Celebration: Black Excellence

Sunday, February, 13, 2:30 p.m.,
Koret Auditorium, Main Library

KEEPSAKE

African American/Black Inventors

Distributed by Dr. Carolyn Ransom-Scott

Black Excellence

Lewis Latimer, Electric Lamp Bulb, 1882

Black & African American inventors and scientists made life easier for individuals, businesses, and communities well into the twentieth and twenty-first centuries.

Black innovators have changed the way we live through their meaningful contributions, from the traffic light to more than one hundred products using one major crop—the peanut.

Remember that Black excellence and genius is responsible for some of the world's greatest technological and social advancements.

KEEPSAKE

African American/Black Inventors

Distributed by Dr. Carolyn Ransom-Scott
