iVIVA! Comes Alive

In September and October we celebrate iVIVA! Latino Hispanic Heritage Month. In Spanish, “iVIVA” translates as “to live”—and you are invited to our virtual fiesta with a kaleidoscope of programs for youth, families and adults: craft programs, a family cooking class, artist and author talks, Queer Latinx History, Latinx kid lit panels and a concert.

With school back in session, the SF Early Literacy Network will share critical student success and family support resources to ease into this school year. Kid and adult booklovers alike will not want to miss a conversation between Oakland Public Library and SFPL discussing their top picks for past and upcoming Latinx kidlit titles and the impact of the Pura Belpré Book Award. Two weeks later, Latinx authors Aida Salazar, Rebecca Balcárcel and Reina Luz Alegre, upcoming Latinx kidlit titles and the impact of the Pura Belpré Book Award. Cultural programs abound with a special amate paper craft program offered in partnership with The Mexican Museum, family cooking class presented in Spanish and a special family concert by Latin Grammy winners The Lucky Band. Weekly storytimes in Spanish offer an early literacy foundation for caregivers of children up to 5 years old.

Adults can look forward to a celebration of culture, art and authors. In anticipation of SFMOMA’s Diego Rivera’s History, Latinx kid lit panels and a concert.

Library Hosts Community Learning Hubs

In late July, Mayor London N. Breed announced that San Francisco would transform facilities around the city into supervised Community Learning Hubs to support distance learning for San Francisco Unified School District students starting this fall. The Department of Children, Youth and Their Families is spearheading this effort to launch the Hubs on Sept. 14 at more than 40 sites across the city including select branch libraries: Anza, Bayview, Bernal Heights, Chinatown, Glen Park, Ingleside, Noe Valley, North Beach, Outer, Potrero, Potrero, Richmond, Sunset, Visitacion Valley and Western Addition. Other sites include recreation centers, cultural centers and several community-based organizations. The Hubs will provide support to students while prioritizing children and youth from the highest need, including low-income and high need youth. San Francisco Public Library is ready to support families during this challenging time.

“Libraries are sanctuaries of learning, and we look forward to welcoming students and doing our part to ensure a successful academic year,” stated City Librarian Michael Lambert. “Libraries are sanctuaries of learning, and we look forward to welcoming students through our doors and doing our part to ensure a successful academic year.”

Chanel Miller’s Know My Name: A Memoir Named 2021 One City One Book Selection

San Francisco is rolling out the red carpet for Bay Area native Chanel Miller. In addition to an exhibition of original artworks at the Asian Art Museum, San Francisco Public Library has selected her book, Know My Name: A Memoir (Penguin Random House), as next year’s One City One Book title. A citywide literary event, One City One Book: San Francisco Reads encourages members of the San Francisco community to read the same book at the same time and then discuss it in a variety of public programs.

Next year’s program coincides with the Library’s annual Asian Pacific Islander American Heritage Celebration and Sexual Assault Awareness Month—a cause championed by Miller.

Universally acclaimed, rapturously reviewed and an instant New York Times bestseller, Chanel Miller’s breathtaking memoir “gives readers the privilege of knowing her not just as Emily Doe, but as Chanel Miller the writer, the artist, the survivor, the fighter” (The Wrap). Her story of trauma and transcendence illuminates a culture biased to protect perpetrators, indicting a criminal justice system designed to fail the most vulnerable, and, ultimately, shines with the courage required to move through suffering and live a full and beautiful life.

Know My Name will forever transform the way we think about sexual assault, challenging our beliefs about what is acceptable and speaking truth to the tumultuous reality of healing.

Teens Create Educational Videos, Bridge Technology Gap

This summer, 29 teens collaborated on content creation for STEM tutorials and tech tools. The YELL internship program culminated with two Community Impact Projects.

STEM Challenge – Two-thirds of the YELL members were on Team STEM Challenge and were charged with brainstorming, developing, creating, executing and evaluating a group of video tutorials for elementary and middle school students. Using easily accessible materials, the videos included such lessons as how to make ice cream in a bag, a pencil catapult launcher and a bee hummer and straw oboe. The teens filled a variety of roles like editor, graphic designer, script writer, talent and host. See final films at sfpl.org/stemchallenge.

Tech For Elders (T4E) – The remaining third of YELL members assisted seniors living in Sequoia Living Affordable housing. Over the phone, youth assessed both prior knowledge and current barriers and goals for technology use, and offered friendly, patient tutoring tailored to the interests of the senior. It became apparent that being able to meet via video call was a prerequisite for being able to demonstrate any other task, so the cohort developed print and online tutorials for a variety of operating systems to instruct on how to register for and use a Zoom video-conferencing account. The materials developed by YELL have already been put to use in other library tech-help programs, and will continue to be a great resource as the demand for accessing the Library’s eResources continues to grow.

For the fourth year, YELL teens have shown the resilience, determination and integrity of our teen community. They have contributed over 800 hours of time creating community, doing a deep dive into professional skills, learning about library resources and offering event and program suggestions to carry us through 2020 and onward.
