electors either at the next general municipal election or at a special election to be called for that purpose, and such ordinance shall not go into effect or become operative unless and until a majority of the qualified electors voting thereon shall vote in favor thereof. The provisions of sections 9.109 and 9.110 of the charter shall apply to and govern the verification and certification of such petition.

The procedure to effect such recall shall be as follows: A petition demanding the recall from office of the person sought to be recalled shall be filed with the registrar. Said petition shall contain a statement of the grounds on which the recall is sought. Any insufficiency of form or substance in such statement shall in no wise affect the validity of the election and proceedings held thereunder. No recall petition shall be filed against any officer until he has held his office for at least six months.

9.109 Petitions. (existing conditions)

The filing, verification and certification of initiative, referendum and recall petitions shall be in accordance with general law, and rules and regulations of the registrar of voters relative to details not covered by general law, except as otherwise provided by this charter. Any signer to a petition may withdraw his name from the same by filing with the registrar of voters a verified revocation of his signature before the filing of the petition. No signature can be revoked after the petition has been filed. Unless and until it be

224
proven otherwise by official investigation by the registrar, it shall be presumed that the petition filed conforms to all legal requirements and contains the signatures of the requisite number of registered voters, and after an election based thereon, the sufficiency of such petition shall not be questioned.

If any signature be questioned, the registrar shall mail notice to such purported signer, stating that his or her name is attached to such petition and citing him or her to appear before said registrar forthwith, naming the time and place. Said citation shall enclose a blank affidavit, which may be used to deny that the affiant signed such petition. If such person does not desire to attend in person, he may swear to such affidavit of denial before any officer authorized to take oaths, and mail the same to the registrar. If he does not so attend and deny such signature in person or by making and mailing such affidavit of denial before the time when the registrar must, under general law, make final determination, the signature to such petition must be treated as genuine. The registrar shall keep a list of the names of all purported signers who appear before him and deny their signature under oath, and also file and keep such affidavits for at least one year.

9.110 Special Election Fund. (existing provisions)

The board of supervisors shall maintain a fund of not less than fifty thousand dollars to be know as the special election fund, to be used exclusively for defraying the costs of verifying petitions and other expenses of all special elections initiated by petitions of the electorate, including recall elections. In the event of the expenditure of any of said fund, the board of supervisors in the next succeeding annual budget shall appropriate a sum sufficient to reimburse said special election fund.

9.111 Time of Election. (existence provisions)

If the petition accompanying a proposed initiative measure, declaration of policy, or recall be signed by registered voters equal in number to ten per cent of the entire vote cast for mayor at the last preceding general municipal election and contains a request that said measure, policy or recall be submitted forthwith to a vote of the electorate at a special election, then the registrar shall forthwith call a special election, which shall be held at a date not less than thirty nor more than forty days from the date of calling the same, at which said measure or policy, without alteration, or said recall shall be submitted to a vote of the electorate, unless within sixty days of a general or primary election, in which event it shall be submitted at such general or primary election.

If the petition accompanying a proposed initiative measure or declaration of policy be signed by registered voters equal in number to five per cent but less than ten per cent of the said entire vote, then such measure or measures, without alteration, shall be submitted by the registrar to a vote of the electorate at the next general state or municipal election that shall occur at any time after thirty days from the date of the certificate of sufficiency attached to the petition accompanying such measure unless the board of supervisors, by ordinance, direct that the measure or policy be voted on at a special election prior thereto.
9.112 Material on Measures Mailed to Voters. (existing provisions)

Whenever any measure is required by this charter to be submitted to the voters of the city and county at any election, the registrar shall cause the measure or policy to be printed on sheets measuring approximately six by nine inches, and shall mail the same with a sample ballot to each voter, at least five days prior to the election. This printed copy may be attached to any other matter required to be printed and mailed.

With or upon the sample ballot mailed to each voter prior to a recall election, there shall be transmitted the reasons for demanding the recall of the officer as set forth in the recall petition, printed in not more than three hundred words, and with or upon the same ballot the printed statement of the officer in not more than three hundred words justifying his course in office.

