

Digital Inclusion Week

May 8 – 13, 2017

Empower digital equity in San Francisco.

Visit the SF Public Library and partnering organizations for a week full of free events that promote online access and technology skill-building:

- Panel discussions
- Film screenings
- Hands-on trainings
- Tech expo
- Digital device give-away

- Tech fix-it day

"I'm very grateful. I'm 71. Imagine, you live your life with a big community, a big society, and suddenly you move to America, a new place. You're like a newborn baby. Before we got these iPads, I was thinking I moved to a corner – everything is not for me, everything is 'I can't do that.' When we got this iPad, I moved to the center of the world, and woke up and opened my eyes."

— Orazgul, Curry Senior Center