If the proposition be submitted to the registered voters upon an initiative, referendum or recall petition, the persons filing said petition shall have the right, upon deposit of an amount sufficient to defray the cost of printing as estimated by the registrar, to present to the registrar at any time not later than thirty-five days prior to said election, written arguments favoring their petition, and the registrar shall not accept arguments favoring said petition without the approval of those filing said petition; provided that, as to any proposition to be submitted to the voters at a special election in accordance with section 9.111 hereof, to be held within thirty-five days of the date of calling such election, such arguments may be presented to the registrar at any time twenty-five days prior to said election. If said proposition be submitted by the mayor or by the board of supervisors, or by one-third of the board of supervisors, they shall have a similar right, but without the making of such deposit, to present arguments. The board of supervisors may also in its discretion, by motion, grant to any proponents of propositions submitted by the board a similar right, which may be exercised, subject to the approval of such arguments by motion of the board and upon the making of such deposit. Any persons, committee or organization opposing the measure, policy, charter amendment, or recall placed before the voters may present, upon making a deposit as aforementioned, and in like manner and within the same time, written arguments opposing said proposition.

Said arguments shall not contain more than 1800 words, nor exceed four pages in length when printed. They shall be signed by the persons or the presiding or executive officials of the committee or organization presenting them. The registrar shall cause said arguments to be printed in a pamphlet approximately six by nine inches in size in one color of ink and in uniform style. They shall be arranged in numerical or alphabetical order according to the number or letter of the proposition to which they refer, and the affirmative in each case shall precede the negative. The registrar shall charge a uniform fee per page sufficient to cover the cost of printing said pamphlet, returning to depositors any excess of deposits. He shall mail one copy with the sample ballot to each voter.

Immediately after introduction in the board of supervisors, or filing with the clerk thereof, of any measure to be submitted to the voters, or of the filing of a petition of the voters for submission of
any proposed amendment of the charter, in accordance with the provisions of Article XI, Section 8, of the Constitution of California, the clerk of the board shall deliver a copy of such proposition to the controller. The controller shall thereupon determine whether, in his opinion, such proposition, if adopted, will increase the cost of government of the city and county or in any way affect its tax rate. The controller shall make a written statement thereon to the board of supervisors, analyzing such proposition as to its cost and effect upon the tax rate. Such statement shall be in form appropriate for mailing to the voters with a sample ballot. Upon vote of submission of any such proposition, which, in the opinion of the controller, will in any way affect the cost of government or the tax rate and as to all propositions to create a bonded debt, the controller shall transmit a copy of such statement in relation thereto to the registrar of voters, who shall mail one copy thereof to each voter with the sample ballot. In the pamphlet of arguments, the position of the statement of the controller shall in each instance be next in order after the negative argument.

9.113 Form of Ballot—Majority Vote. (existing provisions)

The ballots used when voting upon any proposed measure, referendum, policy, recall or confirmation shall contain a general statement thereof, followed by the words “Yes” and “No,” so arranged that the voter may indicate his choice upon the ballot. If a majority of the qualified electors voting on said proposed measure, referendum, policy, recall or confirmation shall vote in favor thereof, it shall go into effect ten days after the declaration of the official count. The general statement or question provided for in this section shall be prepared by the city attorney and shall consist of not over thirty words.

If the official proposed to be removed at any recall election shall, as the result of said election, be recalled, the mayor shall appoint his successor for the unexpired term and the officer so recalled shall be ineligible to hold any city and county office for two years; should said officer be retained in his office, he shall be reimbursed out of the special election fund for his expenses in such recall election; provided that such payment shall not exceed the amount he is permitted to spend under the Purity of Elections Act now in force.

9.114 Competing and Conflicting Measures—Repeal. (existing provisions)

When two or more proposed measures are of the same general purpose, the registrar shall so declare, and shall cause the ballots to be so printed that the voter, first, may choose between any measure or none, and, secondly, may express his preference for any one. If a majority of the votes on the first question is affirmative, then the measure receiving the highest number of votes shall become law and the others fall of passage. In case two or more measures are tied for the highest vote, they shall be resubmitted at the next ensuing general election. If there is a conflict between two or more measures or between two or more charter amendments adopted at the same election, then the measure or charter amendment receiving the highest affirmative vote shall prevail.

No initiative, ordinance or measure or declaration of policy approved by the electorate under the provision of this charter
shall be subject to veto, or be amended or repealed except by vote of the electorate, unless such ordinance or measure shall otherwise provide.

9.115 Substantial Compliance. (existing provisions)

No informalities in conducting municipal, special, initiative, referendum or recall elections shall invalidate such elections if they have been conducted fairly and in substantial compliance with and conformity to the requirements of this charter.

If any section, subsection, or subdivision, sentence, clause or phrase of this charter is for any reason held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portion or portions of this charter. The people of the City and County of San Francisco hereby declare that they would have ratified and adopted, and the Legislature hereby declares that it would have approved, this charter, and each section, subsection or subdivision, sentence, clause and phrase hereof as the charter of the City and County of San Francisco, irrespective of the fact that any one or more other sections, subsections or subdivisions, sentences, clauses or phrases be declared unconstitutional.

ARTICLE XI.

TRANSITION PROVISIONS.

11.100 Effect of Charter on Existing Law. (new provisions)

(a) To the extent the provisions of this charter are the same in terms or in effect as provisions of law in force when this charter takes effect, they shall be construed and applied as a continuation of those provisions of law.

(b) All provisions of law relating to or affecting the city and county, in force when this charter takes effect, are hereby repealed
and superseded to the extent they are inconsistent with the provisions of this charter and no further.

11.101 Protection of Incumbents. *(new provisions)*

(a) Enactment of this charter and the changes in and transfers of functions and duties which occur at the time this charter takes effect shall not affect or impair the rights, benefits, or privileges of officers or employees of the city and county relating to appointment, rank, grade, compensation, tenure of office, seniority, promotion, discipline, removal, pensions, retirement, or other benefits, except as provided in this section.

(b) Whenever a position previously within the classified municipal civil service is, pursuant to this charter, designated exempt from the civil service provisions of this charter, that designation shall take effect only after the incumbent of the position at the time this charter takes effect no longer holds the position.

(c) The incumbent in the office of controller on September 2, 1969, if still in office at the time this charter takes effect, shall be appointed to the office of controller, with the functions, powers, and duties described in, and subject to the provisions of, this charter.

(d) The incumbent in the office of chief administrative officer on September 2, 1969, if still in office at the time this charter takes effect, is hereby appointed to the office of chief administrative officer, with the functions, powers, and duties described in, and subject to the provisions of, this charter. Provisions for the removal of the chief administrative officer in effect immediately prior to the adoption of this charter shall continue to apply, and the provisions for removal contained in this charter shall not apply, so long as the incumbent in the office on September 2, 1969, continues to hold office, or until the incumbent reaches the retirement age provided in section 8.609.

(e) If because of adoption of this charter, all or substantially all of the duties of any position exempt from the civil service provisions of this charter are transferred to another office, agency, or department, that position shall be transferred to that office, agency, or department and the person holding the position on the effective date of this charter shall continue to hold the position and perform the duties in that other office, agency, or department subject to the provisions of this charter.

(f) If the transfer of functions, powers, or duties to offices, agencies, and departments by this charter results in the modification or discontinuance of the duties of any position exempt from the civil service provisions of this charter, the person holding that position on the effective date of this charter shall be appointed to that position the duties of which, in the judgment of the mayor, are most nearly comparable to the duties previously being performed, and shall hold that position and perform the functions and duties of the position subject to the provisions of this charter.

(g) If because of adoption of this charter all or substantially all of the duties of any civil service position are transferred to another office, agency, or department, that position shall be transferred to that office, agency, or department and the person holding the posi-
tion of the effective date of this charter shall continue to hold the position and perform the duties in that other office, agency, or department subject to all the rights and privileges provided by the civil service provisions of this charter.

(h) If the transfer of functions, powers, or duties to offices, agencies, and departments by this charter results in the modification or discontinuance of the duties of any civil service position, the person holding that position on the effective date of this charter shall be transferred to and appointed to, and shall be deemed qualified for, a new or reclassified position the duties of which are most nearly comparable to the duties previously being performed, without examination or further compliance with any civil service regulations governing transfers or appointments and without reduction of salary or loss of pay.

11.102 Transfer of Records and Property. (new provisions)

All property, records, and equipment related to the exercise of those functions, powers, and duties which are reassigned by the provisions of this charter shall be transferred to the office, agency, or department to which the assignment is made.

11.103 Continuity of Actions and Proceedings. (new provisions)

All rights, claims, actions, orders, obligations, proceedings, and contracts existing on the effective date of this charter shall not be affected by the adoption of this charter, except that where functions, powers, and duties have been reassigned, the office, agency, or department to which the assignment is made shall have charge of the matter.

11.104 Title and Jurisdiction of Agencies. (new provisions)

Unless and until modified by ordinance or reorganization plan, there shall be agencies having primary responsibility for and jurisdiction over all functions now or to be performed by the city and county, as follows:

(a) The Environmental Resources Agency shall have primary responsibility for provision of water and power, and for protection, control, and improvement of the quality of the natural environment.

(5) The Transportation Agency:

(b) The departments, offices, and commissions transferred to agencies pursuant to subsection (a) shall function as operating units within the agency to which they are assigned and shall, subject to the provisions of this charter, continue to perform the functions and duties assigned to them at the time this charter takes effect.

(c) Prior to the effective date of this charter, the mayor shall submit to the board of supervisors, pursuant to the provisions of this charter, a reorganization plan providing for the transfer of functions, property, and personnel under the jurisdiction of the Public Utilities Commission which are not transferred pursuant to subsection (a). this charter takes effect except as modified to conform to the provisions of this charter.

(b) All members of boards and commissions serving on the effective date of this charter, except the ex officio members of the Planning Commission and the members of the Public Utilities Commission, shall continue to hold their respective offices subject to the provisions of this charter. The Planning Commission shall continue to have seven members.

(c) The Public Utilities Commission is abolished. The members of the Public Utilities Commission at the time its existence terminates may choose to serve on the board of the Transportation Agency or the board of the Environmental Resources Agency, and the ordinance or reorganization plan establishing such boards shall provide a procedure for exercising their choice.

**TABLE OF DISPOSITIONS**

The following table shows what happens to existing charter sections by enactment of the revised charter.

The first number to appear refers to the number of existing charter sections. The material to the right of the colon (:) indicates what happens to that existing charter section.

If the provisions in the existing charter section are carried over into the revised charter, the number of the new section is shown. For example: "4: 8.107" means that the provisions in section 4 of the existing charter appear in section 8.107 of the revised charter.

The word "deleted" after the present section number indicates that the provisions of the section are not carried over into the revised charter. But if there are sections numbers in parentheses after the word "deleted," it means that provisions in those revised charter sections cover the same general subject matter covered by the provisions being deleted. For example: "1: deleted (1.100)" means that the provisions in section 1 of the existing charter are not carried over into the revised charter but that section 1.100 in the revised charter covers the same general subject matter.

In a few cases some provisions in an existing section are carried over into a new section and others are deleted but new sections cover the same general subject matter. For example: "10: part in 2.100; part deleted (2.202, 2.203, 2.205, 2.206 and 2.403)". This means that some provisions in section 10 are carried over into section 2.100; some are deleted but their subject matter is now covered in sections 2.200, 2.203, 2.205, 2.206 and 2.403. (This table does not include sections that would be added to the existing charter by approval of other Propositions on this November's ballot.)
